Table of Contents

Full Papers

Session 1: Tools for Communication
Chair: Henry B. L. Duh (National University of Singapore)

- RoCoS: Room-based Communication System and Its Aspect as Development Tool for 3D Entertainment Applications
  Katsunori Miyahara, Naoto Nakamura, Yoshihiro Okada

- An Interactive Support Tool to Convey the Intended Message in Asynchronous Presentations
  Andrés Lucero, Dzmitry Aliakseyeu, Kees Overbeeke, Jean-Bernard Martens

- Multimodal Interaction with Speech and Physical Touch Interface in a Media Center Application
  Markku Turunen, Aleksi Kallinen, Iván Sánchez, Jukka Riekki, Juho Hella, Thomas Olsson, Aleksi Melto, Juha-Pekka Rajaniemi, Jaakko Hakulinen, Erno Mäkinen, Pellervo Valkama, Toni Miettinen, Mikko Pyykkönen, Timo Saloranta, Ekaterina Gilman, Roope Raisamo

Session 2: Studies on Social Media
Chair: Alun Evans (Universitat Pompeu Fabra)

- Where everybody knows your Game: the Appeal and Function of Game Cafes in Western Europe
  Brian J. Gajadhar, Yvonne A. W. de Kort, Wijnand A. IJsselsteijn, Karolien Poels

- Getting acquainted in Second Life - Human Agent Interactions in Virtual Environments
  Christian Pallay, Matthias Rehm, Ekaterina Kurdyukova

- The Impact of Virtual Teamwork on Real-world Collaboration
  Lin Qiu, Wendy Wein Tai, Junwei Wu

Session 3: Sensing and Sensation
Chair: Li Zhang (University of Teesside)

- An Intelligent Agent with Affect Sensing from Metaphorical Language and Speech
  Li Zhang

- A Novel Wearable Device to Present Localized Sensation of Wind
  Yuichiro Kojima, Yuki Hashimoto, Hiroyuki Kajimoto
• Funbrella: Recording and Replaying Vibrations through an Umbrella Axis
Kazuyuki Fujita, Yuichi Itoh, Ai Yoshida, Maya Ozaki, Tetsuya Kikukawa, Ryo Fukazawa, Kazuki Takashima, Yoshifumi Kitamura, Fumio Kishino

Session 4: Studies on Games
Chair: Lin Qiu (Nanyang Technological University)
• Chase and Catch – Simple as That? Old-fashioned Fun of Traditional Playground Games Revitalized with Location-aware Mobile Phones
Gunnar Misund, Harald Holone, Joakim Karlsen, Håkon Tolsby

• "Now You Need to Laugh!" - Investigating Fun in Games with Children
Marianna Obrist, Judith Igelsböck, Elke Beck, Christiane Moser, Stefan Riegler, Manfred Tscheligi

• Product Placement in Interactive Games
Barry Ip

Session 5: Innovations or not? New interaction designs I
Chair: Jim Rekimoto (University of Tokyo)
• Challenges for Success in Stereo Gaming: A Virtual Boy Case Study
Matt Zachara, Jose Zagal

• RoboTable: A Tabletop Framework for Tangible Interaction with Robots in a Mixed Reality
Aleksander Krzywinski, Haipeng Mi, Weiqin Chen, Masanori Sugimoto

• Wearable Haptic Device to Present Contact Sensation Based on Cutaneous Sensation Using Thin Wires
Takafumi Aoki, Hironori Mitake, Keoki Danial, Shoichi Hasegawa, Makoto Sato

Session 6: Innovations or not? New interaction designs II
Chair: Yoshihiro Okada (Kyushu University)
• Novel Tactile Display for Emotional Tactile Experience
Yuki Hashimoto, Satsuki Nakata, Hiroyuki Kajimoto

• Wearable DJ System: a New Motion-Controlled DJ System
Yutaka Tomibayashi, Yoshinari Takegawa, Tsutomu Terada, Masahiko Tsukamoto

• Instantaneous Saccade Driven Eye Gaze Interaction
Oleg Komogortsev, Young Sam Ryu, Do Hyong Koh, Sandeep Munikrishne Gowda

