2011 International Conference on Advances in Social Networks Analysis and Mining

(ASONAM 2011)

Kaohsiung City, Taiwan
25 – 27 July 2011

IEEE Catalog Number: CFP1134H-PRT
ISBN: 978-1-61284-758-0
2011 International Conference on Advances in Social Networks Analysis and Mining
ASONAM 2011
Table of Contents

Message from the General Chairs ......................................................... xv
Message from the Program Chairs ......................................................... xvii
Conference Sponsors ........................................................................... xix
Conference Committee ......................................................................... xxii
Program Committee ............................................................................ xxiv
External Reviewers ............................................................................. xxviii
Invited Keynote Speakers ..................................................................... xxix

ASONAM 2011 FULL PAPERS

Contextual Social Network Analysis
The ML-Model for Multi-layer Social Networks ......................................... 5
Matteo Magnani and Luca Rossi
Tag-based User Topic Discovery Using Twitter Lists ................................. 13
Yuto Yamaguchi, Toshiyuki Amagasa, and Hiroyuki Kitagawa
Content-based Modeling and Prediction of Information Dissemination .......................... 21
Kathy Macropol and Ambuj Singh
SCENE: Structural Conversation Evolution NEtwork ............................... 29
Marina Danilevsky, Joshua Hailpern, and Jiawei Han
Efficient Search in Networks Using Conductance .................................... 37
Qing Ke, Yuxiao Dong, and Bin Wu
A Semantic and Multidisciplinary Model for Professional and Social Networks Analysis .................................................. 45
Christophe Thovex and Francky Trichet
Visualizing Bibliographic Databases as Graphs and Mining Potential Research Synergies .......................................................... 53
Iraklis Varlamis and George Tsatsaronis
Community Discovery and Analysis

Evolutionary Clustering and Analysis of Bibliographic Networks ........................................63
  Manish Gupta, Charu C. Aggarwal, Jiawei Han, and Yizhou Sun

Detecting Link Communities in Massive Networks .............................................................71
  Qi Ye, Bin Wu, Zhixiong Zhao, and Bai Wang

A Random Network Ensemble Model Based Generalized Network Community Mining Algorithm .................................................................79
  Bo Yang, Jing Huang, and Dayou Liu

Evaluating Cooperation in Communities with the k-Core Structure ...................................87
  Christos Giatsidis, Dimitrios M. Thilikos, and Michalis Vazirgiannis

Modeling Bipartite Graphs Using Hierarchical Structures ..............................................94
  Freddy Chong Tat Chua and Ee-Peng Lim

Partitioning Breaks Communities ......................................................................................102
  Fergal Reid, Aaron McDaid, and Neil Hurley

Community Detection in Dynamic Social Networks: A Random Walk Approach ................110
  Liang-Cheng Huang, Tso-Jung Yen, and Seng-Choo T. Chou

Recommendation

Co-author Relationship Prediction in Heterogeneous Bibliographic Networks ................121
  Yizhou Sun, Rick Barber, Manish Gupta, Charu C. Aggarwal, and Jiawei Han

Regularized Gibbs Sampling for User Profiling with Soft Constraints ..........................129
  Nicola Barbieri

Modeling and Learning Context-Aware Recommendation Scenarios Using Tensor Decomposition .......................................................................137
  Hendrik Wermser, Achim Rettinger, and Volker Tresp

Applying Link Prediction to Ranking Candidates for High-Level Government Post ........145
  Jyi-Shane Liu and Ke-Chih Ning

Privacy and Security

Social Network Anonymization via Edge Addition .................................................................155
  Bruce Kapron, Gautam Srivastava, and S. Venkatesh

Assessing Trust by Disclosure in Online Social Networks ..............................................163
  Guido Barbian

Locating Central Actors in Co-offending Networks ...........................................................171
  Mohammad A. Tayebi, Laurens Bakker, Uwe Glasser, and Vahid Dabbaghian

Post-Level Spam Detection for Social Bookmarking Web Sites .......................................180
  Hsin-Chang Yang and Chung-Hong Lee
Misbehavior and Crime Detection
Using Inter-comment Similarity for Comment Spam Detection in Chinese
Blogs ................................................. 189
Jenq-Haur Wang and Ming-Sheng Lin

