PROCEEDINGS OF THE
VI\textsuperscript{th} INTERNATIONAL SYMPOSIUM
ON
IRRIGATION OF HORTICULTURAL CROPS

Co-Conveners

N. Pereira Muñoz
S. Ortega-Farias
G. Selles

Viña del Mar, Chile
November 2-6, 2009

ISHS Commission Irrigation and Plant Water Relations
ISHS Section Pome and Stone Fruits
ISHS Section Vine and Berry Fruits

Acta Horticulturae 889
March 2011
LIST OF CONTENTS

Foreword 5
Preface 6
List of Contents 7
List of Authors 15
List of Participants 19

Improvement of Water Use for Agriculture at Catchment Level under Drought Conditions
B. Litter and N. Brisson 27

Impact of Climate Change on Irrigated Tree Fruit Production
C.O. Stöckle, J. Marsal and J.M. Villar 41

Complying with Society's Demands - Solving the Emission Problem Caused by Irrigation Surplus in Greenhouses
E. Beerling, W. Voogt, T. Vermeulen, W. Verkerke and M. Heinen 53

Strategy, Tactics and Heuristics for Managing Solutes in Horticultural Crops
R.J. Stirzaker 59

Crop Load and Irrigation Management during the Latter Stages of Ripening: Effects on Vine Water Status, Fruit Dehydration and Fruit Composition of ‘Merlot’ Grapevines
M.P. Mendez, L. Sanchez and N. Dokoozlian 67

Is Pre-Veraison Irrigation Cut-Off more Convenient than Post-Veraison Water Stress as a Strategy to Improve Grape Composition in Vitis vinifera ‘Tempranillo’ in Spain?
A. Yeves, D. Pérez, D. Risco, D.S. Intrigliolo and J.R. Castel 75

Effects of the Irrigation Regime and Partial Rootzone Drying in ‘Vermentino’ Grapevines in Sardinia, Italy
L. De Pau, D. Satta, L. Zucca, G. Bandino and M.G. Mameli 83

Water Requirement of Vitis vinifera L. ‘Syrah’ Grown in a Warm Region: Crop Coefficient (Kn) Estimations
F. Vita Sermon and A. Olguin Pringles 91

Effects of Light Interception and Canopy Orientation on Grapevine Water Status and Canopy Gas Exchange
D.S. Intrigliolo and A.N. Lakso 99

Effects of Canopy Exposure Changes on Plant Water Status in Grapevine Cultivar ‘Syrah’
E. Galat Giorgi, J. Perez Peña and J. Prieto 105

Dendrometric Measurements in Grapevine (Vitis vinifera L. ‘Tempranillo’ and ‘Cabernet Sauvignon’) under Regulated Deficit Irrigation
A. Montoro, R. López Urrea, F. Mañas, P. López Fuster and E. Fereres 113
Use of Thermal Imagery to Detect Water Stress during Berry Ripening in *Vitis vinifera* L. ‘Cabernet Sauvignon’

Estimation of Daily Actual Evapotranspiration over a ‘Merlot’ Vineyard Using Meteorological and Reflectance Data
*Estimation of Water Requirements of ‘Thompson Seedless’ Trained on an Overhead Trellised System Using an Eddy Covariance Method in the Aconcagua Valley, Chile
G. Selles, R. Ferreyra, C. Aspillaga, P. Villagra, V. García De Cortázar and S. Ortega-Farías

Effect of Soil Air Capacity on Water Relations and Vegetative Growth of ‘Thompson Seedless’ Grafted on Different Rootstocks: Preliminary Results
R. Ferreyra, G. Selles, M. Pinto, M. Morales and O. Seguel

Towards the Spatial Prediction Model of Vine Water Status Using Ancillary Information

Modelling the Effects of Niño and Niña Events on Water Balance of Grapevine (‘Cabernet Sauvignon’) in Central Valley of Chile
*H. Valdés-Gómez, N. Brisson, C. Acevedo-Opazo, S. Ortega-Farías and C. Gary

On the Interest of Introducing Irrigation and Changing Practices Tomorrow in Some French Vineyard Areas
*N. Brisson, P. Pieri and E. Lebon

