Problems and Strategies on Products Distribution of a Food Factory
Zhengting Duan, Jinyou Qiao

Public Computer Education Management System based on Java EE Lightweight framework
Shi GAO, XingHeng WANG, Xue DENG

Push the Development of China E-Port toward "Single Window" Mode
Huiwen Wang

Qualitative Analysis of Holling IV Predator-Prey Model with Harvesting Rates for Preys and Predators
Cansheng Zhao, Wanxiong Wang, Xingli Zhao

Rapid search algorithms of home location and service register in SMS Gateway
BiBo Yan

Real World Oriented Test Functions
Fu-ming Peng

Real-time Improvement of VCPU Scheduling Algorithm on Xen
Xiajie Zhang, Dongsheng Yin

Requirements Modeling Based on Multidimensional Ontology System
Qian Song, Yajun Liu

Research and application of a UDP-based reliable data transfer protocol in wireless data transmission
Qifeng Sun, Hongqiang Li

Research and Application of Integrated Visualization System in Numerical Simulation of Flow and Sediment
Yong Liu, Ming-hui YU, Guo-lu YANG

Research and Design of the User-oriented Digital service Portal
aiqingwang

Research and Implementation of Distributed Intelligent Network Fault Management System
Zhenguo Ding, Yongjie Zhao, Chen Wang

Research and Implementation of Network Management Experimental Simulation System Based on UML
Xiaoqing Wang, Xiaoliu Xing

Research and Implementation on Mixed Content Delivery Network
Shuangming Zhu, Min Jiang, Qimin Dang

Research and Practice on Computer Talent Training of Chinese College and University
Zhong Qu

Research and Practice on Constructing the New Digital Language Laboratory
Xiaohua Zhang, Bojun Heng

Research and Simulation of Preventing Stepping on Accelerator Pedal Mistakenly Based on Fuzzy Control
Hongyan Chen, Ya’nan Qiu, Meifu Luo, Huikai Ma

Research of Information Technology Improving Service Efficiency in SMEs
Bo Zhang

Research of MV Carrier Communication Key Technology in Smart Distribution Automation
Haoyong Yi, Shiliang Cai

Research of Optimization Methods for Inter-Chips’I/O Coherence Processing in Many-Cores Processor
Yafeng Guo, Li Luo, Xiaobo Yan, Ming Zhang

Research of R&D Management System Structure-Based on Anti-Technological Lock-in
Li Ji, Luming Shao, Guanghua Qiu

Research of the Income Replacement Ratio of Provident Fund Scheme in Macau
Shun-Ho Chu

Research of the Personalized Recommender for E-Commerce Based on web usage mining and Collaborative Filtering Technique
Xinmeng Zhang, Shengyi Jiang
Research of the Users’ Personalized Model in Web Mining ................................................................. 1572
Juan Li, Dating Ming

Research of Web Recruitment Information Extraction Based on NLU .................................................... 1575
Xifeng Wang, Xiaoluan Zhang

Research on Aggregation Mechanism for Combat Capability of System-of-Systems Based on Information Systems .................................................. 1579
Yanjie Niu, Guangyu Bao, Dongge Zhang, Hu Yang

Xiao Jie, Shaodong Feng, Gengxin Zhang, Fan Wang

Research on an Optimization model for export delivery planning in ERW pipe enterprises .......................... 1587
Shaohua Dong, Mingyan Liu

Research on Availability Prediction Model of Web Service ................................................................. 1590
Youxiang Duan, Yanqin Huang

Research on Clustering Algorithm for Space Information Networks ....................................................... 1595
Yu Geng, Liu Jun, Ye Ning

Research On Cooperation Behaviors Of Multiple Intelligent Virtual Humans Based On Fluent Calculus ........ 1600
Jiangjin Guo, Yaqing Zhao, Tao Yang

Research on Cooperative Diversity Communication Systems with Adaptive Modulation Technique ............ 1604
Jingning Wang, Xuexi Tan

Research on dynamic simulation of canal’s control .................................................................................. 1607
Yong Liu, Tao Shang

Research on Intelligent vehicle steering control based on fuzzy control .................................................. 1611
Guoming Huang, Yuncan Xue

