

# COM 2010 VANCOUVER, BC

PROCEEDINGS OF THE 49<sup>TH</sup> CONFERENCE OF METALLURGISTS  
OCTOBER 3-6 2010, VANCOUVER, BRITISH COLUMBIA, CANADA

## Advances in Refractories V

*5<sup>th</sup> International Symposium*

### *The Michel Rigaud Symposium*

Editors

**George Oprea**

*University of British Columbia, Vancouver, British  
Columbia, Canada*

**James G. Hemrick**

*Oak Ridge National Laboratory, Oak Ridge,  
Tennessee, USA*

*Symposium Organized by the Mineral Sciences and Engineering Section of the Metallurgical Society of  
the Canadian Institute of Mining, Metallurgy and Petroleum*

# Table of Contents

## Advances in Refractories V

### 5th International Symposium The Michel Rigaud Symposium

Foreword .....	v
Professor Michel Rigaud .....	vii
Editors' Biographies .....	ix
International Advisory Committee .....	xi
Technical Program Committee .....	xii
Symposium Session Chairs.....	xii

### SYNTHESIS AND SINTERING OF REFRACTORIES

An International Education for Refractories Engineers: The Fire's Experience .....	3
<i>M. Rigaud</i>	
KEYNOTE: Refractory Microstructure Engineering: Fundamentals, Production and Imagination (ABSTRACT ONLY).....	9
<i>V. Pandolfelli</i>	
Mastering the Microstructure of Cement-bonded Al <sub>2</sub> O <sub>3</sub> -MgO Refractory Castables.....	11
<i>M.A.L. Braulio and V.C. Pandolfelli</i>	
The Politics of Training in Australia .....	21
<i>M.C. Walton and M. Broadbent</i>	
Technical and Economic Review of High Alumina Raw Materials for Steel Refractories .....	29
<i>A. Buhr and M. Spreij</i>	
Magnesia-rich Chromium-free Spinel-bonded Basic Refractories .....	43
<i>R. Lodha, C. Oprea, T. Troczynski and G. Oprea</i>	
Influence of Mechanical Grinding on Synthesis of $\beta$ Sialon Powder .....	51
<i>D. Zhang, G. Ye, Y. Chen and J. Shang</i>	
The Evolution of Multi-walled Carbon Nanotubes (MWCNTS) in Carbon Containing Refractories Using Silicon as Anti-oxidant Additive .....	57
<i>Y.W. Li, M. Luo, S.S. Sang, S.L. Jin and W.R. Zhang</i>	
Novel Spinel-family Refractories for High Temperature, High-alkaline Environments.....	67
<i>J.G. Hemrick, J.D. Smith, K. O'Hara, D. Colavito and A. Rodrigues-Schroer</i>	
Improvement of Slag Resistance of Corundum Material by Adding Al <sub>2</sub> O <sub>3</sub> -SiC Superfine Powder and Commercial SiC Powder.....	81
<i>B. Ma, Q. Zhu and J. Yu</i>	
Effect of Temperature and Dwell Time on Porous Structure of Materials Prepared by Fly Ash .....	87
<i>Q. Zhu, Y.B. Li, L. Zhao, Y.W. Li and S.J. Li</i>	
Study on Preparation and Properties of Al/Al <sub>2</sub> O <sub>3</sub> Metal-based Gradient Coatings .....	93
<i>J. Xiaolin, L. Suping, L. Baolan and L. Chongyang</i>	

Nano Silica Thermal Insulating Material With TiO <sub>2</sub> as Infrared Opacifier .....	101
<i>Y.X. Li, L. Zhao, S.J. Li and Y.L. Chen</i>	
Behaviour of Silicon Antioxidants Added to Bauxite-SiC-Carbon Monolithic Refractories .....	107
<i>E. Karamian, A. Monshi, A. Bataille and E. Mohammadi Zahrani</i>	
A Refractory Raw Material Andalusite: Properties and Application.....	119
<i>X.Y. Xiong and D. Van Den Heever</i>	
Stability of Partially Stabilized Zirconia with Alumina, Silicon and Ferroferric Oxide at High Temperature.....	131
<i>S. Sang, Y. Li, J. Xu and S. Ge</i>	

### REFRACTORIES FOR THE IRON AND STEEL INDUSTRIES

Zero-Emission MgO-C Bricks with Superior Properties in Steel-ladle Applications.....	141
<i>H. Jansen and L. Schöttler</i>	
New Generation of Taphole Tar Mixes for Small Blast Furnaces .....	153
<i>A.S. Ribeiro, G.F.B. Lenz e Silva, H.C. Bassalo and M.A.M. Brito</i>	
The Development of New Spinel Containing MgO-C Refractories for Application in Steelmaking Ladles.....	161
<i>M. Bavand-Vandchali and F. Golestani-Fard</i>	
BOF Taphole Improvements at ArcelorMittal Dofasco.....	171
<i>R. Moore and S. Sagar</i>	
Optimization and Improvements in Dofasco's 165 Tonne EAF Ladle Design .....	183
<i>V. Mazzetti and S. Sagar</i>	
High Strength Alumina Silicate-carbon Ramming Monolithic Refractories with Resole Bond for Ironmaking Application.....	195
<i>E. Karamian, A. Monshi, A. Zadhoush and E. Mohammadi Zahrani</i>	
Advantages of Dense Calcium Hexaluminate Aggregate for Back Lining in Steel Ladles .....	207
<i>D. Zacherl, M. Schnabel, A. Buhr, D. van Garsel and D. Schmidtmeier</i>	
Life Improvement of Alumina-Magnesia-Carbon Refractory Bricks Used in Iranian Steel Industries.....	215
<i>N. Khalili, M. Naeemi and M. Nouri</i>	
Zirconia Graphite Wear and Steel Inclusions.....	221
<i>Y.M. Lee and H. Yin</i>	

