TABLE OF CONTENTS

5TH INTERNATIONAL SYMPOSIUM ADVANCES IN ARTIFICIAL INTELLIGENCE AND APPLICATIONS

A BREAST CANCER CLASSIFIER BASED ON A COMBINATION OF CASE-BASED REASONING AND ONTOLOGY APPROACH ................................................................. 1
E. Abdrabou, A. Salem

USING DATA MINING FOR ASSESSING DIAGNOSIS OF BREAST CANCER ................................................................................................................. 9
M. Abdelaal, H. Sena, M. Farooq, A. Salem

ADVANCED SCALE-SPACE INVARIANT, LOW DETAILLED FEATURE RECOGNITION FROM IMAGES - CAR BRAND RECOGNITION .................................................. 16
S. Badura, S. Poltan

EVALUATION OF CLUSTERING ALGORITHMS FOR POLISH WORD SENSE DISAMBIGUATION ................................................................. 21
R. Broda, W. Mazur

GENERATION OF FIRST-ORDER EXPRESSIONS FROM A BROAD COVERAGE HPSG GRAMMAR .................................................................................. 29
R. Coote, A. Wozlaw

PSO BASED MODELING OF TAKAGI-SUGENO FUZZY MOTION CONTROLLER FOR DYNAMIC OBJECT TRACKING WITH MOBILE PLATFORM ........................................... 33
M. Gupta, L. Babara, K. Venkatesh

HIERARCHICAL OBJECT CATEGORIZATION WITH AUTOMATIC FEATURE SELECTION ....................................................................................... 40
M. Islam, A. Sluzek

SELECTING THE BEST STRATEGY IN A SOFTWARE CERTIFICATION PROCESS ................................................................................. 47
V. Bably, R. Janicki, A. Wasznyg, A. Bogobolcz, W. Koscikotaj

EXTRAPOLATION OF NON-DETERMINISTIC PROCESSES BASED ON CONDITIONAL RELATIONS ........................................................................... 53
J. Kulikowski

REASONING IN RDF GRAPHICAL FORMAL SYSTEM WITH QUANTIFIERS ................................................................................................. 60
A. Lukzanova, M. Vajg, M. Zacek

COEVOLUTIONARY ALGORITHM FOR RULE INDUCTION ......................................................................................................................... 66
P. Myszkowski

EVOLUTIONARY ALGORITHM IN FOREX TRADE STRATEGY GENERATION ................................................................................................. 73
P. Myszkowski, A. Bicz

EMOTION-BASED IMAGE RETRIEVAL—AN ARTIFICIAL NEURAL NETWORK APPROACH ................................................................. 81
K. Olkiewicz, U. Markowska-Kaczmar

AUTOMATIC VISUAL CLASS FORMATION USING IMAGE FRAGMENT MATCHING ....................................................................................... 89
M. Paradowski, A. Sluzek

LEARNING TAXONOMIC RELATIONS FROM A SET OF TEXT DOCUMENTS ......................................................................................... 97
M. Paukkeri, A. Garcia-Plaza, S. Pessala, T. Honkela

METRIC PROPERTIES OF POPULATIONS IN ARTIFICIAL IMMUNE SYSTEMS USING HADAMARD REPRESENTATION ................................................................. 105
Z. Piuzka, O. Unold

THE DEVELOPMENT FEATURES OF THE FACE RECOGNITION SYSTEM ......................................................................................... 112
R. Sadykhov, I. Frolov

MULTISCALE SEGMENTATION BASED ON MODE-SHIFT CLUSTERING ................................................................................................. 120
W. Tarnawski, L. Miraszew, R. Pawlikowski, K. Ostega

RELATIONAL DATABASE AS A SOURCE OF ONTOLOGY CREATION ......................................................................................... 125
Z. Telnarova

EMOTIONAL SPEECH ANALYSIS USING ARTIFICIAL NEURAL NETWORKS ......................................................................................... 130
J. Tuckova, M. Sramka

USAGE OF REFLECTION IN .NET TO INFERENCE OF KNOWLEDGE BASE ......................................................................................... 137
M. Vajgl

