# TABLE OF CONTENTS

Remanufacturing - An American Perspective .......................................................... 1  
R. T. Lund, W. M. Hauser

Deployment Model for Part Reuse in Customized Design of Remanufactured Products ............. 7  
Huajun Cao, Lulu Zhang, Fei Liu

Remanufacturing Oriented Adaptive Repair System for Worn Components .......................... 13  
Jian Guo, Xin Chen, Detao Zheng

Investigation of Remanufacturing Technology and Evaluation System of Heavy Duty Caterpillar Engine .................................................................................................................. 19  
Zhizhai Cai, Shu Han, Ping Zhang, Zhijie Liang

Remanufacturing Mode and Its Reliability for the Design of Automotive Products .................. 25  
Tonghua Zhang, Xueping Wang, Jianwei Chu, Pengfei Cai

Information-Based Remanufacturing Upgrade Study ........................................................ 32  
Pezhi Cui, Yuxian Yao, Sheng Zhu

Recycling Attitudes & Behaviours: A Study of Plastics Recycling Supply Chains in Pakistan .......................................................... 38  
M. N. Abbasi, Chee Yew Wong, C. Lalwani

Study on Microstructure and Mechanical Properties of Laser Repaired Layer of 2Cr13 Turbine Blade .................................................................................................................. 43  
Ligang Zhu, Jianhua Yao, Zhengqiang Zhou, V. S. Kovalenko

Performance Evaluation of DFE Tools ............................................................................. 51  
A. Birch, K. K. B. Hon, T. D. Short

Surface Digitization Technology Based on Multi-sensor Integration ........................................ 57  
Xuqiuang Yang, Siyuan Cheng, Xiangwei Zhang, Bin Zhou

Modeling of Dynamic Cutting Force in High-Speed Dry Gear Based on Multifactor Coupling .......................................................... 63  
Chao Lin, Qian Gao, Kai Cheng, Binkue Cheng, Huo Qiu, Dehong Huo

Product Generation Model for Remanufacturing and Reuse Based on Polychromatic Sets .......... 69  
Yongming Wu, Meng Chen, Baizhang Luo

Experimental Design and Investigation of a Screw-Pin Tooling System for Vacuum Forming Components .................................................................................................................. 75  
Yan Wang, Zhijian Wang, N. Gindy

Research on Remanufacturing and Enhancing Value Technology of Waste Mechatronics Products .................................................................................................................. 84  
Lican Wang, Xiamming Zhang, Xudong Wang, Bin Chen, Yi Yuan

Mathematical Modeling of EDM Hole Drilling Using Response Surface Methodology ................ 90  
A. T. Bezdana, O. Yilmaz, M. A. Okka, I. H. Filiz

An Intelligent and Automated System for EDM Hole Drilling of Super Alloys .......................... 95  
O. Yilmaz, A. T. Bezdana, M. A. Okka, I. H. Filiz

A Study on Energy Saving Design Strategies of Universities' Education Building in the Cold Zone of China .................................................................................................................. 100  
Wei-Bin Sun, Hong Jin

The Design and Study of Economical and Comfortable Balconies for Living Construction in the Frigid Zone .................................................................................................................. 106  
Xiaoman Guo

Research on Energy-Saving Technology of Window Surrounding for the Sandwich Insulation Walls of Rural Housings in Cold Regions of China .......................................................... 111  
Wei Ling, Hong Jin

Analysis of the Application of Passive Solar Collecting Approaches for Rural House in Super-Cold Areas of China ........................................................................................................ 116  
Hong Jin, Chunyan Zhou

Establishing a Typical Solar Radiation Year Time Series for the Application of Building Integrated Photovoltaic Systems in Taiwan ............................................................. 122  
Kuo-Tsang Huang, Wen-Sheng Ou

Assessment of the Energy-Saving and Carbon Reduction Efficiency of an Air-conditioned Office in Taiwan .................................................................................................................. 128  
J. D. Chiodo, W. L. Ijomah

Use of Product Self-disassembly Technology to Improve Remanufacturing Productivity ............ 134  
Sheng Zhu, Chao Li, Can Duo Shen, Yuan Yuan Liang

Surface Smoothness of Welding Rapid Forming Parts ................................................................ 140
Green Supply Chain Relationships
Keren Chen, Booi Kam, P. O'Neill

Interrelationship Between Uncertainty and Performance Within Reverse Logistics Operations
Xiao-Le Zhang, Hong-Jun Xiao, A. Potter

Forecasting Returns in Reverse Logistics Using GERT Network Theory
Li Zhou, Jiaping Xie, Yong Lin

Research Progress on an Index System of City Water Environmental Carrying Capacity
Fan Sun, Lixin Ma, Qiang Fu

Optimisation of Quality and Energy Consumption for Additive Layer Manufacturing Processes
G. Strano, L. Hao, K. E. Evans, R. M. Everson

Green Manufacturing Technologies of CrTiAIN Composite Coatings As an Alternative to Chromium
Zhihai Cai, Ping Zhang, Junjun Zhao, Jun Du

A Genetic Algorithm for Reactive Scheduling Based on Real-time Manufacturing Information
L. H. Wu, X. D. Chen, X. Chen, Q. X. Chen

Collaborative Design and Simulation for Steering Linkage
Xiaobin Ning, Bin Meng

Enhancing the Sustainability of Additive Manufacturing
Liang Hua, D. Raymond, G. Strano, S. Dadbakhsh

Global Knowledge Exchange and the Low Carbon Economy
C. Rudd

An Estimate Method on the Partial Costs of Engine Remanufacturing
Bo-Hai Liu, Bin-Shi Xu, Pei-Jing Shi

Modeling Investment Problems for Green Manufacturing in Nongovernmental Organizations
Hongwei Wang, Fuyuan Xu, Kang Yang

An Overview of Renewable Energy Policies and Regulations in People's Republic of China
C. Ksenia, S. Riffat, Me Zhu

Green: The New Black Or Just a Slogan of Advertisements - Prospects for Eco-fashion in Recent China
Gu Wen

Fan Zhang, Ming Chen

Sustainable Development of Ice Landscape in Harbin
Xin Qin, Hong Lin, Ming Sun

Evaluating Community Accessibility for Sustainable Urban Regeneration: A Conceptual Framework
Xiaoxian Zhang, Jianqun Cheng, Song Wu

Effects of SiO2 Nanoparticles in Electrolytes on Growth Process and Surface Properties of Alumina Coatings Formed on 7A52 Aluminium Alloy by Micro-arc Oxidation
Xiangbo Suo, Shining Ma, Ji Qiu, Jiyuan Liu, Jiashui Zhang

Recycling Techniques of Steel Slag and Its Utilization in Green Concrete to Enhance Properties and Durability
Yanfeng Li

Study on the Desalination of Crude Extract of Fucoidan
Shu-Fing Zhang, Xi Wang, Shu-Hua Chen, Xiang Zhao

A Study of New Type Medium Density Fiberboard Based on Plant Fiber and Corn Viscose
Xingle Jia, Jianfeng Li, Fangyu Li

Seismic Behaviour of Retaining Wall-Backfill Systems with Vegetation
M. H. Shih, W. P. Sung, J. L. Chen

Study on Microbubble Generators for Treatment of Wastewaters
Zhenkun Li, Min Li, Yuanli Qiang

Applying Natural Treatment Systems for the Improvement of the Quality of River Water
C. Y. Wu, C. M. Kao, K. S. Chen, W. P. Sung, C. E. Lin
