# Table of Contents

### Session 1: Epidemic Intelligence

An Authoring Framework for Security Policies: A Use-Case within the Healthcare Domain .............................................................. 1  
*Thomas Trojer, Basel Katt, Florian Wozak, and Thomas Schabetsberger*

Detecting Public Health Indicators from the Web for Epidemic Intelligence .................................................................................. 10  
*Avaré Stewart, Marco Fisichella, and Kerstin Denecke*

#Swineflu: Twitter Predicts Swine Flu Outbreak in 2009 .................. 18  
*Martin Szomszor, Patty Kostkova, and Ed de Quincey*

### Session 2: Data Representation and Knowledge Management

Identifying Breast Cancer Concepts in SNOMED-CT Using Large Text Corpus ................................................................. 27  
*Zharko Aleksovski and Merlijn Sevenster*

Towards Knowledge Oriented Personal Health Systems .................. 35  
*Juha Puustjärvi and Leena Puustjärvi*

### Session 3: Training and ICT Infrastructure: International Perspective

Evaluation of Popularity of Multi-lingual Educational Web Games – Do All Children Speak English? ................................. 44  
*Dasun Weerasinghe, Lisa Lazareck, Patty Kostkova, and David Farrell*

### Session 4: Online Communities of Practice

Integrating Consumer-Oriented Vocabularies with Selected Professional Ones from the UMLS Using Semantic Web Technologies .......... 54  
*Elena Cardillo, Genaro Hernandez, and Olivier Bodenreider*
### Evaluation of a Semantic Web Application for Collaborative Knowledge Building in the Dementia Domain

*Helena Lindgren and Peter Winnberg*

- Page: 62

### Impacts of a Web-Based System on a Distributed Clinical Community of Practice

*Marie Gustafsson Friberger*

- Page: 70

### Session 5: Clinical Decision Support Systems

- **Modeling Healthcare Processes in BPEL: A Colon Cancer Screening Case Study**
  *Roberta Cucino and Claudio Eccher*
  - Page: 78
- **Improvements in Data Quality for Decision Support in Intensive Care**
  *Filipe Portela, Marta Vilas-Boas, and Manuel Filipe Santos*
  - Page: 86
- **Predicting Sepsis: A Comparison of Analytical Approaches**
  *Fernida Gwadry-Sridhar, Ali Hamou, Benoit Lewden, Claudio Martin, and Michael Bauer*
  - Page: 95

### Session 6: Knowledge Dissemination and Training

- **Promoting e-Health Resources: Lessons Learned**
  *Ed de Quincey, Patty Kostkova, and Gawesh Jawaheer*
  - Page: 103
- **Between Innovation and Daily Practice in the Development of AAL Systems: Learning from the Experience with Today’s Systems**
  *Shirley Beul, Lars Klack, Kai Kasugai, Christian Moellering, Carsten Roecker, Viktoria Wilkouska, and Martina Ziefle*
  - Page: 111
- **The FEM Wiki Project: A Conversion of a Training Resource for Field Epidemiologists into a Collaborative Web 2.0 Portal**
  *Patty Kostkova and Martin Szomszor*
  - Page: 119

### Session 7: ICT Healthcare Architectures

- **Logica’s eCareLogic: A Service Oriented Architecture for Connected Health**
  *Harini Kulatunga*
  - Page: 127
- **Collaborative Encoding of Asbru Clinical Protocols**
  *Marco Rospocher, Claudio Eccher, Chiara Ghidini, Rakebul Hasan, Andreas Seyfang, Antonella Ferro, and Silvia Miksch*
  - Page: 135
Session 8: Social Structures

eHealth Living Lab Micro Innovation Strategy: A Case Study of Prototypes through Co-creation
Josep Ma. Monguet, Marco Ferruzca, Joaquín Fernández, and Eduardo Huerta

Personal Health Records among Institutions, Medical Records, and Patient Wisdom: A Socio-technical Approach
Barbara Purin and Enrico Maria Piras

Session 9: User Support and Socio-economic Issues in Healthcare

Economic Viability of eCare Solutions
Jan Van Ooteghem, Ann Ackaert, Sofie Verbrugge, Didier Colle, Mario Pickavet, and Piet Demeester

Gender-Specific Kansei Engineering: Using AttrakDiff2
Bianka Trevisan, Anne Willach, Eva-Maria Jakobs, and Robert Schmitt

Accounting for User Diversity in the Acceptance of Medical Assistive Technologies
Sylvia Kowalewski, Wiktoria Wilkowska, and Martina Ziefle

Session 10: Delivery and Monitoring Platforms

Experimental Evaluation of IEEE 802.15.4/ZigBee for Multi-patient ECG Monitoring
Helena Fernández-López, José H. Correia, Ricardo Simões, and José A. Afonso

Wearable Sensor Networks for Measuring Face-to-Face Contact Patterns in Healthcare Settings
Alain Barrat, Ciro Cattuto, Vittoria Colizza, Lorenzo Isella, Caterina Rizzo, Alberto E. Tozzi, and Wouter Van den Broeck

Session 11: Security, Trust and Privacy

A Note on the Security in the Card Management System of the German E-Health Card
Marcel Winandy

Towards a Framework for Privacy Preserving Medical Data Mining Based on Standard Medical Classifications
Aurélien Faravelon and Christine Verdier
Session 12: Modelling and Evaluation of Healthcare ICT System

On the Usage of SAML Delegate Assertions in an Healthcare Scenario with Federated Communities ........................................... 212
  Massimiliano Masi and Roland Maurer

An Event-Based, Role-Based Authorization Model for Healthcare Workflow Systems ........................................... 221
  Vassiliki Koufi, Flora Malamateniou, Eleni Mytilinaiou, and George Vassilacopoulos

Hospital Engineering ........................................... 229
  Thomas Lux

Workshop: 5th International Workshop on Personalisation for eHealth

A Model for Interaction Design of Personalised Knowledge Systems in the Health Domain ........................................... 235
  Helena Lindgren and Peter Winnberg

  Polyxeni Vassilakopoulou, Vassiliis Tsagkas, and Nicolas Marmaras

Privacy in Commercial Medical Storage Systems ........................................... 247
  Mehmet Tahir Sandikkaya, Bart De Decker, and Vincent Naessens

A Portal to Promote Healthy Living within Families ........................................... 259
  Nathalie Colineau and Cécile Paris

e-MomCare: A Personalised Home-Monitoring System for Pregnancy Disorders ........................................... 267
  Marina Velikova, Peter J.F. Lucas, and Marc Spaanderman

Workshop: VWorkshop on Agents Applied in Healthcare

The MOSAIC System - A Clinical Data Exchange System with Multilateral Agreement Support ........................................... 275
  Magí Lluch-Ariet and Josep Pegueroles-Valles

Agent-Based Careflow for Patient-Centred Palliative Care ........................................... 285
  Ji Ruan, Wendy MacCaull, and Heather Jewers

To Share or Not to Share SHARE-it: Lessons Learnt ........................................... 295
  Roberta Annicchiarico and Ulises Cortés