ON THE EVALUATION OF THE LINGUISTIC SUMMARIZATION OF TEMPORALLY FOCUSED TIME SERIES USING A MEASURE OF INFORMATIVENESS ......................................................................................... 143
A. Wilbik, J. Kacprzyk
WORKSHOP ON AGENT BASED COMPUTING: FROM MODEL TO IMPLEMENTATION VII

JAVA-BASED MOBILE AGENT PLATFORMS FOR WIRELESS SENSOR NETWORKS .................................................. 151
F. Aiello, A. Carbone, G. Fortino, S. Galzarano

BEESYBEES—EFFICIENT AND RELIABLE EXECUTION OF SERVICE-BASED WORKFLOW
APPLICATIONS FOR BEESYCLUSTER USING DISTRIBUTED AGENTS .................................................. 159
P. Czarnul, M. Matuszek, M. Wojcik, K. Zalewski

A TECHNIQUE BASED ON RECURSIVE HIERARCHICAL STATE MACHINES FOR
APPLICATION-LEVEL CAPTURE OF AGENT EXECUTION STATE .................................................. 167
G. Fortino, F. Rango

REORGANIZATION IN MASSIVE MULTIAGENT SYSTEMS .................................................. 175
H. Hexmoor

EFFECTIVENESS OF SOLVING TRAVELING SALESMAN PROBLEM USING ANT COLONY OPTIMIZATION ON DISTRIBUTED MULTI-AGENT MIDDLEWARE .................................................. 182
S. Ilie, C. Badica

SELECTED SECURITY ASPECTS OF AGENT-BASED COMPUTING .................................................. 189
P. Szpryngier, M. Matuszek

AGENT-ORIENTED MODELLING FOR SIMULATION OF COMPLEX ENVIRONMENTS .................................................. 193
I. Shvartsman, K. Taveter, M. Parmak, M. Meriste

IMPROVING FAULT-TOLERANCE OF DISTRIBUTED MULTI-AGENT SYSTEMS WITH MOBILE NETWORK-MANAGEMENT AGENTS .................................................. 201
D. Mitrovic, Z. Budimac, M. Ivanovic, M. Vidakovic

ARGUMENTATIVE AGENTS .................................................. 207
F. Toni

AN AGENT BASED PLANNER FOR INCLUDING NETWORK QOS IN SCIENTIFIC WORKFLOWS .................................................. 214
Z. Zhao, P. Grozio, R. Koning, J. Ham, C. Leal

INTERNATIONAL WORKSHOP ON ADVANCES IN BUSINESS ICT

A METHOD FOR CONSOLIDATING APPLICATION LANDSCAPES DURING THE POST-MERGER-INTEGRATION PHASE .................................................. 222
A. Freitag, F. Matthes, C. Schulz

HYBRIDIZATION OF TEMPORAL KNOWLEDGE FOR ECONOMIC ENVIRONMENT ANALYSIS .................................................. 230
M. Mach

INDEPENDENT OPERATOR OF MEASUREMENTS AS A VIRTUAL ENTERPRISE ON THE ENERGY MARKET .................................................. 236
B. Matusiak

A TWO-LEVEL ALGORITHM OF TIME SERIES CHANGE DETECTION BASED ON A UNIQUE DEVIATIONS SIMILARITY METHOD .................................................. 240
T. Pelech-Pilichowska, J. Duda

STRATEGOS: A CASE-BASED APPROACH TO STRATEGY MAKING IN SME .................................................. 245
J. Surma

SUPPORT OF THE E-BUSINESS BY BUSINESS INTELLIGENCE TOOLS AND DATA QUALITY IMPROVEMENT .................................................. 250
M. Tvrndikova, O. Koubek

COMPUTER ASPECTS OF NUMERICAL ALGORITHMS

THE EXPERIMENTAL ANALYSIS OF GMRES CONVERGENCE FOR SOLUTION OF MARKOV CHAINS .................................................. 258
B. Bylina, J. Bylina

