TABLE OF CONTENTS

KEYNOTE SPEAKERS

Issues in Securing the Downtown Seattle Transit Tunnel from Unauthorized Intrusion during Joint Bus/Light Rail Operation  
Kenneth Cummins, Sound Transit, Seattle, WA, USA  

Explosive Threats and Target Hardening, Understanding Explosive Forces, Its Impact on Infrastructure and the Human Body  
Jeffrey A. Slotnick, Setracon Inc., Tahoma, WA, USA  

New Energy Carriers in Tunnels  
Anders Lönnermark, SP Technical Research Institute of Sweden, Borås, Sweden  

Active Fire Protection in Tunnels  
Alan Brinson, European Fire Sprinkler Network, London, UK  

Tunnel Incident Management in Frankfurt Am Main  
Reinhard Ries, Fire Department of the City of Frankfurt am Main, Germany  

Tunnel Fire Safety in Australasia  
Arnold Dix, University of Western Sydney, Australia  

RISK

Regulations and Risk Analysis Methods for Bi-National Road Tunnels: Application of a Combined Scenario-Based and System-Based Method for The Grand Saint Bernard Tunnel  
Raphaël Defert, BG Bonnard & Gardel Ingénieurs Conseils SA, Switzerland  
Luc Darbellay, TGSB S.A., Switzerland  
Claudio Real, SITRASB S.p.A., Italy  
Yves Trottet, BG Bonnard & Gardel Ingénieurs Conseils SA, Switzerland  

Risk Assessment of Transport of Dangerous Goods in Austrian Road Tunnels  
Florian Diernhofer and Bernhard Kohl, ILF Consulting Engineers, Linz, Austria  
Rudolf Hörhan, Austrian Ministry of Transport, Innovation and Technology, Wien, Austria  

Marco Cigolini, RFI, Rome, Italy  

Application of a System-Based and a Scenario-Based Risk Analysis to The Driskos Tunnel  
Reflections about Accuracy of Collected Data and Uncertainties of Risk Analysis Methods  
Raphaël Defert, BG Bonnard & Gardel Ingénieurs Conseils, France  
Ioannis Rentzeperis, Egnatia Odos, Greece  
Konstantinos Koutsoukos, Egnatia Odos, Greece  
Philippe Pons, BG Bonnard & Gardel Ingénieurs Conseils, France  
Didier Lacroix, CETU, France

Water Application Rates for Fixed Fire Fighting Systems in Road Tunnels

*Kenneth J. Harris, Parsons Brinckerhoff, Sacramento, CA, USA*
ACTIVE FIRE PROTECTION AND FIRE FIGHTING

Incident Management and Tunnel Systems
Gary English, Assistant Fire Marshal, Seattle Fire Department, Seattle, WA, USA

Tunnel Incident Management in Frankfurt am Main Fire Department’s Operations
Jens Stiegel, Fire Department of the city of Frankfurt am Main, Germany

Fire and Rescue Operations During Construction of Tunnels
M. Kumm, Mälardalen University
A. Bergqvist, Greater Stockholm Fire Brigade & Karlstad University

VENTILATION

Effects of Longitudinal Ventilation on Fire Growth and Maximum Heat Release Rate
Haukur Ingason and Anders Lönnermark, SP Technical Research Institute of Sweden, Borås, Sweden

The Critical Velocity and the Fire Development
Y. Wu, Department of Chemical & Process Engineering, Sheffield University, UK

New Perspectives on the Critical Velocity for Smoke Control
Fathi Tarada, Mosen Ltd, Crawley, West Sussex, UK

Design of Tunnel Ventilations Systems for Fire Emergencies Using Multiscale Modelling
F. Colella, Politecnico di Torino, Dipartimento di Energetica, Italy and University of Edinburgh, BRE Centre for Fire Safety Engineering, UK
G. Rein, University of Edinburgh, BRE Centre for Fire Safety Engineering, UK
V. Verda, Politecnico di Torino, Dipartimento di Energetica, Italy
R. Borchiellini, Politecnico di Torino, Dipartimento di Energetica, Italy
R. Carvel, University of Edinburgh, BRE Centre for Fire Safety Engineering, UK
T. Steinhaus, University of Edinburgh, BRE Centre for Fire Safety Engineering, UK
J. L. Torero, University of Edinburgh, BRE Centre for Fire Safety Engineering, UK

