PROCEEDINGS OF THE VI\textsuperscript{TH} INTERNATIONAL POSTHARVEST SYMPOSIUM

Volume 2

Convener
M. Erkan

Antalya, Turkey
April 8-12, 2009

ISHS Commission Quality and Post Harvest Horticulture

Acta Horticulturae 877
November 2010
VOLUME 2

Postharvest Quality Management

The Use of Auxins to Maintain Postharvest Quality of Citrus Fruit
A. Salvador, S. Sdiri, P. Navarro, A. Monterde and J.M. Martinez-Jávega

Physicochemical Characterization of Kiwifruit (Actinidia deliciosa ‘Hayward’) from Different European Origins
M. Guimarães, A. Rocha and L.M. Cunha

The Effect of Deastringency Treatments on Increasing the Marketability of Persimmon Fruit
O. Khademi, Y. Mostofi, Z. Zamani and R. Fatahi

How Dehydration Temperature and Weight Loss Affect the Biosynthesis of Nutritional Compounds in Irrigated ‘Aleatico’ Grape
G. Antelmi, A. Bellincontro, F. Mencarelli, I. Nicoletti and D. Corradini

Effect of Curing at Different Temperatures on Phytohormone and Biochemical Composition of Onion ‘Red Baron’ during Long-Term Postharvest Storage
G.A. Chope and L.A. Terry

Vitamin C and Chlorophylls Retention on Minimally Fresh Processed Red Chard Baby Leaves Packed under Non-Conventional Modified Atmosphere
A. Tomás-Callejas, M. Boluda, P.A. Robles, F. Artés and F. Artés-Hernández

Changes in Quality Parameters during Fruit Development and Their Relationship with Optimum Harvest Maturity for ‘Big Top’ and ‘Perfect Delight’ Nectarine Cultivars
M. Çelik, A.E. Özdemir, E.E. Candir and R. Dilbaz

Changes in Quality Parameters of ‘Satsuma’ Mandarin during Fruit Development and Their Relationship with Optimum Harvest Maturity
A.E. Özdemir, E.E. Candir, M. Kaplankiran, T.H. Demirkeser, C. Toplu and E. Yıldız

Spatial and Temporal Variability of Yield and Fruit Quality in Apples
K.D. Aggelopoulou, G.D. Nanos and T.A. Gemtos

Study on the Effects of Chitosan in Preserving Some Qualitative Factors of Table Grape (Vitis vinifera ‘Shahroudi’)
M.D. Ardakani, Y. Mostofi and R. Hedayatnejad

Effects of MeSA Vapor Treatment on the Postharvest Quality of ‘Hayward’ Kiwifruit
M.S. Aghdam, A. Motallebiazar, Y. Mostofi, J.F. Moghaddam and M. Ghasemnezhad

Relationship of Soluble Solids, Acidity and Aroma Volatiles to Flavor in Late-Season Navel Oranges
D. Obenland, S. Collin, J. Sievert, K. Fjeld and M.L. Arpaia
The Effects of Post-Harvest Waxing on Shelf Life of Satsuma Mandarin Types
B. Dal and B. Gözen

Histological and Pomological Characterization of Sclereid Cell Clusters in Some Iranian Local and European Pear Cultivars
F.T. Hugh and H. Abdollahi

Grain Drying in Fixed Bed with Supervisory System of Process Focusing in Energy Saving and Quality of Products
B. Ternel, D. Galeski, A. Paula, A. Albuquerque and C. Umezu

Inhibiting Phospholipase A2 and D Activities Alters Postharvest Performance of Citrus Fruit
F. Alferez, P. Romero and M. Gandia

Influence of Calcium Dips on Biosynthesis of Aroma Volatile Compounds in ‘Fuji Kiku-8’ Apples
A. Ortiz, G. Echeverria, J. Graell and I. Lara

Storability and Fruit Quality of Organicly Grown ‘Topaz’ Apples as Affected by Harvest Date and Different Storage Conditions
G. Lafer

Sensory Evaluation of Calcium-Dipped ‘Fuji Kiku-8’ and ‘Golden Reinders’ Apples
A. Ortiz, G. Echeverria, J. Graell and I. Lara

Changes in Quality and Oxidative Status of Two Cultivars of Piel de Sapo Melon Fruit during Cold Storage
P. Sánchez-Bel, F.B. Flores, J. Gómez, F. Romojaro, M.J. Cabello, M.T. Castellanos, F. Ribas and M.C. Martinez-Madrid

