# TABLE OF CONTENTS

## SERVICE DISCOVERY AND COMPOSITION

Towards Extending Service Discovery with Automated Composition Capabilities ................................................. 1  
Roman Vacalin, Roman Neruda, Katia Sycara

Integrating a Decentralized Web Service Discovery System into the Internet Infrastructure ............................. 11  
Stephan Pöhlsen, Carsten Buschmann, Christian Werner

GLUE2: A Web Service Discovery Engine with Non-Functional Properties ...................................................... 19  
Alessio Carenini, Dario Cerizza, Marco Comerio, Emanuele Della Valle, Flavio De Paoli, Andrea  
Maurino, Matteo Palmonari, Andrea Turati

WSPAB: A Tool for Automatic Classification & Selection of Web Services Using Formal  
Concept Analysis ............................................................................................................................................. 29  
Zeina Azmeh, Marianne Huchard, Chouki Tibermacine, Christelle Urtado, Sylvain Vauttier

The Analytical Hierarchy Process Approach for Prioritizing Features in the Selection of  
Web Service .................................................................................................................................................. 39  
Manish Godse, Rajendra Sonar, Shrikant Mulik

## SERVICE TESTING AND SIMULATION

Automatic Timed Test Case Generation for Web Services Composition ............................................................... 49  
Mounir Lallali, Fatima Zaidi, Ana Cavalli, Iksoon Hwang

Takuan: A Dynamic Invariant Generation System for WS-BPEL Compositions .............................................. 59  
Manuel Palomo-Duarte, Antonio Garcia-Dominguez, Immaculada Medina-Bulo

A Discrete-Events Simulation Approach for Evaluation of Service-Based Applications ............................... 69  
Maha Driss, Yassine Jamoussi, Jean-Marc Jézéquel, Henda Haji-Ben Ghézala

## SERVICE ANALYSIS

Automatic Protocol Conformance Checking of Recursive and Parallel BPEL Systems ........................................ 75  
Andreas Both, Wolf Zimmermann

Checking Necessary Conditions for Control and Data Flow Compatibility between  
Business and Interaction Logics in Web Processes .......................................................................................... 86  
Maria José Ibáñez, Pedro Álvarez, Joaquin Ezpeleta

Beyond Soundness: On the Semantic Consistency of Executable Process Models ......................................... 96  
Ingo Weber, Jörg Hoffmann, Jan Mendling

## SERVICE DESIGN

Variation Needs in Service-Based Systems ............................................................................................................ 106  
Anna Ruokonen, Vilho Räisänen, Mika Siikarla, Kai Koskimies, Tarja Systä

Secure Workflow Development from Early Requirements Analysis ................................................................. 116  
Magali Selguran, Cédric Hébert, Gianna Frankova
SERVICE INTERACTION AND ADAPTATION

The Service Adaptation Machine
Kenneth Wang, Marlon Dumas, Chun Ouyang, Julien Vayssière

Developing Process Mediator for Supporting Mediated Web Service Interactions
Zhangbing Zhou, Sami Bhiri, Walid Gaaloul, Manfred Hauswirth

Ontologising Interaction Behavior for Service-Oriented Enterprise Healthcare Integration
Raimesh Sahay, Ronan Fox, Manfred Hauswirth

SERVICE INFRASTRUCTURE AND DEPLOYMENT

Design and Implementation of Information Flow-sensitive Business Processes
Ustun Yildiz, Claude Godart

A Management Framework for WS-BPEL
Tammo van Lessen, Frank Leymann, Ralph Mietzner, Jörg Nitzsche, Daniel Schleicher

Efficient Web Services in Mobile Networks
Lars Johnsrud, Dinko Hadzic, Trude Hafsoe, Frank T. Johnsen, Ketil Lund

Validating Orchestration of Web Services with BPEL and Aggregate Signatures
Carlo Blundo, Emiliano De Cristofaro, Clemente Galdi, Giuseppe Persiano

A Service Based Approach to a New Generation of Intrusion Detection Systems
Andrea Basin, Nicoletta Dessi, Barbara Pes

Dynamic Fault Handling Mechanisms for Service-Oriented Applications
Fabrizio Montesi, Claudio Guidi, Ivan Lanesi, Gianluigi Zavattaro
