Advances in Superalloys

PART 2

Selected, peer reviewed papers from the 2010 International Conference on Advances in Materials and Manufacturing Processes (ICAMMP 2010), 6-8 November, 2010, Shenzhen, China

Edited by

Sihai Jiao, Zhengyi Jiang and Jinglong Bu
PART 2

The Microstructure and the Wear Resistance of the Hypoeutectic High Carbon Fe-B Cast Steel
J.W. Li, G.S. Zhang and S.Z. Wei ................................................................. 1009

PTC Behavior and Microstructure of Zn-Ni-Ti-O Ceramics
Y.P. Pu, Y.Q. Mao and J.F. Wei ................................................................. 1013

The Influence of Composition Segregation to the Microstructure and Mechanical Properties of SA508-3 Steel
L.H. Hao, M.Y. Sun and D.Z. Li ................................................................. 1017

A Study on Constitution Equation of Industrial Ti-6Al-4V for Gas Forming Process
Z.G. Huang, S.Y. Jin and Q.H. Yuan ......................................................... 1022

Environmental and Economic Assessment of Recycled Aluminum Alloy Production - A Case Study of China
J.M. Hong, Z.Z. Ismail and J.L. Hong ......................................................... 1027

Numerical Study on Effects of Molten Steel Flow about Different Blowing Argon Position in Ladle Furnace
Y.S. Chen, Y.J. Pang and X.G. Zhang .......................................................... 1031

Study on the Thermal Stability of MUF Co-Polymerization Resin

Electrochemical Noise Analysis on Corrosion of Aluminum Alloy
Z.Q. Tian, X.D. Kong, G. Wu and Y.S. Wang ............................................ 1043

The Structure and Acoustic Properties of Aluminum Foams by Gas Injection Method
X.L. Fan, X. Chen and Y.X. Li ................................................................. 1049

Microstructure Simulation of Aluminum Alloy Wheel Die Forging Using Cellular Automaton
S.Q. Huang, Y.P. Yi and Y.X. Zhang ......................................................... 1056

Stability and Antioxidant Activity of Polyphenols in Methanolic Extracts of Sonneratia caseolaris Seeds
C. Limmatvapirat, J. Charoenteeraboon, P. Wctwitayaklung, C. Sukonpan and T. Phaechamud .............. 1062
Effect of Post Weld Heat Treatment on Mechanical and Corrosion Properties of Inconel 601
X.Z. Bu, P. Shan, Z. Luo and Z.T. Zheng ................................................................. 1178

A Study on Heat Treatment Effect and Mechanism of High-Pressure Vessel in the Wall
Thickness Direction
Q.H. Yuan, S.Y. Jin, Z.G. Huang, X.P. Ren, H. Song and J. Wei .............................. 1186

Mid-IR and Raman Spectral Properties of Hydroxyl/Deuterolxyl Cobalt Chlorides

Viscosity Determination of High Oxidizability Refining Slag and Its Buildup Solution
X.P. Liang, Y. Jin and Y. Wang .............................................................................. 1198

Mid-IR and Raman Spectral Properties of Clinoatacamite-Structure Basic Copper Chlorides

Forming Limit of Sheet Metal Based on Different Property Imperfection
Y. Yan and H.B. Wang .................................................................................... 1206

A Study on the Microstructure of AISI M2 High Speed Steel Manufactured
by Continuous Casting
X.F. Zhou, F. Fang and J.Q. Jiang ........................................................................ 1211

Effects and Mechanisms of Vanadium on Structural Transformation of BVRE Heavy Rail Steel
Y.H. Huang, C.J. Liu and M.F. Jiang .................................................................. 1216

Effects of Repeated Plastic Working (RPW) Process on the Structure and Properties of
Mg2Si/Mg-Zn-Er Composite
S.B. Li, Y.L. Qin, H. Li and W.B. Du .................................................................. 1222

Crack Initiation and Progressive Damage of Three Gorges Granite
Z.Q. Zhu, Q. Sheng, Y.H. Zhang and X.L. Leng .................................................... 1227

Electrochemical Properties of Li0.68Gdo.01FePO4/C Composite Cathode for Lithium-Ion Batteries
B. Sun, Y.F. Chen, K.X. Xiang, W.Q. Gong and H. Chen ................................. 1233

Electrochemical Evaluation on the Corrosion Properties of Welding Zones of 304 Stainless Steel

