MEDINFO 2010
Proceedings of the 13th World Congress on Medical Informatics

Part II

Edited by
C. Safran
Division of Clinical Informatics, Beth Israel Deaconess Medical Center, Harvard Medical School, Boston, USA

S. Reti
Division of Clinical Informatics, Beth Israel Deaconess Medical Center, Harvard Medical School, Boston, USA

and

H.F. Marin
Nursing School and Health Informatics Department, Universidade Federal de Sao Paulo, Brazil

IOS Press
Amsterdam • Berlin • Tokyo • Washington, DC
Part II

Chapter 11. Decision Support

Optimizing Medication Reminders Using a Decision-Theoretic Framework
Misha Pavel, Holly Jimison, Tamara Hayes, Nicole Larimer, Stuart Hagler, Yves Vimegnon, Todd Leen and Umut Ozertem

Factors Affecting Physicians Compliance with Enrollment Suggestions into a Clinical Reminders Intervention
Geva Vashitz, Joachim Meyer, Yisrael Parmet, Niki Liebermann and Harel Gilutz

Impact of Content-Specific Email Reminders on Provider Participation in an Online Intervention: A Dental PBRN Study
Thomas K. Houston, Heather L. Coley, Rajani S. Sadasivam, Midge N. Ray, Jessica H. Williams, Jeroan J. Allison, Gregg H. Gilbert, Catarina I. Kiefe and Connie Kohler for the DPBRN Collaborative Group

Identifying Best Practices for Clinical Decision Support and Knowledge Management in the Field
Joan S. Ash, Dean F. Sittig, Richard Dykstra, Adam Wright, Carmit McMullen, Joshua Richardson and Blackford Middleton

Integration of Workflow and Rule Engines for Clinical Decision Support Services
Jaehoon Lee, JeongAh Kim, InSook Cho and Yoon Kim

Implementation of a Clinical Decision Support System Using a Service Model: Results of a Feasibility Study
Damian Borbolla, Carlos Otero, David F. Lobach, Kensaku Kawamoto, Ana M. Gomez Soldaño, Gustavo Staccia, Gastón López, Silvana Figar, Daniel Luna and Fernan Gonzalez Bernaldo de Quirós

Evaluation of the Use of an “Ask-the-Expert” e-Consultation Service for Support on Health-Related Requests
N. Nijland, J.E.W.C. van Gemert-Pijnen, S.M. Kelders, B.J. Brandenburg and E.R. Seydel

Analyzing Effects of Providing Performance Feedback at Ward Rounds on Guideline Adherence – The Importance of Feedback Usage Analysis and Statistical Control Charts
Ameer Abu-Hanna, Saed Elstami, Marcus J. Schultz, Evert de Jonge and Nicolette F. de Keizer

Processing Gradual Information with Fuzzy Arden Syntax
Thomas Vetterlein, Harald Mandl and Klaus Peter Adlassnig

Design of a Continuous Multifaceted Guideline-Implementation Strategy Based on Computerized Decision Support
Mariëtte van Engen-Verheul, Nicolette de Keizer, Irene Hellemans, Roderik Kraaijenhagen, Arie Hasman and Niels Peek

MET3-AE System to Support Management of Pediatric Asthma Exacerbation in the Emergency Department
Szymon Wilk, Wojtek Michalowski, Ken Farion and Jelber Sayyad Shirzad

AALIM: A Cardiac Clinical Decision Support System Powered by Advanced Multi-Modal Analytics

TADAA: Towards Automated Detection of Anaesthetic Activity
Bryan Houtilton, Dave Parry and Alan Merry

A Model Driven Approach to Imbalanced Data Sampling in Medical Decision Making
Hong-Li Yin and Tze-Yun Leong

Feature Importance Analysis for Patient Management Decisions
Michal Valko and Milos Hauskrecht

Chapter 12. Security, Privacy and Confidentiality

Deployment of a Highly Secure Clinical Data Repository in an Insecure International Environment
Henry Feldman, Shane Reti, Eli Kaldany and Charles Safran
Healthcare System Evolution Towards SOA: A Security Perspective  
Vassiliki Koufi, Flora Malamateniou, George Vassilacopoulos and Despina Papakonstantinou  
874

Healthcare Chains – Enabling Application and Data Privacy Controls for Healthcare Information Systems  
Esraa Omran, Tyrone Grandison and Shereef Abu Almaati  
879

HIPAA Compliance and Patient Privacy Protection  
Tyrone Grandison and Rafae Bhatti  
884

Implementation of a Secure and Interoperable Generic e-Health Infrastructure for Shared Electronic Health Records Based on IHE Integration Profiles  
Thomas Schabetsberger, Florian Wozak, Basel Katt, Richard MAir, Bernhard Hirsch and Alexander Hörbst  
889

Desiderata for a Computer-Assisted Audit Tool for Clinical Data Source Verification Audits  
Stephanie N. Duda, Firas H. Wehbe and Cynthia S. Gadd  
894

Complexities in Securing Sustainable IT Infrastructures in Hospitals: The Many Faces of Local Technical Support  
Lone Stub Petersen  
899

Chapter 13. Architecture and Design  

Citizen Centric Architecture Approach – Taking e-Health Forward by Integrating Citizens and Service Providers  
Yong Han, Timo Itäla and Matti Hämäläinen  
907

Ensuring HL7-Based Information Model Requirements Within an Ontology Framework  
David Ouagre, Nadia Nadah, Daniel Schober, Rémy Choquet, Douglas Teodoro, Dirk Colaert, Stefan Schulz, Marie-Christine Jaulent and Christel Daniel  
912

Foundations for a Nursing Services Reference Model  
Liza Heslop, Keith Toh and Evelyn Hovenga  
917

The Health Service Bus: An Architecture and Case Study in Achieving Interoperability in Healthcare  
Amanda Ryan and Peter Eklund  
922

Applying a User Centered Design Methodology in a Clinical Context  
Hajar Kashfi  
927

Bridging the HL7 Template – 13606 Archetype Gap with Detailed Clinical Models  
William T.F. Goossen and Anmeke Goossen-Baremans  
932

Chapter 14. Data Mining and Information Extraction  

Data Mining Techniques for Analyzing Stroke Care Processes  
Silvia Panzarasa, Silvana Quaglini, Lucia Sacchi, Anna Cavallini, Giuseppe Micieli and Mario Stefanelli  
939

Automatically Detecting Medications and the Reason for Their Prescription in Clinical Narrative Text Documents  
Stéphane M. Meystre, Julien Thibault, Shuying Shen, John F. Hurdle and Brett R. South  
944

Extracting Medication Information from French Clinical Texts  
Louise Deléger, Cyril Grouin and Pierre Zweigenbaum  
949

Text Mining Approaches for Automated Literature Knowledge Extraction and Representation  
Angelo Nuzzo, Francesca Mulas, Matteo Gabetta, Eloisa Arbustini, Blaž Zupan, Cristina Larizza and Riccardo Bellazzi  
954

Performance Analysis of a POS Tagger Applied to Discharge Summaries in Portuguese  
Michel Oleynik, Percy Nohama, Pindaro Secco Cancian and Stefan Schulz  
959

