PROGRAM

Invited Authors
Keynote Speeches
Inaugural Talks
Banquet Speeches

COMSNETS Technical Papers

Session T1-1: Security I

Mirage: Mitigating Illicit Inventorying in a RFID Enabled Retail Environment ......................................................... 1
Jonathan White (University of Arkansas, USA); Nilanjan Banerjee (University of Arkansas, Fayetteville, USA)

Sequencegram: n-gram Modeling of System Calls for Program based Anomaly Detection ................................................. 10
Neminath Hubballi (Indian Institute of Technology Guwahati, India)

**Group Key Management Scheme for Simultaneous Multiple Groups with Overlapped Membership**
Purushothama B R (National Institute of Technology Warangal, India); Bharat Amberker (National Institute of Technology, Warangal, India)

**A System Approach to Network Modeling for DDoS Detection using Naive Bayesian Classifiers**
Rajagopalan Vijayasrathy (SETS, India); Ravindran B (IITM, India); Serugudi Venkataraman Raghavan (IIT Madras, India)

**Session T2-1: Pervasive & Ubiquitous Computing**

**The Dataware Manifesto**
Derek McAuley (University of Nottingham, United Kingdom); Richard Mortier (University of Nottingham, United Kingdom); James Goulding (University of Nottingham, United Kingdom)

**CrowdLab: An Architecture for Volunteer Mobile Testbeds**
Eduardo Cuervo (Duke University, USA); Peter Gilbert (Duke University, USA); Bi Wu (Duke University, USA); Landon Cox (Duke University, USA)

**Augmenting Topic Models with User Relations in Context based Communication Services**
K. Kishore Dhara (Avaya Labs Research, USA); Venkatesh Krishnaswamy (Avaya Labs Research, USA); Vikranth Babu (Indian Institute of Technology, India)

**Minimizing Content Provisioning Cost in Heterogeneous Social Wireless Networks**
Mahmoud Taghizadeh (Michigan State University, USA); Subir Biswas (Michigan State University, USA)

**Session T2-2: IPTV, Video and Mobility**

**Farsighted Flow Management for Video Delivery in Broadband Wireless Networks**
Rajesh Mahindra (NEC Labs America, USA); Ravi Kokku (NEC Laboratories America, USA); Honghai Zhang (NEC Labs America, USA); Sampath Rangarajan (NEC Labs America, USA)

**‘Control Plane’ Properties for Signaling in Loss-feedback based Video Multicast Rate Adaptation over Shared Infrastructure Networks**
Kaliappa Ravindran (City University of New York, USA); Ramesh Bharadwaj (Naval Research Laboratory, USA); Supratik Mukhopadhyay (Louisiana State University, USA); Mohammad Rabby (City University of New York, USA); Gaurav Mangukya (Indian Institute of Technology - Kharagpur, India)

**A formal approach to mobility modeling**
Ashutosh Dutta (NIKSUN, USA); Bryan Lyles (Telcordia Technologies, USA); Henning Schulzrinne (Columbia University, USA)

**Capacity Requirements for On-Demand IPTV**
Vijay Gopalakrishnan (AT&T Labs - Research, USA); Pat Diminico (AT&T, USA); Rittwik Jana (AT&T Labs Research, USA); K. K. Ramakrishnan (AT&T Labs - Research, USA); Deborah Swayne (AT&T Labs-Research, USA); Vinay A. Vaishampayan (AT&T Labs - Research, USA)

**Session T2-2: Security II**

**Hierarchical Networks with Byzantine Robustness**
Radia Perlman (Intel Labs, USA)
Defeating the Insider Threat via Autonomic Network Capabilities ................................................................. 127
Faisal M. Sibai (George Mason University, USA); Daniel A Menasce (George Mason University, USA)

Impact of Prefix Hijacking on Payments of Providers ..................................................................................... 137
Pradeep Bangera (Institute IMDEA Networks, Spain); Sergey Gorinsky (Institute IMDEA Networks, Spain)