Effects and Mechanism of Titanium on Cast Fluidity of ZG45
H.T. Wang, H.Z. Xu and H.S. Yu ..................................................................... 1243

Effect of Cooling Rate and Si Content on Solidification Characteristics of Silicon Steel during
Near-Rapid Solidification
L. Wang, X.Y. He, Q. Peng, R. Yang and Q.J. Zhai ............................................. 1247

Simultaneous Observation of Nanocrystalline BaTiO3 Ceramics Surface Morphology and
Ferroelectricity Using Scanning Nonlinear Dielectric Microscopy
C.J. Xiao, Z.X. Li and X.R. Deng ................................................................. 1252

Researchers the Collision Model of Aluminium-Flakes by High Energy Milling (HEM)
X.L. Cai and Z.M. Pei .................................................................................... 1256

Research on Surface Corrosion of the Adaptive Expandable Inner Bracing Screen
J.M. Ma, Y.H. Liu, H. Li and Z.F. Liu ................................................................ 1260

Spring-Back Prediction of U-Channel Stamping with Martensite Transformation
W.J. Dan, W.G. Zhang and S.H. Li .................................................................. 1265

Evaluating Anti-Decay Effect of Rice Straw Based on Grey Correlative Method
Q. Shi and S.X. Chai ..................................................................................... 1270

The Analysis of Pressure Capability of Different Teeth Structures in Ferrofluid Seal
F.F. Xing, D.C. Li and W.M. Yang ............................................................... 1278

Experimental Investigation of the Mixed-Mode Crack Expanding in Bamboo
J.T. Zhao, S.P. Ma, H.R. Liu and H.Q. Ren ..................................................... 1285

Microstructural Evolution of Eutectic Al-Si Alloys Produced by Semi-Continuously DC Casting
during Heating and Hot-Rolling
T. Hong, G. Zhao, N. Tian, F.X. Yu and L.A. Zuo .............................................. 1289
Mechanical Properties of Reinforced Steel Beams Influenced by the Degree of Unloading
L.G. Jia, Y. Gao and L.Z. Hou................................................................. 1293

Reliability of Non Damage Testing and Calculating Method of the Original Defect Size
Q.G. Liu, X.Q. Yu and S.M. Shen...................................................... 1300

The Effect of Controlled Rolling and Cooling on the Microstructure Evolution of Boron
Microalloyed Medium-Carbon Steel
W.H. Yuan, Q. Fu and H. Zhou......................................................... 1305

Study on Weaving Technique Based on Wheel-Rib Mechinnq and Its Influences on Mechanics
Property of Metal Rubber Material
J.C. Yang, G.Q. Liu, H.B. Bai and D.W. Li........................................ 1310

Effects of Nb on Strain-Induced Precipitation of NbC and Static Recrystallization for
High Nb Pipeline Steels

Creep Behaviors of Nickel-Based Single Crystal Superalloys Compact Tension
Specimen at High Temperature
Z.X. Wen, N.X. Hou and Z.F. Yue.................................................... 1322

Early Age Hardening Response of Al-Cu-Mg Alloys
Z.W. Chen, L. Fan and P. Chen.......................................................... 1327

Microstructure Evolution and Mechanical Properties of 780 MPa Hot Dip
Galvanized Dual-Phase Steel
G.B. Li, Z.Z. Zhao and D. Tang......................................................... 1331

Processing Characteristic of the High-Strength Magnesium Alloy
L.Q. Ruan, Y. Kawamura, Y. Marumo and A. Usumoto.......................... 1336

Coercivity Metering as the Basic Method of a Non-Destructive Testing of Fatigue and as the
Priority Method in the Diagnostic Set
B.V. Baskaran, M. Sreenivasan, G.Y. Bezlyudko, Y.I. Yolkina, R.N. Solomakha and B.Y. Popov... 1340

The Consistent Description of Crack Developing Process Based upon Cottrell' Pilling
up of Dislocations Model
A.M. Yang.......................................................... 1346

Effect of Cobalt Additions on the Properties of Sterling Silver Alloys
X.Z. Xiang, X.J. Bai, P.X. Chen and Y.G. Yao.................................... 1350

Experimental Study on the Corrosion Resistance of GFRPP Rebar in Alkali,
Acid and Salt Solutions
C. Wang, L.L. Sui and J.P. Ou......................................................... 1356