Degreening of ‘Mucott’ Tangor with Ethephon Treatments

Effect of Chitosan Coating on Weight Loss and Postharvest Quality of Green Pepper (Capsicum annum L.) Fruits
K. Gholamipour Fard, S. Kamori, M. Ghasemnezhad and R.F. Ghazvini

Effect of Vacuum Cooling Operation Parameters on Cooling Time and Weight Loss of ‘Red’ Holy Basil
P. Boonprasom and D. Boonyakiat

Physiological Behavior and Quality during Growth of Copoazu Fruit

Effects of Some Treatments on Quality Change of ‘Granny Smith’ Apples during Cold Storage
M.A. Kovuncu, F. Kovuncu, T. Dilmaçınal, M. Çetinbaş and F. Güçlü

Potassium Permanganates and Short Term Hypobaric Enhances Shelf-Life of Kiwifruits
A.A. Ramin, A. Rezaei and M. Shams
Changes in Quality of Dried Fig Fruit and Processed Fig Products under Cold and Ambient Storage Conditions
F. Şen, K.B. Meyvaci, U. Aksoy, S. Koç, S. Sarılar and R. Kocatürk

The Effect of Hydrocooling on the Keeping Quality of Early Ripening Pear Cultivars
M.G. Molino, T. Venditti, A. Dore, A. Petretto, G. D’hallewin and M. Agabbi

Effect of Harvesting Time and Curing Temperature on Some Properties of Iranian White Garlic
F. Bayat, S. Rezvani and A.E. Nosrati

Effect of Wax-Like Substances Treatment on Storage of Apple Fruits
A.M. Krivorot and D.I. Martsynkevich

Postharvest Aminoethoxyvinylglycine (AVG) Dips on Storage Characteristics of ‘Golden Delicious’ and ‘Red Delicious’ Apples
N.N. Fadhil and S.F. Al-Bamarny

Postharvest Quality of Brazilian Late Peach Cultivars during Cold Storage

Effects of Short-Term N₂ Treatment on Quality of Loquat Fruit during Cold Storage

Investigation on Cold Storage Capacity of Early and Mid Ripening Apple Cultivars of Iran
A. Peyghambari, H. Hajnajari and M.F. Koochaki

Study on Postharvest Quality Deterioration of ‘Cuiquan’ Pear

Effect of Aloe Vera Gel on Maintenance of Strawberry Fruits Quality
S. Vahdat, R.F. Ghazvini and M. Ghasemnezhad

Temperature Effects - Hypedermal and Chilling, Conditioning

Development and Optimisation of Amperometric Biosensors for Improved Postharvest Quality Control
L.A. Terry, J.G. Bordonaba and L.A. Abayomi

Effect of Vacuum Cooling and Different Storage Temperatures on Physico-Chemical Properties of Broccoli
P. Boomprason and D. Boonyakiat

Quality Changes of Temperate-Zone Grown ‘Star Ruby’ Grapefruit during Storage at Chilling and Non-Chilling Temperatures
A.I. Deltsidis, E.D. Pliakoni and G.D. Nanos

Accumulation of γ-Aminobutyric Acid in Apple, Strawberry and Tomato Fruit in Response to Postharvest Treatments
R. Deewathananawong and C.B. Watkins
Improvement of Cold Tolerance in ‘Tahiti’ Lime through Heat Treatments

Quality and Supply Chain Innovation and Handling, Packaging and Shipping Technology

Sustainable Horticulture: An ‘Off-Shoot’ of Sustainable Agriculture with Unique Challenges and Opportunities
E.A. Brovelli, R.S. Applebaum and K. Ogorzalek

The Packaging Implications of the ‘Last Mile of the Strawberry Supply Chain’
M. Mirzaee and C.F.H. Bishop

Physical and Mechanical Properties of Composite Mango Films
R. Sothornvit

Determining the Role of Cold Storage Practices for Apple Marketing in Turkey
C. Sayin, S. Karaman, M.N. Mencet, Y. Tascioglu and I.Y. Karaşahin

Ethylene, Ripening Physiology and Programmed Cell Death

Programmed Cell Death and Postharvest Deterioration of Horticultural Produce
E.J. Woltering and E.T. Iakimova

The Role of Prolyl 4-Hydroxylases in Tomato Fruit Ripening
P. Kalaitzis, S. Fragkostefanakis, F. Dandachi and A.S. Siomos

Cell Wall Compositional Differences between Mealy and Non-Mealy ‘Forelle’ Pear during Ripening
E.M. Crouch and M. Huysamer