Identification of Relations Between Risk Factors and Their Pathologies or Health Conditions by Mining Scientific Literature  
Thierry Hamon, Martín Graña, Victor Raggio, Natalia Grabar and Hugo Naya  
964
Chapter 15. Vocabulary, Terminology and Ontology

Addressing SNOMED CT Implementation Challenges Through Multi-Disciplinary Collaboration

Justin Liu, Kelly Lane, Elisa Lo, Mary Lam, Tran Truong and Christian Veillette

981

Semantic Reasoning with XML-Based Biomedical Information Models

Martin J. O’Connor and Amar Das

986

Characterizing Consumer Health Terminology in the Breast Cancer Field

Radja Messai, Michel Simonet, Nathalie Bricon-Souf and Mireille Mousseau

991

Exploring Relations Among Semantic Groups: A Comparison of Concept Co-Occurrence in Biomedical Sources

Sasikiran Kandula and Qing Zeng-Treitler

995

Bridging the Semantics Gap Between Terminologies, Ontologies, and Information Models

Stefan Schulz, Daniel Schober, Christel Daniel and Marie-Christine Jouent

1000

Modeling, Building and Evaluating an Ontology for the Automatic Characterization of Adverse Drug Effects During Pharmacovigilance

Catherine Duclos, Lina F. Soualmia, Sonia Krivine, Anne Jamet and Agnes Lillo-Le Louët

1005

Internal Structure of a Disease Name and Its Application for ICD Coding

Emiko Yamada, Eiji Aramaki, Takeshi Imai and Kazahiko Ohe

1010

Exploitation of Linguistic Indicators for Automatic Weighting of Synonyms Induced Within Three Biomedical Terminologies

Natalia Grabar and Thierry Hamon

1015

Auto-Selection of DRG Codes from Discharge Summaries by Text Mining in Several Hospitals: Analysis of Difference of Discharge Summaries

Takahiro Suzuki, Shunsuke Doi, Gen Shimada, Mitsuhiro Takasaki, Toshiyo Tamura, Shinsuke Fujita and Katsuhiro Takabayashi

1020

Can F-MTI Semantic-Mined Drug Codes Be Used for Adverse Drug Events Detection when No CPOE Is Available?

Béatrice Merlin, Emmanuel Chazard, Suzanne Pereira, Elisabeth Serrot, Saoussen Sakji, Régis Beuscart and Stefan Darmoni

1025

Aligning UniProt and MeSH – A Case Study on Human Protein Terms

Elena Beisswanger, Joachim Wermter and Udo Hahn

1030

Using SNOMED CT to Identify a Crossmap Between Two Classification Systems: A Comparison with an Expert-Based and a Data-Driven Strategy

Ferishta Bakhshi-Raiez, Ronald Cornet, Rob. J. Bosman, Hans Joore and Nicolette F. de Keizer

1035

An Automated Approach to Map a French Terminology to UMLS

Taye Merabti, Philippe Massari, Michel Joubert, Eric Sadou, Thierry Lecroq, Hocine Abdoune, Jean-Marie Rodrigues and Stefan J. Darmoni

1040

Implementing Rules to Improve the Quality of Concept Post-Coordination with SNOMED CT

H. Navas, A. Lopez Osornio, L. Gambarte, G. Elias Legutizamón, S. Wasserman, N. Orrego, D. Luna and F. Gonzalez B. de Quirós

1045

A Unified Framework for Biomedical Terminologies and Ontologies

Werner Ceusters and Barry Smith

1050
Enhancing a Taxonomy for Health Information Technology: An Exploratory Study of User Input Towards Folksonomy
Brian E. Dixon and Julie J. McGowan 1055

The DebugIT Core Ontology: Semantic Integration of Antibiotics Resistance Patterns
Daniel Schober, Martin Boeker, Jessica Bullenkamp, Csaba Huszka, Kristof Depreitere, Douglas Teodoro, Nadia Nadiah, Remy Choquet, Christel Daniel and Stefan Schulz 1060

Mapping BFO and DOLCE
Lynda Tenia, Arnaud Rosier, Olivier Dameron and Anita Burgun 1065

Using the Abstraction Network to Design Logics for Quality Assurance in Biomedical Terminologies – A Case Study in SNOMED CT
Duo Wei and Olivier Bodenreider 1070

Information-Content-Based Measures for the Structure of Terminological Systems and for Data Recorded Using These Systems
Ronald Cornet 1075

Development of Structured ICD-10 and Its Application to Computer-Assisted ICD Coding
Takeshi Inoue, Masayuki Kajino, Megumi Sato and Kazuhiro Ohe 1080

Paul Avillach, Michel Joubert, Franz Thiessard, Gianluca Trifirò, Jean-Charles Dufour, Antoine Pariente, Fleur Marguin, Giovanni Polimeni, Maria Antonietta Catania, Carlo Giaquinto, Giampiero Mazzaglia, Carla Fornari, Ron Herings, Rosa Gini, Julia Hippsley-Cox, Mariam Molokhia, Lars Pedersen, Annie Foutrier-Régla, Miriam Surkenboom and Marius Fieschi 1085

The ObTiMA System – Ontology-Based Managing of Clinical Trials
Holger Stenzhorn, Gabriele Weiler, Mathias Brochhausen, Fatmia Schera, Vangelis Krisotakis, Manolis Tsiknakis, Stephan Kiefer and Norbert Graf 1090

Querying the National Drug File Reference Terminology (NDFRT) to Assign Drugs to Decision Support Categories
Linas Simonaitis and Gunther Schadow 1095

Visualization of Disease Distribution with SNOMED CT and ICD-10
Mikael Nyström, Anna Vikström, Gunnar Nilsson, Håkan Orman and Hans Åhlfeldt 1100

Ontology Based Modeling and Execution of Nursing Care Plans and Practice Guidelines
Muzammil Abdulrehman Din, Syed Sibte Raza Abidi and Borna Jafarpour 1104

Mapping ICNP Version 1 Concepts to SNOMED CT
Hyeoung-Ae Park, Cyndie Lundberg, Amy Coenen and Deborah Konicek 1109

Chapter 16. Data, Databases and Information

Facilitating Secondary Use of Medical Data by Using openEHR Archetypes
Christian D. Kohl, Sebastian Garde and Petra Knaup 1117

The Impact of a Growing Minority Population on Identification of Duplicate Records in an Enterprise Data Warehouse
Scott L. DuVall, Allison M. Fraser, Richard A. Kerber, Geraldine P. Mineau and Alun Thomas 1122

Record Linkage System in a Complex Relational Database – MINPHIS Example
Philip Achimugu, Abimbola Soriyan, Oluwatolani Oluwagbemi and Ama Ajayi 1127

Towards an Implicit Treatment of Periodically-Repeated Medical Data
Bela Stantic, Paolo Terenziani, Abdul Sattar, Alessio Bottighi and Guido Governatori 1131
Mapping Stakeholders for System Evaluation – The Case of the Electronic Prescription Service in England
V. Lichtner, D. Petrakaki, R. Hibberd, W. Venters, A. Cornford and N. Barber
1221