Design and Implementation of FAITH, An Experimental System to Intercept
and Manipulate Online Social Informatics ........................................ 195
Ruaylong Lee, Roozbeh Nia, Jason Hsu, Karl N. Levitt, Jeff Rowe,
S. Felix Wu, and Shaozhi Ye

MultiAspectForensics: Pattern Mining on Large-Scale Heterogeneous
Networks with Tensor Analysis ........................................ 203
Koji Maruhashi, Fan Guo, and Christos Faloutsos

Information Acquisition and Establishment of Social Relations
Extracting Social Networks to Understand Interaction ......................... 213
Mathilde Forestier, Julien Velcin, and Djamel Zighed

Entity Resolution Using Social Graphs for Business Applications .......... 220
Baoshi Yan, Lokesh Bajaj, and Anmol Bhasin

SNAP: Towards a Validation of the Social Network Assembly Pipeline .... 228
Michael Farrugia, Neil Hurley, and Aaron Quigley

Temporal Analysis on Social Network Topologies
Dynamic Social Influence Analysis through Time-Dependent Factor Graphs ................................................................. 239
Chi Wang, Jie Tang, Jimeng Sun, and Jiawei Han

Group Evolution Discovery in Social Networks ................................ 247
Piotr Brodka, Stanislaw Saganowski, and Przemyslaw Kazienko

A Novel Approach for Event Detection by Mining Spatio-temporal
Information on Microblogs .................................................. 254
Chung-Hong Lee, Hsin-Chang Yang, Tzan-Feng Chien, and Wei-Shiang Wen

Scalability in Social Network Analysis
DisNet: A Framework for Distributed Graph Computation .................. 263
Ryan Lichtenwalter and Nitesh V. Chawla

Probabilistic Subgraph Matching on Huge Social Networks ................ 271
Matthias Brücheler, Andrea Pugliese, and V.S. Subrahmanian

Dynamic Social Networks
Multi-relational Link Prediction in Heterogeneous Information Networks ................................................................. 281
Darcy Davis, Ryan Lichtenwalter, and Nitesh V. Chawla

Social Network User Lifetime ............................................... 289
Juan Lang and S. Felix Wu
Predicting a Social Network Structure Once a Node Is Deleted ................................................................. 297
Elsa Negre, Rokia Missaoui, and Jean Vaillancourt

A New Analysis Method for Simulations Using Node Categorizations ...................................................... 305
Tomoyuki Yuasa and Susumu Shirayama

Dynamics of Adolescent Friendships: The Interplay between Structure and Gender ...................................... 313
Pei-Chun Ko and Vincent Buskens

Information Sources Driving Social Influences: A New Model for Belief Learning in Social Networks ........... 321
Usha Sridhar and Sridhar Mandyam

Modeling and Visualizing Information Propagation in a Micro-blogging Platform ........................................ 328
Chien-Tung Ho, Cheng-Te Li, and Shou-De Lin

From Web Mining to Social Multimedia Mining ......................................................................................... 336
Georgios Lappas

Modeling Socialness in Dynamic Social Networks ....................................................................................... 344
Tuan-Anh Hoang, Ee-Peng Lim, Palakorn Achananuparp, Jing Jiang, and Loo-Nin Teow

Application of SNA

CAIS: Community Based Annotation Insight Search in a Folksonomy Network ............................................ 353
Han-Chang Huang and Hung-Yu Kao

Geo-Friends Recommendation in GPS-based Cyber-physical Social Network .................................................. 361
Xiao Yu, Ang Pan, Lu-An Tang, Zhenhui Li, and Jiawei Han

ASONAM 2011 SHORT PAPERS

Contextual Social Network Analysis

A Hybrid Approach to Discover MEC Interview Data with the Hierarchical Value Map of Social Networking Sites as an Example ................................................................................................................. 373
Yu-Chin Liu, Ti-Lin Chueh, and Yun-Shan Cheng

SPOT 1.0: Scoring Suspicious Profiles on Twitter ......................................................................................... 377
Charles Perez, Marc Lemercier, Babiga Birregah, and Alain Corpel