Genetic Background of Quality and Cell Wall Changes in Fresh-Cut Melons
M.H. Gomes, J. Fundo, J.M. Obando-Ulloa, J.P. Fernández-Trujillo and D.P.F. Almeida

Determination of Ripening Stage in Date Cultivar ‘Barhi’ by the Level of Ethylene Emission
O. Feygenberg, R. Ben-Arie, E. Pesis, R. Ben-Zvi and Z. Schmilovitch

Effect of Ethephon and Ethylene Gas on Ripening and Quality of Detached Winter Tomato
R.K. Dhall, B.V.C. Mahajan and A.S. Dhatt

Cell Wall Modifications during On-Tree Development and Maturation of ‘Golden Reinders’ Apples
A. Ortiz, G. Echeverría, J. Graell and I. Lara

Influence of Calcium on Fruit Firmness and Cell Wall Degrading Enzyme Activity in ‘Elsstar’ Apples during Storage
D. Kittemann, D.A. Neuwald and J. Streif
The Ethylene Biosynthesis Is Affected by 1-MCP in Carnation
E. Boz, Y. Yalcin Mendi, O. Dündar, H. Demircioğlu, T. Izgu and O. Özkaya

Evaluation of Shelf Life and Ripening of Imported Avocado ‘Hass’ Fruit Following Treatment with E+® Ethylene Remover or 1-Methylcyclopropene (1-MCP) during Medium-Term Cold Storage
M.D. Meyer and L.A. Terry

Expression, Activity and Cellular Localization of Pectin Methylesterase in Grape Berry Skin during Ripening
S. Lacampagne, C. Lambert, C. Belleau-Deytieux, A. L’Hyverney, B. Donèche and L. Gény

Textural, Biochemical and Micro-Structural Changes in Mesocarp Tissue of Imported Avocado from Peru during Ripening
S. Londoñal and L.A. Terry

Isolation and Gene Expression Analysis of Postharvest Senescence Marker in Baby Spinach Leaves
V. Baldassarre, S. Antonacci, G. Cocetta, A. Spinardi, I. Mignani and A. Ferrante

Genetics, Molecular Genetics, Genomics and Proteomics of Fruit Quality

Transcriptomic Changes Associated with Postharvest Susceptibility of an ABA-Deficient Mutant of Oranges to Non-Chilling Peel Pitting
P. Romero, M.J. Rodrigo, F. Alferez, L. Zacarias, M.T. Lafuente and J. Gadea

Expansins in Cherry: Expression of Expansin Proteins in Cherries and Detection of Expansin Promoter Activity Using Agroinjection
M. Karaaslan and G. Hrazdina

Ethylene Suppression Modifies Gene Expression and Activity of Aroma Volatile-Related Enzymes in ‘Delbard Estivale’ Apples
J. Harb, I. Lara, O. Saleh, B. Khraiwesh and J. Streif

Effects of Postharvest Partial Dehydration and Prolonged Treatments with Ethylene on Transcript Profiling in Skins of Wine Grape Berries
F.M. Rizzini, C. Bonghi, L. Chkaiban, F. Martinelli and P. Tonutti

Comparative Transcriptomic Analysis of Plum Fruit Treated with 1-MCP

Introduction of Ethylene Insensitivity in Campanula carpatica Flowers by Genetic Manipulation with Etr1-1
S. Sriskandarajah, H. Mibus and M. Serek