Session F1-1: Network Topology

k-dense Communities in the Internet AS-Level Topology ............................................................................. 147
Enrico Gregori (CNR-IIT, Italy); Luciano Lenzini (University of Pisa, Italy); Chiara Orsini (University of Pisa, Italy)

Separating Event Points by Binary Proximity Sensors: An Asymptotic Analysis .............................................. 157
B Santhana Krishnan (Indian Institute of Technology, Bombay, India)

Efficient Target Tracking through Binary-Detection in Sparsely Deployed WSN ..................................... 165
Deepak Jeswani (Indian Institute of Technology, Kanpur, India); Ankit Kesharwani (Indian Institute of Technology Kanpur, India); Sneha Chaudhari (IISC Bangaluru, India); Vaishali P Sadaphal (Tata Research, India); Ratan K. Ghosh (Indian Institute of Technology, Kanpur, India)

Session F2-1: Wireless & 4G/WiMax - I

Models of 802.11 Multi-Hop Networks: Theoretical Insights and Experimental Validation ....................... 175
Adel Aziz (EPFL, Switzerland); Mathilde Durvy (Cisco Systems, Switzerland); Olivier Dousse (Nokia Research Center, Switzerland); Patrick Thiran (EPFL, Switzerland)

Downlink Transmission Mode Selection And Switching Algorithm For LTE ............................................. 185
Shubhodeep Adhikari (Motorola India, India)

An Instantaneous Call Admission Control using Information Dissemination for WiMAX Mesh Networks ........................................................................................................ 195
R Saravana Manickam (IIT Madras, India); Siva Ram Murthy (IIT Madras, India)

Session F1-2: Resilience & Network Planning

Modelling and Analysis of Network Resilience ................................................................................................. 203
James P. G. Sterbenz (University of Kansas & Lancaster University (UK), USA); Egemen K Cetinkaya (University of Kansas, USA); Mahmood A Hameed (University of Kansas, USA); Abdul Jabbar (The University of Kansas, USA); Justin P Rohrer (The University of Kansas, USA)

Survivable Network Design using Polyhedral approaches ............................................................................. 213
Yogesh Agarwal (Indian Institute of Management, India)

Planning Rules for Split Ratio Selection in Building -based Access Networks ............................................. 219
Hamada Alshaer (Etisalat British Telecom Innovation Center (EBTICO), Khalifa University, UAE); Mohamed Alyafei (Etisalat, UAE)

SRLG Identification from Time Series Analysis of Link State Data .................................................................. 229
Goutam Das (University of Ghent, Belgium); Dimitri Papadimitriou (Alcatel-Lucent Bell, Belgium); Bart Puype (Ghent University, Belgium); Didier Colle (IBBT - Ghent University, Belgium); Mario Pickavet (Ghent University, Belgium); Piet Demeester (Ghent University, Belgium)
Session F2-2: Multimedia & Wireless I

A Network-Assisted System for Energy Efficiency in Mobile Devices ........................................... 239
Joshua Hare (University of Wisconsin-Madison, USA); Dheeraj Agrawal (Google, USA);
Arunesh Mishra (Google, USA); Suman Banerjee (University of Wisconsin, USA); Aditya
Akella (University of Wisconsin-Madison, USA)
Flexible Playout Adaptation for Low Delay AAC RTP Communication ........................................... 249
Jochen Issing (University of Erlangen, Germany); Falko Dressler (University of Erlangen,
Germany); Nikolaus Färber (Fraunhofer IIS, Germany); Stefan Reuschl (Fraunhofer IIS,
Germany)
Loss behavior analysis and its application in design of link quality metrics ...................................... 258
Kameswari Chebrolu (IIT Bombay, India); Advait Mishra (Microsoft, India)
Multi-state Power Management of Communication Links ................................................................. 268
Krishna Kant (National Science Foundation, USA)