ON THE NUMERICAL ANALYSIS OF STOCHASTIC LOTKA-VOLTERRA MODELS .................................................. 266
T. Dayar, L. Mikaev, Y. Wolf

FINITE ELEMENT APPROXIMATE INVERSE PRECONDITIONING USING POSIX THREADS ON MULTICORE SYSTEMS .................................................. 274
G. Gravvanis, P. Matskanila, K. Giammoutakis, E. Lipitakis
ON THE IMPLEMENTATION OF PUBLIC KEYS ALGORITHMS BASED ON ALGEBRAIC
GRAPHS OVER FINITE COMMUTATIVE RINGS ........................................280
M. Klisowski, V. Ustimenko

ANALYSIS OF PSEUDO-RANDOM PROPERTIES OF NONLINEAR CONGRUENTIAL
GENERATORS WITH POWER OF TWO MODULUS BY NUMERICAL COMPUTING OF THE
B-ADIC DIAPHONY ....................................................................................286
I. Lirkov, S. Stoylova

ASSEMBLING RECURSIVELY STORED SPARSE MATRICES ..........................293
D. Martone, S. Filippone, S. Tucci

USE OF HYBRID RECURSIVE CSR/COO DATA STRUCTURES IN SPARSE MATRICES-
VECTOR MULTIPLICATION ......................................................................302
M. Martone, S. Filippone, P. Gepner, M. Papierski

HIGHER ORDER FEM NUMERICAL INTEGRATION ON GPUS WITH OPENCL .....311
P. Plaszewski, K. Banar, P. Maciol

PARALLELIZATION OF SVD OF A MATRIX-SYSTOLIC APPROACH ............317
H. Snoopce, J. Spahiu

SOLVING A KIND OF BVP FOR ODES ON HETEROGENEOUS CPU + CUDA-ENABLED GPU
SYSTEMS ...............................................................................................323
P. Styczebski, J. Poliopa

COMPUTATIONAL LINGUISTICS-APPLICATIONS

USING SELF ORGANIZING MAP TO CLUSTER ARABIC CRIME DOCUMENTS ..........328
M. Alruily, A. Ayesh, A. Al-Marghilani

QUALITY BENCHMARKING RELATIONAL DATABASES AND LUCENE IN THE TREC4
ADHOC TASK ENVIRONMENT ................................................................335
A. Arslan, O. Yilmazel

PARALLEL, MASSIVE PROCESSING IN SUPERMATRIX — A GENERAL TOOL FOR
DISTRIBUTIONAL SEMANTIC ANALYSIS OF CORPUS ................................343
B. Broda, D. Jaworski, M. Piatecki

DEVELOPMENT OF A VOICE CONTROL INTERFACE FOR NAVIGATING ROBOTS AND
EVALUATION IN OUTDOOR ENVIRONMENTS ........................................350
K. Coote

THE ROLE OF THE NEWLY INTRODUCED WORD TYPES IN THE TRANSLATIONS OF
NOVELS .................................................................................................358
M. Csernoch

SYMGIZAX++: A TOOL FOR PARALLEL COMPUTATION OF SYMMETRIZED WORD
ALIGNMENT MODELS ...........................................................................366
M. Junczys-Dowmunt, A. Stal

SEMI-AUTOMATIC EXTENSION OF MORPHOLOGICAL LEXICA ..................371
T. Kaufmann, B. Pfister

AUTOMATIC EXTRACTION OF ARABIC MULTI-WORD TERMS ....................378
E. Khatib, A. Badarneh

"BEAUTIFUL PICTURE OF AN UGLY PLACE". EXPLORING PHOTO COLLECTIONS USING
OPINION AND SENTIMENT ANALYSIS OF USER COMMENTS ....................386
S. Kisilevich, C. Rohrdanz, D. Keim

LEXITRON-PRO EDITOR: AN INTEGRATED TOOL FOR DEVELOPING THAI
PRONUNCIATION DICTIONARY ................................................................396
L. Klaithin, P. Chootrakool, K. Kasemrat

