Agri-environment Schemes - What have they achieved and where do we go from here?

in conjunction with the British Ecology Society
Agricultural Ecology Group

University of Leicester, Oadby, UK

27-29 April 2010

</table>
Agri-environmental schemes for the Common hamster (Cricetus cricetus). Why is the Dutch project successful?
M J J LA HAYE, G J D M MÜSKENS, R J M VAN KATS, A T KUITERS and H SIEPEL
117–124

Options for wide scale enhancement of grassland biodiversity under the Entry Level Scheme
R F PYWELL, B A WOODCOCK, R ORR, J R B TALLOWIN, I MCEWEN, M NOWAKOWSKI and J M BULLOCK
125–131

Maintaining diversity in flower enriched margins
B M SMITH and S EVERETT
133–140

Moorland management in Higher Level Stewardship: the evidence base for sustainable stocking rates
ANDY NISBET and DAVID J GLAVES
141–149

Performance and effectiveness of winter bird food patches established under Environmental Stewardship: Results from the Hillesden experiment
SA HINSLEY, M NOWAKOWSKI, M HEARD, P E BELLAMY*, R K BROUGHTON, S HULMES, L HULMES, J PEYTON and R F PYWELL
151–158

Optimal delay of harvest – implications for bird populations and economic compensation
O OLSSON, M BRADY and R HART
159–166

Reducing the impacts of predation on ground-nesting waders: new landscape-scale solution?
THOMAS W BODEY, JENNIFER SMART, MARK A SMART and RICHARD D GREGORY
167–174

Assessing the impact of Environmental Stewardship on the protection of water resources
C T RAMWELL and N D BOATMAN
175–180

The use of Environmental Stewardship measures associated with the England Catchment Sensitive Farming Delivery Initiative in tackling agricultural pollution impacting on sensitive habitats
J GRISCHEFF, A BURN, J ERIAN and A TYHERLEIGH
181–188

Can woodland measures in agri-environment policies assist in meeting Water Framework Directive objectives?
K MORROW, M SILGRAM and T NISBET
189–199

Drivers of population increase on an arable farm delivering a comprehensive suite of measures for farmland birds
A J MORRIS, C M BAILEY, R WINSPEAR, D J GRUAR and I A DILLON
201–209

Rawcliffe Bridge 2003 to 2008, a five year summary
G D HARTWELL
211–218
Where do we go from here? Combining biodiversity with ecosystem services through agri-environment schemes
C STOATE

Biodiversity and the landscape ecology of agri-environment schemes
H G SMITH, E ÖCKINGER and M RUNDLOF

Predicted effects of management on vascular plant species in arable field margins
T IRMINGER STREET, H C PRENTICE, K HALL and O OLSSON

Relative effects of field- and landscape-scale intensification on farmland bird diversity in Mediterranean dry cereal croplands
E D CONCEPCIÓN and M DÍAZ

The Farm4Bio project: maximising the potential of uncropped land
J M HOLLAND, I HENDERSON, P J W LUTMAN, H MARTIN, J ORSON and J STORKEY

Agri-environmental programme in Finland serving biodiversity: working forward
I HERZON, J HELENIUS, M KUUSSAARI, T MÄKINEN and J TIAINEN

Implementation of Environmental Stewardship options – additionality and compliance
N E JONES, N D BOATMAN and D GARTHWAITE

Is Environmental Stewardship working for rare and threatened plants?
K S STILL and A J BYFIELD

Are current agri-environment schemes suitable for long-term conservation of arable plants? – A short review of different conservation strategies from Germany and brief remarks on the new project “100 fields for diversity”
S MEYER, K WESCHE, J METZNER, T VAN ELSEN and C LEUSCHNER

To cut or not to cut – that is the question for Swedish pasture managers
JAHNSTRÖM, C WINQVIST, L BJÖRKLUND and L HALLGREN

Potential use of the Farm Advisory System for successful implementation of agri-environmental schemes
V ANGILIERI, D FASOLINI, M PAMPALUNA and P LOUDJANI

Benchmarking biodiversity performances of farmers
G R DE SNOO, A M LOKHORST, J VAN DIJK, H STAATS and C J M MUSTERS

A market-based payment scheme for plant diversity in farming systems
L ULBER, S KLIMEK, H-H STEINMANN and J ISSELSTEIN

The Campaign for the Farmed Environment – a joined up future for agri-environment schemes?
C GIBBS

Where next for Agri-environment schemes, evolution or revolution?
S P CHAPLIN and G P RADLEY
Posters

Development of an agri-environment option through research trials: Skylark Plots at Hope Farm
D J GRUAR, A J MORRIS, C M BAILEY and I A DILLON 341–346

The development of Farmland Bird Packages for arable farmers in England
R WINSPEAR, P GRICE, W PEACH, J PHILLIPS, N AEBISCHER, P THOMPSON, J EGAN and M NOWAKOWSKI 347–352

Improving floristically enhanced field margins for wildlife
A J MORRIS, C M BAILEY, I A DILLON, D J GRUAR and D B WESTBURY 353–357

Management strategies to conserve the grey partridge: the effect on other farmland birds
H E CONNOR and R A H DRAYCOTT 359–363

The agri-environmental programme in Austria
ANJA PUCHTA 365–368

Creation and management of pollen and nectar habitats on farmland
R F PYWELL, W R MEEK, L HULMES and M NOWAKOWSKI 369–374

Practical management of scarce arable plant populations
R F PYWELL, L HULMES, W R MEEK and NOWAKOWSKI 375–380

Time lags in biodiversity response to farming practices
G K S ANDERSSON, M RUNDLÖF and H G SMITH 381–384

Simple and rapid biodiversity assessments (SARBAS): An evaluation method of Ireland’s Agri-Environment Scheme
A S COPLAND and J O’HALLORAN 385–390

Riparian margins: Can they deliver biodiversity goals in intensively managed grasslands?
L COLE, D McCracken, D ROBERTSON and B HARRISON 391–396

Effect of hedge maturity on composition of invertebrate assemblages at a site in Lincolnshire
D C DEEMING, S L BENNETT and C MORRANT 397–403

An internet-accessible tool for drawing up tailor-made management plans for meadow birds
D MELMAN, A SCHOTMAN, B VANMEULEBROUK, M KIERS, H MEEWSen, O ROOSENSCHOON and G DE SNOO 405–414

In search of the most effective erosion control measure: Are Agri-Environment Schemes better than Farm Investment Support?
ANGELA BERGSCHMIDT and WOLFGANG ROGGENDORF 415–419

Designing multi-purpose habitats: utilisation of wild bird seed species by pollinating insects
R F PYWELL, W R MEEK, L HULMES and M NOWAKOWSKI 421–426
Enhancing biodiversity in existing grass buffer strips
R J Blake, D B Westbury, B A Woodcock, P Sutton and S G Potts

The influence of wild bird seed mixture spatial distribution at the landscape scale on conservation potential to farmland birds in summer and winter
F E Davis, J Ewald and C Stoate

Czech organic farmers' perception of landscape elements
K Dýtrtová and B Šarapatka

Considerate Farming Plan – a tool for nature and landscape protection on farms
S Čížková, P Samsonová, J Lacíná and A Maliková