Strain-Hardening Behavior of Mg-Li-Zn Alloy Thin Sheets under Tension
H.Y. Wu, P.H. Sun, C.H. Chiu and G.Z. Zhou.................................... 1361

In Situ TEM Heating Study of the γ Lamellae Formation inside the α2 Matrix of
a Ti-45Al-7.5Nb Alloy
L.M. Cha, H. Clemens, G. Dehm and Z.L. Zhang................................ 1365

Study on the Variation of the Properties with Increasing of Bending Cycles of Coiled Tubing
Z.Y. Bi, L.Y. Xian and X.T. Jing....................................................... 1369

Effects of Anions on Corrosion Behavior of Ni-Cu-P Coatings

Reliability Analysis of LCF Life for a Turbine Disk
Y. Gao, C.J. Yang, K. Lin and Q. Gao................................................ 1379

Investigation on Aging Behavior of AZ91D Magnesium Alloy
G.J. Liu, W.F. Li and J.H. Peng....................................................... 1386

Electroplating of Zn Coating on AZ31 Magnesium Alloy in ZnF2 Solution
P. Zhu, X.J. Zhang, J.H. Wu, Y.F. Xu and M. Zhou................................ 1390

The Sustainable Capability Research on Copper- and Iron-Based Oxygen Carrier
L. Chen, J. Jin and H.W. Duan.......................................................... 1398
Effect of Different Filler towards Welding of AA6061 Al Alloy by X-Ray CT Scan
C.L. Nur Azida, A. Jalar, N.K. Othman, N.M. Rashdi and M.Z. Ibel .......................... 1402

Property Study on Novel Waterflood Conformance Control Gels

Fracture Analysis of Plates with Elliptical Hole Fabricated from Q235 Steel
W.Z. Wang and H.T. Ji .................................................................................................. 1410

Effect of Forging Process on Microstructure and Mechanical Properties of Spray Formed Al-8.5Fe-1.3V-1.7Si Alloy
R.H. Zhang, Y.A. Zhang and B.H. Zhu ................................................................. 1415

Enhancement of the Fatigue Property of the Crack of Cruciform Welded Joints by TIG-Dressing
D.X. Li, B.C. Jia and Y.Z. Zhu ................................................................................... 1419

Fracture Test of E43 Solder Notched Bars at Low Temperature

Influence of Electrode Argon-Hydrogen Co-Injection on Carbon Content in Ladle Furnace

Effect of Ti and Zr Deoxidation on Inclusions and Microstructure of Low Carbon Steel
Z.H. Jiang, J.H. Ma, D.P. Zhan, J.C. He and J. Yu .................................................. 1434

Study on MgO-Al2O3-TiO2 Inclusion in 409L Stainless Steel
S.J. Li, Z.Z. Huang, Z.H. Jiang, Y. Li, H.B. Chi and Z.P. Chen ................................. 1440

Measurement and Analysis of Fabric Capillary Radius Distribution
J.F. Di, X.X. He and H.J. Qi ....................................................................................... 1446

Novel Biodegradable Polyurethane Foams Synthesized via Ring-Opening Oligomerization of Ethylene Carbonate Initiated / Catalyzed by Propylene Glycerol / [bmim][C1(SnCl2) System
J.C. Zhou, L. Cheng and D.F. Wu ........................................................................... 1451

Measurement and Estimation of Yarn Pore Size Distribution by Gravity Class
W.Q. Du, X.L. Liu and H.J. Qi .................................................................................. 1458

Fractional Exponent of the Modified Stokes-Einstein Relation in the Metallic Glass-Forming Melt Pd43Cu21Ni0.1P10
M. Ikeda and M. Aniya ......................................................................................... 1463

Metal Content Determination of Metallized Fiber by Density Testing
L.M. Ao and Y.S. Zheng .......................................................................................... 1469

The Relevant Technology Research on Heat Balance Control of Aluminum Reduction Cell
X.Y. Xia and J. Li ..................................................................................................... 1473

Property of Cu-Zr-Ti Ternary Alloys

Dimethyl Ether Catalytic Combustion over Manganese Oxides with Different Structures
L. Yu, G.Q. Diao, F. Ye, M. Sun, Y. Liu and Q. Yu ................................................ 1482

Effect of Ti, Zr and Mg Addition on the Impact Toughness of Heat Affected Zone in Low Carbon Steel
J.H. Ma, D.P. Zhan, Z.H. Jiang, J.C. He and J. Yu ................................................ 1486