Link Prediction Based on Local Information ................................................................................................. 382
Yuxiao Dong, Qing Ke, Bai Wang, and Bin Wu
Community Discovery and Analysis

Finding and Matching Communities in Social Networks Using Data Mining ............................................. 389
Slah Alsaleh, Richi Nayak, and Yue Xu

Is Objective Function the Silver Bullet? A Case Study of Community Detection Algorithms on Social Networks .......................................................... 394
Yang Yang, Yizhou Sun, Saurav Pandit, Nitesh V. Chawla, and Jiawei Han

The Way of Joining Consortia Leads to a Good Performance: A Case of Taiwan Bike Industry ................................. 398
Ting-Lin Lee and In-Chen Tu

A Comparison of Cognitive Styles on the Behavior of Obtaining Knowledge: Field Independence vs. Field Dependence ................................................................... 403
Chien-Hsing Wu, Shu-Chen Kao, Ji-Wei Chang, and Kai Ying Chen

Recommendation Systems

A Recommendation Method for Online Dating Networks Based on Social Relations and Demographic Information .......................................................... 407
Lin Chen, Richi Nayak, and Yue Xu

Applying Multidimensional Association Rule Mining to Feedback-Based Recommendation Systems ........................................................................ 412
Yin-Fu Huang and San-Des Lin

Identifying Structural Heterogeneities between Online Social Networks for Effective Word-of-Mouth Marketing ................................................................. 418
Kai-Yu Wang, Narongsak Thongpapanl, Hui-Ju Wu, and I-Hsien Ting

Multiword Keyword Recommendation System for Online Advertising ........................................................................... 423
Stamatina Thomaidou and Michalis Vazirgiannis

Leveraging Online Social Networks and External Data Sources to Predict Personality ...................................................................................... 428
Daniel Chapsky

Semantic User Interaction Profiles for Better People Recommendation .................................................................................. 434
Johann Stan, Viet-Hung Do, and Pierre Maret

Modeling Player Performance in Massively Multiplayer Online Role-Playing Games: The Effects of Diversity in Mentoring Network ......................... 438
Kyong Jin Shim, Kuo-Wei Hsu, and Jaideep Srivastava

Privacy and Security

Social Network Privacy for Attribute Disclosure Attacks .................................................................................. 445
Sean Chester and Gautam Srivastava

Mining Information of Anonymous User on a Social Network Service .................................................................................. 450
Kyung Soo Cho, Jae Yoel Yoon, Iee Joon Kim, Ji Yeon Lim, Seung Kwan Kim, and Ung-Mo Kim
Misbehavior and Crime Detection
Discovering Irrelevance in the Blogosphere through Blog Search .................................................. 457
M. Atif Qureshi, Arjumand Younus, Nasir Touheed, M. Shahid Qureshi,
and Muhammad Saeed

CCM: A Text Classification Model by Clustering ................................................................. 461
Sarwat Nizamani, Nasrullah Memon, Uffe Kock Wiel, and Panagiotis Karampelas

How Much Similar Are Terrorists Networks of Istanbul? .................................................. 468
Fatih Ozgul, Claus Atzenbeck, and Zeki Erdem

Information Acquisition and Establishment of Social Relations
Dyadic Patterns in Multiple Networks ................................................................. 475
J. Antonio Rivero Ostoic

Temporal Analysis of Social Network Topologies
Foundations of Multidimensional Network Analysis ......................................................... 485
Michele Berlingerio, Michele Coscia, Fosca Giannotti, Anna Monreale,
and Dino Pedreschi

Finding and Characterizing Communities in Multidimensional Networks .......................... 490
Michele Berlingerio, Michele Coscia, and Fosca Giannotti

Scalability in Social Network Analysis
Shortest Path Discovery in the Multi-layered Social Network .............................................. 497
Piotr Bródka, Paweł Stawiak, and Przemysław Kazienko

Discovering Explorative Patterns from Real-World Complex Networks ......................... 502
Bo Yang and Jiming Liu

Automatic Tag Attachment Scheme for Efficient File Search in Peer-to-Peer
File Sharing Systems ........................................................................................................... 507
Ting Ting Qin and Satoshi Fujita