Session 7: Emotions and Social Aspects
Chair: Anton Nijholt (University of Twente)
• **Cat@Log: Cat-Wearable sensing for supporting Human Pet Interaction**
  Kyoko Yonezawa, Takashi Miyaki, Jun Rekimoto

• **Familiars: Representing Facebook Users’ Social Behaviour through a Reflective Playful Experience**
  Ben Kirman, Eva Ferrari, Shaun Lawson, Jonathan Freeman, Jane Lessiter, Conor Linehan

• **Using Affective Trajectories to Describe States of Flow in Interactive Art**
  Stephen Gilroy, Marc Cavazza, Maurice Benayoun

**Session 8: Games**
Chair: Yuichi Itoh (Osaka University)

• **Developing Multiplayer Pervasive Games and Networked Interactive Installations using Ad hoc Mobile Sensor Nets**
  Orestis Akribopoulos, Marios Logaras, Nikos Vasilakis, Panagiotis Kokkinos, Georgios Mylonas, Ioannis Chatzigiannakis, Paul Spirakis

• **Power Explorer – a casual game style for encouraging long term behavior change among teenagers**
  Anton Gustafsson, Magnus Bånga, Mattias Svahn

• **iSee: Interactive Scenario Explorer for Online Tournament Games**
  Greg Smith, Desney Tan, Bongshin Lee

**Session 9: Playing with Image and Machinima Production tools**
Chair: Oleg Komogortsev (Texas State University)

• **Zuzen, a Cloud-based Framework for Automated Machinima Generation**
  Samuel Munilla, R. Michael Young

• **Assisted Animated Production Creation and Programme Generation**
  Juan Abadia, Eduard Gonzales, Sergi Gonzales, Daniel Soto, Santi Fort, Alun Evans, Josep Blat

• **Image Space: Capturing, Sharing and Contextualizing Personal Pictures in a Simple and Playful Way**
  Andrés Lucero, Marion Boberg, Severi Uusitalo

**Session 10: Tools for Design and Production of Better Games**
Chair: Jose Zagal (DePaul University)

• **Process Control in the Development of Game-Based Learning Environments**
  Antti Kirjavainen
• **Simulation as a Game Design Tool**
  Timo Nummenmaa, Jussi Kuittinen, Jussi Holopainen

• **An In-Game Reporting Tool for Pervasive Games**
  Annika Waern, Zeynep Ahmet, Daniel Sundstr

**Session 11: Arts, Drama, and Performance**
Chair: Mark-David Hosale (Technical University of Delft)

• **Dramaturgies of PLACE: Evaluation, Embodiment and Performance in PLACE-Hampi**
  Sarah Kenderdine, Jeffrey Shaw, Anita Kocsis

• **Anthropomorphic Artificial Artist based on Face-like Detection and Painterly Rendering**
  Sungkuk Chun, Minkyu Jung, Hoa Minh Le, Chee Onn Wong, Kirak Kim, Keechul Jung

• **Virtual Cinematography Director for Interactive Storytelling**
  Edirlei E. Soares de Lima, Cesar T. Pozzer, Marcos C. d’Ornellas, Angelo E. M. Ciarlini, Bruno Feijó, Antonio L. Furtado

**Short Papers**

**Session 1: Multimodal Interaction**
Chair: Hiroyuki Kajimoto (University of Electro-Communications)

• **Using a 3D game to study the perceived quality of lifting device controls**
  David Wilfinger, Martin Murer, Michael Lankes, Manfred Tscheligi

• **Collaborative Haptic Play with Building Blocks**
  Pingguo Huang, Yutaka Ishibashi, Norishige Fukushima, Shinji Sugawara

• **Communicative Behaviors and Flow Experience in Tabletop Gaming**
  Vivian Hsueh-Hua Chen, Weirong Lin, Michael Haller, Jakob Leitner, Henry Been-Lirn Duh

• **Facial Caricature Generation Using a Quadratic Deformation Model**
  Mohammad Obaid, Daniel Lond, Ramakrishnan Mukundan, Mark Billinghurst