Water Use by Drip-Irrigated Early-Season Peach Trees

The Dual Crop Coefficient Approach: Testing the SIMDualKc Model with Peach Orchard Evapotranspiration Eddy Covariance Measurements

Water Productivity of Peach for Processing in a Soil with Low Available Water Holding Capacity
*M. Pascual, X. Domingo, J. Rufat and J.M. Villar

Soil Water Content Variations as Water Stress Indicator in Peach Trees
*I. Abrisqueta, J. Vera, L.M. Tapia, J.M. Abrisqueta and M.C. Ruiz-Sánchez

Post-Harvest Deficit Irrigation Decreases Subsequent Fruit Number in ‘T204’ Peach
*I. Goodwin and R. Bruce
Four Years of RDI during Stage-II versus Stage-III in Peaches for Processing: Yield and Quality
X. Domingo, A. Arbones, J. Rufat, J.M. Villar and M. Pascual

Integration of the Regulated Deficit Irrigation Strategy in a Sustainable Orchard Management System
B. Dichio, G. Montanaro and C. Xiloyannis

Evaluation of Peach Tree Growth Characteristics under Different Irrigation Strategies by LIDAR System: Preliminary Results
M. Pascual, J.M. Villar, J. Rufat, J.R. Rosell, R. Sanz and J. Arnó

Variation in Within-Block Orchard Canopy Cover – Implications for Crop Water Requirement and Irrigation Management
L. McClymont, I. Goodwin, M.G. O'Connell and D.M. Whitfield

Long-Term Effects of Deficit Irrigation and Subsequent Recovery of Young Japanese Plum Trees
D.S. Intrigliolo and J.R. Castel

Effects of Irrigation Management and Nitrogen Fertilization on the Yield and Quality of ‘Gala’ Apple
P. Campi and C. Garcia

Correlation between the Crop Water Stress Index and Soil Moisture Content for Apple in a Loamy Soil: a Case Study in Southern Romania
C. Paltineanu, E. Chitu and N. Tanasescu

Influence of the Groundcover Management System and Drip Irrigation on Behavior of the ‘Golden Spur’ Apple Cultivar Grafted on MM106 Rootstock
M. Iancu, F. Stanica, M. Dumitrascu and I. Isac

Young Apple Trees Response to Water Stress - Early Results
M. Garcia Petillo, L. Puppo, P. Morales and R. Hayashi

Effects of Regulated Deficit Irrigation on Pear Trees Cultivar ‘Conference’ under Temperate Zone Climate
P. Janssens, F. Elen, H. Vandendriessche, T. Deckers, H. Schoofs and W. Verjans

Deficit Irrigation Effects on Yield Components of Olive Trees during the Onset of Fruit Production
G. Caruso, R. Gucci and H.F. Rapoport

Irrigation Differently Affects Endocarp and Mesocarp Growth during Olive Fruit Development
R. Gucci, G. Caruso, E.M. Lodolini and H.F. Rapoport

Effects of Regulated Deficit Irrigation during Stage III of Fruit Development on Yield and Oil Quality of Olive Trees (Olea europaea L. ‘Arbequina’)
C.M. Puertas, E.R. Trentacoste, J.A. Morábito and J. Perez Peña

Plant and Soil Water Status Behavior under Different Irrigation Strategies in Cultivar ‘Arbequina’ Olive Orchard
D. Pacheco, A. Olguín, L. Bueno, F. Vita Serman and F. Capraro

</table>
Impact of Surface and Subsurface Drip Irrigation on Yield and Quality of ‘Honey Dew’ Melon
A. Antuñez, C. Alfaro, J.P. Martinez and M. Alé

Effects of Different Irrigation Regimes on Yield and Berry Composition of Field Grown Myrtus communis L. in North-Western Sardinia
D. Satta, M.G. Mameli, M. Tedde, M. Satta and L. De Pau

Evaluation of a Control System Based on the Irrigas® Sensor for Irrigation Scheduling of Hydroponic Tomato in Ceará, Brazil

Long-Term Effect of Water Deficit Irrigation on Cherry Vigor and Precocity
L.N. Podestá, R.C. Vallone, J.A. Morábito and E.E. Sánchez

Morpho-Physiological and Yield Modifications in Two Potato Cultivars under Different Irrigation Managements
S. Casanova, R. Carlesso, C. García and F. Vilaró