Antioxidants and Health Promoting Substances

Use of Salicylic Acid to Increase Strawberry Fruit Total Antioxidant Activity
M.R. Asghari and M. Babalar
Determination of Ascorbic Acid Content of Leafy Asian Vegetables during Storage
T. Kopta and R. Pokluda
Identification and Quantification of Pigments in Prickly Pear Fruit
E.M. Yahia, E. Castellanos and C. Mondragon-Jacobo
Comparison of Pectin Biosynthesis in Local Apple Cultivar ‘Azayesh’ and Some Commercial Cultivars as Affected by pH and Carbohydrates Content
S. Tarvahi, H. Hajnajari and F. Badii
Antioxidant Compounds and Qualitative Traits in European (Prunus domestica L.) and Japanese (P. triflora L.) Plum Fruits as Affected by Cold Storage
F. Sottile, F.M. Impallari, C. Peano and N.R. Giuggioli
Variation of Weight Loss, Phenolic Compounds, Vitamin C of Different Bell Pepper Cultivars Fruit during Storage
M. Sherafati, M. Ghasemnezhad and G.A. Peyvast
Impact of Abscisic Acid on the Metabolism of Phenolic Compounds in Grape Skins: Modulation of Anthocyanin and Tannin Accumulation throughout Growth
S. Gagné, S. Lacampagne and L. Geny
How Does Cold Storage Affect the Bioactive Compounds and Antioxidant Capacity in Plum Cultivars?
Relationship between Colour and Biochemical Composition of Skin from ‘Red Baron’ Onion Bulbs Cured at Different Temperatures
K. Downes, G.A. Chope and L.A. Terry
Temporal Change in Taste- and Health-Related Compounds during Postharvest Ripening of Sri Lankan Mango Fruit (Mangifera indica L.)
T. Thanaraj and L.A. Terry
Effect of Home-Refrigerator Storage Temperature on Tomato Quality
B. Famed, W. Zhang, I. Witkowska and E.J. Woltering
Identification of Phenolic and Carotenoid Compounds in Carica papaya L. ‘Maradol’ Using Liquid Chromatography - Mass Spectrometry
D.M. Rivera-Pastrana, E.M. Yahia and G.A. González-Aguilar
Cultivar Variability in the Response of Tomato Fruit Lycopene Synthesis and Antioxidant Potential to a Brief Postharvest Heat Stress
Antioxidant Capacity and Correlation with Phenolic Compounds and Carotenoids in 40 Horticultural Commodities
E.M. Yahia and A. Barrera
Nutritional Value of Minor Fruits in Latvia
S. Kampuse, Z. Krūma, K. Kampuss and I. Krasnova
Determination of Mineral Nutrients in Some Leafy Vegetables
M.S. Hossein

Identification and Quantification of Phenolic Compounds in Grapes
M. Rivera-Dominguez, E.M. Yahia, N. Wlodarchak and M. Kushad

Differences in the Absorption Efficiency Between α- and β-cryptoxanthin from Carrot Leaves and Papaya Fruit
E.M. Yahia, J. Valdes and D.E. Breithaupt

Carotenoid Composition in ‘Ataulfo’ Mango and Their Bioavailability and Bioconversion to Vitamin A
J. de J. Ornelas-Paz, E.M. Yahia, A.A. Gardea and M.L. Failla

Maintaining Quality of Japanese-Style Green Tea after Harvest

Preharvest Aminoethoxyvinylglycine (AVG) Effects on Ripening, Total Phenolic Concentration and Total Antioxidant Capacity of Green Table Olives
E. Tsantili, M. Kafkaletou and P.A. Roussos

The Correlation between Some Nutritional Components with Total Antioxidant Capacity (Measured with Six Different Assays) in Eight Horticultural Commodities
R.D. Corral, E.M. Yahia, A. Carrillo and G. González

Changes in Ascorbic Acid Content of ‘Elstar’ and ‘Jonagold’ Apples Treated Pre- and Post-Harvest with Ripening Inhibitors
D.A. Neuwald and J. Streif

Changes in Antioxidant Activity of Radicchio during Storage
A. Koukounaras and A.S. Siomos

Antineoplastic and Antioxidant Properties of Some Fruits and Vegetables Using Experimental Models of Mammary Cancer

Effect of Banana Flour Composition and Glycerol Content on Properties of Compression-Molded Banana Sheet
R. Sothornvit and S. Songtip

Qualitative and Quantitative Changes in Carotenoids and Phenolic Compounds in Tomato Fruit during Ripening
A. Carrillo-Lopez and E.M. Yahia

Variation of Fructooligosaccharide Contents, Invertase, 1-KHE, 1-SST, 1-FFT and 6G-FFT Activities in Green Asparagus Spears Stored at 10°C
N. Benkeblia and N. Shiomi

Effect of Different Temperatures on Purslane Quality and Total Lipid Content
Ö. Tuncay and P.Z. Akdeniz
Effect of Postharvest UV-B Radiation and Visible Light on Health and Sensory Related Parameters in Plums (*Prunus domestica* L.)
*E. Vangdal, S. Hagen and G. Bengtsson*

Effect of Ascorbic Acid on Antioxidant Capacity during Flower Development in ‘Royal Class’ Rose Cut Flowers
*M. Hatami, M. Ghasemnezhad, A. Hatamzadeh and S.G. Omran*

Effect of Heat-Conditioning Treatments on Quality and Phenolic Composition of ‘Fortune’ Mandarin Fruit
*M.T. Lafuente, J. Calejero, A.R. Ballester, L. Zacarias and L. González-Candelas*

Effects of ReTain Preharvest Application on Ripening Parameters, Phenolics and Total Antioxidant Capacity of Green Table Olives Exposed at 20°C for up to 7 Days
*E. Tsantili, M. Kafkaletou and P.A. Roussos*
