# TABLE OF CONTENTS

## VOLUME 1

### KEYNOTE ADDRESS

10001 Pavement Cracking: Mechanisms, Analysis, and Mitigation
Reynaldo (Rey) Roque

### PLENARY SESSION 1: ACHIEVEMENTS AND CHALLENGES IN HOT MIX ASPHALT

10002 North American Shifts in Hot Mix Asphalt Technology
Gerald A. Huber

10003 Developments in Europe and in the European Asphalt and Bitumen Standards
Egbert Beuving

10004 Development in Hot Mix Asphalt in Asia
A. Kasahara

10005 Hot Mix Asphalt Technology Challenges and Solutions
David E. Newcomb, Kent R. Hansen

### PLENARY SESSION 2: STRUCTURAL DESIGN AND PAVEMENT PERFORMANCE

10006 Developments and Challenges in Mechanistic - Empirical Pavement Design Methods
R. Haas

10007 Products and Benefits from the Long-Term Pavement Performance Program
G. Rada, G. Elkins, A. Lopez

10008 Supporting The Development of Performance Models with Accelerated Loading Data
Jean-Michel Piau

10009 Three Decades of Development and Achievements: The Heavy Vehicle Simulator in Accelerated Pavement Testing
B. Verhaeghe, E. Sadzik, A. Visser

### PLENARY SESSION 3: PAVEMENT RECYCLING: SEEKING THE RIGHT BALANCE

10010 Pavement Recycling: The Usage of Asphalt Pavement Recycling to Achieve Technical, Economical and Environmental Sustainability in Road Serviceability
Stephen Damp

10011 What Do We Expect from Recycling in a Road Construction Company?
Francois Chaignon

10012 Development and Performance of Asphalt Pavement Recycling Techniques in the Americas
J. Emery

10013 Evolution of Flexible Pavement Recycling in Ontario - An Agency’s Perspective
T. Kaszniowski, S. Chan

### DEVELOPMENTS IN ASPHALT PAVEMENT MATERIALS

10014 Evaluation and Challenges of the Flow Number Simple Performance Test
B. Sullivan, M. Quayum, K. Kaloush, M. Witczak

10015 Development of a New Asphalt Mix Design System in Norway
B. Lerfeld, J. Aursland, L. Baklokk

10016 Aggregate Quality and the Influence on the Rutting in Asphalt Pavements
Ivar Horvli, Einar Vernes

10017 Comparison of Field and Laboratory Compacted Asphalt Mixtures
G. Airey, A. Collop, S. Zoorob, A. Hunter

10018 Flexible Pavement and Soil Behavior in a Restored Pavement Cut
Mark Knight, Alireza Boyat, Adedamola Adeleke

10019 Evaluation of Automated Distress Collection Techniques: An Ontario Case Study
R. Capurutto, S. Tighe, L. Ningxuan, T. Kaszniowski
Factors Affecting Resilient Modulus
M. Saleh, S. Ji

Performance Prediction of Asphalt Pavements Loaded by MMLS Using Material-Level Laboratory Test Methods and Performance Models
Sugjoo Lee, Youngguk Seo, Richard Kim

Influence of Contact Surface Roughness on Interlayer Shear Resistance
M. Parti, F. Canestrari, G. Ferrarini, F. Sanlagata

The Use of Dynamic Modulus and Creep Tests in the Development of Rutting Resistant Criteria for Asphalt Mixes in Canada
L. Uzarowski, M. Maher, Hana Prilesky, S. Tighe, Leo Rothenburg

Thermo-mechanical Properties of Stone Mastic Asphalt (SMA) - Experimentation and Rheological Modeling
D. Perraton, H. Di Benedetto, P. Olard, H. Baaj, C. Sansat

Using TSRST to Determine the Influence of Thermal Fatigue on Hot Mix Properties
M. Paradis, P. Langlois

Comparison Mechanical Properties Determined with Co-axial shear Test and Four Point Bending test
M. van de Yen, J. Voskuilen, R. Gubler

Comparison and Laboratory Validation of Rheological Tests for the Low Temperature Performance of Asphalt Mixes
A. Vanelstraete, P. Peaureaux, F. Vervaecke

