Service Life Cycle Tools and Technologies: Methods, Trends, and Advances

Jonathan Lee  
*National Central University, Taiwan*

Shang-Pin Ma  
*National Taiwan Ocean University, Taiwan*

Alan Liu  
*National Chung Cheng University, Taiwan*
# Table of Contents

Preface ............................................................................................................................. vi

## Section 1
### Introduction and Foundation

**Chapter 1**
Service-Oriented Computing: From Web Services to Service-Oriented Components ............. 1
*Stéphanie Chollet, Laboratoire d’Informatique de Grenoble, France*
*Philippe Lalanda, Laboratoire d’Informatique de Grenoble, France*
*Jonathan Bardin, Laboratoire d’Informatique de Grenoble, France*

## Section 2
### Service Provision and Design

**Chapter 2**
Semi-Automated Lifecycles for Eliciting Requirements for Service-Oriented Environments .......... 22
*M. Brian Blake, University of Notre Dame, USA*

**Chapter 3**
Quality of Service and Extra-Functional Properties for Web Services: A Model-Driven Approach ................................................................. 35
*Guadalupe Ortiz, University of Cádiz, Spain*
*Behzad Bordbar, University of Birmingham, UK*

**Chapter 4**
The Foundations of Service Eco-Systems .............................................................................. 65
*Aditya Ghose, University of Wollongong, Australia*
Section 3
Service Delivery

Chapter 5
A QoS-Aware Service Bus with WSLA-Based Monitor for Media Production Systems
Ing-Yi Chen, National Taipei University of Technology, Taiwan
Guo-Kai Ni, National Taipei University of Technology, Taiwan
Rich C. Lee, National Taipei University of Technology, Taiwan

Section 4
Service Search and Selection

Chapter 6
A Goal-Driven Approach for Service-Oriented Systems Design
Chiung-Hon Leon Lee, Nanhua University, Taiwan
Alan Liu, National Chung Cheng University, Taiwan
Arthur Shr, Louisiana State University, USA

Section 5
Service Composition

Chapter 7
Bridging the Gap between Business Process Models and Service Composition Specifications
Stephan Buchwald, Daimler AG, Germany
Thomas Bauer, Daimler AG, Germany
Manfred Reichert, University of Ulm, Germany

Chapter 8
A Model-Driven Approach to Service Composition with Security Properties
Stéphanie Chollet, Laboratoire d’Informatique de Grenoble, France
Philippe Lalanda, Laboratoire d’Informatique de Grenoble, France

Chapter 9
Adaptive and Dynamic Service Compositions in the OSGi Service Platform
Lionel Touseau, Université de Grenoble, France
Kiev Gama, Université de Grenoble, France
Didier Donsez, Université de Grenoble, France
Walter Rudametkin, Université de Grenoble, France

Section 6
Service Verification and Validation

Chapter 10
Service Composition Verification and Validation
Manuel Palomo-Duarte, University of Cadiz, Spain
Chapter 11
Towards a High-Availability-Driven Service Composition Framework
Jonathan Lee, National Central University, Taiwan
Shang-Pin Ma, National Taiwan Ocean University, Taiwan
Shin-Jie Lee, National Central University, Taiwan
Chia-Ling Wu, National Central University, Taiwan
Chiung-Hon Leon Lee, Nanhua University, Taiwan

Chapter 12
SOA Designed Health Care System for Taiwan Government
Jun-Bin Shi, Industrial Technology Research Institute, Taiwan
Shu-Fen Yang, Industrial Technology Research Institute, Taiwan
Tsung-Jen Huang, Industrial Technology Research Institute, Taiwan

Chapter 13
Case Study on SOA Implementation Framework and Applications
Tzu-Chun Weng, Institute of Information Industry (III), Taiwan
Yu-Ting Lin, Institute of Information Industry (III), Taiwan
Jay Stu, Institute of Information Industry (III), Taiwan

Chapter 14
Abstract Service for Cyber Physical Service Composition
Yajing Zhao, University of Texas at Dallas, USA
Jing Dong, University of Texas at Dallas, USA
Jian Huang, University of Texas at Dallas, USA
Yansheng Zhang, University of Texas at Dallas, USA
I-Ling Yen, University of Texas at Dallas, USA
Farokh Bastani, University of Texas at Dallas, USA
