Semantic Technologies for Test Management .................................................. 845
  F. Pirani, A. Polzometti, B. Re

The Study of Piezoelectric Devices with Thevenin's Theorem .......................... 850
  F. Arnold, L. Bravo-Roger, M. Goncalves, M. Grilo

Effectiveness of Multiple Curriculum Delivery Methods on Students' Learning .... 854
  L. Masad, R. Griffin

An Approach To Improve Reading Skills From Mathematics Courses In An Engineering Curriculum .............................................................. 857
  V. Silva-Garcia, L. Fernandez-Samaca

Knowledge Creation: Action Research In e-Learning Teams ............................ 863
  J. Kapenieks

In a Search for Competent Engineers...Competence Framework in the Field of Sustainable Manufacturing ............................................................... 869
  G. Cerinsek, S. Dolinsek

Blogs: A Learning Tool Proposal for an Audiovisual Engineering Course oo
  F. Pujol, J. Sanchez, J. Garcia, H. Mora, A. Jimeno

Teaching the Cloud: Experiences in Designing and Teaching an Undergraduate-Level Course in Cloud Computing at the Carnegie Mellon University in Qatar .... 879
  M. Rehman, M. Sakr

VirtualHop: Virtual Worlds for Experimentation and Concretization of Technical Drawing ................................................................. 892
  S. Murad, I. Passero, R. Francesc, G. Tortora

Programming Plagiarism as a Social Phenomenon: Rethinking Plagiarism Detection Tools in the Programming Assessment Process ........................................ 899
  B. Lupoint, N. Omar

New Approaches For A Distance Learning Course About Embedded Systems: A “Top-Down” Concept And A HW/SW Co - Simulation Tool In Embedded System Education ............................................................. 907
  P. Brojecha, R. Beneder, M. Kramer

Learning Systems Development Using Reusable Standard-Based Requirements Catalogs ................................................................. 911

Extended Educational Use of the Microcontroller Student Learning Kit (MCU SLK) ................................................................. 917
  B. Deaky, N. Lupulescu, D. Ursutiu

The Regensburg Concept Of P-Seminars: How To Organize The Interface Between Secondary School And University Education To Create A Didactic Cooperation Between Teaching And Learning Of Software Engineering With Lego Mindstorms NXT Embedded Robot Systems .......... 921
  J. Motlok, A. Gardeia

A Hybrid Algorithm for Time Scheduling in Remotely Triggerred Online Laboratories ................................................................. 925
  A. Maiti

A PNU Model of Engineering Service Learning as a Multidisciplinary Design Project ................................................................. 931
  J. Choi, Y. Seo, J. Eom

Knowledge Sharing via Web 2.0 for Diverse Student Groups in Distance Learning ................................................................. 937
  O. Voychenko, K. Symjysya

Learning Styles in Foreign Language Teaching/Learning .................................... 941
  I. Simonova

ALGO+, An Assessment Tool For Algorithmic Competencies .................................. 945
  A. Bey, T. Benteabaa

Competencies in Maintenance Management: The ILearn2Main Tools for Training and Competence Assessment ................................................................. 951
  C. Emmanouilidis, P. Pistrifiadis, N. Papathanasiou, A. Labib

The LernLabor System: A Multi-Purpose Lecture Recording Solution utilizing HD Interactive Whiteboards ................................................................. 957
  A. Vasesev, J. Zylka, M. Ecker, W. Muller

Implementing Gymkhana with Android Smartphones: A Multimedia M-Learning Game ................................................................. 964
  G. Robles, J. Gonzalez-Barahona, J. Fernandez-Gonzalez

Improved Cooperation Between Schools And Science Labs By Adapting Experiments To The Curriculum ................................................................. 973
  R. Sallier, K. Beckhauser, B. Bruck, A. Schutte

Acquiring Expertise in a Lab for Solar Energy Technologies: Design of a Multifunctional Lab for Engineering Education ................................................................. 979
  M. Al-Addous, C. Claas

PortableLab: Implementation of a Mobile Remote Laboratory for the Android Platform ................................................................. 987