Session F1-3: Wireless Protocols

Processing Interference at the Physical Layer to Enhance Information Flow in Wireless Networks ........ 278
Bama Muthuramalingam (Indian Institute of Technology, Madras, India); Srikrishna
Bhashyam (Indian Institute of Technology Madras, India); Andrew Thangaraj (IIT Madras,
India)
Optimal Contention-free Multiplexing for Wireless Access ................................................................. 284
Ajay A. Kulkarni (University of Texas at Dallas, USA)
Multimedia Communication in Cognitive Radio Networks based on Sample Division Multiplexing .... 290
Ansuman Bhattacharya (Indian Statistical Institute, Kolkata, India); Rabindranath Ghosh (St.
Thomas’ College of Engineering and Technology, Kolkata, India); Koushik Sinha (Honeywell
Technology Solutions Lab, India); Bhabani Sinha (Indian Statistical Institute, India)
FREEZE: Rate Adaptation in Wireless LANs using channel contention estimates .......................... 298
Ajay A. Kulkarni (University of Texas at Dallas, USA)

Session F2-3: Multimedia & Wireless II

Delay Contained: Scheduling Voice Over Multi-hop Multi-channel Wireless Mesh Networks ............. N/A
Vijay Gabale (Indian Institute of Technology, Bombay, India); Ashish Chiplunkar (IIT
Bombay, India); Bhaskaran Raman (Indian Institute of Technology, Bombay, India); Partha
Dutta (IBM India Research Lab, India)
Error-Resilient Image Transmission over Multihop Wireless Networks ............................................. 304
Pradipta De (IBM India Research lab, India); Nilanjan Banerjee (IBM Research, India); Swades De (Indian Institute of Technology, Delhi, India)
Voice Messaging for Mobile Delay-Tolerant Networks .................................................................. 314
Md. Tarikul Islam (Aalto University, Finland); Anssi Turkulainen (Aalto University, Finland);
Joerg Ott (Aalto University, Finland)
Optimizing Power Consumption of Always-On Applications Based on Timer Alignment .................. 325
Ville Käännen (VTT Technical Research Centre of Finland, Finland); Pekka Päälkänen (VTT
Technical Research Centre of Finland, Finland)
Session S1-1: Network Architectures and Systems

Hulu in the Neighborhood ................................................................. 333
Dongsu Han (Carnegie Mellon University, USA); David Andersen (CMU, USA); Michael Kaminsky (Intel Labs, USA); Konstantina Papagiannaki (Intel Research, USA); Srinivasan Seshan (Carnegie Mellon University, USA)

A System for Audio Signalling Based NAT Traversal .................................................. 343
Ashish Patro (University of Wisconsin-Madison, USA); Yadi Ma (University of Wisconsin-Madison, USA); Fatemeh Fatemeh Panahi (University of Wisconsin-Madison, USA); Jordan Walker (Center for Integrated Data Analytics, USA); Suman Banerjee (University of Wisconsin, USA)

Towards Truly Heterogeneous Internets: Bridging Infrastructure-based and Infrastructure-less Networks ................................................................. 353
Rao Naveed Bin Rais (INRIA, France); Marc Mendonça (University of California, Santa Cruz, USA); Thierry Turletti (INRIA, France); Katia Obraczka (University of California, Santa Cruz, USA)

On the Game Server Network Selection with Delay and Delay Variation Constraints ................................................................. 363
Yuh-Rong Chen (University of Oklahoma, USA); Sridhar Radhakrishnan (University of Oklahoma, USA); Sudarshan Dhall (University of Oklahoma, USA); Suleyman Karabuk (University of Oklahoma, USA)

Session S2-1: Virtualisation & Scaling

Vis-a-Vis: Privacy-Preserving Online Social Networking via Virtual Individual Servers ................................................................. 373
Amre Shakimov (Duke University, USA); Harold Lim (Duke University, USA); Ramón Cáceres (AT&T Labs, USA); Landon Cox (Duke University, USA); Kevin A. Li (AT&T Labs - Research, USA); Dongtao Liu (Duke University, USA); Alexander Varshavsky (AT&T Labs, USA)