Determination of the Low Temperature Bitumen Cracking Properties: Fracture Mechanics Principle Applied to a Three Points Bending Test using a Non Homogeneous Geometry
E. Chailleux, D. Hamon, V. Mouillet

Characterisation of Fatigue Performance of Selected Cold Bituminous Mixes
M. Twagira, K. Jenkins, L. Ebels

Resilient Modulus Characterization of Granular Materials at MTQ and LCPC
Felix Doucet

The Suction Pressure, Yield Strength and Effective Stress of Partially Saturated Unbound Granular Pavement Layers
H. Theyse

Noise Reducing Asphalt Pavements: A Canadian Case Study
F. Leung, S. Tighe, G. MacDonald, S. Penlon

Development of Three-Layered HMA Composite
B. Huang, X. Shu

Fatigue Behaviour of Bitumen-Filler Mastics
G. Airey, M-C. Liao, N. Thom

Curing Characteristics and the Performance and Durability of Epoxy Asphalts
I. Widyamurso, B. Zhao, R. Elliott, W. Lloyd

Rheological Characterization of the Fatigue Resistance of Asphalt Binders
M. Bocei, P. Cardone, G. Cerni, E. Santagata

Development of A High Temperature Performance Based Binder Specification in the United States
J. D'Angelo, R. Dongre

Experimental Study of Rheological Properties of Various Fiber Modified Asphalt Binders at High Temperature
Shaopeng Wu, Zheng Chu, Liansong Mo, Qunshan Ye

A Full Scale Experiment on Asphalt Rubber Modified Pavements in California
M. Cook, T. Bresette, S. Holikatti, H. Zhou, R. Hicks

Influence of Crumb Rubber on the Fatigue Performance of Asphalt Pavement
S-C. Huang, A. Pauli, A. Beemer, R. Robertson

Effect of Crumb Rubber-Bitumen Interaction on the Dynamic Properties of Bituminous Binders
I. Arismendi, H. Khalid

The Influence of Recycled Asphalt Pavement on 20mm Binder Course Mix Performance
A. Tabakovic, A. Gibney, M. Gilchrist, C. McNally

Recent Development in Recycling Binders for In-Place Cold Recycling of Bituminous Aggregate
J-M. Croleau, Keith Davidson

Laboratory and Field Studies of Recycled Asphalt Concrete for Airport Pavement Surface Courses
Y. Ichiki, Y. Tsukinawa, O. Takahashi
10071 Advances in Hot In-Place Recycling Technology ................................................................. 732
  J. Emery
10072 Laboratory Investigation of Effects of Crumb Rubber on Asphalt Binders ......................................................... 742
  B. Putman, S. Amerkhomian
10073 Added Value Potential of Processed Plastic Aggregate and ISF Slag in Asphalt ................................................ 752
  I. Widiatmoko, F. Moulinier, A. Dunster
10074 Evaluation of SMA Mixtures Produced with Asphalt-Rubber Binder in a LCPC Wheel Tester ........................ 762
  J. Fernandes Jr., C. Neves, L. Bernucci
10075 The Influence of the Mineral Nature and the Temperature of the Aggregate in the Water Resistance of Foam Bitumen Stabilized Mixes ................................................................. 772
  Keith Davidson, J-M. Croteau
10076 Characterisation of Foam Bitumen Quality and the Mechanical Properties of Foam Stabilised Mixes .................... 781
  M. Saleh
10077 Strategy Selection for DISR-Foamed Asphalt: Stiffer or More Flexible ...................................................... 791
  P. Fu, J. Harvey
10078 Evaluation of Cold-in-Place Recycling Using Foamed Asphalt ........................................................................ 801
  A. Loizos, V. Papavasiliou, C. Plati
10079 Field Investigation of Factors Associated With Moisture Damage in Asphalt Pavements ..................................... 811
  Q. Lu, J. Harvey
10080 Evaluation of Material Property Tests to Predict Moisture Susceptibility of HMA ................................................. 821
  A. Bhasin, A. Chowdhury, J. Button, D. Little