Thermal, Mechanical, and Corrosive Behaviors of a Cu-Based Metallic Glass
W.K. An, A.H. Cai, X. Xiong, Y. Liu, Y. Luo, T.L. Li and X.S. Li ............................ 1491

Fatigue Crack Growth Behavior of Friction Stir Welding of 6063-T5 Aluminum Alloys
S. Surapunt .......................................................... 1498

Surface Modification of TA18 by Thermal Oxidation
J. Hu, D.Y. Wang, X.W. Teng, Y. Wang and X.Y. Gao ........................................ 1502

The Mechanics Behavior Tests of HPS-485W Made in China
C.S. Wang, L. Duan, M. Wei and L.X. Liu ........................................................... 1506

Theoretical Modeling and Simulations of Magnetic Fluids in Gradient Magnetic Fields
X.L. Peng, X. Yang, H.B. Wei, R.P. Yue and H.L. Ge ......................................... 1510

Advances in Superalloys

Modelling of Cyclic Plasticity and Viscoplasticity of a Nimonic Alloy 75
Z.L. Zhan, G.P. Liu and X. Chen ......................................................... 1617

Effect of Pickling Process on Adhesion Strength of TiOxide Layer on Titanium Alloy Substrate

The Preparation of Sludge-Based Activated Carbon and its Physical and Chemical Characteristics
Z.W. Jiang, K. Kang, X.M. Xu, Y.L. Zhang and X.J. Wang ......................................................... 1631

Investigation of the Laser Melting Deposited TiAl Intermetallie Alloy on Titanium Alloy
Y.B. Zhang, H.X. Li and K. Zhang ......................................................... 1638

Investigation of Temperature and Deformation of Mold Copper Plate in Slab Continuous Casting
X.Z. Zhang, Z.Y. Jiang, C.X. Dou and Q. Zhang ......................................................... 1642

Effect of Cryogenic Treatments on Mechanical Properties of 2A11 Aluminum Alloy
J.J. Wang, X.D. Xue, Z.Q. Yang, H. Zhang and Y. Zhou ......................................................... 1646

Sound Absorption Properties of Aluminum Sponges Manufactured by Infiltration Process
P.M. Fernández, L.J.R. Cruz, L.E. García Cambronero, C. Díaz and M.A. Navacerrada ......................................................... 1651

The Effect of Temperature on the Surface Chemistry of Aluminum Alloy
P-Ni Alloy Plating Quality
Q.H. Chang, E.H. Zhi, X.P. Wu, J. Han and Y.F. Chen ......................................................... 1655

Theory and Experimental Research on Inclusion Modification in Improved Carbon Structural Steel

Comparing Age Hardening Behaviors of Al-3Cu and Al-8Si-3Cu Alloys
G.Q. Wang, Y. Liu, G.C. Ren and Z.K. Zhao ......................................................... 1667

Microstructure and Mechanical Properties of Ti-6Al-Mo-Fe Alloy Prepared by Powder Metallurgy
T.G. Wang, Q. Qin and D.J. Zhou ......................................................... 1671

Preparation and Modification of Nano- TiO2 Pigment for Coating
X.H. Zhang, Q.G. Cao, L. Hu and J.Y. Cui ......................................................... 1675

Comparative Study on Data Editing Techniques for Fatigue Time Series Signals
Z.M. Nopiah, S. Abdullah, M.N. Baharin, T.E. Putra, S.N. Sahadan and K.O. Willis ......................................................... 1681

Analyzing Si Precipitation on Age Hardening of an Al-Si-Mg Cast Alloy
G.Q. Wang, Y. Liu, G.C. Ren and Z.K. Zhao ......................................................... 1685

Influences of Slag and Fly Ash on the Microstructure Property and Compressive Strength of Concrete
A.S. Cheng, C.H. Huang, T. Yen and Y.L. Luo ......................................................... 1690

Application of Artificial Neural Network Based on GA-BP Algorithm to Predicting Mechanical Properties of TC4
Z.Z. Hou and Y.L. Du ......................................................... 1698

Microstructure and Creep Property of As-Cast Mg-6Al-xNd (x=2,4,6) Alloys
Y.F. Wu, W.B. Du, Y.N. Zhang and T.Y. Zuo ......................................................... 1702

