AEI 2011

Building Integration Solutions

PROCEEDINGS OF THE 2011 ARCHITECTURAL ENGINEERING NATIONAL CONFERENCE

March 30–April 2, 2011
Oakland, California

SPONSORED BY
The Architectural Engineering Institute (AEI)
of the American Society of Civil Engineers

EDITED BY
Abraham C. Lynn, Ph.D.
Robert Reitherman

Published by the American Society of Civil Engineers
Contents

Architectural Engineering Education

The Temple of Antioch: A Study Abroad Internship for Architectural Engineering Students ......................................................... 1
Ece Erdogmus, Cody M. Buckley, and Holly Brink

The Golden Gate Bridge Outdoor Exhibition: Public Works for Public Learning ............ 10
Denis Mulligan and Robert Reitherman

The Retention of Women in the Architectural Engineering Workforce .................. 19
J. A. Keen

Using Case Studies to Characterize the Broader Meaning of Engineering Design for Today's Student .................................................. 28
Pamalee A. Brady and John W. Lawson

Carnegie Mellon University Facilities as an Educational Laboratory ....................... 36
Donald Coffelt and Chris Hendrickson

Drawing and Modeling: Analog Tools in the Age of BIM ........................................ 44
Anthony Denzer and Jon Gardzelewski

Hands-On Green Building Activities for Beginning Students .............................. 54
Anthony Denzer and Kendra Heimbuck

Structural Integration Solution for the Texas A&M 2007 Solar Decathlon “GroHome” .......................................................... 65
A. B. Nichols and P. Fisk

A. B. Nichols

Public Private Partnership (PPP)—Sustainability in the Context of PPP Educational Projects in Ireland ............................................... 81
Renuka Rajput and Louis Gunningan

Participation of Women in Architectural Engineering: What Causes It? .............. 89
Allen C. Estes and Pamalee Brady

Interdisciplinary Design Experience for the Masses ............................................ 97
Brent Nuttall, Jill Nelson, and Allen C. Estes

Accreditation—The New Architectural Engineering Program Criteria .................. 105
Allen C. Estes, Jay Puckett, Richard E. Klingner, Clarence E. Waters, John A. Zachar, Raphael A. Yunk, and James E. Mitchell

Building Envelope

You Can't Judge a Book by Its Cover: Rethinking the Open Rainscreen for the Exterior Building Envelope ........................................ 113
Bradley Lukanic, Joseph V. Muscarella, and Carol Friedman
Evaluation of Three-Coat Stucco Installations on Commercial Buildings
Joel Wolf, Michael Goeringer, and Amanda Maino

Managing Occupant Comfort with Highly Transparent All-Glass Facades
David Green, Mark Scott, and Randy Burkett

Introduction of a Transparent Sustainable Load-Bearing Wall System with Integrated Photovoltaic for Residential Construction
A. M. Memari and Joseph A. Standley

Racking Test Evaluation of Unitized Curtain Wall Systems Using Glazing Tapes
A. M. Memari, K. Hartman, and P. A. Kremer

Seismic Evaluation of Storefront Systems through Cyclic Racking Test
A. M. Memari, P. A. Kremer, and K. Hartman

Seismic Evaluation of the Four-Sided Structural Sealant Glazing Curtain Wall System for Cathedral Hill Hospital Project
A. M. Memari, S. Fisher, C. Krumenacker, K. A. Broker, and R.-U. Modrich

Structural Systems

Analytical Load and Dynamic Increase Factors for Progressive Collapse
Meng-Hao Tsai

Blast Resistant Design Technology and Its Use in Antiterrorism Protection of Structures
Darell Lawver, David Vaughan, Darren Tennant, and Jim Weeks

Natural Structural Systems and Forms
M. Sarkisian, E. Long, C. S. Doo, and D. Shook

Sustainable Structural Systems and Configurations for Tall Buildings
Kyoung Sun Moon

Structural Engineering for Complex-Shaped Tall Buildings
Kyoung Sun Moon

FEMA P-58—Next-Generation Performance Assessment of Buildings
Ronald O. Hamburger

Determination of Building Modal Parameters Using Low-Level Excitation
G. Archer and C. C. McDaniel

Building Energy Systems

Identifying the Determinants of Energy Use in Texas A&M University Campus at Kingsville
J. A. J. Caeiro, W. Gang, and J. Glusing

Energy Efficient Method Identification for an Education Building
Emmanuel Ayala, Jelisa Kocurek, Joel Wright, Leah Sijansky, Jackie Chang, Ricardo Contreras, Jr., and Gang Wang

Air-to-Air Variable Refrigerant Flow Systems
Paul Wicoff and Julia Keen