Dynamic Social Networks
Rank Prediction in Graphs with Locally Weighted Polynomial Regression
and EM of Polynomial Mixture Models ................................................................................ 515
Michalis Rallis and Michalis Vazirgiannis

Time Scale Degree Centrality: A Time-Variant Approach to Degree
Centrality Measures ........................................................................................................... 520
Shahadat Uddin and Liaquat Hossain
Application of SNA

Predicting Network Response Times Using Social Information ............................................. 527
   Chen Liang, Sharath Hiremagalore, Angelos Stavrou, and Huzefa Rangwala

Enterprise Email Classification Based on Social Network Features ........................................... 532
   Min-Feng Wang, Sie-Long Jheng, Meng-Feng Tsai, and Cheng-Hsien Tang

Ensemble of Multi-objective Clustering Unified with H-Confidence Metric as Validity Metric .......... 537
   Onur Can Sert, Kayhan Dursun, and Tansel Özyer

ASONAM 2011 POSTER PAPERS

Voting Behavior Analysis in the Election of Wikipedia Admins .............................................. 545
   Gerard Cabunducan, Ralph Castillo, and John Boaz Lee

An Association Model Based on Modus Operandi Mining for Implicit Crime Link Construction .......... 548
   Jau-Hwang Wang and Chien-Lung Lin

Countries Co-citation Network and Research Fronts of International Energy Technology .......... 551
   Jianhua Hou and Han Chen

Predicting Customer Demographics in a Mobile Social Network ............................................ 553
   S. Aarthi, S. Bharanidharan, M. Saravanan, and V. Anand

Dense Subgroup Identifying in Social Network ............................................................................. 555
   Ye Conghuan

Minimizing Interference through Channel Assignment in Multiradio Wireless Mesh Networks .......... 557
   Y. Kiran Babu, T. Narendra Babu, and B. Ramesh

Automatic Reputation Computation through Document Analysis: A Social Network Approach .......... 559
   JooYoung Lee, Yue Duan, Jae C. Oh, Wenliang Du, Howard Blair, Lusha Wang, and Xing Jin

Effects of Mentoring on Player Performance in Massively Multiplayer Online Role-Playing Games (MMORPGs) .................................................................................................................. 561
   Kyong Jin Shim, Kuo-Wei Hsu, and Jaideep Srivastava

Towards Named Entity Recognition Method for Microtexts in Online Social Networks: A Case Study of Twitter .................................................................................................................................. 563
   Jason J. Jung

Building Artificial Identities in Social Network Using Semantic Information .................................. 565
   Kai Chen, Yi Zhou, Li Song, and Xiaokang Yang

A Social Network Approach to Examine the Role of Influential Stocks in Shaping Interdependence Structure in Global Stock Markets ................................................................. 567
   Ram Babu Roy and Uttam Kumar Sarkar
ASONAM 2011 WORKSHOPS

The First Workshop on Social Network Analysis in Applications (SNAAS 2011)

Community Detection with Fuzzy Community Structure .......................................................... 575
Qinna Wang and Eric Fleury

The Dynamic Structural Patterns of Social Networks Based on Triad Transitions .......................................................... 581
Krzysztof Juszczyszyn, Marcin Budka, and Katarzyna Musiał

Emotions on Bengali Blog Texts: Role of Holder and Topic .......................................................... 587
D. Das and S. Bandyopadhyay

Different Approaches to Groups and Key Person Identification in Blogosphere .......................................................... 593
Anna Zygmunt, Piotr Bródka, Przemysław Kazienko, and Jarosław Kozlak

Opinion Mining and Social Networks: A Promising Match .......................................................... 599
Krzysztof Jedrzejewski and Mikolaj Morzy

Social Brokerage behind Knowledge Sharing .......................................................... 605
Fang-Ling Lin and Guey-Fa Chiou

Analyzing Personality Correlation of Social Network in Organizations .......................................................... 611
Wei-Lun Chang and Sian-Ting Lin

What Do the Average Twitterers Say: A Twitter Model for Public Opinion Analysis in the Face of Major Political Events .......................................................... 618
Arjumand Younus, M. Atif Qureshi, Fiza Fatima Asar, Muhammad Azam, Muhammad Saeed, and Nasir Touheed

