INTERNATIONAL MECHANICAL ENGINEERING CONGRESS AND EXPOSITION – 2009 –

VOLUME 8

ENGINEERING TO ADDRESS CLIMATE CHANGE

SUSTAINABLE PRODUCTS AND PROCESSES

presented at
ASME 2009 INTERNATIONAL MECHANICAL ENGINEERING CONGRESS AND EXPOSITION
NOVEMBER 13–19, 2009
LAKE BUENA VISTA, FLORIDA USA

ASME
Three Park Avenue • New York, N.Y. 10016
CONTENTS

ENGINEERING TO ADDRESS CLIMATE CHANGE

ENGINEERING TO ADAPT TO A CHANGING CLIMATE
IMECE2009-12265  ................................................................. 1
Evaluating Concentration Profiles During Unsteady Mixing
Judith Ann Bamberger, Margaret S. Graenwood, Bruce D. Lawler, S. K. Sundaram,
Ellen B. K. Baer, Brian K. Hatchell, Derek F. Hopkins, Leslie J. Kirihara,
Mikhail S. Pekour, Susan Sande, Xiao-Ying Yu, and Nino Zuljevic

IMECE2009-11419  ................................................................. 11
Human-Hybrid Powered Vehicle (H₂PV) Using an Oscillating Drive
Henry D. Bronson and Rahuljit Pal

IMECE2009-12068  ................................................................. 21
H₂S and CO₂ Filtration of Biogas Used in Internal Combustion Engines for
Power Generation
Jose Ignacio Huertas Cardozo and Sebastián Izquierdo Cifuentes

GENERAL
IMECE2009-10182  ................................................................. 27
Use of Thermodynamics, Engineering Economics and Probabilistic Risk Assessment in
Evaluating Climate Change Decisions
Milton Meckler and Amip J. Shah

IMECE2009-11774  ................................................................. 35
Effects of Waste Vegetable Oil/Water Emulsions on the Emissions of a Listeroid
Diesel Engine
Thomas J. Reding, Mohammad Naraghi, Stephen Bosco, Matthew Basinger,
Sergio A. Rodriguez, and Alexander W. Miranda

IMECE2009-12258  ................................................................. 47
Production of Synthetic Petroleum Fuel Through the Absorption of Atmospheric CO₂
Stephen G. Pothier, David Chichka, Joey Barr, and Ken Mills

SUSTAINABLE PRODUCTS AND PROCESSES

ENERGY AND WATER USAGE
IMECE2009-10133  ................................................................. 55
Developing a Methodology Towards Sustainable PCD Compact Core Drilling on Planet Mars
K. Rouch, and I. S. Jawahir
IMECE2009-10171 ............................................................... 61
Core Drilling Versus Chisel Drilling With an Eye on Sustainability
   R. F. Hamade and I. S. Jawahir

IMECE2009-10559 ............................................................... 67
An Overview of Reverse Osmosis Water Desalination and the Solution Diffusion Mathematical Model
   Mir-Akbar Hessami, Nathan Hall, and Adam Robb

IMECE2009-11674 ............................................................... 77
Proximity-Based Passive Current Sensors for Real-Time Monitoring of Power Usage in Low and Mid-Voltage Applications
   Christopher Sherman, Eli S. Leland, Andrew Pullin, Richard M. White, and Paul K. Wright

IMECE2009-12039 ............................................................... 85
Energy Analysis of Single Effect Thermal Vapor Compression Desalination Process Based on Pressure Exchange Phenomenon
   Kaustubh A. Chabukswar and Charles A. Garris, Jr.

IMECE2009-12317 ............................................................... 95
Experimental Simulation of Solar Flash Desalination
   Mohammad Abutayeh and D. Yogi Goswami

IMECE2009-12471 .............................................................. 103
Economical Optimization of Integrated Cooling Tower by Solar Energy
   Mohammad Hassan Panjeshahi, Lena Ahmadi, and Mona Gharai

IMECE2009-13051 .............................................................. 111
Design Algorithm of a Multi-Effect Humidification: Dehumidification Solar Distillation System
   R. González, P. Pieretti, and H. Diaz

IMECE2009-13233 .............................................................. 117
Microgrids: A New Approach to Supply-Side Design for Data Centers
   Ratnesh Sharma, Cullen Bash, Manish Marwah, Chandrakant D. Patel, and Tom Christian

MATERIAL CONSERVATION AND RECYCLING
IMECE2009-12742 .............................................................. 125
Mechanical Properties of PBS Plastic Reinforced by Paper Using Waste Silk
   Ruoyuan Song, Haruhiro Ino, and Teruo Kimura

IMECE2009-12926 .............................................................. 129
Optimization of a Leaching Tank for Hydrometallurgical Recovery of Metals
   M. C. L. G. Vilarinho, N. M. B. Gonçalves, and J. C. F. Teixeira
