CONTENTS

PART A

14TH DESIGN FOR MANUFACTURING AND THE LIFE CYCLE CONFERENCE

Introduction ........................................................................................................................................ 1

COST ESTIMATION AND TOTAL COST OF OWNERSHIP

DETC2009-86385................................................................................................................................. 3
A Framework for Considering Uncertainty in Quantitative Life Cycle Cost Estimation
    Yee May Goh, Linda Newnes, Chris McMahon, Antony Mileham, and Chris J. J. Paredis

DETC2009-86428................................................................................................................................. 15
Cost Modeling of Flexible Assembly Systems
    Yingxia Yang, Randolph Kirchain, Richard Roth, Jorge Arinez, Stephan Biller, and J. Patrick Spicer

DETC2009-86596................................................................................................................................. 25
An Application of a Generalized Life Cycle Cost Model to a Typical Pump From Industry
    L. Y. Waghmode and A. D. Sahasrabudhe

DETC2009-87665................................................................................................................................. 35
Life Cycle Cost Modeling of Hybrid Vehicles During Early Product Architecture Development
    Carlos Gorbea, Ernst Fricke, and Udo Lindemann

DESIGN FOR MASS CUSTOMIZATION, DESIGN FOR SERVICE, DESIGN FOR LAYERED MANUFACTURING, AND DESIGN FOR QUALITY

DETC2009-86110................................................................................................................................. 49
Joint Pricing and Platform Configuration in Product Family Design With Genetic Algorithm
    Li Qian and David Ben-Arieh

DETC2009-87037................................................................................................................................. 59
DSM-Based Product Representation for Retirement Process-Based Modularity
    Xiaoxia Lai and John K. Gershenson

DETC2009-87491................................................................................................................................. 73
Examining Potential Design Guidelines for Use in Fused Deposition Modeling to Reduce Build Time and Material Volume
    Gregory A. Teitelbaum, Linda C. Schmidt, and Yoann Goaer

DETC2009-87507................................................................................................................................. 83
Representing User Activity and Product Function for Universal Design
    Vincent Kostovich, Daniel A. McAdams, and Seung Ki Moon
DESIGN FOR SUPPLY CHAIN

Maintainability Evaluation Based on the Product Disassembly Analysis
Nan Wu and Qingjin Peng

Virtual Supply Chain Configuration for Product Families: Conceptualization and Formalism
Qianli Xu, Jianxin (Roger) Jiao, and Petri Helo

Yeşim Yayla, Aytaç Yıldız, and Gül E. Okudan

INTEGRATED PRODUCT AND PROCESS DEVELOPMENT

Tools for Project-Based Active Learning of Amorphous Systems Design: Scenario Prototyping and Cross Team Peer Evaluation
Kosuke Ishii, Sun K. Kim, Whitfield Fowler, and Takashi Maeno

A Top-Down Concept Selection Integrating Analytical and Optimization Approaches
Shun Takai, Vivek K. Jikar, and Kenneth M. Ragsdell

A Decision-Analytic Concept Selection for a Commercial System Using Objective Data to Model Uncertainty
Shun Takai, Swithin S. Razu, and Karan Banga

Product Function: Component Modeling Using Rough Sets
Toshiharu Miwa and Hideki Aoyama

MANUFACTURABILITY ANALYSIS DURING CONCEPTUAL DESIGN

Sorting Results of Automated Concept Generators Based on Design for Manufacture and Assembly
Kerry R. Poppa and Robert B. Stone

The Part Count Tool (PACT) for Concept Selection
Tarang Parashar, Katie Grantham Lough, and Robert B. Stone

ROBUST DESIGN AND VARIATION MANAGEMENT

Variation Feedback and 3D Visualization of Geometrical Inspection Data
Fredrik Wandelbäck, Rikard Söderberg, Johan S. Carlson, Per-Johan Wahlborg, Lars Lindkvist, and Fredrik Ekstedt
DETC2009-87625 ................................................................. 323
Varying Lifecycle Lengths Within a Portfolio for Product Take-Back

Yuan Zhao, Vijitashwa Pandey, Harrison Kim, and Deborah Thurston

DETC2009-87637 ................................................................. 337
Challenges in Incorporating Sustainability Into Product Development: An Exploratory Study

S. A. Athalye, S. K. Govindarajan, C. A. Lopez, Marcos Esterman, Jr., and
Sandra Rothenberg

THEORETICAL FOUNDATIONS FOR DESIGN AND
MANUFACTURING INTEGRATION

DETC2009-86034 ................................................................. 349
Automated Manufacturability Analysis of the Draw Bending of Complex Aluminum Profiles

Joel Johansson

DETC2009-86395 ................................................................. 359
Validation and Identification of Optimal Fixturing Scheme Using VR

Santosh Kumar Thukaram, Qingjin Peng, and Subramaniam Balakrishnan

DETC2009-86707 ................................................................. 369
Designing a Modular Rapid Manufacturing Process

Jacquelyn K. Stroble and Frank W. Liou

DETC2009-87770 ................................................................. 379
Heuristic Machining Process Planning of a Toleranced Handle Based on Graph Inference

Kuo-Ming Cheng and Jhy-Cherng Tsai

6TH SYMPOSIUM ON INTERNATIONAL DESIGN AND
DESIGN EDUCATION

Introduction ............................................................................ 385

