## TABLE OF CONTENTS

**Educational Media in Portugal: The next decade (2011-2020)** ................................................................. 1
António Teixeira, Open University of Portugal & University of Lisbon, Portugal; Ana-Paula Correia, Iowa State Univ., USA; António Teixeira, Open University of Portugal & University of Lisbon, Portugal; Portugal; Ana-Paula Correia, Iowa State Univ., USA; Alfredo Soeiro, University of Porto, Portugal; Paulo Dias, University of Minho, Portugal; Fernando Albuquerque Costa, University of Lisbon, Portugal; Lina Morgado, Open University of Portugal, Portugal

**Changing cultures, changing practices: Using mobile tools, the cloud and ePortfolios for authentic assessment**........................................................................................................ 8
David Kennedy, Lingnan University, Hong Kong

**An eLearning framework for individual and organisational transformation: SME and large enterprise implications** .................................................................................................................. 23
Liam Brown, Enterprise Ireland, Ireland; Vincent Wade, Trinity College Dublin, Ireland; Eamonn Murphy, University of Limerick, Ireland

**A Case Study of Team Teaching for the Improvement of Algorithm Teaching Ability among Pre-service Computer Science Teachers** ........................................................................... 28
Jeong Won Choi, Young Min Seo, Young Jun Lee, Dept. of Computer Education, Korea National University of Education, Korea (South)

**A case study comparison of traditional and electronic learning within a mining context** ..................... 39
Dolf Steyn, Tshwane University of Technology, South Africa

**A Participatory Approach to Scenario Development for XO Laptops in Brazil** ........................................ 48
Tel Amiel, Flóvia Arantes, Leonardo Miranda, Maria Cecilia Martins, M. Cecilia Baranauskas, UNICAMP, Brazil

**Podcasting: An Intelligent Extension or Pending Derivative of Traditional Open Distance Learning Tools?** ................................. 58
Rachel Barker, Wilhelmina Johanna Greeff, University of South Africa, South Africa

**Open Educational Resources (OERs) in Australia: A Cross Sector Environmental Scan** .................... 67
Carina Bossu, University of New England, Australia; Mark Brown, Massey University, New Zealand

**Bridging the Distance: Enhancing the Success of Distance Learners** ......................................................... 71
Mark Brown, Massey University, New Zealand

**Building a Rich Digital Learning Culture: Insights from the Student Experience in a College of Business** ................................................................................................................................. 72
Mark Brown, Robyn Walker, Massey University, New Zealand

**Assisting College Students in Meeting Graduation Threshold of English Competence: A Case Study** ................................................................................................................................. 100
Chang-I Cheng, Hsiu-Ting Hung, National Kaohsiung First University of Science and Technology, Taiwan

**Instructors' capabilities on eLearning platforms in South African HEI: A Capability Approach.** ................................. 106
Agnet Chigona, Rabaneli Dagada, University of the Witwatersrand, South Africa

**Modern Technologies and Older Adults in Brazil: Implications for Learning** ........................................ 113
Simone Conceição, University of Wisconsin-Milwaukee, USA; Roberto Borges, José Valdeni Lima, Universidade Federal do Rio Grande do Sul, Brazil

**Mediation issues in the construction of teachers' knowledge in a blended-learning in-service course** ................................................................................................................................. 124
Maria Correia, University of Barcelona, Spain

**The four l-model for scaffolding the professional development of experienced teachers in the use of virtual learning environments for classroom teaching** ........................................ 130
Pamela Cowan, Queen's University Belfast, UK

**Web and Social Media Platforms for Collaboration, Iterative Testing and Marketing Within a Client-Focused Curriculum: Considerations for Curriculum Planning, Student Engagement and Long-Term Success** ................................................................................................................................. 137
Ramon Delgado, Robert Haaf Fanshawe College, Canada

**Online Self-Assessment before Enrollment: A Solution for high Dropout rates? Results of an Evaluation** ............................................................................................................................................. 142
Nicholas Frick, Michaela Ramm, University of Applied Sciences Osnabrueck, Germany