A Novel Approach for Developing Automatic Knowledge Construction and Diagnostic System for Tag-Based Learning Environment .......................................................... 624
Jun Ming Chen, Ying Ying Chen, Yeali S. Sun, and Meng Chang Chen

Cyberpsychological Analysis of Social Network Sites and User Behavior (CASNSUB 2011)

Effects of Personality Traits on Usage of Social Networking Service .......................................................... 629
Shiro Uesugi

The Moderating Role of Virtual Community Cohesion and Critical Mass on the Link between Online-Game Website Service Quality and Play Satisfaction .......................................................... 635
Yu-Lung Wu, Yu-Hui Tao, Ching-Pu Li, Pei-Chi Yang, and Guo-Shin Huang

Encouraging Participation in Virtual Community with Classified Facilitation Mechanisms: A Perspective from Online Communication Needs and Behaviors .......................................................... 641
M.C. Chang and S.D. Gregor
Private Information Transmission on the Consumer Generated Media: Information Privacy in the Japanese Context ................................................................. 647
  Yohko Oriio, Hitoshi Okada, and Hidenobu Sai

Reconceptualizing the Mechanism of Internet Human Flesh Search: A Review of the Literature .......................................................... 650
  Chian-Hsueng Chao

The Organizational Justice Strategies to Affect Learning Performance and Self-Efficacy: A Case Study in Campus Media News Gathering ........................................ 656
  Chih Yang Chao, Chia-Sung Yen, Shih-Chun Yang, Tien-Hui Yeh, and Yi-Inn Sun

The Third International Workshop on Mining Social Networks for Decision Support (MSNDS 2011)

Exploring the Social Network Relationships on Hostility Behaviors ........................................... 667
  l-Mei Lin and Yuan-Chu Hwang

Towards Social Recommendation System Based on the Data from Microblogs .............................................. 672
  Pei-Shan Chang, I-Hsien Ting, and Shyue-Liang Wang

Evaluating the Impact Power of Authors via Bayesian Estimation of Authors' Social Connections ........................................... 678
  Yi-Ning Tu and Jia-Lang Seng

Taiwan Academic Network Discussion via Social Networks Analysis Perspective .............................................. 685
  Chen-Shu Wang, I-Hsien Ting, and Yu-Chieh Li

Modeling Network Changes: Systemic Centrality in Foreign Policy Interaction Analysis .............................................. 690
  Qin Wu, Robert Duval, Edgar Fuller, Xingqin Qi, Cun-Quan Zhang, Arian Spahiu, and Kyle Christensen

Discover Academic Experts in Novel Social Network Model .............................................. 696
  Sreedhar Bhukya

The First International Workshop on Mobile Social Networks (MSN 2011)

GPS Data Based Urban Guidance ................................................................. 703
  Yao Hua Ho, Yao Chuan Wu, Meng Chang Chen, Tsun-Jui Wen, and Yeali S. Sun

A Framework of Recommendation System Based on Both Network Structure and Messages .............................................. 709
  Bi-Ru Dai, Chang-Yi Lee, and Chih-Heng Chung

Bayesian Filters for Mobile Recommender Systems .............................................. 715
  M. Saravanan, S. Buveneswari, S. Divya, and V. Ramya

Assessing Media Relevance via Eye Tracking ................................................................. 722
  Cheng-Ta Yang, Wen-Sheng Chang, Fan-Ning Cheng, and Wei-Guang Teng
Mobile Engagement
Jianhua Shao

The First International Workshop on Cloud Computing in Social Networks (CCSN 2011)

Constructing a Cloud Computing Based Social Networks Data Warehousing and Analyzing System
I-Hsien Ting, Chia-Hung Lin, and Chen-Shu Wang

Cloud Computing Architecture for Social Computing - A Comparison Study of Facebook and Google
Bo-Wen Yang, Wen-Chih Tsai, An-Pin Chen, and Singh Ramandeep

Building a Learning Games Network in Cloud Learning Platform Based on Immigrant Education
Chien-Chih Tu and An-Pin Chen

An Integrated Home Financial Investment Learning Environment Applying Cloud Computing in Social Network Analysis
Mao-Ping Wen, Hsio-Yi Lin, An-Pin Chen, and Chyan Yang