AUTOMATIC DETECTION OF PROMINENT WORDS IN RUSSIAN SPEECH ........401
D. Kocharov

COMPUTING TREES OF NAMED WORD USAGES FROM A CROWDSOURCED LEXICAL
NETWORK ..............................................................................................405
M. Lafourcade, A. Jeubert

REFGEN: A TOOL FOR REFERENCE CHAINS IDENTIFICATION ....................413
L. Longo, A. Todirascu

IS SHALLOW SEMANTIC ANALYSIS REALLY THAT SHALLOW? A STUDY ON IMPROVING
TEXT CLASSIFICATION PERFORMANCE ................................................421
P. Maciulek, G. Dobrowolski

PERGRAM: A TRALE IMPLEMENTATION OF AN HPSG FRAGMENT OF PERSIAN ....427
S. Muller, M. Ghayoomi
WORDNETLOOM: A GRAPH-BASED VISUAL WORDNET DEVELOPMENT FRAMEWORK
M. Plasecki, M. Marcinek, A. Mustal, R. Ramecki, M. Maziarz
BUILDING AND USING EXISTING HUNSPELL DICTIONARIES AND TEXHYPHENATORS AS
FINITE-STATE AUTOMATA
T. Pirinen, K. Linden
THE POLISH CYC LEXICON AS A BRIDGE BETWEEN POLISH LANGUAGE AND THE
SEMANTIC WEB
A. Pohl
TOOLS FOR SYNTACTIC CONCORDANCING
V. Seretan, E. Wehrli
EFFECTIVE NATURAL LANGUAGE PARSING WITH PROBABILISTIC GRAMMARS
P. Skorzewski
FINDING PATTERNS IN STRINGS USING SUFFIXARRAYS
H. Stehouwer, M. Zaanen
ENTITY SUMMARISATION WITH LIMITED EDGE BUDGET ON KNOWLEDGE GRAPHS
M. Sydow, M. Pikula, R. Schenklo, A. Siemion
MULTIPLE NOUN EXPRESSION ANALYSIS: AN IMPLEMENTATION OF ONTOLOGICAL
SEMANTIC TECHNOLOGY
J. Taylor, Y. Raskin, M. Petrenko, C. Hempelmann
A WEB-BASED TRANSLATION SERVICE AT THE UOC BASED ON APERTIUM
J. Waszczuk, K. Glowińska, A. Savary, A. Przepiórkowski
TRF – TRANSLATION ENHANCEMENT FRAMEWORK FOR JAPANESE-ENGLISH
B. Wioka, W. Winiwarter
MATURA EVALUATION EXPERIMENT BASED ON HUMAN EVALUATION OF MACHINE
TRANSLATION
A. Wojak, F. Gralinski
GERMAN SUBORDINATE CLAUSE WORD ORDER IN DIALOGUE-BASED CALL
M. Wolska, S. Wilska
POLISH PHONES STATISTICS
B. Ziółko, J. Galań
APYCA: TOWARDS THE AUTOMATIC SUBTITLING OF TELEVISION CONTENT IN
SPANISH
J. Alvarez, A. Pozo, A. Arruti

10TH INTERNATIONAL MULTIDISCIPLINARY CONFERENCE ON E-COMMERCE AND E-
GOVERNMENT

TRUSTED DATA IN IBM'S MDM: ACCURACY DIMENSION
P. Pawlik
MULTICRITERIA EVALUATION OF DVB-RCS SATELLITE INTERNET PERFORMANCE
USED FOR E-GOVERNMENT AND E-LEARNING PURPOSES
A. Skalimowski
INFOMAT-E – PUBLIC INFORMATION SYSTEM FOR PEOPLE WITH SIGHT AND HEARING
DYSFUNCTIONS
M. Gorka, A. Plasecki, B. Silek, M. Socha
BIDIRECTIONAL VOTING AND CONTINUOUS VOTING CONCEPTS AS POSSIBLE IMPACT
OF INTERNET USE ON DEMOCRATIC VOTING PROCESS
J. Wachowiak
THE DOUBLE JEOPARDY PHENOMENON AND THE ELECTRONIC DISTRIBUTION OF
INFORMATION
U. Świerczynska-Kaczor, A. Borcuch, P. Kossecki