Scalability of a Distributed Virtual Environment Based on a Structured Peer-To-Peer Architecture ................................................................. 383
Jiehua Chen (Technical University of Berlin, Germany); Sven Grottke (Technical University of Berlin, Germany); Jan Sablatnig (Technical University of Berlin, Germany); Rüedi Seiler (Technical University of Berlin, Germany); Adam M Wolisz (Technical University of Berlin, Germany)

The Local and Global Effects of Traffic Shaping in the Internet ................................................................. 391
Massimiliano Marcon (MPI-SWS, Germany); Marcel Dischinger (MPI for Software Systems, Germany); Krishna Phani Gummadi (MPI for Software Systems, Germany); Amin Vahdat (UC, San Diego, USA)

Splitting HTTP Requests on Two Servers ................................................................. 401
Bharat Rawal (Towson University, USA); Ramesh Karne (Towson University, USA); Alexander L Wijesinha (Towson University, USA)

Session S1-2: Wireless & 4G/WiMax II

Interference planning for multicell OFDM downlink ................................................................. 409
Nidhin Vaidhiyan (Indian Institute of Science, India); Renu Subramanian (Indian Institute of Science, India); Rajesh Sundaresan (Indian Institute of Science, India)
Session S2-2: Network Algorithms

Reaching approximate Wardrop equilibrium at reduced costs of link state updates ............................................................................................................................................................................. 419
Balaji Rengarajan (Institute IMDEA Networks, Spain); Narasimha Reddy (Texas A & M University, USA); Yong Oh Lee (Texas A&M University, USA)

Three Metrics for Stochastic Networks: Capacity, Queue Size and Complexity ......................................................................................................................... 429
Devavrat Shah (MIT, USA)

Poster Session

An Empirical Study of Clock Skew Behavior in Modern Mobile and Hand-Held Devices ................................................................................................................. 433
Swati Sharma (Indian Institute of Technology, Delhi, India); Huzur Saran (Indian Institute of Technology, India); Sorav Bansal (IIT Delhi, India)

Designing WANem: A Wide Area Network Emulator Tool ................................................................................................................................. 437
Hemanta Kumar Kalita (Jadavpur University, India); Manoj Nambiar (Tata Consultancy Services, India)

An Efficient On-Demand Routing Protocol for MANETs using Bayesian Approach ........................................................................................................ 441
Rusheel Jain (BITS, Pilani, Hyderabad, India); Murali Parameswaran (Birla Institute of Technology and Science, India); Chittaranjan Hota (BITS, Pilani, Hyderabad, India)

Application Architecture Considerations for Cloud Platforms ................................................................................................................................. 445
Balwinder Sodhi (IIT Kanpur, India); Prabhat Siv (IIT Kanpur, India)

Guiding P2P Control Traffic Using DHTS ................................................................................................................................................................................. 449
Jaroslaw Adam Gralak (Polish-Japanese Institute of Information Technology, Poland); Adam Wierzbicki (Polish-Japanese Institute of Information Technology, Poland)

Data Integrity Proofs in Cloud Storage ................................................................................................................................................................................. 455
Sravan R (Infosys Technologies Ltd, India); Ashutosh Saxena (Infosys Technologies Limited, India)

Distributed Detection with Censoring of Sensors in Rayleigh Faded Channel ................................................................................................................. 459
Sumit Kundu (I.T Durgapur, India)

Research and Application of One-Class Small Hypersphere Support Vector Machine for Network Anomaly Detection ................................................................. 463
Santosh Kumar (Indian Institute of Technology Guwahati, India); Santosh Kumar (Indian Institute of Technology Guwahati, India)

New Strategies for Static Routing and Wavelength Assignment in De Bruiin WDM Networks ............................................................................................ 467
Monish Chatterjee (Asansol Engineering College, India); Subhendu Barat (Asansol Engineering College, India); Debojyoti Majumder (Asansol Engineering College, India); Uma Bhattacharya (Bengal Engineering & Science University, India)

