Kansei Engineering and Soft Computing: Theory and Practice

Ying Dai
Iwate Prefectural University, Japan

Basabi Chakraborty
Iwate Prefectural University, Japan

Minghui Shi
Xiamen University, China
Table of Contents

Foreword ............................................................................................................ xv
Preface .................................................................................................................. xvii
Acknowledgment ............................................................................................... xxii

Section 1
Basic Concepts, Frameworks and Techniques

Chapter 1
Soft Computing and its Applications ................................................................. 1
  Siddhartha Bhattacharyya, The University of Burdwan, India
  Ujjwal Maulik, Jadavpur University, India
  Sanghamitra Bandyopadhyay, Indian Statistical Institute, India

Chapter 2
Particle Swarm Optimizer for High-Dimensional Data Clustering .................. 31
  Yanping Lu, Xiamen University, China
  Shaozi Li, Xiamen University, China

Chapter 3
Text Mining for Analysis of Interviews and Questionnaires ......................... 52
  Yasuhiro Yamada, Shimane University, Japan
  Kanji Kato, GK Sekkei Incorporated, Japan
  Sachio Hirokawa, Kyushu University, Japan

Chapter 4
Intra-Class Threshold Selection in Face Space Using Set Estimation Technique ........................................ 69
  Madhura Datta, University of Calcutta, India
  C.A. Murthy, Indian Statistical Institute, India
Chapter 5
DNA Computing........................................................................................................ 85
  Tao Song, Huazhong University of Science and Technology, China
  Xun Wang, University of Tsukuba, Japan
  Shudong Wang, Shandong University of Science and Technology, China
  Yun Jiang, Huazhong University of Science and Technology, China

Chapter 6
Kansei Database and AR*-Tree for Speeding up the Retrieval........................................ 111
  Yaokai Feng, Kyushu University, Japan

Chapter 7
Emotional Semantic Detection from Multimedia: A Brief Overview................................. 126
  Shang-fei Wang, University of Science and Technology of China, China
  Xu-fa Wang, University of Science and Technology of China, China

Chapter 8
Fuzzy Logic for Non-Smooth Dynamical Systems.......................................................... 147
  Kamyar Mehran, Newcastle University, UK
  Bashar Zahawi, Newcastle University, UK
  Damian Giaouris, Newcastle University, UK

Chapter 9
An Intimate Relation: Human Beings with Humanoids..................................................... 169
  Elisabeth Damour, Act & Be - Creative Management Consultancy, France

Section 2
Measurement, Analysis, and Representation of Kansei

Chapter 10
Music and Kansei: Relations between Modes, Melodic Ranges, Rhythms, and Kansei........ 180
  Shigekazu Ishihara, Hiroshima International University, Japan
  Mitsuo Nagamachi, Hiroshima International University, Japan
  Jun Masaki, Nagasaki Prefectural Government, Japan

Chapter 11
Analyses of People's Perceptions on Sidewalk Environments Combining Factor Analysis
and Rough Sets Approach................................................................................................. 199
  Weijie Wang, Southeast University, China
  Wei Wang, Southeast University, China
  Moon Namgung, Wonkwang University, South Korea
Chapter 12
Affective Facial Expressions Using Auto-Associative Neural Network in Kansei Robot “Ifbot” .......................................................... 215
Masayoshi Kanoh, Chukyo University, Japan
Tsuyoshi Nakamura, Nagoya Institute of Technology, Japan
Shohei Kato, Nagoya Institute of Technology, Japan
Hidenori Itoh, Nagoya Institute of Technology, Japan

Chapter 13
Natural Effect of Spatial and Temporal Color Sequence on Human Color Impression ...................... 237
Naotoshi Sugano, Tamagawa University, Japan

Chapter 14
Rural Scenery Narrative and Field Experiences: From an Aspect of Kansei ................................. 255
Tadashi Hasebe, Tohoku University, Japan
Michiaki Omura, Tohoku University, Japan
Hisashi Bannai, Rural Finance Research Institute, Japan

Chapter 15
Psychophysiological Applications in Kansei Design ........................................................................ 266
Pierre Lévy, Eindhoven University of Technology, The Netherlands & Chiba University, Japan
Toshimasa Yamanaka, University of Tsukuba, Japan
Oscar Tomico, Eindhoven University of Technology, The Netherlands

Chapter 16
Analyzing Coordinate Relations in Handwriting Activity: Tacit Skill and Individuality .................. 287
Yusuke Manabe, Chiba Institute of Technology, Japan
Kenji Sugawara, Chiba Institute of Technology, Japan

Chapter 17
Kansei’s Physiological Measurement and its Application (1): Salivary Biomarkers as a New Metric for Human Mental Stress .................................................................................. 303
Shusaku Nomura, Nagaoka University of Technology, Japan

Chapter 18
Kansei’s Physiological Measurement and its Application (2): Estimation of Human States Using PCA and HMM ........................................................................................................... 319
Santoso Handri, Nagaoka University of Technology, Japan
Shusaku Nomura, Nagaoka University of Technology, Japan
Chapter 19
The China Brain Project: An Evolutionary Engineering Approach to Building China’s First Artificial Brain Consisting of 10,000s of Evolved Neural Net Minsky-Like Agents

Hugo de Garis, Xiamen University, China
Xiaoxi Chen, Xiamen University, China
Ben Goertzel, Novamente LLC, USA & Singularity Institute, USA & Xiamen University, China