Development and Testing of a Work Measurement Tool to Assess Caregivers’ Activities in Residential Aged Care Facilities
Esther Munyisia, Ping Yu and David Hailey
1226

A Multi-Method Approach to Evaluate Health Information Systems
Ping Yu
1231

Why GPs Do Not Follow Computerized Guidelines: An Attempt of Explanation Involving Usability with ASTI Guiding Mode
B. Séroussi, J. Bouard, D. Sauquet, P. Giral, P. Cornet, H. Falcoff and J. Julien
1236

A Qualitative Analysis of Emergency Department Physicians’ Practices and Perceptions in Relation to Test Result Follow-Up
Joanne Callen, Andrew Georgiou, Mirela Pregomet, Richard Paoloni and Johanna Westbrook
1241

Evaluation Methodology for Automatic Radiology Reporting Transcription Systems
Valéria Farinazzo Martins Salvador and Lincoln de Assis Maura Jr.
1246

A New Approach for Goal-Oriented Analysis of Healthcare Processes
Maria Hägglund, Martin Henkel, Jelena Zdravkovic, Paul Johannesson, Inger Rising, Ingvar Krakau and Sabine Koch
1251

Implementation of a Patient Data Management System – An Evaluation Study of Workflow Alterations
Thomas Birkle, Ixchel Castellanos, Hendryk Tech and Hans-Ulrich Prokosch
1256

Chapter 18. Imaging

Evaluation of Methods for Bolus Arrival Time Determination Using a Four-Dimensional MRA Flow Phantom
Dennis Sdring, Nils Daniel Forkert, Till Illies, Jens Fiehler and Heinz Handels
1263

Automatic Analysis of the Anatomy of Arteriovenous Malformations Using 3D and 4D MRA Image Sequences
Nils Daniel Forkert, Dennis Säring and Heinz Handels
1268

A Web Service for Enabling Medical Image Retrieval Integrated into a Social Medical Image Sharing Platform
Marko Niinimäki, Xin Zhou, Enrique de la Vega, Miguel Cabrera and Henning Müller
1273

Indexing the Medical Open Access Literature for Textual and Content-Based Visual Retrieval
Ivan Eggel and Henning Müller
1277

A Block-Matching Based Technique for the Analysis of 2D Gel Images
Ana Freire, José A. Seoane, Álvaro Rodríguez, Cristina Ruiz-Romero, Guillermo López-Campos and Julián Dorado
1282

Three-Dimensional Morphometric Analysis of the Distal Femur: A Validity Method for Allograft Selection Using a Virtual Bone Bank
Lucas Eduardo Ritacco, Alejandro A. Espinoza Orias, Luis Aponte-Tinio, Domingo L. Muscolo, Fernán González Bernaldo de Quirós and Inoue Nozomu
1287

Using Local Context Information to Improve Automatic Mammographic Mass Detection
Marina Velikova, Peter J.F. Lucas and Nico Karssemeijer
1291

Chapter 19. Informatics for Biomedical Research

The Clinical Research Data Repository of the US National Institutes of Health
James J. Cimino and Elaine J. Ayres
1299
Scientific Discovery Workflows in Bioinformatics: A Scenario for the Coupling of Molecular Regulatory Pathways and Gene-Expression Profiles
Alexandros Kanterakis, Giorgos Potamias, Giorgos Zacharioudakis, Lefteris Koumakis, Stelios Sfakianakis, and Manolis Tsiknakis

A Framework for Comparing Phenotype Annotations of Orthologous Genes
Olivier Bodenreider and Anita Burgun

Discovering Novelty in Sequential Patterns: Application for Analysis of Microarray Data on Alzheimer Disease
Sandra Bringay, Mathieu Roche, Maguelonne Teisseire, Pascal Poncelet, Ronza Abdel Rassoul, Jean-Michel Verdier and Gina Devau

Designing a Concept for an IT-Infrastructure for an Integrated Research and Treatment Center
Sebastian Stähler, Alfred Winter, Ronald Speer and Markus Löfler

The REUSE Project: EHR as Single Datasource for Biomedical Research
AbdenNaji El Fadly, Noel Lucas, Bastien Rance, Philippe Verplancke, Pierre-Yves Lastic and Christel Daniel

10 Years Experience with Pioneering Open Access Publishing in Health Informatics: The Journal of Medical Internet Research (JMIR)
Gunther Eysenbach

The IT-Infrastructure of a Biobank for an Academic Medical Center
Andrea Dangl, Sara Y. Demiroglu, Jochen Gaedcke, Krister Helbing, Peter Jo, Fabian Rakebrandt, Otto Rienhoff and Ulrich Sax

Reaching for the Cloud: On the Lessons Learned from Grid Computing Technology Transfer Process to the Biomedical Community
Yassene Mohammed, Frank Dickmann, Ulrich Sax, Gabriele von Voigt, Matthew Smith and Otto Rienhoff

A Mobile Phone Based Telemonitoring Concept for the Simultaneous Acquisition of Biosignals and Physiological Parameters
Hannes Kumpusch, Dieter Hayn, Karl Kreiner, Markus Falgenhauer, Jürgen Mor and Günter Schreier

Chapter 20. Posters

A. Translational Bioinformatics

The Role of the Electronic Health Record in Support of Genomic Research
Vincent Normandeau-Babin, Hanad Nwilati, Sherif Abou-Elela and Andrew Grant

Quality of Electronic Nursing Documentation in Australia Aged Care: Approaches to Evaluation
Ning Wang, Ping Yu and David Hailey

Predicting Outcome Measures in Active Learning
Sasikiran Kandula, Rosa Figueroa and Qing Zeng-Treitler

DISCOCLINI: A System for Biomarkers Discovery in Medical Functional Genomics Data
Arriel Benis, Mélanie Courtine and Alain Venot

Towards a Web-Based Environment Which Assists Physicians in Guiding ARV Resistance Treatment
Yashik Singh

Enterprise Data Translational Architecture (EDTA)
Peter L. Elkin, Brett Trusko, WeiJia Zhang, Steve Ellis, Kash Patel and Hugh Sampson

An Integrated Information Platform for a Biomedical Research Network: Concept and First Experiences
Petra Knapp, Christian D. Kohl, Justo Lorenzo Bermejo, Hartmut Dickhaus and Meinhard Kieser

Mutation Operator and Its Effects on Protein Structure Prediction in Genetic Algorithms
Trent Higgs, Bela Stantic, Md Tamjidul Hoque and Abdul Sattar
Application of Biomedical Informatics to Facilitate Clinical Use of Gene Expression Microarrays in Colon Cancer
Guillermo Lopez-Campos, Beatriz Perez-Villamil, Alejandro Romero Lopez, Enrique Diaz Rubio and Fernando Martin-Sanchez

Sharing Paths of Exploration to Support Collaborative Reasoning in Genomic Data Analysis
David Hoyle, Peter Crowther, Mark Delderfield, Lee Kitching, Gareth Smith and Iain Buchan

Approaching the Nanomedicine Field from Biomedical Informatics
Sandra Barriuso, Victoria Lopez-Alonso, Jorge Barrera, Victor Maojo and Fernando Martin-Sanchez