Alpha-Beta Filter Based Target Tracking in Clustered Wireless Sensor Networks ........................................................................................................... 471
Surendra Sharma (Indian Institute of Technology Madras, India); Sarang Deshpande (Indian Institute of Technology Madras, India); Krishna M. Sivlingam (Indian Institute of Technology Madras, India)

Distributed Fault Tolerance for WSNs with Routing Tree Overlays ................................................................................................................................. 475
Chilukuri Shanti (IIT Bombay, India); Anirudha Sahoo (IIT Bombay, India)

A Modified SPIN for Wireless Sensor Networks ................................................................................................................................................................................. 479
Zeenat Rehena (Jadavpur University, India); Sarbani Roy (Jadavpur University, India); Nandini Mukherjee (Jadavpur University, India)

Signed Graph based Approach for On-line Optimization in Cognitive Networks ........................................................................................................... 483
P. Balamuralidhar (Tata Consultancy Services, India); Rajan Mindigal Alasigara Bhattachar (Tata Consultancy Services, India)

A Distributed Scheduler for Airborne Backbone Networks with Directional Antennas ......................................................................................................... 487
William Huba (Rochester Institute of Technology, USA); Martin Nicholas (Rochester Institute
of Technology, USA); Yamin Al-mousa (Rochester Institute of Technology, USA); Chukwuechery Orakwue (Rochester Institute of Technology, USA); Nirmala Shenoy (University of Rochester, USA)

TraceGray: An Application-layer Scheme for Intrusion Detection in MANET using Mobile Agents ..................................... 491
Amar Taggu (NERIST, India); Ani Taggu (Rajiv Gandhi University, India)

Study of Combined Effects of Zero Copy and Pre-processing on Input/Output Performance of Multimedia on Demand Streaming Server ............................................. 495
Vivek Singh (International Institute of Information Technology, Bangalore, India); Suhas Hegde A (International Institute of Information Technology, Bangalore, India); Debabrata Das (International Institute of Information Technology – Bangalore, India)

COMSNETS 2011 WORKSHOP PAPERS

WISARD 2011: International Workshop on Wireless Systems Advanced Research and Development

Security and Privacy of Future Aircraft Wireless Communications with Offboard Systems ........................................ 499
Krishna Sampigethaya (Univ. of Washington, USA), Radha Poovendran (Univ. of Washington, USA)

Wireless Across Road: RF based Road Traffic Congestion Detection ................................................................. 505
Swaroop Roy (IIT Bombay, India), Rijurekha Sen (IIT Bombay, India), Swanand Kulkarni (IIT Bombay, India), Purushottam Kulkarni (IIT Bombay, India), Bhaskaran Raman (IIT Bombay, India), Lokendra Singh (IIT Bombay, India)

HySecJoining: A Hybrid Secure Node Joining Algorithm for Wireless Sensor Network ............................................... 511
Hemanta Kalita (Jadavpur Univ., India), Abhijit Kar (Jadavpur Univ., India)

A New Code Allocation Algorithm for Multirate CI/MC-CDMA System ............................................................. 517
Mithun Mukherjee (IIT Patna, India), Preetam Kumar (IIT Patna, India)

Exploring System Parameters For Viability Of Energy Harvesting Technologies ...................................................... 523
Prabhakar Tamma (IISc Bangalore, India), Prakruthi Keshavamurthy (IISc Bangalore, India), Shruti Devasenapathy (IISc Bangalore, India), Ignas Niemegeers (Delft Univ. of Tech., Netherlands), Jamadagni (IISc Bangalore, India). R Venkatesha Prasad (Delft Univ. of Tech., Netherlands)

Point-to-Point Scheduling over a Wireless Channel with Costly Channel State Information .................................. 529
Nitin Dileep Salodkar (Synopsys India Pvt. Ltd., India), Aditya R Karnik (General Motors India Science Lab, India)