**Session 2: Sound and Music**
Chair: Annika Waen (Stockholm University)

• **Mutable Mapping: Gradual Re-routing of OSC Control Data as a Form of Artistic Performance**
  Ilias Bergstrom, Antony Steed, Beau Lotto

• **FeelSound: Collaborative Composing of Acoustic Music**
  Wim Fikkert, Michiel Hakvoort, Paul van der Vet, Anton Nijholt
• **Music alphabet for low-resolution touch displays**
  Ondřej Poláček, Adam J. Sporka, Pavel Slavík...............................................................298

• **ANTracks - generative mobile music composition**
  Chris Geiger, Florian Schulz, Holger Reckter.............................................................302

**Session 3: Augmented / Mixed Reality**
Chair: Teresa Romão (Universidade Nova de Lisboa)

• **Camera-based Interactions for Augmented Reality**
  Tatu Harviainen, Otto Korkalo, Charles Woodward.....................................................307

• **Rundle Lantern in Miniature: Simulating Large Scale Non-Planar Displays**
  Shane Porter, Michael Marner, Ulrich Eck, Christian Sandor, Bruce Thomas..................311

• **A Mixed Reality Telepresence System with a Few DOF Motion Base and Immersive Display**
  Maiya Hori, Masayuki Kanbara, Naokazu Yokoya.........................................................315

• **E-Junior: Serious Virtual World for Natural Science and Ecology Learning**
  Maja Wrzesien, David Perez Lopez, Mariano Alcaz Raya................................................319

**Session 4: Affective Computing**
Chair: Adrian David Cheok (National University of Singapore)

• **Emotional Gaming: Win by Emotion Expression**
  Magalie Ochs, Helmut Prendinger.....................................................................................324

• **Towards Tailoring Player Experience in Physical Wii Games using Physiological and Gesture Data**
  Patrick Jarnfelt, Dajana Dimovska, Sebbe Christensen..................................................328

• **Exposure Effect on Experience and Visual Perception in Stereoscopic Visual Presentations**
  Wendy Ann Mansilla, Andrew Perkis, Touradj Ebrahimi................................................332

• **Towards Ambulatory Brain-Computer Interfaces: A Pilot Study with P300 Signals**
  Fabien Lotte, Junya Fujisawa, Hideaki Tounaya, Rika Ito, Michitaka Hirose, Anatole Lécuyer......336

**Session 5: Pervasive and Online Games**
Chair: Bongshin Lee (Microsoft Research)

• **Players Who Play to Make Others Cry: The Influence of Anonymity and Immersion**
  Vivian Hseuh-Hua Chen, Henry Been-Lirn Duh, Chiew Woon Ng.....................................341
• Running or Gaming
  Junehwa Song, Sungun Kwon, Hyukjae Jang, Kyungmin Cho, Inseok Hwang, Minu Ahn, Byunglim Park, Sungwon Peter Choe, Jaesang Park, Yunseok Rhee

• Study on the Change of Physiological Signals during Playing Body-Controlled Games
  Shengsheng Ruan, Ling Chen, Jie Sun, Gencai Chen

• Self-Adapting Dynamically Generated Maps For Turn-based Strategic
  Gonçalo Pereira, Pedro Santos, Rui Prada

Session 6: Experience Design and Art
Chair: Andreas Lucero (Nokia Research Center)

• Being a Self-Director: Enhance User Creativity with a Video Mash Up Tool
  Amon Rapp, Daniela Cardillo, Rossana Simeoni, Luca Console

• UNMAKEABLELOVE: Gaming Technologies for the Cybernetic Theatre Re-Actor
  Sarah Kenderdine, Jeffrey Shaw

Session 7: Devices for Games
Chair: Chris Geiger (University of Applied Sciences Duesseldorf)

• Structured Tiles: Directed Subgraphs of Recurring Path Patterns in Board Games
  Yannis Lilis, Anthony Savidis

• The Bronco: A Proof-of-Concept Adaptive Fairground Ride
  Stefan Egglestone, Joe Marshall, Brendan Walker, Duncan Rowland, Steve Benford