BEST PRACTICES WITH EMPHASIS ON ASSESSMENT

DETC2009-86309 ................................................................. 387
Utilizing an A3 Report Format for a Technical Review at the End of a
Cornerstone Design Course

Kate Leipold and Timothy Landschoot

DETC2009-86996 ................................................................. 399
Implementation and Effect of Rubrics in Capstone Design Courses

George Platanitis, Remon Pop-Iliev, and Scott Nokleby

DETC2009-87032 ................................................................. 409
A Framework for Engineering Dissection Exercise Creation and Implementation

Kathleen M. Hart, Steven B. Shooter, and Charles J. Kim

DETC2009-87478 ................................................................. 423
Methodology for Selection, Sequencing, and Deployment of Activities in a Capstone Design
Course Using the TIDEE Web-Based Assessment System

Jay McCormack, Steve Beyerlein, David F. Feldon, Denny Davis, Howard Davis,
Zachary Wemlinger, Robert Gerlick, and Susannah Howe
CREATIVITY IN ENGINEERING DESIGN
DETC2009-86036 433
Graphical Interpretation of the Teamology Transformation
  Douglass J. Wilde

DETC2009-86295 439
Multidisciplinary Master Design Projects Based on Workshops for Professionals
  Wim Zeiler, Perica Savanovic, and Rinus van Houten

DETC2009-86989 451
History and Creativity in Mechanical Engineering Education
  Francesco Rosa and Edoardo Rovida

DETC2009-87628 459
Towards Individual Innovation Capability: The Assessment of Idea Generating Methods and Creativity in a Capstone Design Course
  Anders Berglund and Sofia Ritzén

DESIGN EDUCATION IN DISTANCE LEARNING SETTING
DETC2009-86708 467
Assessing How Digital Design Tools Affect Learning of Engineering Design Concepts
  Jacquelyn K. Stroble, Robert B. Stone, and Steve E. Watkins

DETC2009-87112 477
An Information Technology Infrastructure for Internet-Enabled Remote and Portable Laboratories
  J. Lane Thames, Andrew Hyder, Robert Wellman, and Dirk Schaefer

DETC2009-87456 491
Enhancing Mechanical Engineering Distance Education Through IT-Enabled Remote Laboratories
  Andrew C. Hyder, J. Lane Thames, and Dirk Schaefer

DETC2009-87652 501
A Perspective for Evaluating Wikis as a Medium for Communication Within Engineering Design Teams
  Carolynn J. Walthall, Srikanth Devanathan, Lorraine Kesselburgh, Karthik Ramani, E. Daniel Hirleman, and Maria C. Yang

DESIGN METHODOLOGY CASE STUDIES
DETC2009-86067 513
Why Systematic Design Engineering?
  W. Ernst Eder

DETC2009-86069 523
Case Study in Systematic Design Engineering: Smoke Gas Dust Precipitation
  W. Ernst Eder
SERVICE RELATED DESIGN

DETC2009-87091 .......................... 631
Designing a Service-Learning Design Project for a First-Year Engineering Course
Christopher B. Williams, Janis P. Terpenny, and Richard M. Goff

DETC2009-87475 .......................... 641
The Study of the Interaction of Humans With Wheelchairs to Improve the Design
Shayne Gooch, Laura Hollingsworth, and Tony Medland

DETC2009-87538 .......................... 649
Upper-Extremity Prostheses: A Renewed Approach
Alwyn P. Johnson and Bradley Veatch

DETC2009-87609 .......................... 657
The Design and Testing of a Low-Cost, Globally-Manufacturable, Multi-Speed Mobility Aid
Designed for Use on Varied Terrain in Developing and Developed Countries
Amos G. Winter, V, Mario A. Bollini, Danielle H. DeLatte, Harrison F. O’Hanley, and
Natasha K. Scolnik

YOUNG DESIGN ENGINEER’S PAPER COMPETITION

DETC2009-86177 .......................... 665
Design, Fabrication and Industrial Application of a Miniature Hovercraft
Prerna Gera, Sayan Sarkar, Rameshwaranand Jha, Rishi Raj, Rishi Bardhan,
Vikas Vikas, and Siddharth Gupta

DETC2009-86484 .......................... 675
On the Design of a Vertical Axis Wind Turbine for Use in Rural Communities
Allison Johnston, Jesse French, and John Henshaw

DETC2009-86963 .......................... 683
Design Workflow for Electronic Product With Safety Assessment Concept at the Early Stage
Jingyuan Huang and Xiang Wang

DETC2009-87029 .......................... 691
Design of a Multi-Function Vector Bar
Kristen Domboski, Raymond McCauley, Mike Morton, Andrea Liem, and Michael Keefe

DETC2009-87418 .......................... 699
Development of an Umbrella Checkout System: A Case Study of a Senior
Capstone Design Project
Mark D. Fuge and Ben D. Berkowitz

DETC2009-87570 .......................... 709
Design of a Protective Curtain System for High Rotational Speed Agricultural Disc Mowers
Raquel Ciappi, Bradley Miller, Stephen Petfield, Chirstopher Uthgenannt, James Glancey,
Kevin Smith, and Melanie Harkcom
