# Table of Contents

## Cognitive Approaches to Clinical Data Management for Decision Support (Plenary Session P1)

Cognitive Approaches to Clinical Data Management for Decision Support: Is It Old Wine in New Bottle? ................................. 1  
*Vimla L. Patel and Thomas G. Kannampallil*

## Workshop on Human-Computer Interaction and Knowledge Discovery in Databases (HCI-KDD) Part 1 (Session WS 1)

Visualization of Patient Samples by Dimensionality Reduction of Genome-Wide Measurements .............................. 15  
*Huilei Xu and Avi Ma'ayan*

Contextual Search: Issues and Challenges ................................ 23  
*Gabriella Pasi*

Data Certification Impact on Health Information Retrieval ............ 31  
*Carla Teixeira Lopes and Cristina Ribeiro*

Literature Mining for the Diagnostic Procedures of Osteoporosis .... 43  
*Pinar Yildirim and Çinar Çeken*

Challenges Storing and Representing Biomedical Data .................. 53  
*Joel P. Arrais, Pedro Lopes, and José Luís Oliveira*

Semantic Analytics of PubMed Content ................................... 63  
*Dominik Śležak, Andrzej Janusz, Wojciech Świeboda, Hung Son Nguyen, Jan G. Bazan, and Andrzej Skowron*

## Workshop on Human-Computer Interaction and Knowledge Discovery in Databases (HCI-KDD) Part 2 (Session WS 2)

Complexity Profiles of DNA Sequences Using Finite-Context Models .... 75  
*Armando J. Pinho, Diogo Pratas, and Sara P. Garcia*

Representing and Visualizing Mined Artful Processes in MailOfMine .... 83  
*Claudio Di Ciccio, Massimo Mecella, and Tiziana Catari*

Checking User-Centred Design Principles in Distributed Cognition Models: A Case Study in the Healthcare Domain .................. 95  
*Paolo Masci and Paul Curzon*
Interactive Visualization for Information Analysis in Medical Diagnosis ........................................... 109  
   B.L. William Wong, Kai Xu, and Andreas Holzinger

Clinical Data Privacy and Customization via Biometrics Based on ECG Signals .................................................. 121  
   Hugo Silva, André Lourenço, Ana Fred, and Joaquim Filipe

Information Usability and Clinical Workflows (Session S1)

Usability Evaluation of Digital Dictation Procedure – An Interaction Analysis Approach ................................. 133  
   Johanna Viitanen and Marko Nieminen

Openness to Accept Medical Technology – A Cultural View ................................................................. 151  
   Firat Alagoz, Martina Ziefle, Viktoria Wilkowska, and André Calero Valdez

Need for Usability and Wish for Mobility: Case Study of Client End Applications for Primary Healthcare Providers in Croatia ................................................................. 171  
   Mihael Kukec, Sandi Ljubic, and Vlado Glavinic

Education and Patient Empowerment (Session S4)

The Prepared Partner: Can a Video Game Teach Labor and Childbirth Support Techniques? .......................... 191  
   Alexandra Holloway and Sri Kurniawan

Development of an Interactive Application for Learning Medical Procedures and Clinical Decision Making ................................................................. 211  
   Marcus Bloice, Klaus-Martin Simonic, Markus Kreuzthaler, and Andreas Holzinger

Enhancing Collaboration in ASD-Centric Treatment Environments: A Proposed Architecture ................................. 225  
   Panagiotis Germanakos, Dimosthenis Georgiadis, Marina Buzzi, Maria Claudia Buzzi, and Claudia Fenili

Patient Empowerment and Health Services (Session S7)

Home-Healthcare-Network (H2N): An Autonomous Care-Giving System for Elderly People ................................. 245  
   Rezwan Islam, Sheikh Iqbal Ahamed, Chowdhury S. Hasan, and Casey O’Brien

</table>
Governmental Health Services and Clinical Routine (Session S 5)

eHealth Service Discovery Framework: A Case Study in Ethiopia .............. 397
   Tesfa Tegegne and Theo van der Weide

PROP – A Medical Expert System for Preoperative Testing ............... 417
   Karl Entacher, Gerhard Fritsch, Vinzenz Huber, and Sabine Klausner

Utilizing Acquired Healthcare Knowledge, Based on Using Electronic Health Records .................................................. 429
   Sara Nasiri, Mohammad Mehdi Sepehri, and Marjan Khobreh

Information Retrieval and Knowledge Discovery (Session S 8)

