Contents

Preface vii
Editors ix
Contributors xi

1. Sensor Networks in Healthcare: A New Paradigm for Improving Future Global Health ........................................ 1
   Daniel T.H. Lai, Braveena Santhiranayagam, Rezaul K. Begg, and Marimuthu Palaniswami

2. Healthcare and Accelerometry: Applications for Activity Monitoring, Recognition, and Functional Assessment .......... 21
   Andrea Mannini and Angelo Maria Sabatini

3. Intrabody Communication Using Contact Electrodes in Low-Frequency Bands ............................................. 51
   Ken Sasaki, Fukuro Koshiji, and Shudo Takenaka

   Yen Kheng Tan

   Kalvinder Singh and Vallipuram Muthukkumarasamy

6. Flexible and Wearable Chemical Sensors for Noninvasive Biomonitoring ...................................................... 139
   Hiroyuki Kudo and Kohji Mitsubayashi

7. Monitoring Walking in Health and Disease .............................................. 159
   Richard Baker

8. Motion Sensors in Osteoarthritis: Prospects and Issues .............................................................. 183
   Tim V. Wrigley

   Gita Pendhakar, Daniel T.H. Lai, Alistair Shilton, and Remco Polman
10. Ambulatory and Remote Monitoring of Parkinson’s Disease
   Motor Symptoms ................................................................. 247
   Joseph P. Giuffrida and Edward J. Rapp

11. Nocturnal Sensing and Intervention for Assisted Living of
   People with Dementia .......................................................... 283
   Paul J. McCullagh, William M.A. Carswell, Maurice D. Mulvenna,
   Juan C. Augusto, Huiru Zheng, and W. Paul Jeffers

12. Experiences in Developing a Wearable Gait Assistant for
   Parkinson’s Disease Patients .............................................. 303
   Marc Bächlin, Daniel Roggen, Meir Plotnik, Jeffrey M. Hausdorff,
   and Gerhard Tröster

   Considerations and Measures .............................................. 339
   Ahsan H. Khandoker and Brian A. Walker

14. Sensors, Monitoring and Model-Based Data Analysis in
   Sports, Exercise and Rehabilitation ..................................... 375
   Jurgen Perl, Daniel Memmert, Arnold Baca, Stefan Endler,
   Andreas Grunz, Mirjam Rebel, and Andrea Schmidt

15. Robust Monitoring of Sport and Exercise ................................ 407
   Andrew J. Wixted

Index ..................................................................................... 437
