41st $R^3$-Nordic Symposium

Cleanroom technology, contamination control and cleaning

Dipoli, Espoo, Finland, May 25–26, 2010

Edited by
Gun Wirtanen & Satu Salo

Program committee:
Kari Leonsaari, Sirkka Malmioja, Antti Mikkola, Raimo Pärssinen & Satu Salo

Organised by
$R^3$-Nordic
The Nordic Society of Cleanroom Technology
Contents

Preface 3

PLENARY SESSION 7

Aerosols Basics for Better Air Quality
Kaarle Hameri 9

PIC/S Guide to Good Practices for the Preparation of Medicinal Products in Health Establishments (PE 010-3) – A GMP for Hospital Pharmacies?
Kirsti Tomiainen 10

Viral Risks
Pentti Huovinen 11

Hygiene in the Food and Clinical Sector – Why Are They Not the Same?
John Holah 12

Ergonomics and Cleanroom Work
Susanna Jarvelin 16

PHARMACEUTICAL SESSION 25

Lean Engineering for Pharmaceutical Plants – A Praxis Oriented Approach for a Lean Engineering and Realization Process
Rüdiger Mechsner 27

Start-up of New Modern Facility (Case)
Malja Hietava-Lorenzi 28

Inspection Observations
Ritva Haikala 31

Applications of Single-use Systems and Technologies in Biopharmaceutical Processes
Bruce Rawlings 32

Isolator for Sterility Testing Operation: Process Description and Validation
Kasper Carlsen 34

IMD Technology with an Example of a Successful Application
Gilberto Dalmaso 39

Risk Management in Pharma and Medical Device Industry
Pasi Grönroos 48
A Comparison of Data Acquired from a Test Chamber during Simultaneous Measurements by Standard DPC, STA-Sampler and IMD-A
Bengt Ljungqvist and Berit Reinmüller

Alternative Method for Airborne Contamination Control in Only Few Hours
Diane de Pastre, Quilterie Desonqueres and Esmeralda Carvalho

Changes Affecting EU GMP and the FDA's CGMP
Non-viable Particle Cleanliness in Cleanrooms
Tony Harrison

Maintaining a Spore Free Cleanroom
Karen Rossington

ELECTRONICS SESSION

Control of Macroparticles in a Clean Manufacturing Environment
Pasi Tamminen

Changes to ISO 14644 for Cleanrooms
Tony Harrison

Nano- and Micro Structured Plastic Thin Film for Optical and Functional Surface Applications
Samuli Siitonen and Valtteri Kalima

GENERAL SESSION

HEPA Filter Integrity Testing: ISO 14644-3 and Real Practice
Alexander Fedotov

ISO 21501-4 the New Standard for Calibration of Airborne Particle Counters for Clean Spaces – Will My Existing Particle Counter Comply
Patrik Bengtsson

Design of Purified Water Systems and Its Sampling for Modern On-line Analyzing Technology
Christoffer Meyer

How to Clean Clean?
Leila Kakko

Cleanroom Design and Construction
Jukka Vasara

HOSPITAL SESSION

High Tech Hospital
Salme Nurmi, Seppo Enbom, Kimmo Heinonen, Gun Wirtanen, Satu Salo and Hannu Salmela
Clothing Systems Used in Operating Rooms – A Question of Patient Safety 142
Bengt Ljungqvist and Berit Reinmüller

Contamination Risks due to Door Openings in Operating Rooms 148
Bengt Ljungqvist, Berit Reinmüller, Jan Gustén, Linda Gustén and Johan Nordenadler

Some Observations on the Impact of Clothing Systems on the Concentration of Airborne Bacteria-Carrying Particles during Surgery 161
Jonas Hallberg Borgqvist

Hygiene Monitoring with the Portable Microbe Enrichment Unit (PMEU) 164
Elias Hakalehto

Cleanrooms and Clean Zones in Hospitals 177
Alexander Fedotov

The Effects of using a Particle Counter in a Cytotoxic Environment. Is It Dangerous for the Operator? 191
Nikolaj Emil Damm

Gowning in Operating Room – Standards and experience 193
Dennis Andersen

Larger Climatised Zoned Ultra Clean Air Will be the Future in Modern Operating Theatres 194
Kjell Rösjö

FOOD SESSION 197

VTT’s Renovated Pilot Plant Facilities – New Possibilities for Cleaner Food Processing and Research 199
Juhani Sibakov, Mai Järvinen, Satu Salo and Gun Wirtanen

Complementary Assay in Hygiene Testing – Chemical Residue Test 208
Juha Lappalainen

Environmental Listeria Plate Petrifilms in Detection of Listeria species from Environmental Samples 210
Liina Kutsar, Satu Salo and Gun Wirtanen

The BD BACTEC System for Automatic Culture, Reading and Reporting of Results of Sterile Samples 221
Ann-Charlotte Merkel

Laboratory Study of Garment Treatment using Ozone 222
Savvas Yennaris