Stakeholder Analysis for Digital Preservation in Biomedical Research
Frank Dickmann and Sabine Rey

B. Health Information Systems Design and Architecture

Hospital Information Disaster Recovery System and Simulation Drills
Sung-Woo Min, Jae-Ho Lee, Gi-Seong En, Sang-Goo Han and Yong-Soo Lee

Demography, Biometry and Monetary Influences – A Health Economic Evaluation of the Potentials of Short Cycle Monitoring for Elderly Cardiovascular Patients with Help of Tailored Telemedical Services
Alexander Mertens, Daniel Dinnebacke, Jan Henrik Domberg and David Koch-Körges

Quantitative Evaluation Trial for Functions Embedded in Currently Available Electronic Clinical Pathways Products
Shunji Wakamiya and Kazunobu Yamaguchi

ProSenis: Multi-Parameter Remote Monitoring System for the Elderly
István Vassányi, György Kozmán, Balázs Végzső, István Kösa, Tibor Dulai, Dániel Muhi and Zsolt Tarjányi

Supporting Teamwork Along the Dynamic Multi-Disciplinary Care Pathway
Hessah Al-Salamah, Alyssa Skilton, Alex Gray, Omnia Allam and Dave Morrey

Transinstitutional Health Information System Architectures – A Literature Review
Wolfram Ludwig, Nathalie Gusew, Nils Hellrung, Markus Wagner, Klaus-H. Wolf and Reinhold Haux

How Could We Improve Health Care with Enterprise Resource Planning Systems? – A Literature Review
Elina Kontio, Heijä Lundgren-Laine, Juha Kontio, Heikki Korvenranta and Sanna Salanterä

Virtual Scenarios for Diagnosis and Rehabilitation of Mentally Disordered Offenders and for Men Sentenced for Domestic Violence
Uno G.H. Fors, Kristina Sygel, Anna-Karin Svensson, Lotta Arborelius and Marianne Kristiansson

Physicians Interrupted by Mobile Devices – Relations Between Devices, Roles and Duties
Terje Solvoll, Jeremiah Scholl and Gunnar Hartvigsen

AEDIS: An Italian Registry of Clinical Investigations on Medical Devices
Daniela Luzi, Fabrizio Pecoraro, Mariangela Contend, Gregorio Mercurio and Fabrizio L. Ricci

Clinician Transformation Has to Be Clinician Driven
Shashi Gogia and Anand N. Malaviya

Using an Electronic Health Record to Estimate the Prevalence of Overweight and Obesity in Children and Adolescents and Frequency of These Diagnoses by Physicians
Pablo Durán, Débora Setton, Paula Otero, Julián Llera, Alfredo Eymann, Julio Busaniche, Daniel Luna and Fernán González Bernaldo de Quirós

Implementing the WHO Child Growth Standards in an Electronic Health Record in Argentina
Paula Otero, Débora Setton, Daniela Canosa, Pablo Durán, Gastón López, Mercedes de Onis, Daniel Luna and Fernán González Bernaldo de Quirós

Automated Method to Identify Patients Eligible for Quality Measures Using an EHR: Feasibility and Accuracy
Christoph U. Lehmann, David Bundy, Harry Caughey, Sue Weimer, Lilly Engineer, Sean Berenholtz, Marlene Miller and David Silver
MedLABI(MLl); A Software Defined Health Informatics Messaging Protocol for Medical Laboratory Technology
E. Adetiba and M. Eleanya

Age of Consent: Contentions with a Seamless Health Record
Christopher Michell-Viret and Nicola Shaw

Experiences Integrating RIS/PACS into Personal Electronic Health Records
Oliver Heinzle and Björn Bergh

Development of Monitoring System for Outcome Assessment in Off-Pump Coronary Artery Bypass (OPCAB)
Yujeong Kim, Hyomin Im, Moonsook Kim, Mina Hwang and Kibong Kim

Ingest and Integration of Medical Data in a World with Very Little DICOM
Varun Bhagwan, Tyrone Grandison and Daniel Gruhl

Collaboration of an Electronic Medical Record System and Data Warehouse in HIS
Masayuki Honda, Takehiro Matsumoto, Rin Ishitsuka and Akira Fujie

Lessons Learned from Migrating Reports with IHE XDS
Eizen Kimura, Shinji Kobayashi and Ken Ishihara

A Regional Model for Healthcare Information Sharing in China
Jiechen Jiang, Mikko Korpela and Juha Mykkänen

The Use of a Social Network Analysis for a Physician Engagement Model for CPOE
Leland Lancaster and Tip Ghosh

Development Journey for New Clinical Management System III for HKSAR of 7 Million Population
Anthony Cheung, Andre Greyling and N.T. Cheung

Architecture Development for Interoperable EHR in Korea
Myoung-Rok Choi, Hye-Ryung Kim, Sun-Young Kim, In-Jung Hwang, Jae-Bong Bae and Yoon Kim

Integrating Clinical Endoscopic Images into Electronic Patient Record – Pathway to Clinical and Technical Success

Conflicts Between Terminology and EHR Information Models as Obstacles to Semantic Interoperability: A Scientific Review
Louise Pape-Haugaard, Anne Randorff Rasmussen, Pia Britt Elberg and Stig Kjær Andersen

Ontological Approach to Clinical Recording and Form Generation: A Proof of Concept
Senator Jeong, Seung-Jae Song, Sungin Lee, Soo Kyong Lee and Hong-Gee Kim

Semantic Interoperability: A Method Using LOINC and an EAI Component for the LIMS Integration
Theo Ouazine and Marc Cuggia

Usage of the IHE-Patient Identifier Cross-Reference Profile in a Telemedicine Platform for Cardiac Rhythm Management
Karl Kreiner, Dieter Hayn and Günter Schreier

Integrating Clinical Data to Foster a Comprehensive eHealth Record

The Importance of Data Audit Control when Creating an Enterprise Master Patient Index
Alejandro Mauro, Pelayo Navarro, Leandro Biagini, Claudio Torres Casanelli, Fernán Quirós, Daniel Luna and Marcelo Maira

Non English Characters Representation for Patient Safety in the Electronic Health Record Systems – An International Issue

Enhancing Patient Privacy and Security Via Complex Event Processing (CEP) and Legitimate Relationships Service (LRS)
Raed A. Haltam
Using Electronic Health Records in a Rural Setting (Uganda)
S.P. Ndira, K.D. Rosenberger, T. Wetter, H. Mugeni and J. Reyall

Utilising Open Source Medical Systems to Develop a Virtual Health Care Referral System in Kenya
Judy Wawira Gichoya

NefroCard for Dialysis
Paola Di Giacomo and Leonardo Bocchi

Assessing Information Integration Among Discharge Summaries and Case Report Forms in an Electronic Health Record
Martin Waldhorn, Diego Giuma, Carlos Otero, Damian Borbolla, Daniel Luna and Fernan Gonzalez Bernaldo de Quiros

