CONTENTS

PROJECT MANAGEMENT

IPC2010-31088 ............................................................................................................. 1
Management of OSBRA Project Portfolio: Learned Lessons After Several Cases and
Many Years of Experience
  Márcio Manhães Gomes de Almeida, Valter Librais, Jr., and Nilson Vieira

IPC2010-31154 ............................................................................................................. 9
Comparative Study on Transportation Charge of Crude Oil Between Pipeline and
Railway in China
  Xiaokai Xing, Changchun Wu, and Bing Liu

IPC2010-31303 .......................................................................................................... 15
Project Management Considerations of Pipelines Crossing the Andes
  Alfred M. Pettinger and Robert Montgomery

IPC2010-31356 .......................................................................................................... 21
Assessing the Full Costs and Benefits of Pipeline Options
  Michael Buckley and Ashley Kirvan

IPC2010-31497 .......................................................................................................... 31
Assisting Project Managers to Manage Risk by Planned Verification
  Gunn Stirling and Kåre Høgmoen

IPC2010-31509 .......................................................................................................... 41
Prioritization of a Portfolio of Projects
  Jose Eduardo Modica, Roque Rabechini, Jr., and Edison Martins Braun

IPC2010-31513 .......................................................................................................... 49
The Follow-Up of an Extensive Portfolio
  Jose Eduardo Modica, Marcelo Ramos Martins, Roque Rabechini, Jr., and
  Edison Martins Braun

IPC2010-31679 .......................................................................................................... 55
Total Pipeline Integrity Management System Implemented for KOC Pipelines: A Case Study
  M. Robb Isaac, Saleh Al-Sulaiman, Monty R. Martin, and Sandeep Sharma

ENVIRONMENT

IPC2010-31015 .......................................................................................................... 61
Thermodynamic and Economic Assessment of Oxy-Combustion CCS System Applied to
Gas Turbine-Driven Compressor Stations
  C. J. Ennis and K. K. Botros

IPC2010-31016 .......................................................................................................... 77
Neural Network Based Predictive Emission Monitoring Module for a GE LM2500
Gas Turbine
  K. K. Botros and M. Cheung

### Environmental Considerations for Pipeline Abandonment: A Case Study From Abandonment of a Southern Alberta Pipeline
Jessica M. Swanson, Tom Kunicky, and Pete Poohkay

### GIS/DATABASE DEVELOPMENT
#### Using Geospatial Solutions to Meet Distribution Integrity Management Requirements
Robert A. McElroy

#### Lessons Learned From Supporting a Geohazard Management Program
Neil Ripley, Trevor Simpson, and Mark Leir

#### Integrating ILI Data With Publicly Available Mapping Solutions
Grant A. Coleman and Scott J. Miller

#### Integrating Pipeline Data Management Application and Google Maps Dataset on Web Based GIS Application Using Open Source Technology Sharp Map and Open Layers
Arie Wisianto, Hidayatus Sania, and Oki Gumilar

#### From CAD to GIS to the Geoweb: A Natural Evolution
Steve Adam

### FACILITIES INTEGRITY MANAGEMENT
#### Finite-Element Model-Based Fault Prognosis on Key Components of the Reciprocating Compressor
Wenqing Lu, Laibin Zhang, Liang Wei, and Shuguo Li

#### Storage Tank Floor and Wall Defect In-Situ Inspection With Ultrasonic Guided Wave Technique
Zhanjun Feng, Weibin Wang, Wenqiang Tong, Keyi Yuan, Zandong Han, and Yifang Chen

#### Research on Acoustic Emission In-Service Inspection for Large Above-Ground Storage Tank Floors
Mingchun Lin, Yewei Kang, Weibin Wang, Lei Zhang, and Yi Sun

#### The Remaining Life Prediction and Internal Inspection Interval Analysis for Large-Scale Crude Oil Storage Tank
Jian Shuai and Kejiang Han
Reliability Based Facility Risk Assessment
William V. Harper, David J. Stucki, Taylor M. Shie, and Ray J. Davies

In-Line Inspection Techniques for "Non-Piggable" Liquid Pipelines
Damir Grmek

Safety Culture
Marcelo Garcez Lopes

Determining the Yield Strength of In-Service Pipe Using Hardness Testing
Shadie Radmard and Monique Berg

The Remaining Strength of Corroded Casing With Combined Hoop and Longitudinal Stress
Robert B. Francini, Jacob D. Wahl, and Nolan T. Quade

Repair of High Pressure Pipe Fittings Using Composite Materials
Julian Bedoya, Chris Alexander, and Tommy Precht

Hardisty Contract Tankage Project: Design of a System for Long-Term Storage, Heating and Transporting Heavy Crude Oil in Cold Climates
Jamie Bagan, Susan Larson, Gilles Orieux, Dean Thieson, and Greg Wengreniuk

Identifying and Mitigating Flow-Induced Vibration in Recycle Loop Gas Piping at a Centrifugal Compressor Station
Eugene L. Broerman, Jason T. Gatewood, James T. O'Grady, Russel F. Troy, Charles L. Rand, Jr., and Gary T. Stroud

A Microtexture-Microstructure Model to Simulate Intergranular Stress Corrosion Crack Propagation in Pipeline Steel
M. A. Araf and J. A. Szpunar

Field Validation of a Dynamic Model for an MFL ILI Tool in Gas Pipelines
K. K. Botros and H. Golshan

In-Field Application of Steel Strip Reinforcement for Pipeline External Rehabilitation
Nicholas J. Venero, Tim J. M. Bond, Raymond N. Burke, and David J. Miles
Pressure Influence in LPG Measurements by Uncertainty Evaluation
Elcio Cruz de Oliveira

Leak Detection Method for Long Pipeline Based on Dynamic Pressure and Wavelet Analysis
Bin Xu, Likun Wang, Hongchao Wang, Min Xiong, Dongliang Yu, and Dongjie Tan

Excitation of Guided Waves in Oil Storage Tank Floor and Vertical Wall by Edge- and Wall-Mounted Transducers
Weibin Wang, Zhanjun Feng, Choumin Zhao, Keyi Yuan, Zandong Han, and Yifang Chen

Monitoring of Natural Gas Pipeline Leaks
Dongliang Yu, Likun Wang, Bin Xu, Hongchao Wang, Min Xiong, and Dongjie Tan

A Study on Multi-Data Source Fusion Method for Petroleum Pipeline Leak Detection
Liang Wei and Laibin Zhang

Pipeline Leakage Recognition Based on the Projection Singular Value Features and Support Vector Machine
Mingda Wang, Laibin Zhang, Liang Wei, and Jinqiu Hu

Effects of Ultrasonic Flowmeter Internal Diameter Differences on the OSBRA Pipeline Measurement Results
Ana Luísa A. S. Ferreira, André Paulo Kotchetkoff Neto, and Márcio Manhães Gomes de Almeida

Oil/Gas Pipeline Simulation Using a Segregated Method
Qing Miao and Bo Xu

The Analysis of Deviations on Measured Volumes Between OSBRA Pipeline Tank Farms and its Customers
André Paulo Kotchetkoff Neto and Fabio Yoshikazu Kawamoto

Research on Pipeline Leak Detection Method Based on Joint Pressure and Dynamic Pressure
Likun Wang, Min Xiong, Jinyun Zhao, Hongchao Wang, Bin Xu, Dongliang Yu, Yi Sun, and Yongjun Cai

Leak Detection for City Gas Pipelines Based on Instantaneous Energy Distribution Characteristics
Zhigang Chen
