MobiWac 2009 Symposium Organization .......................................................... vii

Keynote Address

• MBB: Handling Traffic and Network Scalability issues
  Professor M. Teresa Herrero-Zamorano

Invited Talk

• Invited Talk: Cellular Automata Based Models of Wireless Sensor Networks ................. 1
  Wei Li, Albert Y. Zomaya, Adel Al-Jumaily (The University of Technology, Sydney)

Session 1: Mobility and Handover Management
  Session Chair: Bjorn Landfelt (The University of Sydney)

• Protocol Design and Analysis of a HIP-based Per-Application Mobility Management Platform ......................................................... 7
  László Bokor, László Tamás Zéké, Szabolcs Novaczki, Gábor Jeney
  (Budapest University of Technology and Economics)

• The Performance of Multiple TCP Flows with Vertical Handoff ........................................ 17
  Laila Daniel, Markku Kojo (University of Helsinki)

• Comparative Analysis of Proxy MIPv6 and Fast MIPv6 .................................................. 26
  Ali Diab, Andreas Mitschele-Thiel (Ilmenau University of Technology)

• The Sociable Traveller: Human Travelling Patterns in Social-Based Mobility ..................... 34
  Chiara Boldrini, Marco Conti, Andrea Passarella (IIT-CNR)

Session 2: Mobility, Routing, and Forwarding
  Session Chair: Luciano Bononi (University of Bologna, Italy)

• Minimizing End-to-End Delay in Global HAHA Networks Considering Aeronautical Scenarios ......................................................... 42
  Serkan Ayaz, Christian Bauer (German Aerospace Center), Fabrice Amal (Thales Alenia Space)

• Adaptive, Direction-Aware Data Dissemination for Diverse Sensor Mobility ...................... 50
  Azzedine Boukerche (University of Ottawa), Dionysios Eftathion (University of Patras),
  Sotiris Nikoletseas (Research Academic Computer Technology Institute & University of Patras)

• Minimizing Energy Consumption Vs Maximizing Network Stability in Mobile WiMAX ........ 58
  Jad El-Najjar (Concordia University)

• Performance Analysis of Gateway Load Balancing in Ad Hoc Networks with Random Topologies ......................................................... 66
  Vinh Pham, Erlend Larsen (University Graduate Center, Norway),
  Paul E. Engelstad (SimTel (Telenor/Simula)), Øivind Kure (Q2S NTNU)

Session 3: Channel Allocation, Topology Control
  Session Chair: Sotiris Nikoletseas (University of Patras, Greece)

• A Cross-Layer Architecture for Robust Video Streaming over Multi-Radio Multi-Channel Wireless Mesh Networks ........................................ 75
  Luciano Bononi, Marco Di Felice (University of Bologna),
  Antonella Molinaro, Sara Pizzi (University Mediterranea of Reggio Calabria)

• An Efficient Neighborhood Prediction Protocol to Estimate Link Availability in VANETs ........ 83
  Cristiano Gato Rezende, Richard W. Pazzi, Azzedine Boukerche (University of Ottawa)
Session 4: Short Papers (Poster Presentations)

Session Chair: Pilar Herero (Universidad Politécnica de Madrid, Spain)

- **MeshScan: Fast and Efficient Handoff in IEEE802.11 Mesh Networks** ........................................... 105
  Yin Chen, Karol Kowalik, Mark Davis (Dublin Institute of Technology)

- **Delay-Tolerant Collaborative Filtering** ................................................................. 109
  Patrick Gratz (University of Luxembourg), Tom Leclerc (MADYNES - INRIA)

- **Multi-Operator Cognitive Radios Sharing One Channel** ............................................... 114
  Anwer Adel Al-Dulaimi, Hamed S. Al-Raweshidy (Brunel University)

- **An Exact Path-Loss Density Model for Mobiles in a Cellular System** ..................... 118
  Mouhamed Abdulla, Yousef R. Shayan (Concordia University)

- **Applying IKE/IPsec Context Transfer to Aeronautical Networks** .......................... 123
  Serkan Ayaz, Christian Bauer (German Aerospace Center), Max Ehamrner (University of Salzburg)

- **A Privacy-Enabled Architecture for an RFID-based Location Monitoring System** ...... 128
  James Lee, Khalil EL-Khatib (University of Ontario)

Session 5: Sensor Networks

Session Chair: Albert Zomaya (University of Sydney)

- **Performance Increase Through the Use of Multiple Sub-carriers in WSN** .................. 132
  Fei Qin, Yang Yang, John E. Mitchell (University College London)

- **Traffic Aware Medium Access Control Protocol for Wireless Sensor Networks** .......... 140
  Xi Zhang, Junaid Ansari, Petri Mähönen (RWTH Aachen University)

- **Probabilistic Routing in On-body Sensor Networks with Postural Disconnections** ...... 149
  Muhannad Quwaider, Subir Biswas (Michigan State University)

Author Index............................................................................................................................. 159