Are The Tunnel Ventilation Systems Adapted For The Different Risk Situations?
B. Truchot, Ineris, France,
M. Oucherfi, Egis Tunnels, France
F. Quezel-Ambrunaz, Egis Tunnels, France
S. Duplantier, Ineris, France.
L. Fournier, Egis Tunnels, France
F. Waymel, Egis Tunnels, France

"OrGaMIR" – Development of a Safety System for Reaction to an Event with Emission of Hazardous Airborne Substances - Like a Terrorist Attack or Fire - Based on Subway Climatology
Andreas Pflitsch, Markus Brüne, Julia Ringeis & Michael Killing-Heinze, Department of Geography, Ruhr-University of Bochum, Germany

FIRE DYNAMICS

Fire Dynamics During the Channel Tunnel Fires
Ricky Carvel, BRE Centre for Fire Safety Engineering, University of Edinburgh, UK
New Energy Carriers in Vehicles and their Impact on Confined Infrastructures - Overview of Previous Research and Research Needs
Olivier Salvi, L-surF Services, Institut National de l'Environnement Industriel et des Risques INERIS, France
Anders Lönnemark, SP Technical Research Institute of Sweden, Sweden
Haukur Ingason, SP Technical Research Institute of Sweden, Sweden
Benjamin Truchot, Institut National de l'Environnement Industriel et des Risques INERIS, France
Roland Leucker, Studiengesellschaft für unterirdische Verkehrsanlagen e.V. (STUVA), Germany
Félix Amberg, VersuchsStollen Hagerbach AG (VSH), Switzerland
Dirk-Jan Molenaar, Netherlands Organization for Applied Scientific Research (TNO), Netherlands
Horst Hejny, L-surF Services, Switzerland

Overview of Fire and Smoke Spread in Underground Mines
Rickard Hansen, Mälardalen University, Västerås, Sweden

Predictions of Railcar Heat Release Rates
John Cutonilli and Craig Beyler, Hughes Associates, Inc, Baltimore, MD, USA

POSTERS

Operating Conditions of Fire Brigades in Tunnel Fires.
Kathrin Grewolls, Ingenieurbüro fuer Brandschutz Kathrin Grewolls, Ulm, Germany
Ingo Bollerjahn, BTE-Consult GmbH, Boeitzenburg, Germany

A Review of Metro Tunnel Safety Parameters and Role of Risk Management, Tehran Metro
Vahed Ghiasi, Tehran Urban and Suburban Railway Company (TUSRC), Iran
Samad Ghiasi Tehran Urban and Suburban Railway Company (TUSRC), Iran
Husaini Omar, Civil Engineering, University Putra Malaysia, Serdang, Selangor Malaysia
Behroz Ebrahim, Tehran Urban and Suburban Railway Company (TUSRC), Iran
Mohammad Ghiasi Tehran Urban and Suburban Railway Company (TUSRC), Iran

Removing Non-conservatism from the CFD Modelling of Jet Fans for Tunnel Ventilation and Smoke Control
Marco Buonfiglioli, Ian R Cowan and Stig Ravn, Atkins Ltd, Epsom, UK

Impact of Heat, Smoke and Signage Visibility in the Microscopic Evacuation Modelling of Tunnel Fire Hazards
Volker Schneider and Rainer Könnecke, IST GmbH, Frankfurt, Germany

More than Just Fire Detection: Fibre Optic Linear Heat Detection (DTS) Enables Fire Monitoring in Road- and Rail-Tunnels
Gerd Koffmane and Henrik Hoff, AP Sensing GmbH, Böblingen, Germany

Parameters Affecting the Performance of Emergency Ventilation Strategies in a Roadway Tunnel
Ahmed Kashef, National Research Council of Canada, Ottawa, Canada
