Embedded Reasoning: Intelligence in Embedded Systems

Papers from the AAAI Spring Symposium

Gabe Hoffmann, Chair

Technical Report SS-10-04

AAAII Press
Menlo Park, California
Contents

Complex AI on Small Embedded Systems: Humanoid Robotics using Mobile Phones / 2
Jacky Baltes and John Anderson

Autonomous and Semiautonomous Control Simulator / 10
Chad Burns, Joseph Zearing, Ranxiao Frances Wang, and Dusan Stipanovic

Finding the Odd-One-Out in Fleets of Mechatronic Systems using Embedded Intelligent Agents / 17
Stefan Byttner, Magnus Svensson, and Thorsteinn Rögnvaldsson

golog.lua: Towards a Non-Prolog Implementation of Golog for Embedded Systems / 20
Alexander Ferrein

Assisted Highway Lane Changing with RASCL / 29
Rich Frankel, Olafur Guðmundsson, Brett Miller, Jordan Potter, Todd Sullivan, Salik Syed, Doreen Hoang, Jae min John, Ki-Shui Liao, Pasha Nabass, Amanda Schwab, Jessica Yuan, David Stavens, Christian Plagemann, Clifford Nass, and Sebastian Thrun

Embedded Reasoning for Atmospheric Science Using Unmanned Aircraft Systems / 40
Eric W. Frew and Brian Argrow

Implementation of Neural Network on Parameterized FPGA / 45
Alexander Gomperts, Abhishek Ukil, and Franz Zurfluh

Learning Maps of Indoor Environments Based on Human Activity / 52
Slawomir Grzonka, Frederic Dijoux, Andreas Karwath, and Wolfram Burgard

Stream-Based Middleware Support for Embedded Reasoning / 59
Fredrik Heintz, Jonas Kvarnström, and Patrick Doherty

Sensor-to-Symbol Reasoning for Embedded Intelligence / 67
David Kortenkamp, Patrick Beeson, and Nick Cassimatis

Diagnosis with Incomplete Models: Diagnosing Hidden Interaction Faults / 71
Lukas Kuhn and Johan de Kleer

Continual On-Line Planning as Decision-Theoretic Incremental Heuristic Search / 78
Seth Lemons, J. Brenton, Wheeler Rumal, Minh Do, and Sungwook Yoon

POMDP Models for Continuous Calibration of Interactive Surfaces / 86
Bastian Migge, Tim Schmidt, and Andreas Kunz

Actor-Critic Policy Learning in Cooperative Planning / 93
Josh Redding, Alborz Geramifard, and Jonathan How

Embedded Rule-based Reasoning for Digital Product Memories / 98
Christian Seitz, Steffen Lamparter, Thorsten Schöler, and Michael Pirker
Automatic Synthesis of Robust Embedded Control Software / 104
Tichakorn Wongpiromsarn, Ufuk Topcu, and Richard M. Murray

An Exact Dynamic Programming Solution for a Decentralized
Two-Player Markov Decision Process / 112
Jeff Wu and Sanjay Lall