The Clinical Information System Response to an Epidemic Influenza A H1N1
Fernan Gonzales Bernaldo de Quiros, Carlos Otero, Martin Waldhorn, Santiago Wassermann, Damian Borbolla, Ariel Reynoso, Estela Salazar, Silvana Figar and Daniel Luna

Using Electronic Medical Records to Measure Guideline Adherence in Low-Resource Settings
Zach Landis Lewis, Claudia Mello-Thoms, Shyam Visweswaran and Rebecca S. Crowley

High-Level Query Language Support for EHRs Databases – Multi-Step QBE Approach
Shelly Sachdeva and Subhash Bhalla

Personal Health Records Functionalities Reported in the Literature
Santiago Wassermann, Alejandra Mauro, Jeronimo Aguilera Diaz, Carlos Otero, Daniel Luna, Marcela Martinez, Enrique Soriano and Fernan Gonzalez B. de Quiros

The Medical Ecosystem – Personalised Event-Based Surveillance
Kerslin Denecke, Avaré Stewart, Tim Eekmans, Daniel Faesen, Peter Dolog and Pavel Smrž

Automatic Recognition of Health Problems Through the Movement Analysis
Bogdan Pogorelec and Matjaž Gams

How to Build a Corporate e-Pain Form and Pain Terminology?
Karen Szeto, Vicky Fung, Austen Wong, Alex Au-Yeung, Hung Hung Tsui, Ricky Siu, Johnny Lam and Steven Wong

Partnering Health Service Managers to Create Software that Makes a Difference: Support for HIV and TB Programme Management at District and Facility Level
Hilton Snyder, Vera Scott and Gregory Adams

A Requirement Engineering Framework for the Application of Web 2.0 Technology in Health Care
Omid Shabestari and Abdul Roudsari

A Co-Evolution Design Approach for Implementing Telehealth Homecare Support Systems
Athula Ginige and Anthony Maeder

Integration and Information Sharing Needs in Cross-Organizational Health Care
Irmeli Luukkanen, Anja Mursu and Mikko Korpela

Impact of Potential Teratogenic Medication Alert System in the Emergency Department
Hye-Won Han, Ju-Youn Oh, Ji-Suk Hynn, Eun-Sook Kim and Jae-Ho Lee

Development of a Clinical Information System in an Underserved Community Clinic: A Community Partnered Participatory Research Approach
Sheba M. George, David Hindman, Chizobam Ani, Omolola Ogungbemi, Sukrit Mukherjee, Ramaro Ilapakurthi, Mary Verma, Richard S. Baker and Melvin Dayrit

An Integrated Architecture for a Customized CDS Service from Heterogeneous CDSSs
Hye Jin Kim, Mun Young Park, Woojae Kim, Duk Yong Yoon, Jeong Ah Kim, InSook Cho, Yoon Kim and Rae Woong Park
Collaboration in the Real World as Foundation for Health Robotics Research for Aged Care
Karen Day, Priyesh Tiwari and Jim Warren

EpiBasket: A Prototype Information System to Support the Epidemiological Investigation of an Emerging Infectious Disease Outbreak
Weijia Xing, Gilles Hejbhim and Alain-Jacques Valleron

Patient Trajectories and the Coordination of Work
Tobias Buschmann Iversen, Line Melby and Pieter Toussaint

Development of a Customised Free and Open Source Database for Routinely Assessing Waiting Times of Patients at Health Facilities
Gavin Reagon, Gregory Adams, Natasha Titus and Ehimario Igumbor

What if “Business Process” Is the Wrong Metaphor? Exploring the Potential of Value Based Requirements Engineering for Clinical Software
Thomas Wetter and Barbara Paech

Re-Engineering of Prescribing Process in Computerized Physician Ordering System
Ryoma Seto, Susumu Wakabayashi, Kumiko Ishigami, Sayuri Yamashita and Akiyoshi Watanabe

Validation of a Knowledge Base for Advanced CPOE Systems Based on Test Cases
Elke Ammenwerth, Werner Hackl, Brian Bjorn, Vassilis Kontakis, Philippe Massari, Christoph Pechlaner, Daniel Riedmann, Samrend Saboor and Stefan Darmoni

Creating Usable Health IT for Physicians – The Smart Point of Care System
John Silva, Nancy Seybold and Marion Ball

Implementation and Evaluation of an On-Line Prescription Check System Using a Database of Drug Indications
Kengo Miyo and Kazuhiki Ohe

Information Security Assessment Tool for Digital Hospitals
Heitor Neves Gottberg, Roberto Silva Baptista and Ivan Torres Pisa

An Individualized Web-Based Information Supply System for Home Oxygen Therapy Patients
Mai Sumi, Masumi Azuma, Kyoko Ishigaki and Hiroshi Inada

An Intelligent Platform for Personalized Remote Monitoring of the CIED Patients
Asuman Dogac, Catherine E. Chronaki, Gokce Baru Laleci, Mustafa Yuksel, Wilfried Thoben, Manuela Pföning, Bernhard Ströhmer, Wolfgang Pech, alejandra Guillén and Josep Brugada

Scanning Strategy for Transition to an Electronic Health Record
Daniela Canosa, Paula Otero, Bibiana Schachner, Alfredo Cancio, Matias Génova, Pablo Kozlowski, Enrique Soriano, Daniel Luna and Fernán González Bernaldo de Quirós

Ruby Implementation of the openEHR Specifications
Shinji Kobayashi and Akimichi Tatsukawa

C. E-Health Infrastructures

Application Service Provider System for Healthcare with Data Mining Function
Hiroshi Takeuchi, Yuuki Mayuzumi, Naoki Kodama and Keiichi Sato

Deriving User Semantics from XML-Based Biomedical Warehouse
Roi Adadi, Anna Burla, Ariel Farkash, Carmel Kent, Yonatan Maman and Amnon Shabo

The Development of Telemedicine in China and Our Recent Achievement
Zhao Junping, Zhang Zhenjiang, Guo Huayuan, Li Yi, Ren Lianzhong, Xue Wang and Chen Yunqi

Feasibility of Integrating Dental School Electronic Health Record Data to Facilitate Oral Health Research
Muhammad Walji, Paul Stark, Elsbeth Kalenderian and Joel White
xxvi

Development of a Teleradiology Web Portal for the Exchange of Medical Data Using DICOM E-mail

Benjamin Schneider, Oliver Heinze, Kai Lederle, Gerald Weiser and Björn Bergh

Registers for Networked Medical Research in Germany: Situation and Prospects

Jürgen Stausberg, Udo Altmann, Gisela Antony, Johannes Drepper and Ulrich Sax

Using ICT & Electronics Technologies for an Effective Chronic Disease Management Model in Latin America

Amado Espinosa

Improvement of Patients’ Privacy and Security in Seoul National University Hospital EMR System

Young-Ah Kim, Eun-Mi Jo, Chan-Hee Park, Min-A Hwang, Soo-Yong Shin, Kyung-Hwan Kim and Chun-Kee Chung

Study on a Safety Management Method and Location Detection Using Centralized Controlled Wireless LAN System

Katsuya Tanaka, Hidenao Atarashi, Izumi Yamaguchi, Hiroki Watanabe, Ryuichi Yamamoto and Kazuhiko Ohe