Navigability of an Ontology-Based Web Site ......................... 441
   Kyungsil Min, Sungkyu Chun, Hwansoo Kim, Hyosook Jung, and Seongbin Park

Navigating through Very Large Sets of Medical Records: An Information Retrieval Evaluation Architecture for Non-standardized Text .............. 455
   Markus Kreuzthaler, Marcus Bloice, Klaus-Martin Simonic, and Andreas Holzinger

TagTree: Storing and Re-finding Files Using Tags .......................... 471
   Karl Voit, Keith Andrews, and Wolfgang Slany

Decision Making Support and Technology Acceptance (Session S 11)

   Lisa M. Vizer and Andrew Sears

   Felix M. Schmitz, Philippe G. Zimmermann, Kevin Gaunt, Markus Stolze, and Sissel Guttormsen Schär

What Determines Public Perceptions of Implantable Medical Technology: Insights into Cognitive and Affective Factors ............... 513
   Anne Kathrin Schaar and Martina Ziefle
Information Retrieval, Privacy and Clinical Routine
(Session S 12)

Assessing Medical Treatment Compliance Based on Formal Process
Modeling ................................................................. 533
Reinhold Dunkl, Karl Anton Fröschl, Wilfried Grossmann, and
Stefanie Rinderle-Ma

An Enhanced Approach to Supporting Controlled Access to EPRs with
Three Levels of Identity Privacy Preservations ....................... 547
Rima Addas and Ning Zhang

SemScribe: Automatic Generation of Medical Reports .............. 563
Lukas C. Faulstich, Kristin Irsig, Malik Atalla, Sebastian Varges,
Heike Bieler, and Manfred Stede

Usability and Accessibility Methodologies
(Session S 9)

Accessibility Evaluation for Open Source Word Processors ......... 575
Christophe Strobbe, Bert Frees, and Jan Engelen

A Touch Sensitive User Interface Approach on Smartphones for
Visually Impaired and Blind Persons .................................. 585
Elmar Krajnc, Mathias Knoll, Johannes Feiner, and Mario Traar

Added Value of In-Situ Methods in Usability Evaluation of a Self-service
Ticketing Machine with a View on Elderly Users: A Case Study .... 595
Elke E. Mattheiss, Johann Schrammel, and Manfred Tscheligi

Information Usability and Knowledge Discovery
(Session S 6)

When Your Living Space Knows What You Do: Acceptance of Medical
Home Monitoring by Different Technologies .......................... 607
Martina Ziefle, Simon Himmel, and Wiktoria Wilkowska

Identification of School-Aged Children with High Probability of Risk
Behavior on the Basis of Easily Measurable Variables .............. 625
Peter Koncz and Jan Paralic

MedReminder – An Interactive Multimedia Medical Application for the
IPTV Environment ...................................................... 635
Jože Guna, Rok Kovač, Emilija Stojmenova, and Matevž Pogačnik

A Logical Approach to Web User Interface Adaptation ............... 645
Jesia Zakraoui and Wolfgang Zagler
## Human-Centred Computing (Session S 3)

Exploring Training Issues in Healthcare: Towards Identifying Barriers to Increase Electronic Medical Records Adoption by Healthcare Professionals ........................................... 657  
   A. Akhta Patel and A. Ant Ozok

Requirements of Indoor Navigation System from Blind Users .............. 673  
   Mei Miao, Martin Spindler, and Gerhard Weber

Empirical Study on the Relevance of Factors Influencing Readability of Instruction Manuals for Elderly .................................................. 681  
   Claudia M. Nick, Alexander Mertens, Stefan Krüger, and Christopher M. Schlick

Dispedia.de – A Linked Information System for Rare Diseases .............. 691  
   Romy Elze, Tom-Michael Hesse, and Michael Martin

## Poster Presentations (within Session C 4)

How Medical Expertise Influences the Understanding of Symptom Intensities – A Fuzzy Approach ..................................................... 703  
   Franziska Bocklisch, Maria Stephan, Barbara Wulfken, Steffen F. Bocklisch, and Josef F. Krems

Older Adults’ Perception of Costs and Benefits of Web-Based and Mobile PHR Technologies: A Focus Group Approach ...................... 707  
   Oliver Sack, Richard Pak, and Martina Ziefle

## Biomedical Informatics in Health Professional Education (Plenary Session P 2)

Biomedical Informatics: Defining the Science and Its Role in Health Professional Education ......................................................... 711  
   Edward H. Shortliffe

## Author Index

................................................................. 715
