SIGMIS CPR 2011 Conference Organization ................................................................. ix

SIGMIS CPR 2011 Sponsors & Supporters .................................................................. x

Session 1.1: IT Workforce Education
Session Chair: Gail Robin (Baker College Center of Graduate Studies)

• Do Companies Look for Education, Certifications or Experience:  
  A Quantitative Analysis .......................................................................................... 1  
  Gail J. Robin (Baker College)

• Using an e-Book to Teach Technology: Effects on Student Performance ............... 6  
  Susan E. Yager (Southern Illinois University Edwardsville), Zsuzsanna Szabo (Marist College)

• A Proposed Study Examining the Effects of Social Networking Use  
  on Face-to-Face Communication .......................................................................... 11  
  Mark A. Serva, Michelle Barineau (University of Delaware)

Session 1.2: IT Workforce Management–I
Session Chair: Karthikeyan Umapathy (University of North Florida)

• “In Times of Stress, Be Bold and Valiant”:
  A Preliminary Exploration of the Psychosocial and Physiological  
  Measures of Stress and Suggestions for Future MIS Research ............................ 14  
  Mark Serva (University of Delaware), John Benamati (Miami University of Ohio),  
  Jon Blue, Jack Baroudi (University of Delaware)

• Telecommuting Advantages and Challenges for IT Management and Staff ............ 20  
  Nathan Sikes, Kathy Mason, Suson VonLehmden (RTI International)

Session 2.1: Recruitment and Retention of IT Workforce
Session Chair: Damien Joseph (Nanyang Technological University)

• Drivers, Challenges and Consequences of E-Recruiting: A Literature Review .......... 26  
  Stefan Lang, Sven Laumer, Christian Maijer (University of Bamberg),  
  Andreas Eckhardt (Goethe-University of Frankfurt)

• Software Practitioners Dropping-Out: A Research Proposal ................................. 36  
  Jack Downey (University of Limerick)

• IT Workforce Planning: A Modular Design Science Approach .............................. 42  
  Monica Adya (Marquette University), Fred Niederman (St. Louis University)

Session 2.2: Methodological Issues and Research Challenges
Session Chair: Monica Adya (Marquette University)

• Researching the Older IT Professional:
  Methodological Challenges and Opportunities .................................................... 113  
  Michelle L. Kaanst-Brown, Johanna L. H. Birkland (Syracuse University)

• A Review of Difference Score Research in the IS Discipline with an Application  
  to Understanding the Expectations and Job Experiences of IT Professionals .......... 119  
  Hyung Koo Lee, Mike Gallivan (Georgia State University)

• Understanding and Applying Participant Observation  
  in Information Systems Research ........................................................................ 126  
  Jo Ellen Moore, Susan E. Yager (Southern Illinois University Edwardsville)
Session 3.1: Perceptions about IT Careers
Session Chair: Diane Lending (James Madison University)

- **Occupational Commitment of IT Students: A Social Cognitive Career Theory Perspective** .................................................................................................................. 62
  Christine Siew Kuan Koh, Damien Joseph (Nanyang Technological University)

- **The Trend is Our Friend: German IT Personnel's Perception of Job-related Factors Before, During and After the Economic Downturn** .................................................................................................................. 65
  Sven Laumer, Christian Maier (University of Bamberg), Andreas Eckhardt (Goethe-University of Frankfurt), Tim Weitzel (University of Bamberg)

Session 3.2: IT Workforce Management-II
Session Chair: Nathan Sikes (RTI, USA)

- **Exponential Random Graph Modeling of Communication Networks to Understand Organizational Crisis** ............................................................................................................................. 71
  Jafar Hamra, Shahadat Uddin, Liaquat Hossain (The University of Sydney)

- **Conceptual Aspects of IT Governance in Enterprise Environment** ............................................................................................................................. 79
  Sureerat Saetang, Abrar Haider (University of South Australia)

Session 4.1: Research Posters and Doctoral Consortium Posters

- **DSS Development and Implementation Within the Services Industry: A User Based Design Science Approach** ............................................................................................................................. 83
  Matthew D. Gonzalez (University of Incarnate Word)

- **The IT Professional as Stakeholder** ............................................................................................................................. 84
  Norah Power (University of Limerick)

- **Cloud Computing for Enterprises: One Size Does Not Fit All** ............................................................................................................................. 85
  Janet L. Bailey (University of Arkansas at Little Rock), Steven Lamey (Walmart Corporation), Bradley K. Jensen (Microsoft Corporation)

- **Explaining the Influence of User Personality on the Evaluation of IT Usage Drivers and IT Usage Consequences** ............................................................................................................................. 86
  Christian Maier (University of Bamberg)

- **Mobile IS Success in Personnel Marketing: A Consumer-based Analysis of Quality and Perceived Value** ........................................................................................................................................... 91
  Susanne J. Niklas (RheinMain University of Applied Sciences/ Saarland University)

Session 5.1: Panel Session

- **Academic Trends, Challenges, and Opportunities for IT Programs in Today's Evolving Environment** ............................................................................................................................. 152
  Indira R. Guzman (Trident University International), Michelle L. Kaarst-Brown (Syracuse University), Diane Lending (James Madison University), Greg Brierly (United States Army), Chino Rao (University of Texas at San Antonio), Johanna L. Birkland (Syracuse University)

Session 6.1: IT Workforce Development
Session Chair: Mark Serva (University of Delaware)

- **Role of Professional Associations in Preparing, Recruiting, and Retaining Computing Professionals** ........................................................................................................................................... 49
  Karthikeyan Umapathy, Albert D. Ritzhaupt (University of Florida)

- **Designing an E-Mentoring Application for Facebook** ........................................................................................................................................... 58
  Hsuan-Ming Lee, Ju Long, Mayur R. Mehta (Texas State University - San Marcos)
Session 6.2: Global Information Systems Development
Session Chair: Mike Gallivan (Georgia State University)

- The Impact of Media Selection on Stakeholder Communication in Agile Global Software Development: A Preliminary Industrial Case Study ...................................................... 131
  Biyagamage Agra Junius Fernando (Brunel University), Tracy Hall (Brunel University), Anthony Fitzpatrick (Pitney Bowes)

- Co-Adaptive Processes of Stakeholder Networks and Their Effects on Information Systems Specifications................................. 140
  Richard W. Woolridge, Janet Bailey (University of Arkansas at Little Rock)

- Boundary Spanners and Client Vendor Relationships in IT Outsourcing: A Social Capital Perspective .................................................. 148
  M. Das Aundhe (Louisiana State University), Beena George (University of St. Thomas), Rudy Hirschheim (Louisiana State University)

Session 7.1: Tutorial Session

- Developing a Digital Persona......................................................................................................................... 96
  Barbara L. Ciaramitaro (Ferris State University)

Session 7.2: Diversity and Cultural Issues of IT Workforce
Session Chair: Eileen Trauth (The Pennsylvania State University)

- Stay or Quit: IT Personnel Turnover in Botswana ...................................................................................... 97
  Faith-Michael E. Uzoka (Mount Royal University), Klodwig V. Mgaya, lice P. Shemi (University of Botswana), Ernest G. Kitindi (University of Dar es Salaam Business School), Boluwaji A. Akinwunse (Bells University of Technology)

- Challenges and Barriers Facing Women in the IS Workforce: How Far Have We Come?................................. 107
  Deborah J. Armstrong (Florida State University), Cynthia K. Riemenschneider (Baylor University), Margaret F. Reid (University of Arkansas), Jason E. Nelms (Florida State University)

Author Index .................................................................................................................................................. 154