• A Game Controller Based on Multiple Sensors
  Dapeng Zhang, ZhongJie Cai, Kefei Chen, Bernhard Nebel

• Classifying Input for Active Games
  Tadeusz Stach, T.C. Nicholas Graham, Matthew Brehmer, Andreas Hollatz

• Handheld Gaming Devices for Baby Boomers
  Renu Zunjarwad, John Takamura

Session 8: Mobile Entertainment
Chair: Hideaki Touyama (Toyama Prefectural University)
• **Molarcropolis: A Mobile Persuasive Game to Raise Oral Health and Dental Hygiene Awareness**
  Carmen Soler, Alejandra Zacarias, Andrés Lucero .......................................................... 388

• **A Mobile Geo-wand Enabling Gesture Based POI Search an User Generated Directional POI Photography**
  Zhang Lei, Paul Coulton ................................................................................................ 392

• **Poetry Mix-up: A Poetry Generating System for Cultural Communication**
  Owen Noel Newton Fernando, Adrian David Cheok, Nimesha Ranasinghe, Kening Zhu, Chamari Edirisinghe .......... 396

• **IT-enabled Donation Boxes to Promote Donation**
  Kohei Tanaka, Satoshi Tanaka, Kohei Kinoshita, Yasuhiko Minami, Kazuya Murao, Tsutomu Terada, Masahiko Tsukamoto, Shojiro Nishio .............................................................. 400

**Posters**
Chair: Maki Sugimoto (Keio University)

• **HANDY System for Video-mediated Communication**
  Igor de Souza Almeida, Jordi Polo Carres, Marina Atsumi Oikawa ........................................ 405

• **A Rule-based Approach to 3D Terrain Generation via Texture Splatting**
  Jonathan Ferraris, Christos Gatzidis ................................................................................................. 407

• **Enhancement of Adaptive Delta-Causality Control with Adaptive Dead-Reckoning for Multiplayer Online Games**
  Naoki Ishii, Yutaka Ishibashi, Shinji Sugawara ........................................................................ 409

• **Petimo: Safe Social Networking Robot for Children**
  Adrian David Cheok, Owen Noel Newton Fernando, Charith Lasantha Fernando ......................... 411

• **TangiCube: Introducing Bi-Directional Interactivity with an Autonomous Agent in a Tangible Mixed Reality Environment**
  Steven Zhiying Zhou, Derek Tan, Dong Wei, Yuta Nakayama .................................................... 413

• **Artificial Game Presenter Avatars**
  Anthony Savidis, Efie Karouzaki ............................................................................................... 415

• **Tangible 3D Desktop: Performing 3D Space Interactions with the PC in a Tangible Mixed Reality Environment**
  Steven Zhiying Zhou, Daniel Yeo, Dong Wei, Yuta Nakayama ................................................. 417
• Yaminabe YAMMY: An Interactive Cooking Pot that Uses Feeling as Spices
  Izumi Yagi, Yu Ebihara, Tamaki Inada, Yoshiki Tanaka, Maki Sugimoto, Masahiko Inami, Adrian Cheok, Naohito Okude, Masahiko Inakage

• Polyglot Cubed: The Design of a Multi-Language Learning Game
  Lindsay Grace

• Real-time Visualisation and Browsing of a Distributed Video Database
  Eduard Gonzales, Alun Evans, Sergi Gonzales, Juan Abadia, Josep Blat

• WiiPlay - A 3D Third Person Game in XNA
  André Barbosa, Frutuoso Silva

• The Biolin: A Current-based Musical Interface
  Sungjae Hwang, Kibeom Lee, Daham Park, Woon Seung Yeo

• Creating 3D E-books with ARBookCreator
  Trien V. Do, Jong-Weon Lee

• Multimedia Visitor Book using Mobile Phone
  Jungwhan Kim, Seonghyun Jang, Eunjung Han, Keechul Jung

• An Immersive Multiuser Music Generation Interface
  Dionysios Marinos, Chris Geiger

• Intuitive Control Using a Mediated Interface Module
  Sangseung Kang, Jaehong Kim, Jaeyeon Lee

