VOLUME 2

SPE/IADC 140069 Exploration of the Interaction Between Drill Bit Gauge Profile and Point-The-Bit Rotary Steerable Systems
L.A. Lines, M.L. Larronde, D.R. Stroud

679

SPE/IADC 140070 Maximizing Core Recovery in Lower Tertiary Through Drilling Optimization Service and Intelligent Core Bit Design
Peter Guarisco, James Meyer, Rohit Mathur, Ian Thomson, Jeremy Robichaux, Clifford Young, Edgar Luna

698

SPE/IADC 140073 Advanced Reservoir Navigation System and Drilling Technology Maximizes Productivity and Drilling Performance in the Granite Wash – US Midcontinent

706

SPE/IADC 140086 Thermally Compensated Leak Detection Results in Significant Blow Out Preventer (BOP) Testing Efficiencies
C.M. Franklin, T.L. Sargent, C.R. Brown, G.W. Owen, S. Griffith, J.W. Osmond, R. Cully

719

SPE/IADC 140113 Kick Tolerance Misconceptions and Consequences to Well Design
Hello Santos, Erdem Catak, Sandeep Valluri

730
SPE/IADC 140114 Interoperability: An Enabler for Drilling Automation and a Driver for Innovation .......................... 740
Andreas Sadlier, Moray Laing

SPE/IADC 140117 Cutting the Cost of HP/HT Cleanups: Novel High Density Cleanup Package Enables Brine Reclamation and Reduces Costs ...................................................... 752
Michael Richmond, Alastair Hutton, Marcus Davidson, Sti Howards, Bob Frost, Stuart Lean, Marcel Jaspars

SPE/IADC 140133 Surface Hole Casing While Drilling — A Review of Five Years Experience in Gabon, West Africa ...................................................... 758
B. Askov, A. Phillips, J.H. Wragge

SPE/IADC 140145 Well Construction Hydraulics in Challenging Environments ............................................................................. 782

SPE/IADC 140147 Analysis of Tubular Failures in Riseless Environments ...................................................... 794
Robello Samuel, Riskh Adari, John Gradishar, A. Willie lyoko

SPE/IADC 140172 Anatomy of the “Best In Class Well”: How Operators Have Organised the Benchmarking of their Well Construction and Abandonment Performance ............................. 805
Peter Rushmore

SPE/IADC 140181 Case Histories of Recent Field Results for Advancement in Milling of Cemented Tubulars .............................................................................. 824
Mohammed A. Haq, Jerry Fisher, Tom Bailey

SPE/IADC 140183 A Comparison of Collision Avoidance Calculations .............................................................................. 830
Shola Okewunmi, Andrew Brooks

SPE/IADC 140192 Improving the Quality of Ellipse of Uncertainty Calculations in Gyro Surveys to Reduce the Risk of Hazardous Events like Blowouts or Missing Potential Production through Incorrect Wellbore Placement .............................................................................. 836
Roger Ekseth, John Werton, Adrian Ledros, Barry Smart, Astrid Ekseth

SPE/IADC 140205 Quality Assurance of Wellbore Stability Analyses .............................................................................. 851
Peter S. Androu

SPE/IADC 140211 Which Material is Less Resistant to Buckling: Steel, Aluminum or Titanium Drill Pipe? .............................................................................. 862
S. Benaima, S. Menard, H. Sellami

SPE/IADC 140224 Documentation of Risk and Cost-reducing Potential by Utilizing an Automatic Supervision and Decision Support System During Drilling a Challenging HPHT Well .............................................................................. 873
Rolf Rommersvik, Sven Inge Gågevik, Christine Nordarvand, Knut S. Bjørkevoll, Mikkel Fjeldheim

SPE/IADC 140228 Case History: Lessons Learned From Retrieval of Coiled Tubing Stuck by Massive Hydrate Plug When Well Testing in an Ultra-Deep Water Gas Well in Mexico .............................................................................. 883
Victor Valles Arieta, Aciel Oliveira Torralba, Pablo Crespo Hernandez, Eduardo Rafael Roman Garcia, Claudio Tigre Main, Michael Guijarro

SPE/IADC 140231 FMECA and Commissioning - Guidelines to Effectively Deliver Technology and Systems for Successful Drilling Automation .............................................................................. 891
John de Ward, Tom Moore, Andy McKenzie

SPE/IADC 140241 Application of Tandem Rotary Steerable-Positive Displacement Motor Bottom Hole Assembly in Drilling Horizontal Wells: Case Study of Three Eastern Siberia Wells .............................................................................. 913
Zinatimor Okyfar, Andrew Bucham, Dmitry Dyanev, Sheldon Rowlinn, Grigory Zhadan, Yury Nikitenko

SPE/IADC 140242 Predicting Salt Leaching During Drilling and Cementing Operations .............................................................................. 936

SPE/IADC 140244 Pre-perforated Liner Design and Coiled-Tubing Acidizing of Maximum-Reservoir-Contact (MRC) Wells Offshore Abu Dhabi .............................................................................. 946
John Jordan, Alfred Jackson, Sti Keller, Chris Shuchart, J. Oliverio Alves, Scott Quigley