**Information and Communication Technologies (ICT) Integration by Teacher Educators in Israeli Colleges of Education: the Current State of Affairs, 2008-2009** ............................................................................. 152
Olsan Goldstein, MOFET Institute and Kaye College of Education, Israel; Nitsa Waldman, Bertha Tesler, MOFET Institute and David Yelin College of Education, Israel; Miri Shonfeld, MOFET Institute and Seminar Ha-Kibbitzim, Israel; Alana Forkush-Baruch, Nili Mor, MOFET Institute and Levinsky College of Education, Israel; Zipi Zelekovich, MOFET Institute and Seminar...
Ha-Kibbitzim, Israel; Ida Heilweil, MOFET Institute and Levinsky College of Education, Israel; Lea Kozminsky, MOFET Institute and Kaye College of Education, Israel; Wafa Zidan, MOFET Institute and Arab College of Education, Haifa, Israel

In Investigating the Predicting Variables of the Learning Outcomes when using Digital Textbooks 160

Comparing American and Japanese Young People's Emotional Strategies in Mobile Phone Email Communication ................................. 170

Yuuki Kato, Sagami Women's University, Japan, Japan; Douglass Scott, Waseda University, Japan; Shogo Kato, Tokyo Woman's Christian University, Japan, Japan

Internet Uses and Threats for Students: Investigating Parents' Awareness ........................................ 179

Despo Ktoridou, University of Nicosia, Cyprus; Nikleia Eteokleous, Frederick University, Cyprus; Anastazia Zachariadou, University of Nicosia, Cyprus

Teaching Operations Management techniques in the not-for-profit Service Industry Though Computer Simulations .................................... 189

Borja Lopez, IE Business School, Spain

eSubmission - Institutional Policies and Academic Attitudes ................................................................... 194

Barbara Newland, University of Brighton, UK; Lindsey Martin, Edge Hill University, UK; Andy Ramsden, University Campus Suffolk, UK

Use of Multimedia to Improve Brazilian Public School Students' Interest in Science ........................ 200

Yvonne Mascarénhas, Institute of Advanced Studies, Sao Paulo University at Sao Carlos, Brazil

Virtual Learning Environment in Primary Education – Big Challenge for Teacher ......................... 206

Iva Matasic, Primary School Ivana Mestrovica, Croatia; Ivana Krizanac, Primary School Brodarica, Croatia

Development of Introduction Games for Learning World History in Japanese Senior High School ...... 210

Keita Matsushita, Department of Humanities and Social Sciences, Jissen Women's University, Japan; Kazuki Okauchi, Graduate School of Letters, Kyoto University, Japan

Use Assessment Of The Personal Digital Assistant (PDA) Among Physicians In Public Hospitals Of The Gauteng Province ........................................................ 219

Kapela Morutwa, J.S van der Walt, Tshwane University of Technology, South Africa

Instructors' Perceptions regarding Information and Communication Technologies Integration into Instruction in a Kyrgyzstan University: a case study ................................................ 225

Gulshat Mahmetjanova, Kursat Cagillay, Middle East Technical University, Turkey

Validating the ISTE NETS*A Standards in Alberta .................................................................................. 232

Paul Newton, Jose da Costa, University of Alberta, Canada; Frank Peters, Univ. of Alberta, Canada; Craig Montgomerie, University of Alberta, Canada

Acceptance of Online Degrees by Undergraduate Mexican Students ....................................................... 238

Brenda Cecilia Padilla Rodriguez, University of Leicester, UK; Jonathan Adams, Florida State University, USA

Evaluation of Students' Access to and Experience with Technology in a Public Mexican University 247

Brenda Cecilia Padilla Rodriguez, University of Leicester, UK; Ma. Concepción Rodríguez Nieto, Víctor Manuel Padilla Montemayor, Universidad Autónoma de Nuevo León, Mexico

The Review on the Support System of Korean Government to Corporate e-Learning ....................... 253

Hyon Mi Rha, KRIVET, Korea (South)

A Different View for Information Ethics Education in Elementary Schools ........................................... 260