IAMCOM 2011: Fifth Workshop on Intelligent Networks: Adaptation, Communication & Reconfiguration

Self-adaptive Network Systems

CPS-Net: In-Network Aggregation for Synchronphasor Applications ................................................................. 535
V. Arya, J. Hazra, P. Kodeswaran, D. Seetharam, N. Banerjee, and S. Kalyanaraman

A Parameter-Influencer based model of a Self-healing Network ........................................................................ 543
H. P. Raghunandan and S. Bedekar

Service-level Control and Management for Future Network Applications .......................................................... 551
K. Ravindran and S. Mukhopadhy a
Distributed Control Algorithms

A Petri Net Based Model for Multipoint Synchronization in Audio Conferencing ........................................... 558
K. Pal, P. D. Upadhyay, and A. Dutta

Message Efficient Leader Finding Algorithm for Mobile Ad Hoc Networks ....................................................... 566
S. Sharma and A. K. Singh

Genetic Algorithm techniques to solve Routing and Wavelength Assignment problem in Wavelength Division Multiplexing all-optical networks ................................................................. 572
Ravi Sankar Barpanda, Ashok Kumar Turuk, Bibhudatta Sahoo, Banshidhar Majhi

Adaptive Network Control

Joint Optimization of 2-tier Dual-homing for NodeBs and RNCs in UMTS Meta-heuristic Techniques ....................... 580
S.K. Sadhukan, S. Mandal, S. Shaw, and D. Saha

Energy-Efficient Transmission of DWT Image over OFDM fading Channel .......................................................... 588
A. Sharma, S. De, and H. M. Gupta

Study of Enhanced VoIP Performance under Congested Wireless Network Scenarios .............................................. 595
Ravi Sankar Barpanda, Ashok Kumar Turuk, Bibhudatta Sahoo, Banshidhar Majhi

Nethealth 2011: Workshop on Networked Healthcare Technology

An Electronic Travel Aid for Navigation of Visually Impaired Persons ................................................................. 602
Amit Kumar, Checktronix India Pvt. Ltd., India, Rusha Patra, Manjunatha M, Jayanta Mukhopadhyay, Arun Kumar Majumdar - IIT Kharagpur, India

Improving the Efficiency of Healthcare Delivery System in Underdeveloped Rural Areas ...................................... 607
Amarjeet Singh, UCLA, USA, Vinayak S Naik, IIIT Delhi, India, Sangeeta Lal, IIITD, India

A threat taxonomy for mHealth privacy .................................................................................................................. 613
Author: David Kotz (Dartmouth College, USA)

Posters

Modification of superframe structure of 802.15.4 MAC for Body Area Networks, Pradnya H. Ghare, A. G. Kothari, A. G. Keskar, Electronics & CS Dept., VNIT, Nagpur, India

Data Hiding Scheme for Medical Images using Lossless Code for Mobile HIMS, V. Naveen Kumar, Mrigank Rochan, Santosh Hariharan, Kumar Rajamani, Amrita School of Engineering, Bangalore, India

Additional Papers:

Modification of Superframe Structure of 802.15.4 MAC for Body Area Networks ...................................................... 619
Pradnya H. Ghare, A. G. Kothari, A. G. Keskar

Data Hiding Scheme for Medical Images Using Lossless Code for Mobile HIMS .................................................. 623
V. Naveen Kumar, Mrigank Rochan, Santosh Hariharan, Kumar Rajamani

Energy Efficient Resource Allocation in Mobile Ad Hoc Computational Grids .......................................................... 627
Sayed Chhattan Shah, Myong-Soon Park

Confidential Program Update with Dynamic Key Computation for Clustered Wireless Sensor Networks ................ 637
M. B. Nirmala, A. S. Manjunath

DelayCheck: Scheduling Voice Over Multi-hop Multi-channel Wireless Mesh Networks .......................................... 645
M. B. Nirmala, A. S. Manjunath