Effective Service Life Assessment of Aluminum Alloy Alclad Corrosion Protection under Equivalent Accelerated Condition
D.F. Zhang, X.M. Tan, Y.L. Chen and F.J. Sun ......................................................... 1708

Kinetics of Mg2Sn Synthesis Reaction under Isothermal Condition
Y.F. Wu, W.B. Du, Z.H. Wang and T.Y. Zuo ......................................................... 1712

Study of TiAl Alloy Surface Plasma Modified Corrosion Resistance
B.Y. Wang, X.M. Yuan and X.P. Liu ......................................................... 1717

Study on Semi-Solid Magnesium Alloy Produced by Mechanical Stirring
B.F. Zhou and H. Yan ......................................................... 1723

An Analysis on Formation of ANF-6 Electroslag Fluxes Skin of Electroslag Remelting Ingot
J.P. Yao, Z. Sun and W.F. Yang ......................................................... 1729
Bismaleimide Matrix Composites with High Wear Resistance Modified byPotassium Titanate Whiskers
X.L. Hu, Z. Lin and M.F. Yu

Finite Element Simulation of Die Design for Equal Channel Angular Extrusion Process of Pure
Aluminum and its Experimental Investigation
S.B. Xu, C.N. Jing, G.C. Ren and G.Q. Zhao

Corrosion Behaviour of a Fe-Based Alloy in Zn and Zn-55Al Baths
J.C. Zhang, Y.X. Li, Y. Zhang, J.Y. Liu and J. Liu

The Effect of Minimal Quantity Lubrication (MQL) on the Surface Roughness of Titanium
Alloy Ti-6Al-4V ELI in Turning Process
C.H.C. Haron, J.A. Ghani, M.A. Sulaiman, L.R. Intan and M.S. Kasim

Preparation and Photoactivity of Titanium Dioxide-Coated Carbon Felt Using
Supercritical Carbon Dioxide
Y.J. Li, W. Chen, L.Y. Li and M.Y. Ma

Low Frequency Mechanical Spectroscopy of High Damping Mg-3wt.%Ni Alloy
D.Q. Wan and Y.J. Liu

Icosahedral Quasicrystal Grains Growth and Evolution in Mg-Zn-Y
Y.J. Li and D.Q. Wan

Macroscopic and Mesoscopic Large Deformation Measurement Methods for Metal Materials
C.P. Liu and Q.Q. Duan

In Situ Mg3Si Reinforced Mg Alloy Synthesized in Mg-SiO2 System
D. Huang, Y.L. Wang, Y. Wang, H.B. Cui and X.F. Guo

Very High Cycle Fatigue Behavior of Carbon Manganese Steels
H.Q. Xue and D. Wagner

Mathematical Model of Relation between Microstructure and the Yield Strength of High
Carbon Steel Wire Rods
Y.L. Feng and J. Li

Cooling by the Sine Function to Produced Semi-Solid Aluminum Alloys
S.Y. Zhang, X.Q. Guo, C.H. Liu, S.Z. Li and Y. Zhang

Shrinkage Stress Analysis of the Restored-Tooth Structure by the Finite Element Method
G.P. Chen, S.W. Zhu and J.L. Tao

Effect of Electromagnetic Vibration on Microstructures of Semi-Continuous Casting AZ80
Magnesium Alloy Billet
Z.Q. Zhang, Q.C. Le, J.Z. Cui and S.J. Guo

Photocatalytic Degradation of Methylene Blue Using Immobilized Nanoparticles of TiO2
Supported by SBA-15 Surface
Y.J. Li, W. Chen, L.Y. Li and M.Y. Ma

Cellular Automaton Modeling of the Isothermal Hot Compression Phase Transformation in
TA15 Titanium Alloy
G.Q. Gan, K.M. Xue and P. Li

Quantifying Partially-Carbonated Profiles of Concrete with Low Water/Binder Ratio Exposed
to Natural Carbonation
M.F. Ba and C.X. Qian

Influence of Solution Conditions on Aging Response of Ti-3.5Al-5Mo-4V-2Cr-1Fe-2Zr-2Sn
Titanium Alloy
P. Ge

Preperation of Ceramic Coatings on Ti Alloy by Surface Nanocrystallization/
Micro-Arc Oxidation
J.X. Zhang and G.D. Hao

Effect of Ca, Sc and Er Microalloying on the Microstructure and Properties of AZ61 Alloys by
Electromagnetic Casting
