Workshop Chairs ......................................................... v
Invited Speakers .......................................................... v
Steering Committee ....................................................... v
Program Committee ...................................................... v

## Invited Speakers

On Some Complementary Trends in Model Transformation Generation ........................................ 3  
*Marianne Huchard*

Definition of Domain Specific Operation Languages following MDD ........................................... 5  
*Jennifer Pérez*

## Papers

Framework for Performance Evaluation of Service Negotiations in Agent Systems ......................... 19  
*Mihnea Scafeș and Costin Bădică*

Towards Domain-specific Modeling for Java Enterprise Applications ............................................ 30  
*Moritz Balz and Michael Goedicke*

KAOS-β: A Goal-oriented Process Model for EIS ................................................. 40  
*Malihe Tabatabaie, Fiona A. C. Polack and Richard F. Paige*

The Analysis of Resource Constrained Workflows using Petri Nets ........................................... 50  
*Oana Otilia Prisecaru*
