Computational Materials Science

PART 3

Selected, peer reviewed paper from the 2011 International Conference on Computational Materials Science (CMS 2011) in April 17-18, Guangzhou, China

Edited by

Zhou William and Feng Xiong
Part 3

Chapter 3: Multimedia Engineering

Image Fast Matching Basing on Local Information
D.J. Tang, W.S. Zhang, L.F. Li and Y. Si ................................................................. 1376

Face Localization in Color Images Based on Skin Color and Eye Gradient
Y.J. Liang, X.Y. Wu, L.J. Ma and L.J. Zhang .............................................................. 1382

Semantic Fusion of Image Annotation
X.Y. Wu, Y.J. Liang, L. Li and L.J. Ma ................................................................. 1386

The Study of the Digital Library Knowledge Services in the Process of Integration of the Tri-Networks
L. Zhang and W. Zhang ................................................................. 1390
Realization of RS485 Serial Communication Between Microcomputer and Multiple Inverters Based on Delphi  
S.H. Li and X.Y. Jia ................................................................. 1395

Localization Retrieval and Browse of a DSpace-Based Institutional Repository System  
C. Yi and C. Li ........................................................................ 1401

Numerical Simulation of the Transient Flow in a Centrifugal Pump during Regulating Period  

A Study on UCAV Flight Control System Based on Jamming Observer  

An Optimization Method for Constraint Web Service Composition Based on Fuzzy Petri Net  
X.W. Fang, Y.H. Feng and Z.X. Yin ............................................. 1415

An Efficient Web Service Composition Method Based on the Price-Time Petri Net  
X.W. Fang, Y.N. Zou and Q.J. Zhao ............................................ 1421

Research on High-Level Semantic Image Retrieval  
C.Y. Ri and M. Yao .................................................................. 1427

The Software of SMS Firewall on iPhone OS  
Z.F. Luo and S.X. Wu .............................................................. 1433

Performance Analysis of OFDM Channel System  
Z. Lei, C.F. Liu, W. Jiang, G.Z. Xu and N. Dai ............................. 1438

Research on the Communication Barriers for Group Decision Support System  
H.F. Wang ................................................................................. 1447

Web-Based Visualization for Hydrodynamic Model of Flood Retarding Basin: A Case of Doingping Lake  
R.X. Lai, R.L. Xia and M. Wang .................................................. 1451

The Design and Implementation of G-RBAC Model in Map Permission  
J.Q. Deng, X.Q. Luo and H.L. Gu ................................................. 1457

Efficient Algorithm of Computing the Shortest Distance of Massive Points Based on Probability and Statistics Model  
J.Q. Deng and J. Zhang .............................................................. 1462

Study on Making Human Morphological Thinking Mode Software with Founder Author Tool  
Z.W. Chen, H.B. Yao and H.Y. Xu ............................................. 1466

Based on a JAVA Language Embryology Remote Testing System for the Development and Application  

Study on Clinical Immunology and Inspection through Creating Virtual Lab  
H.Y. Xu, Z.W. Chen and J. Guan ............................................... 1473

Clinical Immunology and Inspection Information Network Construction and Application  
H.Y. Xu, Z.W. Chen and Y.M. Wu ............................................. 1476

Oral Histological Pathology Digital Curriculum Construction and Application  
H.Y. Zhang, L.H. Wang, J. Tian and Z.W. Chen ........................ 1480

The Radar Signal Feature-Separability Model Analysis  
Z.B. Yu and C.X. Chen ............................................................. 1484

Local Upsampling Fourier Transform for High Accuracy Image Rotation Estimation  
C.L. Wang, C.X. Zhao and J.Y. Yang ....................................... 1488

Robot Visual Localization Based on 4-DOF Ego-Motion Model and RANSAC  
C.L. Wang, C.X. Zhao and J.Y. Yang .................................... 1494

Transparent TCP-to-SCTP Translation Using Shim Rules-Table Dynamic Configuration  
Y.Y. Li, Y.C. Ma and X.Y. Chen ............................................... 1500