Noguchi Satoshi, KANSAI University, Japan

Dissemination: Building national capacity for creating eSimulations for education in the professions ................................................................. 265

Stephen Segrave, Deakin University, Australia

Ka Pao: Building Business Skills Online ................................................................................................. 271

Donald Sheridan, University of Auckland Business School, New Zealand; Manaka Henare, The University of Auckland Business School, New Zealand

Practice teaching in Japan: The literature reviewing and the qualitative analysis of the semi-structured interview ........................................................................... 283

Jumpei Tokito, Graduate School of Informatics Kansai University, Japan; Kenichi Kubota, Faculty of Informatics Kansai University, Japan

The Research on the Teacher Evaluation for Profession Development Implementation by web-supporting and Qualitative Analysis ........................................ 288

Juei-Hsin Wang, National Chiayi University, Taiwan

CyberAula 2.0: Integration of Moodle with videoconferencing and lecture recording services .... 291

Sandra Aguirre, Juan Quemada, Jose Ignacio Pastor, Estibaliz Martinez, Marla Ángeles Mendiola, Victoria Machuca, Raquel Portaencasa, Universidad Politecnica de Madrid, Spain
Towards a problem-based training curriculum for surgical robotics: the SAFROS project
Dimitris Alimisis, School of Pedagogical and Technological Education, Greece; Marco Vicentini, Paolo Fiorini, University of Verona, Italy

mLearning and the Liberal Arts: Exploring Mobile Computing to Support Teaching, Learning and Research
Kimberly Armstrong, Oscar Retzer, Franklin and Marshall College, USA; Teb Locke, Charles Wachira, Franklin & Marshall College, USA

Digital Citizenship: A Course on Safe, Ethical and Legal Internet Practices in a Brazilian Middle and High School
Cristiana Assumpcao, Colégio Bandeirantes, Brazil; Cristina Sleiman, Cristina Sleiman Advogados, Brazil

Investigating the Key Innovative Components of 21st Century Education Systems: Lessons from two school systems
Harouna Ba, EDC Center for Children & Technology, USA

Mind your game, game your mind! Mobile gaming for co-constructing knowledge
Michael Power, Sylvie Barma, Sylvie Daniel, Laval University, Canada

Online Deutsch – A Blended-Learning Video-Language Course for Japanese and International Students
Oliver Bayerlein, Nanzan University Nagoya, Japan

Development of an Online Digital Filtering Laboratory: First Year’s Results
Ulrich Borgolte, FernUniversität in Hagen, Germany

Story-based Mobile Learning with GSM Phones: Using "old tech" to reach audiences in threshold and developing countries
Arndt Bubenzer, commonsense - eLearning & training consultants GmbH, Austria

Impacts of online social networking as a community of practice in an English department in Taiwan
Yu-Chuan Joni Chao, Providence University, Taiwan; Wen-Chi Vivian Wu, Providence University, Taiwan

Student Perceptions of Immersive Virtual Environments for the Meaningful Assessment of Learning
Jillianne Code, University of Victoria, Canada; Jody Clarke-Midura, Harvard University, USA; Nick Zap, Simon Fraser University, Canada; Chris Dede, Harvard University, USA

Using Health Literacy Principles to Design Text and Web-Based Educational Materials
Simone Conceicao, University of Wisconsin-Milwaukee, USA; Holly Colby, Children's Hospital of Wisconsin, USA; Sarah Johanningmeyer, Medical College of Wisconsin, USA; Anne Juhlmann, Children's Hospital of Wisconsin, USA

Prototype Development in Mobile-Learning Design Research
Alan Foley, Heng Luo, Syracuse University, USA

Sing me a good research story: Research dissemination and new media
George Gadaniais, Faculty of Education, University of Western Ontario, Canada; Marcelo Borba, Universidade Estadual Paulista, Brazil; Janette Hughes, University of Ontario Institute of Technology, Canada; Ricardo Scucuglia, University of Western Ontario, Canada; Anne Burke, Memorial University, Canada

