Designing Preschoolers' Story-Authoring Software:
User Requirements and Feedbacks

Shuhui Chiu, Chorng-Shih Koong, Sa-Hui Fan, National Taichung University of Education, Taiwan

A Transformative Framework for Social Software Use in E-Learning
Adaptive e-learning for all: integrating cultural-awareness as context in user modeling
Isabela Gasparini, UDESC and UFRGS, Brazil; Leila Weizel, UFPA and UFRGS, Brazil; Marcelo S. Pimenta, José Palazzo M. de Oliveira, UFRGS, Brazil

Proposal of Layout of Sentences Easy to Understand on the Web
~Itemization of Important Sentences and Scrolling~
Hiroo Hirose, Yoshito Yamamoto, Tokyo University of Science, Suwa, Japan; Hiroshi Ichikawa, Otsuma Women’s University, Japan

Making Children Actively Immersive in Educational Games: Physically Interactive Serious Game Design Case
Yayla Inal, TUBITAK, Turkey; Kursat Cagil, METU, Turkey

The Curriculum as an Ontology - A Human Centered Visualization Approach
Simone Kriglstein, Renate Motshin-Pitrik, University of Vienna, Faculty of Computer Science, Austria

On the Role of User Experience in a Holistic Evaluation Model for Serious Games
Huberta Kritzenberger, Stuttgart Media University, Germany

Students’ Needs Analysis on e-Learning Contents for the Korean Online High Schools
Eun Joo Lee, Korea University, Korea (South)

Developing More Authentic e-Courses: Working Life Mentoring through Social Media
Irya Leggasouri, Markus Maukna, Central Ostrobothnia University of Applied Sciences, Finland; Jan Harrington, Murdoch University, Australia; Paula Hohenthal, Central Ostrobothnia University of Applied Sciences, Finland

Enhancing the usability of the user interface for a digital textbook platform from learning perspectives
Hae-Deok Song, Chung-Ang University, Korea (South); Cheo-Il Lim, Seoul National University, Korea (South); Yekyung Lee, Sogang University, Korea (South)

Product Analysis Learning Method: Collaborative Learning and List of Analysis Items
Haifu Lin, The Graduate School for Advanced Studies Sokendai, National University in Japan, Japan; Hiroshi Kato, Center of ICT and Distance Education, The Open University of Japan, Japan; Takeshi Toya, Tokai University, Japan; Kazuhiro Nakamoto, Chiba Institute of Technology, Japan

Exploring the Nature of Immersion in Games to Enhance Educational Engagement
Mark McMahon, Shane Henderson, Edith Cowan University, Australia

Novel Networked Navigation:
A Case Study of a Genetics Education Internet Site
Amy Nisselle, Dolan DNA Learning Center, USA; John Connolly, Children’s Hospital of Philadelphia, USA; David Micklos, Dolan DNA Learning Center, USA

Method to Analyze Spatial Characteristics of a Real-World Learning Field
Masaya Okada, Graduate School of Science and Technology, Shizuoka University, Japan; Masahiro Tada, ATR Intelligent Robotics and Communication Laboratories, Japan

Authentic activities in language learning: Bringing real world relevance to classroom activities
ıldeniz Özerir, Eastern Mediterranean University, Turkey; Jan Harrington, Murdoch University, Australia

Open Educational Resources: Future Directions for Research and Practice
Stefanie Panke, University of Ulm, Germany

Visual Identity and User interface design of the virtual museum of food and nutrition of the island of Cyprus
Paschalis Paschalis, University of Nicosia, Cyprus

Exploring critical usability attribute factors for the user interface of digital textbook platform
Hae-Deok Song, Seokyoung Shin, Chung-Ang University, Korea (South); Jihyun Sohn, Mokwon University, Korea (South)

Multi-Screen Learning Service Strategies for Korean Cyber High Schools
Chanhee Son, Eun Joo Lee, Young Jik Kim, Young Chun Kim, Korean Educational Development Institute, Korea (South)

Adaptive Management of Learning Content
Dimitrios Georgiou, Georgios Tsoulouchas, Democritus University of Thrace, Greece

Game-Based Language Learning: The Impact of Competition on Students’ Perceptions and Performances
Sylke Vandercruysse, ku, Belgium; Mieke Vandemoortere, Frederik Cornillie, Geraldine Clarebout, KULeuven Campus Kortrijk, Belgium

An Assessment of the Usability of the Virtual Conference Centre Global Plaza and the Associated Social Network
Tanja Arh, Borka Jerman-Blazic, Jožeš Stefan Institute, Slovenia

Effects of Free Learner Control with Quick Overviewing in Technology-mediated Learning
Manuela Carmona, Jun Jo, Griffith University, Australia
Producing Instructional Videos Through Collaborative-Action Research for People Living With an Intellectual Disability ................................................................. 1504
Ann-Louise Davidson, Julie C. Smith, Nadia Naffi Abou Khalil, Concordia University, Canada