Surveillance of ENT Diseases in Children During Winter

Laurent Toubiana and Paul Landais

D. Health Informatics Evaluation

Analysis of the Use of Social Media for Adequacy Evaluation of Health Related Websites Based on Health on Net Code

Alex Esteves Jaccoud Falcão, Felipe Mancini, Fabio Oliveira Teixeira, Fernando Sequeira Sousa, Anderson Diniz Hummel, Daniel Sigulem and Ivan Torres Pisa

Assessing the Attitude of Healthcare Professionals Towards the Use of a Mandatory Hospital Information System: An Empirical Investigation

Joseph Liaskos, Panagiota Lazarou, Stelios Daskalakis and John Mantas

Computerized Physician Order Entry System: Physicians’ Comments and Satisfaction Survey in Taiwan

Bey-Hwa Yui and Ting-Ting Lee

User Perception of the Effect of the e-Chasqui Laboratory Information System on Patient Care, Reducing Lost Results, and Nation-Wide Impact

Joaquin Blaya, Sonya Shin, Martin Yogui, Gloria Yale, Carmen Suarez, Luis Asencios, Carmen Contreras, Peter Cegielski and Hamish S.F. Fraser

Standardized Terminology Using SNOMED CT

Lena Englund and Karin Ahlén

Evaluation of Medical Safety in an e-Health Information System Through Incident Reports Management System

Takehiro Matsumoto and Masayuki Honda

Evaluation of Migration to EHR with Assistance of Document Imaging System

Eizen Kimura, Sumiko Akahori, Kuniko Okada, Teruo Aibara, Shinji Kobayashi and Ken Ishihara

A Comparison Between the EMR Adoption ModelSM and CMMI®

Hajing Hao and Yue Zhao

Mobility in Intensive Care: Pre-Implementation Evaluation

Neşe Zayim, Deniz Özel, Başak Öğuz, Levent Düşемeci and Osman Saka

Evaluating the Use of an Electronic Dispensing Program for Antiretroviral Treatment at Two Public Health Facilities in KwaZulu-Natal, South Africa

Ravikanthi Rapiti, Denver Narainsamy, Vimal Singh and Catherine Searle

Routine Use of OncoDoc2, a Guideline-Based Decision Support System for Breast Cancer: Categorization and Quantification of Cases of Non Adherence with Guidelines

J. Bouaud, B. Séraussi, J. Gligorov, É. Daraï, J.-P. Lorz, R. Rouzier, E. Touboul and S. Uzan
Physician's Usage of Mobile Clinical Applications in a Community Hospital
Haijing Hao, Rema Padman and Rahul Telang

A Scientometric Study of Medinfo Conferences Meeting Abstracts
Payam Kabiri and Farzaneh Aminpour

Development and Application of the RFID System for Patient Safety
Eun-young Jung, Rae Woong Park, YongSu Lim, KugSang Jeong and DongKyun Park

Do Electronic Information Systems Facilitate Errors in Medication Management?
Virpi Jylhä and Kaija Saranto

Evaluation of Innovative Health IT Applications: Importance of Usability Studies in Hospital Settings
Marie-Catherine Beuscart-Zéphir, Ludivine Watbled and Régis Beuscart

Validity Insurance of Telemetric ECG Measurements

Abdul Roudsari and Omid Shabestari  

Interactive Assessment to Support Patient Care in Children with Cancer  
Cornelia M. Ruland, Arnstein Finset, Torun Yatne, Anne Thorvildsen and Jørn Kristiansen  

Preliminary Estimation of the Disease Management Program in Japan: Relationship Between Risk Factors and Medical Cost  
Naohiro Mitsutake, Takashi Fukuda and Yuji Furui  

Schematic Framework for Clinical Language Technology Development in Intensive Care  
Hanna Suominen, Heljä Lundgren-Laine, Sanna Salanterä, Helena Karsten and Tapio Salakoski  

RIS-Driven Mining and Visualisation of Second-Opinion Candidates for Telemetric-Driven Diagnostics  
Thorsten Schaaf, Anja Oldenburg, Hans Tepe, Rafael Poschmann, Joachim Hohmann, Karl-Jürgen Wolf and Thomas Tolxdorff  

Semantic Search for Clinical Evidence Using PICO Framework  
Yuan Ni, Guo Tong Xie, Lei Zhang, Jing Mei, Han Yu Li, Sheng Ping Liu, Hai Feng Liu and Yue Pan  

Automatic Clinical Alert Creation and Decision Support Through Real Time Event Monitoring and Active Data Feeding  

Generating RELAX-NG Schemas for Radiology Reporting Templates  
Selim Bozkurt, Yi Hong and Charles E. Kahn Jr.  

Shared Drive: Information Sharing in a Dietetic Service  
Narissa Nelson, Lisa Cooke and Tony Solomonides
J. Data and Text Mining, Natural Language Processing

Automatic Speech Recognition for the Generation of Medical Reports Studies
Humberto Fernández Mandirola Brieux, Sebastián Guillén and Pablo Laguzzi

Web-Based Case Reports Retrieval System by TF*IDF Method
Shunsuke Doi, Tatsunori Tanaka, Takahiro Suzuki, Toshiyo Tamura and Katsuhiko Takabayashi

An Approach for a Medical Ontology Based on UMLS to Improve Information Retrieval in German Language Clinical Text Documents
Georg Petritsch, Stephan Spat, Christian Güt and Peter Beek

Using Semantic Relations Extracted from Medline for Biomedical Question Answering
Dimitar Hristovski and Thomas C. Rindflesch

Presentation on a Method for Development of the Brazilian Health-Related Content Web Search Portal
Felipe Mancini, Alex Esteves Jaccoud Falcão, Anderson Diniz Hummel, Fabio Teixeira, Fernando Sequeira Sousa, Thiago Martini Costa and Ivan Torres Pisa

A Framework for Multiscale Comparison of Three-Dimensional Trajectories Based on the Maxima on Curvature Scale Space
Shoji Hirano and Shusaku Tsumoto

Data Mining Validation Model to Predict Future Health Care Cost
Mónica Schpilberg, Yanina Talliercio, Daniel Vazquez Vargas, Silvana Figar, Hernán Michelangelo, Daniel Luna and Fernán González Bernaldo de Quirós

Extracting Remarkable Temporal Patterns of Technical Terms in Medical Research Documents
Hidena Abe and Shusaku Tsumoto

Extraction of Drug Combination Related to Liver Dysfunction
Akira Totoki, Suzuki Takahiro, Toshiyo Tamura and Katsuhiko Takabayashi

Adverse Drug Events Detection by Data Mining of Electronic Health Records
Emmanuel Chazard, Grégoire Ficheur, Sanne Jensen, Peter McNair and Régis Beuscart

Case-Based Reasoning for Pediatrics Developmental Disorders
eiTan LaVi, Yuval Shahar, Mitchell Schertz and Shmuel Einav

An Alternative Data Mining Oriented Approach to the Analysis of the Long-Term Glucose Counter-Regulation to Hypoglycemia in Continuous Glucose Data
Mette Dencker Johansen, Jens Sandahl Christiansen and Ole K. Hejlesen