Research on International Tacit Knowledge in Frontier Domains in Visualized Information ....................... 1615
Zuoxue Li, Yanxia Qi

Huizhen Li, Lingkun Ma

Research on reservoir optimal operation based on dynamic programming model ....................................... 1622
Chuanzhe Li, Jia Liu, Denghua Yan, Fuliang Yu

Research on Structure Optimization Method of USV Based on iSIGHT .................................................. 1626
Heping Sun, Yuru Xu, Cheng Huang

Research on the Application of Cloud Computing in E-Government ..................................................... 1630
Jin Tian

Research on the Chemical Logistics Transport System Transparent Based on Internet of Things .................. 1633
Hehua Li, Tao Yang

Research on the Clustering technology in the use of city traffic jam ....................................................... 1636
Xiongqian zheng, Jianzhang Liu, Gang Qian

Research on the Credit Assessment of High-tech Small and Medium-Sized Enterprises Based on State Space Model ......................................................... 1640
Liping Nie, Song Tao

Research on the Data Warehouse and Data Mining Techniques Applying to Decision Assistant System ........ 1643
Lifeng Hou, Tao Li, Jiaojun Sheng, Huayang Zhu

Research on the influence elements of medical service quality based on DEMATEL ................................ 1646
Sen Wang, Ying Chen, Miaosong Liu, Lin Zhou

Research on the Interaction of Honeynet and IDS .................................................................................... 1649
Chen Wang, Zhenguo Ding
Study on the Evaluation System and Promotion of Regional Independent Innovation Ability in Heilongjiang Province .......................................................... 1736
YuMing Li, ChunShan Li

Study on the factors influencing house purchase price in China ......................................................... 1740
JUAN SUN, CHUN YAN

Study on the Interconnection Architecture and Access Technology for Internet of Things .................. 1744
Dong Chen, Guiran Chang, Jiqiao Li, Jie Jia

Study on the Tracks of Technology Upgrade of ICT Enterprises ..................................................... 1749
yijun Huang, fang ling

Submodular-function maximization subject to multiple constraints ....................................................... 1754
Xingli Zhao, Canzheng Zhao, Shanglu He, Wanxiong Wang

Survey on Mobility Management Technology of IOT ........................................................................... 1756
Shidong LiU, Zailong ZHANG

Temperature and pressure control system for high temperature and high pressure fluid-solid action .... 1763
Dongsheng Chen

The Analysis and Design of Internet Course Teaching System for Operation System ............................ 1766
Qijun Du, Hui Guo

The Application of Proteus in Teaching of Microcomputer Principle ................................................... 1770
Yao Li, Lei Zhang

The Construction Research on the Environmental Cost Management Model of Resource-Enterprises in Inner Mongolia .............................................................................. 1773
yujie luo

The Counting Example And Excel Application of Key Conflict Identification of Knowledge Chain between University and Industry .............................................................. 1777
Hongyan Yang, Guang Chen

The Customer Loyalty Model Based on Counter Propagation Network ................................................. 1781
Chaohua Li

The design and implementation of Chinese Pinyin input method in embedded system ....................... 1785
Yuhong Liu

The Design and Implementation of the RFID System Based on uC/OS-II and UDP Network ............... 1789
Yaqin He, Fei Zhang

The design of a real-time operating system kernel based on embedded CPU with limited resources ...... 1792
Yuhong Liu

The Design of Enterprise Group Financial Management Platform ....................................................... 1796
Yueyun Jiang

The Development of Iterated Satellite Graphics Based on E-Learning ................................................. 1800
Fucheng You, Mingzhi Cheng

The development of property rating system based on ArcInfo and UML ............................................. 1804
Dehong Feng, Yuehua Huang

The Effects of Different Dimensions of Service Provider Power on Customer Compliance .................. 1807
Xiaofan Wang, Kai Chen

The E-Learning Environment Development of Triangle Fractal Graphics Programming .................. 1811
Fucheng You, Yongbin Zhang

The Incentive Idiosyncrasy of the Comparative-Performance-Option and its Incentive Effect to Managers ................................................................................................................. 1815
Guo-mai Liu, Yi-qun Tan

The Internet of Things to the impact of Modern Logistics ................................................................. 1819