Game Based Learning in Secondary Education: Geographical Knowledge of Austria .......... 1510
Martin Ebner, Martin Böckle, Martin Schön, Graz University of Technology, Austria

A Preliminary Analysis of Taking Notes in e-Learning with Eye-Tracking of Students ................................................................. 1516
Hironori Egi, Information Media Center, Tokyo University of Agriculture and Technology, Japan; Shigeto Ozawa, Faculty of Human Sciences, Waseda University, Japan

A Web 2.0 Collaborative Virtual Environment to Manage Videos and e-Learning Objects for Mobile Lectures and Seminars: MobiLesson 11 ................................................................. 1522
Flavio Fontana, ENEA, University of Rome, Italy; Enrico Cosimi, Giangiacomo Ponzo, ENEA, Italy

Students’ Goals and Strategies in Personal Information Management ................................................................. 1530
Sharon Haraf-Jaffe, RqflNachmias, Tel Aviv University School of Education, Israel

Development and evaluation of a text entry interface used for foreign language study using a touch-screen smartphone ................................................................. 1537
Shinichi Hisamatsu, Tokyo University, Japan; Kazaru Yaegashi, Ritsumeikan University, Japan

Understanding Art Student Culture for the Development of an Online Teaching and Learning Gallery ................................................................................................. 1543
Heather Hughes, Pennsylvania State University, USA

Annotations and Rhetorical Structure Theory: Implications for the Design of EBooks ................................................................................................. 1549
HyunSeung Koh, School of Library and Information Science, Indiana University, Bloomington, USA

Knowledge Creation in MMOG: An Empirical Study ................................................................. 1558
Joseph Siu-Lung Kong, Ron Chi-Wai Kwok, Department of Information Systems, City University of Hong Kong, Hong Kong

Students’ use of Weblectures In a Blended Course: Cognitive Mediators ................................................................................................. 1569
Griet Lust, Jan Elen, Geraldine Clarebout, Katholieke Universiteit Leuven, Belgium

Building capacity for mathematics: Using m-learning to facilitate pedagogical practices among educational stakeholders ................................................................................................. 1579
Michael McCabe, Stephen Tedesco, Nipissing University - Schulich School of Education, Canada

Metadata quality in learning repositories: Issues and considerations ................................................................................................. 1585
Nikos Palavitsinis, Nikos Manouselis, Greek Research & Technology Network, Greece; Salvador Sanchez-Alonso, University of Alcala de Henares, Spain

E-Learning: Education for Everyone?
Special Requirements on Learners in Internet-based Learning Environments... 1598
Thomas Richter, University of Duisburg-Essen, Germany; Helmo H. Adelsberger, Universität Duisburg-Essen, Germany

Arabic Educational Programs for Children with Learning Difficulties ................................................................................................. 1605
Kamilah Al-Shihry, Public School 221, Ministry of Education, Saudi Arabia; Remya George, Masooh Al-Saleh, King Saud University, Saudi Arabia

The Design of the TERENCE Adaptive Learning System ................................................................................................. 1609
Tania Di Mascio, University of l’Aquila, Italy; Rosella Gennari, Free University of Bozen-Bolzano, Italy; Pierpaolo Vittorini, University of l’Aquila, Italy

Learning Abstract Physics System with a 3-D Force Feedback Joystick ................................................................................................. 1618
Shih-Chieh Huang, Tanner Vea, John Black, Teachers College, Columbia University, USA

Web services with educational use in digital libraries for PLE y LPM ................................................................................................. 1624
Manuel Marco Such, Pedro Pernas Peco, University of Alicante, Spain; Leonel Iriarte Navarro, CITI. CUJAE, Cuba; Maria Pilar Escobar Esteban, University of Alicante, Spain

ConEx - Collaborative Learning Environment for Conferences ................................................................................................. 1631
Teemu Mikkanen, Harri Jurvola, Mikko Tuominen, Jarmo Vitelli, University of Tampere, Finland

An Assistive System for Learning Human Motions and Anatomies ................................................................................................. 1636
Akinobu Morikawa, Mie University, Japan

Software setup for remote laboratory with focus on individual feedback ................................................................................................. 1641
Dag A. H. Samuelsen, Olaf H. Graven, Buskerud University College, Norway

From Wordpress CMS to Wordpress LMS: A brilliant Idea ................................................................................................. 1648
Guillaume Semblat, University of Ottawa, Canada

Using Multimedia in Interactive Educational Software for Kindergarten Stage “Success Stories; Design and Develop” ................................................................................................. 1651
Mohamed Gehad Kamel Soliman Dorgham, Nader Marafie, RedSOFT, Kuwait

LaProf Web Portal: User Satisfaction Analysis ................................................................................................. 1659
Promotion of Student Problem-Solving Skills, Motivation, Knowledge Acquisition and English Proficiency level Using an Interactive Computer Game

Promotion of Student Problem-Solving Skills, Motivation, Knowledge Acquisition and English Proficiency level Using an Interactive Computer Game