• Interactive Fitness Game for Public Places
  Ekaterina Kurdyukova, Matthias Rehm

• Enhancing a Motion Capture Interface by Introducing Context Management
  Francois Picard, Pascal Estrailier

• Exploring the Boundaries of Augmented Reality in a Magic Show Performance
  Anna Carreras, Carles Sora

Creative Showcase
Chairs: Philippe Pasquier (Simon Fraser University) and Maki Sugimoto (Keio University)

• Critical Gameplay
  Lindsay Grace
• Music Box: Composing and Performing Visual Music
Lindsay Grace.........................................................................................................................445

• Noon – A Secret Told By Objects
Tiago Martins, Christa Sommerer, Laurent Mignonneau and Nuno Correia................................446

• Story Tube “Sto-tu”
Hiroko Uchiyama, Akiko Sato, Mai Takai, Mina Shibasaki, Masahiro Ookura, Yuki Takeda, Takenori Hara, Mina Tanaka and Shigeru Komatsubara...............................................................447

• Bamboo Flute
Young-Mi Kim and Jong-Soo Choi..........................................................................................448

• FeelSound: Interactive Acoustic Music Making
Wim Fikkert, Michiel Hakvoort, Paul van der Vet and Anton Nijholt......................................449

• SHI KI BAKO “Box of Four Seasons”
Hiroko Uchiyama, Akiko Sato, Mai Takai, Mina Shibasaki, Masahiro Ookura, Takenori Hara, Yuki Takeda, Mina Tanaka and Shigeru Komatsubara........................................................................450

• Game Based Technology to Enhance the Learning of History and Cultural Heritage
Raffaele De Amicis, Gabrio Girardi, Michele Andreolli and Giuseppe Conti..........................451

• Polyglot Cubed: The Design of a Multi-Language Learning Game
Lindsay Grace.........................................................................................................................452

• Multiplayer Pervasive Games and Networked Interactive Installations using Ad hoc Mobile Sensor Networks
Orestis Akribopoulos, Marios Logaras, Nikos Vasilakis, Panagiotis Kokkinos, Georgios Mylonas, Ioannis Chatzigiannakis and Paul Spirakis..................................................................................453

• Headbang Hero
Ricardo Nascimento, Tiago Martins, Andreas Zingerle, Christa Sommerer, Laurent Mignonneau and Nuno Correia..............................................................454

• Petimo: Children’s tangible social networking platform
Adrian David Cheok, Owen Noel Newton Fernando and Charith Lasantha Fernando.................455

• An Uncommon Affair At Tooting Bec Common
Mark-David Hosale................................................................................................................456

• Mister X – An Innovative Location-Based Multiplayer Game
Pascal Bihler, Ronald Fromm and Katja Henke......................................................................457
- **Plant Feeling Light: A Lighting System Working with Plant Biorhythms**
  Satoshi Kuribayashi, Takaki Kimura and Hiroya Tanaka ............................................................... 458

- **Yaminabe YAMMY: An Interactive Cooking Pot that Uses Feeling as Spices**
  Izumi Yagi, Yu Ebihara, Tamaki Inada, Yoshiki Tanaka, Maki Sugimoto, Masahiko Inami, Adrian David Cheok, Naohito Okude and Masahiko Inakage ................................................................. 459

- **Urban Treasure: New Approach for Collaborative Local Recommendation Engine**
  Takayuki Miyauchi, Ami Yao, Takahiro Nemoto, Masahiko Inami, Masahiko Inakage, Naohito Okude, Adrian David Cheok and Maki Sugimoto ................................................................. 460

- **Poetry Mix-up: The 10th Muse**
  Kening Zhu, Nimesha Ranasinghe, Chamari Edirisinghe, Adrian David Cheok, Owen Noel Newton Fernando and Yan Yan Cao ................................................................. 461

- **Face-off in the Magic Circle: Getting Players to Look at Each Other, not the Screen**
  Douglas Wilson, Dajana Dimovska, Sebbe Selvig and Patrick Jarnfelt ................................................................. 462

**Author Index**
