1 Introduction to sterilization: definitions and challenges
S. LEROUGE, École de technologie supérieure, Canada

1.1 Introduction 1
1.2 Definitions of sterilization in the context of biomaterials 2
1.3 Validation, monitoring and safety of sterilization methods 5
1.4 Challenges and constraints of sterilization methods 9
1.5 Ideal versus actual sterilization methods 13
1.6 Conclusions 14
1.7 References 17

2 Steam and dry heat sterilization of biomaterials and medical devices
W. J. ROGERS, Independent Healthcare Consultant, USA

2.1 Introduction 20
2.2 Steam sterilization 21
2.3 Different methods of steam sterilization 27
2.4 Test methods for the effectiveness of steam sterilization 33
2.5 Dry heat sterilization 41
2.6 Testing and validating dry heat sterilization 48
2.7 Conclusions 50
2.8 Sources of further information 52
2.9 References 53
3 Sterilisation of healthcare products by ionising radiation: principles and standards 56
B.J. Parsons, Leeds Metropolitan University, UK

3.1 Introduction 56
3.2 Interaction of ionising radiation with matter 57
3.3 Sources of ionising radiation 61
3.4 Validation and international standards of sterilisation by ionising radiation 63
3.5 Conclusions and future trends 69
3.6 Sources of further information and advice 69
3.7 References 69

4 Ethylene oxide (EO) sterilization of healthcare products 71
G.C. Mendes, T.R.S. Brandão and C.L.M. Silva, Universidade Católica Portuguesa, Portugal

4.1 Introduction 71
4.2 Advantages of ethylene oxide (EO) sterilization 72
4.3 Disadvantages of ethylene oxide (EO) sterilization 73
4.4 Sterilization process characterization 79
4.5 Process definition 84
4.6 Process optimization and the process challenge device 88
4.7 Qualification of ethylene oxide (EO) sterilization 90
4.8 Contract sterilization 93
4.9 Acknowledgments 93
4.10 References 93

5 Non-traditional sterilization techniques for biomaterials and medical devices 97
S. Lerouge, École de technologie supérieure, Canada

5.1 Introduction 97
5.2 Non-traditional sterilization methods 99
5.3 Novel non-traditional sterilization methods 110
5.4 Conclusions 113
5.5 References 113

6 Sterilization and decontamination of surfaces by plasma discharges 117
F. Rossi, European Commission – Joint Research Centre, Italy and O. Kylian, Charles University, Czech Republic

6.1 Introduction 117
6.2 Overview of plasma generation 119

© Woodhead Publishing Limited, 2012
