Carbon Markets or Climate Finance?
Low carbon and adaptation investment choices for the developing world

Edited by Axel Michaelowa
## Contents

- List of boxes: xi
- List of figures: xii
- List of tables: xiv
- Notes on contributors: xv
- Preface: climate finance at the crossroads between market mechanisms and public funding vehicles: xviii
- Acknowledgements: xxiii
- Acronyms and abbreviations: xxiv

### 1 The Clean Development Mechanism gold rush

Axel Michaelowa and Jorund Buen

1 The CDM: from Cinderella to fairy princess: 1
2 What were the reasons for the CDM gold rush?: 3
3 Which technologies and countries benefited the most?: 9
4 In which fields did the CDM underperform and would need reform?: 18
5 The risk of marginalization of the CDM: 29
6 Future climate finance: key lessons from the CDM gold rush: 31
7 There is life after the gold rush: how a maturing CDM can become the cornerstone of global climate policy: 33

### 2 Development cooperation and climate change: political-economic determinants of adaptation aid

Katharina Michaelowa and Axel Michaelowa

1 Introduction: 39
2 Adaptation versus mitigation aid: why donors might behave differently: 40
3 The data: 42
4 Econometric analysis: 45
5 Conclusions: 50
Contents

3 How Brazil and China have financed industry development and energy security initiatives that support mitigation objectives

JORUND BUEN AND PAULA CASTRO

1 Introduction 53
2 The Brazilian National Alcohol Programme ProAlcool 54
3 Wind power development in China 64
4 Lessons for financing emission reduction initiatives in developing countries 79
5 Concluding remarks 83

4 The Adaptation Fund: towards resilient economies in the developing world

IZABELA RATAJCZAK-JUSZKO

1 Introduction 92
2 The UN Framework Convention on Climate Change and Kyoto Protocol provisions on adaptation 93
3 Financial needs for adaptation in developing countries 94
4 The Adaptation Fund under the Kyoto Protocol 95
5 The importance of capacity building and enabling conditions 108
6 Regional approach to access modality 109
7 The challenge of defining most vulnerable countries 109
8 Lessons learned from the Adaptation Fund and policy implications for the Green Climate Fund 110
9 Conclusions 112

5 Fast-start finance: scattered governance, information and programmes

MARTIN STADELMANN, JESSICA BROWN AND LEona HöRNLEIN

1 Introduction: how fast-start finance has emerged 117
2 Fast-start finance: overview of current knowledge 118
3 Governance and transparency of fast-start finance 127
4 Sourcing of 'new and additional' fast-start finance 128
5 Channelling of fast-start funding: decentralized structures 130
6 Spending fast-start finance: scattered programmes and unknown effectiveness 132
7 Conclusions 137