A Cluster and Decision Trees Analytical Comparison of Compliance and Persistence to Fixed-Dose Combination Versus Single Agent Combination Therapy for the Treatment of Type 2 Diabetes
Fonida Gwadry-Sridhar, Benoit Lewden, Scott Leslie, Michael Bauer and Ali Hamou

Application of Artificial Intelligence Techniques in Renal Transplantation: Classification of Nephrotoxicity and Acute Cellular Rejection
Anderson Diniz Hummel, Rafael Fábio Maciel, Fernando Sequeira Souza, Frederico Molina Cohrs, Alex Esteves Jaccoud Falcão, Fabio Teixeira, Felipe Mancini, Domingos Alves and Ivan Torres Pisa

Prediction of Early-Stage Chronic Kidney Disease in an HIV-Positive Population
Omolola I. Ogimyemi, Chizobam Ant, Francis Yemefia, Wilbert Jordan and Keith Norris

Multi Theme Automatic Quality Detector for Health Web Pages
Hind Logahzli, Arnaud Gaudinat and Célia Boyer

What About Trust in a Question Answering System?
Sarah Cruchet, Arnaud Gaudinat, Célia Boyer and Thomas Rindflesch

Extracting Diagnoses and Drug-Abuse Patterns from Italian Clinical Reports of Patients with Headache Disorders
Matteo Gabetta, Cristina Larizza, Lina Rojas Barahona, Elena Guaschino, Grazia Sances, Cristina Cereda and Riccardo Bellazzi
Improving Access to Medical Literature Using Multilingual Search Interfaces
Steven Bedrick

K. Organizational, Economic, Workflow and Policy Issues

Implementing a Census Tracking System to Improve the Real Time Reporting Capability in the Cleveland Clinic Informatics System
Jennie Q. Lou and Ricardo Gomez

Utilizing Technology and Collaboration to Improve Patient Throughput and Manage 100+% Capacity
Gerard Colman, Frank Tortorella and Julianna Moorad

Development and Evaluation of the Critical Pathway for Endoscopic Submucosal Dissection
Eunhye Kim, Moonsook Kim, Ki Ho Park, Sang-Gyun Kim and Kyung-Hwan Kim

Development and Implementation of Critical Pathways in Electronic Medical Records Systems for Strabismus Surgery in Children
Moon-Sook Kim, Hye-Nam Woo, Jung-Hun Kim, Ki-Ho Park and Kyung-Hwan Kim

Information Lifecycle Management in Healthcare Environment: An Integrated Approach

Information Needs of Charge Nurses and Intensivists in Intensive Care
Heljä Lundgrén-Laine, Hanna Suominen, Elina Kontio, Riitta Danielsson-Ojala and Sanna Salanterä

Situated Coordination Through Communication: A Field Study of Operating Room Personnel
Borge Liliebo, Andreas Seim and Arild Faxvaag

The Use and Management of Information and Technology in Maternal Healthcare: A Case Study in the Western Cape, South Africa

Management of Electronic Medical Records and Images
Soo-Yong Shin, Young-Ah Kim, Min-A Hwang, Wan-Suk Kim, Jong Hyo Kim, Kyung Hwan Kim and Chun Kee Chung

Lessons from Jazz—An Improvisation Model for Change Management Strategy for Computerized Physician Order Entry (CPOE)
Tip Ghosh

Innovative Collaborations to Improve Data Flow in Community Nursing
Jenny Lee, Judith Barr and Fiona Hearn

Trustworthy e-Health Services Facilitating Effective Cooperation
Martin Stammler, Christian Schmidt, Heino Ehrlicke and Jürgen Dräger

Qualitative Issues Influencing the Electronic Integration of Medical and Dental Data
Miguel Humberto Torres-Urgiddy, Franklin Din and Valerie Powell

L. Standards, Ontologies and Terminologies

Mapping a Local Drug Interface Terminology to SNOMED CT
Daniel Luna, Antonio Arias, Hernan Navas, Cintia Budalich, Marcela Martinez, Laura Gambarte, Alejandro Lopez Osornio and Fernán González Bernaldo de Quirós

Implementing Rules to the Control Modeling with SNOMED CT
Hernan Navas, Alejandro Lopez Osornio, Laura Gambarte, Adrian Gomez, Analia Baum, Daniel Luna and Fernan Gonzalez Bernaldo de Quirós

Concept Group Design for an Effective Medical Vocabulary Utilization
Pierre-Yves Vandenbussche and Jean Charlet

Electronic Thesaurus to Recover Information on Mammography
Paulo Roberto Barbosa Serapio and Paulo Mazzoncin de Azevedo Marques

Enhanced Mapping Method for Medical Terminology
Seung-Jae Song, Sungin Lee, Senator Jeong, Myeng-Ki Kim and Hong-Gee Kim

Health Professionals' Choice of Keywords in an EHR System
Annika Terner, Helena Lindsiedt and Karin Sonnander

Can a Hole Be Inflamed? On the Handling of Anatomical Cavities in SNOMED CT
J. Niggemann, S. Schütz, H.R. Straub and H. Herre

Multi-Professional Terminology – A Common Language – For Needs Assessment in Social Services for Elderly in Sweden
Ann-Helene Almborg and Ann-Kristin Granberg

Multiaxial Description of the French CCAM Terminology for Clinical Procedures and Mapping on the UMLS Metathesaurus
Cédric Bousquet, Eric Sadou, Teyeb Merabti, Béatrice Trombert, Anand Kumar, Stéfan Darmoni and Jean-Marie Rodrigues

Alignment Between Domain Ontologies and SNOMED: Three Case Studies
L. Mazuel and J. Charlet

A Method for Automatic Content Classification in Health Informatics Based on Specialized Thesaurus
Fabio O. Teixeira, Alex J. Falcao, Anderson D. Hummel, Felipe Mancini, Thiago M. Costa, Fernando S. Sousa, Domingos Alves and Ivan T. Pisa

Representation of Patient Terms for Symptoms and Health-Related Problems Using SNOMED CT(R)
Dean Wantland, Cornelita Ruland, Stein Jakob Nordberg and Suzanne Bakken

Generating a Disease Ontology Using Specialization and Combinatory Restriction Rules
Ihsen Belhadj and Christian Jacquelin
Implementation of Interinstitutional and Transnational Remote Terminology Services
Laura Gambarte, Daniel Luna, Gastón Lopez, Hernan Navas, Alejandro Mauro, Claudio Torres Casanelli, Pelayo Navarro, Adrián Gomez and Fernán González Bernaldo de Quiros

e-Publishing of Healthcare Code Systems
Ivan Emelin, Igor Gubin and Dmitry Tashkinov

Status of Interoperability Requirements Related to IHE Integration Profiles in Finland
Hannu Virkanen, Juha Mykkänen and Terhi Kajaste

Modeling and Integrating Terminologies into a French Multi-Terminology Server
Michel Joubert, Tayeb Merabti, Pierre-Yves Vandenbussche, Hocine Abdoune, Badisse Dahamna, Marius Fieschi and Stefan Darmoni