SPE/IADC 140245 Turbodrill BHA Solves Build Section Challenges, Anadarko Basin .............................................................................. 956
Craig Stanley, Greg Bruton, Mark Natansel, Juan Kelley, Ross Mine

SPE/IADC 140249 Acquiring Formation Pressure Measurements in Challenging Borehole Conditions .............................................................................. 965
M. Piber, S.C. Ash, J. Hesling, R.S. Kusinska

SPE/IADC 140255 Development of an Automated System for the Rapid Detection of Drilling Anomalies using Standpipe and Discharge Pressure .............................................................................. 974
Don Rettsma

SPE/IADC 140260 The Successful Evolution of an LWD Rotary Steerable System for Air Drilling .............................................................................. 983
Chris Hurley, Denis Weisbeck, Scott Robert, Mark Smith
SPE/IADC 140261 Liner Drilling Technology as a Mitigation to Wellbore Ballooning - A Successful Case Study in the Gulf of Mexico Shelf

Steven M. Rosenberg, Deepak M. Gala

SPE/IADC 140262 Application of a New Method for Predicting Down Hole Loading of Tubulars During Expansion

Merle E. Evans, John R. Setterberg

SPE/IADC 140265 Extended Reach Drilling - Offshore California. Extending Capabilities and Improving Performance

Neil R. Armstrong, Andrew M. Evans

SPE/IADC 140266 Deepwater DP Drilling Rigs on Shallow Water Wells, Can it Work?

Raj Kadiyala, Alan Whooley

SPE/IADC 140267 Integrated Downhole Isolation Valve and Managed Pressure Drilling To Facilitate Development of Sour Fractured-Limestone Gas Reservoir in East Java, Indonesia

Ganesh Rinku Darmawan, Nathaniel Buntu Sangka, Surjanto Djoko Susilo, Steve Nas, Julmar Shaan S. Toraide, Andi Eko Pratia

SPE/IADC 140274 Merging Multilateral and Casing Exit Technologies to Increase Wellbore Junction Reliability by Reducing Rig and Openhole Exposure Times

Christopher Guildry, Charles Pleasants, Joseph Sheehan

SPE/IADC 140277 New Technologies to Enhance Performance of Section Milling Operations that Reduces Rig Time for P&A Campaign in Norway

Banunn Sanlton, Garry Garfield, Sint Brobak

SPE/IADC 140281 A New Player Entry to the Deepwater Market

Tim Owenrock

SPE/IADC 140289 ECD Management and Pore Pressure Determination with MPD Improves Efficiency in GOM Well

P.D. Fredericks, L. Smith, K.J. Moreau

SPE/IADC 140297 Mist Drilling in Low-Pressured, Highly Fractured Carbonates Improves Well Test Results and Fracture Identification from Image Logs

Norlizah Mohd Nor, Maria Balzarini, Mustafa Siddiqui

SPE/IADC 140298 Automated Real-time Drilling Hydraulics Monitoring

P. Zoellner, Gerhard Thonhauser, M. Lueftenegger, Hermann Spoerker

SPE/IADC 140306 A Cost-Effective Alternative Method ofDeploying Perforating Devices in High-Angle Wells

Ryan Hoal, Thad Scott, Fred Weeks, Marcell Buda

SPE/IADC 140308 An Aggressive Approach to Reducing Failure-Driven Non-Productive Time in Onshore Drilling Operations: Expanding the Quality Program

Jeff Evargle, Shawn Altizer, Juan Velas, Fred Kellow

SPE/IADC 140317 Extension of Gauge Length to Reduce Vibrations and Improve Drilling Performance

Gregory P. Smyth, Andrew M. Evans, Jonathan Bubb, Neil Bolivar

SPE/IADC 140318 Hibernia Well Overcomes Challenges to Further Extend Worldwide Extended Reach Drilling (ERD) Envelope

Miriam Woodfine, Neil Bolivar, Sarah Trend, Stinar Ottosen

SPE/IADC 140320 Delivering Performance in Shale Gas Plays: Innovative Technology Solutions

Franklin Baez, Steve Barton

SPE/IADC 140324 The Continuous Measurement and Recording of Drilling Fluid Density and Viscosity

A. Miller, C.R. Minton, R. Colwhead, M. Ketchion

SPE/IADC 140326 Effective BHA Design and Vibration Modeling for Improving the Quality of Sonic Measurements

Crispin Chat, Matthew Blythe

SPE/IADC 140327 Hydrocarbon Reservoirs Where Proactive Geosteering is Most Likely to Succeed

Douglas Siefert, Roland Chemali, Michael Bittar, Gary Althoff, Amr Laffy

SPE/IADC 140331 Case History of Innovative Plug and Abandonment Equipment and Processes for Enhanced Safety and Significant Cost Savings

Deloney Otsd, John McCormick

SPE/IADC 140332 Understanding and Managing Bottom Hole Circulating Temperature Behavior in Horizontal HT Wells - A Case Study Based on Haynesville Horizontal Wells

Keith Trichel, John Fabian
