Preface 7
Scientific Committee Listing 8

FRP Structures

Keynote:
Strategic Development and Deployment of a Composite Bridge Deck
Jerome S. O'Connor, BridgeComposites LLC, Amjad Aref, University of Buffalo and
Sreenivas Alampalli, New York State Department of Transportation 10

Ministerly Bridge Strengthening Using Novel Methods
Dr. Lee Canning, Mouchel 21

Protection of Heavy Timber Piers both Above and Below Water
John Percival, Fibrwrap Construction 30

Experimental Campaign on the Full Scale FRP Motorway Bridge
Martin Poljansek & Eugenio Gutiérrez, European Commission, & Carlo Paulotto, Acciona
Infraestructuras. 40

Performance of a PFRP Structure Covering a Historic Building Struck by an Earthquake
Prof. Salvatore Russo, IUAV University of Venice 51

FRP Strengthening Steel and Timber Structures

An Experimental Investigation on Strengthening Single-Bolted Timber Joints with
Externally Bonded CFRP Composites
Jiaqi Yang and Scott Smith, The University of Hong Kong 59

FRP Stay in Place Formwork

Fibre Reinforced Polymer Grids as Shear Reinforcements in Fabrics Formed Concrete Beams
John Orr, and Dr. Antony Darby University of Bath 72

A GFRP Mesh Strengthening technique Applied on Ancient Masonry Walls
Allen Dudine and Natalino Gattesco, University of Trieste 84

Fire and Elevated Temperature

Applied Research and Recent Developments on Composite Material Technology for Structural Strengthening
Christoforos Kolyvas, E. Fyfe & M. Karantzakis, Fyfe Europe 97

Repair and Heat Damaged Reinforced Concrete Using Advanced Composite Materials
Hanan Al-Nimry, R.H. Haddad, S.K. Afram & M.A. Abdel-Halim, University of Science and Technology 106

Effect of Extreme Temperatures on the Bond Behavior of Steel Beams Strengthened with CFRP Plates
Dr. Mina Danwood and M. El-Tahan, University of Houston 118

Strengthening Fire Damaged Circular Concrete Columns with FRP
L.A. Bisby, Jian-Fei Chen, T.J. Stratford, S.Q. Li, N. Cueva and K. Crossling, University of Edinburgh 130
Finite Element Analysis of Eccentrically Loaded Cast Iron Struts Reinforced with CFRP
Prof. Stuart Moy, University of Southampton & Dr. Susan Mustafa Ali, Zagazig University, Egypt

FRP Reinforced Concrete

NLFEA Response of Damaged Reinforced Concrete Beams Strengthened with Different Types and Configurations of FRP Composites
Rajai Al-Rousan and R. Haddad, Jordan University of Science and Technology

FRP-PC Members: Evaluation of Torsional Capacity
F. Bencardino and Giuseppe Spadea, University of Calabria, Italy, Ghani Razaqpur and L. Rizzuti, McMaster University, Canada

Effect of Flexural Deformation on Intermediate Crack Induced Debonding in Plated Beams
V. Narayanamurthy and Jian-Fei Chen, University of Edinburgh, J. Cairns, Heriot Watt University

FRP for New Build

Strength of Fibre Reinforced Polymer Dowel Connections for the Startlink House
Behrouz Zafari and Dr. J. Toby. Mottram, University of Warwick

STARTLINK Lightweight Building Systems – Wholly Polmeric Structures
John Hartley, Exel Composites and John Hutchinson, Feilden and Mawson

Improving the Dutch FRP Recommendation for Loadbearing Structures
Liesbeth Tromp and Kees van Ijelmuijden, Royal Haskoning, Ane de Boer, Centre for Infrastructure

Improving Structural Reliability of FRP Bridges by Inserting Fibre Optic Sensors
Markus Gabler and Prof. Jan Knippers, University of Stuttgart

Non-Linear Finite Element Analysis and Behaviour of FlexiArch Systems with Polymeric Reinforcement
John Bourke, Queen’s University, Belfast

Keynote:
Tests and Analyses of GFRP Bridge Decking Spanning Transverseley to Prestressed Concrete Beams
Wendel Sebastian and Joel Ross, University of Bristol, Sam Luke, Mouchel and Ben Sadka, Highways Agency

Concentric and Eccentric Compression Tests on the PFRP Equal Angles
Mark Evernden and Jake Smith, University of Bath

Application for Natural Fibre Composite Structural Materials in Building Construction
John Hutchinson, Feilden and Mawson

GRP Design Process Case Study: Haramain High Speed Train Stations, Saudi Arabia
Dominique Vosmaer, Buro Happold Ltd
Joining

Keynote: Advanced Composite Truss System (ACTS) – Development of a Carbon Fibre Joining Node
Neil Farmer and Ian Smith, Tony Gee and Partners LLP

Simple Shear Connection Developments for Core-Reinforced GFRP Composite Structural Insulated Panels
Leo Peirick III and Dr. Mina Dawood, University of Houston

Pultruded GRP Continuous Beams – Comparison of Flexural Test Data with Analysis Predictions
Geoff Turvey and J. Merlet, Lancaster University

An Update of the Imajine Project
Richard Lee, ESR Technology Ltd, Stephen Kelly, Doosan Babcock Energy Ltd, Michael Gower, NPL and Hammadi Abichou, Deepsea Engineering and Management Ltd

Index of Authors