### REFRACTORIES FOR NON-FERROUS, CEMENT, GASIFICATION AND OTHER INDUSTRIES

Ceramics in Hydrometallurgical Processes.....	233
<i>F. Habashi</i>	
The Product Development Process for Smelter Refractories. A Text book and Practicle Perspective.....	245
<i>R. Parry, D. Brazier, T. Courtney, P. Knupfer and N. McEwan</i>	

Corrosion of SiC Based Refractories by Molten Salts in Municipal Solid Waste-to-energy Facilities.....	259
<i>P. Prigent, M.L. Bouchetou and J. Poirier</i>	
Studies of the Gasification System by Thermodynamic Calculations .....	269
<i>K.S. Kwong and J.P. Bennett</i>	
Conditions for Cr <sup>16</sup> Formation in Cr <sub>2</sub> O <sub>3</sub> Gasification Refractory Liners .....	279
<i>J.P. Bennett, K.S. Kwong and J. Nakano</i>	
MgO-MgAl <sub>2</sub> O <sub>4</sub> -ZrO <sub>2</sub> -La <sub>2</sub> O <sub>3</sub> Refractory for Cement Kiln .....	293
<i>L. Yuan, J.Z. Wang, S.L. Chen, X.J. Liu, D.F. Zeng, X.F. Chen and J. Cheng</i>	
Overhead Protection Systems (OPS) - Some Recent Applications.....	305
<i>M.C. Walton and W. Roelofs</i>	

### REFRACTORY CASTABLES AND OTHER MONOLITHICS

The Effect of Additives on Chamotte Based Low Cement Refractory Castables.....	317
<i>A.R. Sourji, A. Ramezani, F. Rahimi and F. Golestani-Fard</i>	
Water Wettability and Dispersivity of Titanium Carbide Coated Graphite Synthesised from Molten Salt.....	325
<i>S. Zhang and X. Liu</i>	
New Calcium Aluminate Binders and Additives for Refractory Monolithics .....	333
<i>C. Parr, G. Assis, H. Fryda, J.M. Auvray and J. Mahaoui</i>	
Study on the Phase Composition and Properties of Nonoxide Bonded Alumina Castables by In-situ Nitridation Method.....	345
<i>Q. Jia and F. Ye</i>	
Thermodynamic Aspects of the SiC Oxidation in Carbon Containing Refractory Castables.....	355
<i>A.P. da Luz and V.C. Pandolfelli</i>	
Effect of Water Reducers on the Property of Corundum-based LCC Castables.....	365
<i>J. Zhao, L. Zhao, Y. Li and S. Kong</i>	
New Added Value Reactive Aluminas for Refractory Applications .....	373
<i>A. Lafaurie and F. Murgalé</i>	
Magnesia or Alumina Grain Size: Which One Plays the Major Role in the In Situ Spinel Formation? .....	385
<i>M.A.L. Braulio, G.G. Morbioli, L.R.M. Bittencourt and V.C. Pandolfelli</i>	

### TESTING, CHARACTERIZATION AND SIMULATION OF REFRACTORY BEHAVIOR

Damage and Creep Modeling for Refractory Structures Sizing .....	397
<i>F. Nazaret, T. Cutar and O. Barrau</i>	
Thermo-mechanical Properties and Microstructure Investigation on Fused-cast Zirconia Refractory.....	411
<i>C. Patapy, E. Joussein, R. Guinebretière, N. Gey, M. Humbert, C. Gault, M. Huger and T. Chotard</i>	

Development of a Microstructural Methodology to Establish Structure/Property Relations of Refractories and First Results for Magnesia Spinel Materials.....	425
<i>R. Grasset-Bourdel, A. Alzina, M. Huger, T. Chotard, R. Emler, D. Gruber and H. Harmuth</i>	
Computational Fluid Dynamics Simulations of Mass Transfer Coefficients in Gas Purged Steel Ladles .....	441
<i>S. Vollmann and H. Harmuth</i>	
Relevance of Numerical Simulation for Refractory Corrosion in Steel Industry .....	453
<i>H. Harmuth, S. Vollmann, F. Melcher, D. Gruber and Ch. Majcenovic</i>	
Thermomechanical Failure Modes of Steel Ladles - Results of FEM Simulations .....	465
<i>D. Gruber, T. Auer and H. Harmuth</i>	
Comparison Between The Volume Change, CCS, C-MOR and H-MOR of Hydrated MgSO <sub>4</sub> Impregnated and Non-impregnated Fired Magnesia Bricks .....	477
<i>K. Sethare and A.M. Garbers-Craig</i>	
Elastic Modulus Evolution of Carbon Containing Refractory Castables at High Temperature .....	487
<i>A.P. Luz, M. Huger and V.C. Pandolfelli</i>	
New Method to Determine the Cohesion and the Friction Angle of Refractory Materials at Room Temperature and at Elevated Temperature .....	497
<i>A. Dahlem, D. Gruber, T. Auer, H. Harmuth, M. Huger and T. Chotard</i>	
Postmortem Analysis Procedures for Refractories Used in Non-ferrous Furnaces.....	505
<i>G. Oprea, D. Verhelst, J. Lam, J. Rigby and T. Troczynski</i>	
Author Index.....	521