Rubric Marking “Out of the Box”:
Saving Time & Adding Value to Teaching & Learning
Lesley Gardner, Don Sheridan, Nina Andreas, The University of Auckland Business School, New Zealand

The George Washington University Online High School: A New Collaborative Venture
Robert Ianacone, Michael Castleberry, George Washington University, USA

What do Interactive Whiteboards and Tablet PCs bring to a classroom?
Tadashi Inagaki, Tohoku Gakuin University, Japan; Hiitoshi Nakagawa, The open university of Japan, Japan; Masaru Mural, Kanazawa Satoyama University, Japan; Masayuki Shimizu, Joetsu University of Education, Japan; Yu Nakahashi, Musashi University, Japan; Makayuki Uchita, Fukusya University, Japan; Tomohiko Yamamoto, Kumanoto Prefectural Board of Education, Japan; Kazutaka Kurita, National Institute of Advanced Industrial Science and Technology, Japan; Shoichi Futaki, NTT Communications, Japan

Thinking outside the “I am the user” box: a trial of social-emotional design in HCI education
Jo Jung, Barnard Clarkson, Martin Masek, Edith Cowan University, Australia

Using a web-based platform to enhance employability skills of the global citizen student: introducing the Blended Learning Phased Assessment Employability Strategy (BLPASES) framework
Ingrid Kanuga, Zabin Visram, University of West London, UK

A Design Methodology of Case-based Learning for Training Innovative Practices:
A Case of Professional Development for Teaching with Web 2.0
Sumaya Saquer, Emirates College for Advanced Education (ECAE), United Arab Emirates

Simulation for Teaching Organizational Culture .......................................................................................................................... 572

Terry Schumacher, Rose-Hulman Institute of Technology, USA

Computer-Game Play as Imaginary Stage for Reading: Pentop computers, hardcopy books and spatial situation models ................................................................................................................................. 575

Glenn Smith, University of South Florida, USA; Sinan Olkun, Ankara University, Turkey

Boost Student’s Learning Motivation Using Online Quizzes ........................................................................................................ 583

Claudia Steinberger, Universität Klagenfurt, Austria

Linking Outdoor Sports and Professional Education by means of Wikis .......................................................................................... 590

Franz Stuber, Sebastian Bornemann, University of Applied Sciences Muenster, Germany; Ariadne Schefold, Hermann Boese Secondary School, Bremen, Germany

Developing Expertise in those Handling Time and Temperature Sensitive Pharmaceutical Products: Applying the Early Phases of a Design Research Methodology ........................................................................... 591

James Vesper, Jan Herrington, Murdoch University, Australia

Establishing a Strength-based Technology-enhanced Learning Environment with and for Children with Autism .................................................................................................................................. 601

Marjo Voutilainen, Virpi Vellonen, Eija Kdrnä, University of Eastern Finland, Finland

Application of a Digital Microscope to General Education to Activate Students’ Multiple Intelligences ............................................................................................................................................. 607

Satoshi Wada, Dokkyo University, Japan; Yaeko Nakanishi, Lumi Tatsuta, Dokkyo University, Japan

Designing a Self-Access Website of Pre-arrival Learning Resources to Support International Student Mobility ................................................................................................................................. 620

Julie Watson, University of Southampton, UK

Making Information coherent with a Personal Knowledge Integrator – a Knower ........................................................................ 631

David White, The University of Auckland, New Zealand

Tutoring model in distance education: the case of Brazilian Open University (UAB) at Federal University of Sao Carlos (UFSCar) ............................................................................................................. 636

Denise Abreu-e-Lima, Daniel Mill, Federal University of Sao Carlos - UFSCar, Brazil; Fabio C.B. Abreu-e-Lima, UNESP - Univ Estadual Paulista, Brazil

Presence and Absence of Technology in Brazilian Higher Education: An analysis from Professors’ Perspective ........................................................................................................................................ 646

Ludhiana Bertoncello, Centro Universitário de Maringá, Brazil; Dilmeire Vosgerau, Pontificia Universidade Católica do Paraná, Brazil; Flávio Bortolozzi, Centro Universitário de Maringá, Brazil