INTERNATIONAL SYMPOSIUM ON E-LEARNING-APPLICATIONS

SIMPLE BLOG SEARCHING FRAMEWORK BASED ON SOCIAL NETWORK ANALYSIS
J. Dolińska
6TH WORKSHOP ON LARGE SCALE COMPUTATIONS ON GRIDS AND 1ST WORKSHOP ON SCALABLE COMPUTING IN DISTRIBUTED SYSTEMS

EXPLORATORY PROGRAMMING IN THE VIRTUAL LABORATORY ............................................................ 572
E. Ciepiela, D. Harezlak, J. Kocot, T. Barlynski, M. Kasztelnik, P. Nowakowski, T. Gubala, M. Malawski, M. Bubak

MODELLING, OPTIMIZATION AND EXECUTION OF WORKFLOW APPLICATIONS WITH DATA DISTRIBUTION, SERVICE SELECTION AND BUDGET CONSTRAINTS IN BEESEYCLUSTER ............................................................ 580
P. Czarnul

MULTI-LEVEL PARALLELIZATION WITH PARALLEL COMPUTATIONAL SERVICES IN BEESEYCLUSTER ............................................................ 588
P. Czarnul

MANAGING LARGE DATASETS WITH IRODS—A PERFORMANCE ANALYSES ........................................... 597
D. Hunich, R. Muller-Pfefferkorn

SERVICE LEVEL AGREEMENTS FOR JOB CONTROL IN HIGH-PERFORMANCE COMPUTING ............... 605
R. Kubert, S. Wesner

A MODELING LANGUAGE APPROACH FOR THE ABSTRACTION OF THE BERKELEY OPEN INFRASTRUCTURE FOR NETWORK COMPUTING (BOINC) FRAMEWORK ............................................................ 612
B. Schott, A. Emman

GREEN METHODOLOGIES IN DESKTOP GRID: AN INVITATION FOR DISCUSSION BY THE DEGISCO PROJECT ............................................................ 620

RESOURCE FABRICS: THE NEXT LEVEL OF GRIDS AND CLOUDS ............................................................ 626
L. Schubert, M. Assel, S. Wesner

2ND INTERNATIONAL WORKSHOP ON MEDICAL INFORMATICS AND ENGINEERING

AGILE METHODOLOGY AND DEVELOPMENT OF SOFTWARE FOR USERS WITH SPECIFIC DISORDERS ............................................................ 634
R. Fojtik

3RD INTERNATIONAL SYMPOSIUM ON MULTIMEDIA-APPLICATIONS AND PROCESSING

AN HYPERGRAPH OBJECT ORIENTED MODEL FOR IMAGE SEGMENTATION AND ANNOTATION ............................................................ 639
E. Ganea, M. Brezovan

CLASSIFICATION OF IMAGE REGIONS USING THE WAVELET STANDARD DEVIATION DESCRIPTOR ............................................................ 646
C. Greve, T. Hillig, C. Schmerl

HIGH CAPACITY COLORED TWO DIMENSIONAL CODES ............................................................ 652
A. Grillo, A. Lentini, M. Querini, G. Italiano

REGION-BASED MEASURES FOR EVALUATION OF COLOR IMAGE SEGMENTATION ............................ 660
A. Iancu, B. Popescu, M. Brezovan, E. Ganea

UNDETECTABLE SPREAD-TIME STEGOSYSTEM BASED ON NOISY CHANNELS .................................... 666
V. Korzhik, G. Morales-Luna, K. Loban, I. Marakova-Begoc

BUILDING PERSONALIZED INTERFACES BY DATA MINING INTEGRATION ............................................. 672
C. Mihaescu

A GRAPHICAL INTERFACE FOR EVALUATING THREE GRAPH-BASED IMAGE SEGMENTATION ............. 678
G. Mihai, A. Doringa, L. Stunescu

