SPE Production and Operations Symposium 2011

Oklahoma City, Oklahoma, USA
21-23 March 2011

# TABLE OF CONTENTS

<table>
<thead>
<tr>
<th>Paper Number</th>
<th>Title</th>
<th>Authors</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPE 132179</td>
<td>Successful Extended Reach Approach in Production Logging Applications</td>
<td>Alaa Kady, Abdulhadi A. Al-Ghaify, Hamzah A. Al-Khalifah, Todd Green, Tim Ramsey, Monis Pascal, Steve Smith</td>
</tr>
<tr>
<td>SPE 139810</td>
<td>Maximizing ESP Run Time through Synchronization of Generator Sets</td>
<td>Raed Al-Aslawi, Mohammad Al-Hatmir, Anwar Al-Sharqawi, Alizea Zahedi, Abdulaziz Al-Najim, Talal Al-Khalifah</td>
</tr>
<tr>
<td>SPE 139813</td>
<td>Oklahoma Woodford Shale: Completion Trends and Production Outcome from Three Basins</td>
<td>Bill Grieser</td>
</tr>
<tr>
<td>SPE 140128</td>
<td>Fully Miscible Micellar Acidizing Solvents vs. Xylene, The Better Paraffin Solution</td>
<td>David W. Boswood, Kristopher A. Kreh</td>
</tr>
<tr>
<td>SPE 140138</td>
<td>HCl-Formic In-Situ Gelled Acid for Carbonate Acidizing: Core Flood and Reaction Rate Study</td>
<td>Ahmed I. Rabie, Ahmed M. Gomaa, H.A. Nasr-El-Din</td>
</tr>
<tr>
<td>SPE 140724</td>
<td>Permian Basin Wolfberry: Stimulation Evolution and Economic Optimization</td>
<td>Arthur S. Metcalf, Juan A. Coronado</td>
</tr>
<tr>
<td>SPE 140937</td>
<td>Review on ESP Surging Correlations and Models</td>
<td>Jose Gamboa, Mauricio Prado</td>
</tr>
<tr>
<td>SPE 141026</td>
<td>Development and Application of Foamers to Enhance Crude Oil Production</td>
<td>Scott Lehrer, Saet Byui Debord, Carlene Means, Simon Crosby</td>
</tr>
<tr>
<td>SPE 141036</td>
<td>Gas Well De-Watering Method Field Study</td>
<td>Rick D. Haydel, Donald J. Brink, William K. Acker, Gary J. Gastiott</td>
</tr>
<tr>
<td>SPE 141058</td>
<td>Numerical Simulation and Multiple Realizations for Sensitivity Study of Shale Gas Reservoir</td>
<td>A. Kalantari-Dahaghi, S.D. Mohaghegh</td>
</tr>
<tr>
<td>SPE 141215</td>
<td>Gas Well Deliquification Using Microwave Heating</td>
<td>Mohamed Kamal, Ghodke Nikhil, S.D. Patwardhan, Al-Dogail Fuad</td>
</tr>
</tbody>
</table>
SPE 142177 Effect of the Number and Length of Zonal Isolations on Pressure Behavior of Horizontal Wells ................................................................. 587
S. Al Rbeawi, D. Tiab

SPE 142263 3D Hydraulic Fracture Simulation for Injection in Plastic Shales .................................................. 605
A. El-Fayoumi, K.S. Zaki, A.S. Abow-Sayed

SPE 142264 Impact of Hydrolysis at High Temperatures on the Apparent Viscosity of Carboxybetaine Viscoelastic Surfactant-Based Acid: Experimental and Molecular Dynamics Simulation Studies ........................................ 612
Meng Yu, Yan Mu, H.A. Nasr-El-Din

SPE 142265 Field Test Results of an Innovative New Drilling Tool using Rate of Penetration Modulation .............................................................. 629
Steven Reid Farley, Christopher A. Maranuk, Clint Jasper

SPE 142279 Openhole versus Cemented Completions for Horizontal Wells with Transverse Fractures: An Analytical Comparison ................ 637
Jody R. Augustine

SPE 142282 The Hydraulic Effect of Tool-joint on Annular Pressure Loss .................................................. 649
Majed Enfis, Ramadan Ahmed, Arild Saasen

SPE 142283 Effect of Water Blocking Damage on Flow Efficiency and Productivity in Tight Gas Reservoirs .............................................................. 660
Hassan Bahrami, M. Reza Rezaee, Delair Nazhat, Jakov Ostojic, Ben Cierenl, Ahmad Jamili

SPE 142286 Application of Hydrajecting Technology Achieves Significant Productivity Increase in Saudi Arabian Gas Producers ............................. 667
E. A. Alabbad, J.R. Solares

SPE 142291 Successful Control of Water Production in Slimhole Completions in a Tight-Gas Sandstone: South Texas Case Study ........................ 677
Robert Rodriguez, Ryan Hall, C.M. (Mike) Pawlik, Jordan Ciezobka

SPE 142293 Stay in the “Box”: A Consistent Method for Configuring (Loading) Reciprocating Compressors to Optimize Performance ........ 684
Larry K. Harms, Manuel A. Garza Jr.

SPE 142303 Hydraulic Fracture Optimization with a p-3D Model .............................................................. 690
T. Pitakbunkate, M. Yang, P.P. Valko, M.J. Economides

SPE 142304 The Shale Gas Potential of China .............................................................. 706
Xiuli Wang, Tian Jiao Wang

SPE 142305 Factors Governing Distance of Nanoparticle Propagation in Porous Media .............................................................. 713
Federico Caldelas, Michael J. Murphy, Chun Huh, Steven L. Bryant

SPE 142316 Pressure Transient Analysis of Horizontal Wells in a Multi-Boundary System .............................................................. 729
S. Al Rbeawi, D. Tiab

SPE 142318 A Pilot Test of Continuous Bottom Hole Pressure Monitoring for Production Optimization of Coalbed Methane in the Raton Basin .............................................................. 750
Jennifer Ratramel, Morris Bell

SPE 142319 A Practical Solution to Describe the Proved Area within a Resource Play Using Probabilistic Methods .............................................................. 760
Martin Dobson, Paul Lupardus, Tom Divine, Mark McLane

SPE 142349 Original-Gas-in-Place Sensitivity Analysis of the Manville Group in the Western Canada Sedimentary Basin .............................................................. 777
Oscar Conreras, Roberto Agullera

SPE 142359 Integrated Workover and Re-completion Techniques to Successfully Restore Productivity for Sour Gas Field, Turkmenistan .............................................................. 786
Honglian Zou, Xiangang Wang, Jian Li Kang, Qinhua Wang, Huashun Zhu, Chengwu Gao

SPE 142367 Stage Isolation Failure of Non-packer Reasons in Openhole Horizontal Completion .............................................................. 795
Desheng Zhou, Hong Yuan

SPE 142382 Optimizing Horizontal Stimulation Design Utilizing Reservoir Characterization from Decline Curve Analysis .............................................................. 802
Veronica M. Gonzales, Jeff Callard

SPE 142388 A Study of Completion Effectiveness in the Williston Basin .............................................................. 824
M.I Panjaitan, B.V Chariam, D. Mata, J. Krishnamurthy, R. Lewis

SPE 142389 Does Rock Really Weaken During Acid Fracturing Operations? .............................................................. 837
E.O. Joel, M. Pournik

SPE 142740 Simulation Based Well Performance Modeling in Haynesville Shale Reservoir .............................................................. 843
Jianwei Wang, Yang Liu
