# Table of Contents

Foreword .................................................................................. iii
ICSE 2010 Conference Organization ........................................... v
ICSE 2010 Sponsors and Supporters ........................................... xiii
ICSE 2010 Contributors ............................................................. xiii
Author Index ............................................................................. 609

## Keynote Papers

South Africa and the World Beyond 2010 — The Latest Scenarios ............................................. 1
Clem Sunter, Private Consultant in Scenario Planning, South Africa

Beyond Hacking: An SOSI ........................................................... 2
Fred B. Schneider, Cornell University, USA

Planning for Climate Change in the 21st Century ............................................................. 3
Sir David King, University of Oxford, UK

## Research Papers

### Dynamic Analysis

Efficient Hybrid Typestate Analysis by Determining Continuation-Equivalent States .................. 5
Eric Bodden, Technische Universitat Darmstadt, Germany

Online Inference and Enforcement of Temporal Properties .................................................. 15
Mark Gabel, Zhendong Su, University of California at Davis, USA

### Performance and Reliability

Quality of Service Profiling ........................................................................ 25
Sasa Misailovic, Stelios Sidiroglou, Henry Hoffmann, Martin Rinard, MIT, USA

Collaborative Reliability Prediction of Service-Oriented Systems ....................................... 35
Zibin Zheng, Michael R. Lyu, Chinese University of Hong Kong, China

### Faults 1

A Discriminative Model Approach for Accurate Duplicate Bug Report Retrieval .................. 45
Chengnian Sun1, David Lo2, Xiaoyin Wang3, Jing Jiang4, Siaw-Cheng Khoo1;1 National University of Singapore, Singapore; 2 Singapore Management University, Singapore; 3 Peking University, China

Has the Bug Really Been Fixed? ........................................................................ 55
Zhongxian Gu, Earl T. Barr, David J. Hamilton, Zhendong Su, University of California at Davis, USA

An Exploratory Study of Fault-Proneness in Evolving Aspect-Oriented Programs .................. 65
Fabiano Cutigli Ferrari1, Rachel Burrows2, Otávio Lemos3, Alessandro Garcia2, Eduardo Figueiredo4, Nelio Cacho5, Frederico Lopes6, Nathalia Temudo6, Liana Silva6, Sergio Soares7, Awais Rashid4, Paulo Masiere1, Thais Batista3, José Carlos Maldonado1;1 University of São Paulo, Brazil; 2 Pontifical Catholic University of Rio de Janeiro, Brazil; 3 Federal University of São Paulo, Brazil; 4 Lancaster University, UK; 5 Federal University of Rio Grande do Norte, Brazil; 6 University of Pernambuco, Brazil; 7 Federal University of Pernambuco, Brazil

### Software Architecture

Archface: A Contract Place Where Architectural Design and Code Meet Together ................ 75
Naoyasu Ubayashi1, Jun Nomura2, Tetsuo Tama2;1 Kyushu University, Japan; 2 Kyushu Institute of Technology, Japan; 3 University of Tokyo, Japan

Developing Next Generation ADLs Through MDE Techniques ............................................ 85
Davide Di Ruscio, Ivano Malavolta, Henry Muccini, Patrizio Pelliccione, Alfonso Pierantonio, Università dell’Aquila, Italy
A HOT — Human, Organizational and Technological — Framework for a Software Engineering Course
Orit Hazzan¹, Yael Dubinsky²; ¹Technion – Israel Institute of Technology, Israel; ²IBM Haifa Research Lab, Israel

TEAM ORIENTATION
An Empirical Analysis of Team Review Approaches for Teaching Quality Software Development
Amna Hwnayun¹, Wafa Basit¹, Ghulam A. Farrukh², Fakhar Lodhi¹, Rabea Aden¹; ¹National University of Computer & Emerging Sciences, Pakistan; ²University of Agriculture Faisalabad, Pakistan

An Empirical Study of the Effects of Conscientiousness in Pair Programming Using the Five-Factor Personality Model
Norsaremah Salleh¹, Emilia Mendes¹, John Grundy², Giles St.J. Burch¹; ¹University of Auckland, New Zealand; ²Swinburne University of Technology, Australia

Panel: Master’s Programs in Software Engineering
Panel on Master’s Degree Programs in Software Engineering
Mehdi Jazayeri, University of Lugano, Switzerland

Effect of Context in Software Engineering Education
The Educational Value of Mapping Studies of Software Engineering Literature
Barbara Kitchenham¹, Pearl Brereton¹, David Budgen²; ¹Keele University, UK; ²Durham University, UK

Towards Contextualised Software Engineering Education: An African Perspective
Jens Fendler, Heike Winschiers-Theophilus, Polytechnic of Namibia, Namibia