BASIC CONSIDERATION OF MPEG-2 CODED FILE ENTROPY AND LOSSLESS RE-ENCODING ................... 684
K. Ohzeki, Y. Wei, E. Ivata, U. Speidel

ANALYZES OF THE PROCESSING PERFORMANCES OF A MULTIMEDIA DATABASE SERVER .................. 692
C. Spahiu

CONSTRUCTIVE VOLUMETRIC MODELING ..................................................................................... 697
M. Tudorache, M. Popescu, R. Tanase
REAL-TIME EMBEDDED FAULT DETECTION ESTIMATORS IN A SATELLITE'S REACTION WHEELS
N. Tudoroiu, T. Lastra, E. Sobhani-Tehrani, K. Khorsand, R. Tudoroiu

APPLICATION OF OPTIMAL SETTINGS OF THE LMS ADAPTIVE FILTER FOR SPEECH SIGNAL PROCESSING
J. Vomus, V. Styhala

OBFUSCATION METHODS WITH CONTROLLED CALCULATION AMOUNTS AND TABLE FUNCTION
Y. Wei, K. Ohseki

INTERNATIONAL WORKSHOP ON REAL TIME SOFTWARE

COMPUTATIONALY EFFECTIVE ALGORITHMS FOR 6DOF INS USED FOR MINIATURE UAVS
J. Floder

SUPERVISING CONTROL AND REAL-TIME CONSTRAINTS
W. Grega

INTEGRATION OF SCHEDULING ANALYSIS INTO UML BASED DEVELOPMENT PROCESSES THROUGH MODEL TRANSFORMATION
M. Hagner, U. Goltz

LABORATORY REAL-TIME SYSTEMS TO FACILITATE AUTOMATIC CONTROL EDUCATION AND RESEARCH
K. Kolek, A. Turnau, K. Hajduk, M. Pauluk, D. Marchewka, A. Pilat, M. Rosol, P. Gorczyca

METHODS OF COMPUTER-ASSISTED MANUAL CONTROL OF WHEELED ROBOTS
V. Michna, P. Wagner, J. Krztoón

SOFTWARE AND HARDWARE IN THE LOOP COMPONENT FOR AN IEC 61850 CO-SIMULATION PLATFORM
M. Haffar, J. Thiriet, M. El-Nachar

REAL-TIME CONTROLLER DESIGN BASED ON NI COMPACT-RIO
M. Rosol, A. Pilat, A. Turnau

INTELLIGENT CAR CONTROL AND RECOGNITION EMBEDDED SYSTEM
V. Srovnal Jr., Z. Machacek, R. Hercík, R. Slaby, V. Srovnal

4TH INTERNATIONAL WORKSHOP ON SECURE INFORMATION SYSTEMS

A SECURITY MODEL FOR PERSONAL INFORMATION SECURITY MANAGEMENT BASED ON PARTIAL APPROXIMATIVE SET THEORY
Z. Csigátk

SOCIAL ENGINEERING-BASED ATTACKS—MODEL AND NEW ZEALAND PERSPECTIVE
L. Janczewski, L. Fu

INTERNATIONAL SYMPOSIUM ON TECHNOLOGIES FOR SOCIAL ADVANCEMENT

GLOBAL MOBILE APPLICATIONS FOR MONITORING HEALTH
T. Girdher, A. Wasilewska, J. Wong, K. Rekhi

A STUDY ON THE EXPECTATIONS AND ACTUAL SATISFACTION ABOUT MOBILE HANDSET BEFORE AND AFTER PURCHASE
J. Jung, S. Hong

WORKSHOP ON AD-HOC WIRELESS NETWORKS

WIRELESS TRANSEIVER FOR CONTROL OF MOBILE EMBEDDED DEVICES
J. Kordas, P. Wagner, J. Kożioł

EFFICIENT COLORING OF WIRELESS AD HOC NETWORKS WITH DIMINISHED TRANSMITTER POWER
K. Krzywoński

FAST CONSTRUCTION OF BROADCAST SCHEDULING AND GOSSIPING IN DYNAMIC AD HOC NETWORKS
K. Krzywoński