The Development and Application of a Korean Clinical Data Dictionary
Hyeong-Yun Choi, Mi-Hyun Kim, Jae-Il Lee, Yoon Kim and Hong-Ki Kim

An Attempt to Develop a Fast and Intuitive User Interface for Searching, Identifying and Comparing LOINC® Codes – The LOST (LOINC Search Tool)
Jakob Hatzl, Stefan Sabutsch and Alexander Mense

Dementia: An Under-Coded Problem
Chris Showell, Roxanne Maher, Elizabeth Cummings, Toby Croft, Jane Tolman, James Vickers, Christine Stirling, Paul Turner and Andrew Robinson

Evaluation of a Program for Identifying Patients with Diabetes from Electronic Health Records in the Information System
Leandro Biagini, Alejandro Mauro, Claudio Torres Casanelli, Luisa Legorburu, Lisette Lucie, Marcela Pezzani, Pelayo Navarro, Daniel Luna, Fernán González Bernaldo de Quiros and Marcelo Maira

What Are the Barriers to the Submission of Good Quality Diagnosis Codes by Medical Practitioners in South Africa?
Luisa Whitelaw

Implementation and Validation of a Tool for the Automatic Calculation of DRG
Gaston Lopez, Hernan Navas, Nancy Orrego, Santiago Wassermann, Guadalupe Elias Leguizamón, Daniel Luna and Fernán González Bernaldo de Quiros

M. Nursing Informatics

Impact of Barcode Medication Administration on Nursing Activity Patterns in Taiwan
Huang Hsiu-Ya and Lee Ting-Ting

Patient Perception of Information Sharing with Medical Professionals in Japan
Katsumasa Ota, Jukai Maeda, Hiroko Iguchi, Yukari Niimi, Megumi Nakamura, Yuko Asamuma, Kazushi Yamanouchi, Yumiko Karasawa, Takako Kadoi, Chisato Suzuki, Tetsuya Fujii and Masami Matsuda

Measuring the Level of Acceptance of the Electronic Health Record
Ybranda Koster – de Jong and William Goossen

Evaluation of Telehealth use in HomeCare: A Proposed Study
Ting-Ting Lee

Data Mining in Self-Management
Sunmoo Yoon and Suzanne Bakken

From Electronic Documentation to Evidence Based Nursing: Creating Data Marts for Analysis, Evaluation and Improvement of Processes in Patient Care
Werner Hackl, Thomas Schwarzmayr, Franz Rauchegger, Christian Ederer, Michael Handler, Andreas Dander, Alexander Hoerbst and Bernhard Pfeifer
Twenty Eight Years of CARING: An International Group for Informatics Nurses
Susan K. Newbold

Evaluation of a Fall-Risk Assessment Tool Implemented in an EMR System
InSook Cho, IhnSook Park and EunMan Kim

Discharging the Patient from Hospital to Home-Care: An Application Attempting to Combine E 2369 (CCR), ISO 13606-1, and prEN 13940 Standards
Basile Spyropoulos and Maria Botsivaly

Development of a Computerized Material Management System in a University Hospital
Maria Lúcia Habib Paschoal and Valéria Castilho

How Did We Show the IT People What We Nurses Want About the System? The Case of Self-Developed Ostomy Skin Assessment Tool with VBA
Ming Chuan Kuo and Polun Chang

VP-Based Final Examination – A Model to Reach Advanced Level Standards for the Degree of Paediatric Nursing in Sweden
Elenita Fursberg, Uno Fors and Kristina Ziegert

Development and Evaluation of Website About Nursing Care in Post Anesthesia Care Unit
Thais Honorio tins and Heimarde Fdtima Marin

Informatics Competencies Study in Iberoamerican Nursing Population
Erika Caballero, Carol Hullin Lucay Cossio and Veronica Rojas

Design and Development of Tailored Interactive Education Program for Safe Medication of the Elderly
Myonghwa Park

The Top-Up Nursing Degree Program of the Cyprus University of Technology
Maria-Aggeliki Stamoulis, Charalampos Balis, Parisis Gallos and John Mantas

e-Learning in the Undergraduate Nursing Course
Claudia Prado, Elod Otrenti, Heloisa Helena Ciqueto Peres, Irene Mari Pereira, Jaqueline Alcantara MarcelinodaSilva, Luis Carlos Santiago, Maria Madalena Jamairlo Leite and Valeria Leonelloa

N. National and International Health IT Efforts and Implementations

Alert Information Sharing – A Proposed Model
Rikard Lövström, Rong Chen and Gunnar O. Klein

Challenges of Electronic Health Records Implementation
Mogli Goverdhan Das

Health Information Technology in Dubai: A Qualitative Study
Mohammad AlRedha, Shane Reti, Henry Feldman and Charles Safran

Design and Evaluation of txt2MEDLINE and a Searchable Database of SMS Optimized, Clinical Guidelines for Clinicians in Botswana
Carrie Kovarik, Paul Fontelo, Fang Liu, Katie Armstrong, Ryan Littman-Quinn, Ryan Banez, Anne Seymour, Ting Shih and Loeto Mazhani

Solutions in Global Women’s Health Care Delivery: Use of Mobile Telemedicine for Cervical Cancer Screening
Rachel H. Gormley, Kelly E. Quinley, Ting Shih, Zsofia Steep, Ann Steiner, Doreen Ramagola-Masire and Carrie L. Kovarik

How Integrated Health IT Systems Improve Efficiency of MRSA Surveillance in Hospitals

Mutual Isolation and the Fight for Care: Exploring Home-Based Healthcare in Two South African Communities
Izak van Zyl, Anton Delen and Siphokazi Tswane

Mutual Isolation and the Fight for Care: Exploring Home-Based Healthcare in Two South African Communities
Izak van Zyl, Anton Delen and Siphokazi Tswane
CHRONIOUS: A Multinational and Interdisciplinary European Project for Innovative E-Health Management of Chronic Patients at Home
R. Farré, A. Papadopoulos, V. Isetta, G. Munaro and R. Rosso on behalf of CHRONIOUS

LexCare Suite: Korean National Terminology Server for Interoperable EHR
Sungin Lee, Senator Jeong, Soo Kyong Lee, Seung-Jae Song and Hong-gee Kim

Indicators of Success for Clinical Engagement in Scotland’s National eHealth Programme
Heather Strachan and Caroline Vance

Medical Informatics Efforts in Turkey
Osman Saka, Neşe Zayım and Kemal Hakan Gülkesen

Establishment of an Infrastructure to Support the Introduction of Electronic Signatures: A German Example
H. Kosock, J. Balfanz, A. Brandner, C. Dujat, C. Duwenkamp, R. Haux, N. Hellrung, P. Schmücker and C. Seidel

Towards the Standardization and Promotion of Interoperability in eHealth
Marta Ortega-Portillo, María de las Mercedes Fernández-Rodríguez, María Fernanda Cabrera-Umpiérez and María Teresa Arredondo

Selecting Clinical Computing Hardware Devices for Hospital Wards: The Role of IT Vendors
Mirela Prögomet, Joanne Callen and Johanna Westbrook