Effect of Soil Depth on Water Management of Romaine Lettuce (Lactuca sativa L.) Cultivated in a Muck Soil
L. Plamondon, L. Gaudreau, A. Gosselin, J. Caron, D. Van Winden and S. Jenni

Optimizing Water Use Efficiency on Violet and White Garlic Types through Regulated Deficit Irrigation
V.M. Lipinski and S. Gaviola

Effects of Different Irrigation Management on Biomass and Essential Oil Production of Thymus vulgaris L., Salvia officinalis L. and Rosmarinus officinalis L., Cultivated in the Southern Sardinian Climate (Italy)
M.G. Mameli, L. Zucca, M. Maxia, G. Manca and M. Satta

Determination of Crop Coefficients for Horticultural Crops in Cuba through Field Experiments and Water Balance Simulation
Y. Chaterlan, M. León, C. Duarte, T. López, P. Paredes and L.S. Pereira

Irrigation Uniformity and Economic Efficiency of a Crop
E. López-Mata, J.M. Torjuelo, J.A. de Juan, R. Ballesteras and A. Domínguez

Evaluation of Drip Irrigation Systems for Blueberry Orchards in South Central Chile
J. Jara, E. Holzapfel, A. Quirónez and M. Soto

Evaluation of a Micro-Sprinkler Irrigation System at an Apple Farm in the Central Valley of Chile
E. Holzapfel, J. Jara and G. Martinez

Drip Irrigation for Establishment of Strawberry Transplants in Southern California
O. Daugovish, B. Faber and M. Mochizuki
Surface Irrigation Performance in the Upper Tunuyán River Basin Mendoza, Argentina
C. Schilardi, J.A. Morábito and R.C. Vallone

Irrigation Performance Indicators for Best Irrigation Management in an Irrigation District
J. Roldán, M. Díaz and M.F. Moreno

Irrigation Characterization Using Performance Indicators of Water and Energy Use in Irrigation Water User’s Associations - a Case Study in the Irrigation Water User’s Association of Albera (Alicante) Spain
A. Ruiz-Canales, J.A. Albert-Jover, M. Mora-Gómez, R. Abadia-Sánchez and C. Rocamora-Osorio

Irrigation Scheduling Systems Based on Water Content Gauges for Citric Trees - Some Data of Several Case Studies in the Southeast of Spain

Satellite Remote Sensing of Water Use and Vegetation Cover to Derive Crop Coefficients for Crops Grown in Sunraysia Irrigation Region of Victoria, Australia

Oxygation Enhanced Pineapple Yield and Quality
J.K. Dhungel, D.J. Midmore, K.B. Walsh, S.P. Bhattarai, P.P. Subedi and C. Xinming

Improving Soil Oxygenation with Hydrogen Peroxide Injection into Heavy Clay Loam Soil: Effect on Plant Water Status, CO₂ Assimilation and Biomass of Avocado Trees
P.M. Gil, R. Ferreyra, C. Barrera, C. Zúñiga and L.A. Gurovich

Influence of Mycorrhizae in Geranium Irrigated with Saline Water: Agronomic and Environmental Responses
A. Navarro, M. Mastrorilli, A. Elia and G. Conversa

Effect of Mulching and Irrigation on Container-Grown Plant Production
G. Amoroso, P. Frangi, R. Piatti and A. Fini

Alternative Nursery Management Systems: Closed-Loop and High Retention Mat
R. Piatti, P. Frangi and G. Amoroso

Biomass Formation and Nutrient Partitioning in Potted Longan Trees under Partial Rootzone Drying

Soil Moisture Profiles under Different Conditions Associated with Irrigation Efficiency of Drip Irrigation - Case Studies from Avocado and Mandarin, Limari River Valley
A. Osorio, M. Cortés, K. Rypowski and M. Burgos
Atmodripper System for Precision Plant Irrigation
A.G. Calbo and W.A. Marouelli

A Prototype of Automatic Pressure Pump (Type Schölander Pump)
S. Villagran, C. Correa and R. Radrigán

Early Water Stress Assessment and Automatic Irrigation System Operation Based on Electrical Signaling in Fruit Trees
L.A. Gurovich and P.A. Oyarce
