Tailoring the syllabus to create social presence

Ardelle Pate, Concordia University, USA

The Inclusion and Learning Opportunity Project (ILOP) with interactive whiteboards and complex learning environments

Francesco Pisani, Maurizio Gentile, IPRASE Trentino, Italy

Effective instructional strategies to utilize Web 2.0 applications for classroom collaboration

Elena Qureshi, Phillip Olla, Madonna University, USA

Moving beyond four walls: a fully online delivery model

Stephen Rowe, Allan Ellis, Southern Cross University, Australia

Designing virtual field trips

Michael Ruffini, Bloomsburg University of Pennsylvania, USA

A metaphor for teaching and learning in the 21st century

Joseph Sant, Sheridan Institute for Technology and Advanced Learning, Canada

Proofcasting: Perfecting your writing through phonecasting

Jevanina Schettini, Melissa DeTorres, Lin Muilenburg, St. Mary's College of Maryland, USA

Designing game design studios: strategies to sustain intrinsic motivation

Kimberly Sheridan, Kevin Clark, George Mason University, USA

Using web-based approaches to enhance high fidelity clinical skills education

Ann Shortridge, OU-HSC, USA; Maggie McPherson, University of Leeds, School of Education, UK; Gary Loving, Lisa Lee, OU-HSC, USA

Blended learning with authentic tasks using digital video tutorials

Khang-Miant Sing, National Institute of Education, Singapore

Finding the best method for the learning problem

Karen Smith-Gratto, North Carolina A&T State University, USA

Using physics simulations to enhance learning in pre-calculus courses

Andrzej Sokolowski, Texas A&M University, Magnolia West High School, USA; Lynne Walters, Texas A&M University, USA

Case studies of teachers integrating computer technology in mathematics

Dorian Stoilesca, Douglas McDougall, Univ of Toronto, Canada

A manga-based approach to enhance multivoiced reflection of student teachers in revising lesson plans

Hideyuki Suzuki, Ibaraki University, Japan; Toshiro Mochizuki, Senahu University, Japan; Yoshihiko Kubota, Joetsu University of Education, Japan

Multimedia technologies for responding to students' writing assignments in an online environment

Judith Szerdahelyi, Western Kentucky University, USA

Why do I have to take this class? Teaching technology to nontraditional teacher education students

Merryellen Towey Schulz, Lindsey Schulz, College of Saint Mary, USA

How can programming improve mathematical self-efficacy: A case study of teaching 7th and 8th grade students computer programming

Geoff Wright, Brigham Young University, College of Engineering, USA; Peter Rich, Brigham Young University, Instructional Psychology and Technology, USA

In quest of the golden ratio through fibonacci sequence in a dynamic geometry teacher education program environment

Mohammad Yazdani, University of West Georgia, USA

Different continents similar challenges: integrating social media in teacher education

Melda N. Yildiz, Fulbright Scholar Turkmenistan, USA; Gul Geldymuradova, Academy of Science, Turkmenistan; Guncha Komekova, US Public Affairs, Turkmenistan

Cultural influences on student retention in distance learning environments

Adrian Zappala, Thomas Edison State College, USA

Using embodiment with LEGO robotics to enhance physics understanding in elementary school students

Carol Lu, Seokmin Kang, Shih-Chieh Huang, John Black, Teachers College, Columbia University, USA

An initial framework for the design of an emotionally responsive animated pedagogical agent

Enilda Romero, Ginger Watson, Old Dominion University, USA

Review and perspectives on intelligent multi-agent systems’ support for group learning

xix
