2010 IEEE International Conference on Intelligence and Security Informatics

(ISI 2010)

Vancouver, BC, Canada
23-26 May 2010

Editors:

Christopher C. Yang
Ke Wang
Herbert H. Tsang
Uwe Glasser
Hsinchun Chen

Daniel Zeng
Antonio Sanfilippo
Min-Yuh Day
Patricia L. Brantingham

IEEE Catalog Number: CFP10ITI-PRT
## TABLE OF CONTENTS

An Executive Decision Support System for Longitudinal Statistical Analysis of Crime and Law Enforcement Performance: Crime Analysis System Pacific Region (CASPR) ........................................... 1  
*Anir H. Ghaseminejad, Paul Brantingham*

Testing Perception of Crime in a Virtual Environment .............................................. 7  
*Andrew J. Park, Valerie Spicer, Monique Gutierrez, Patricia L. Brantingham, Greg Jenion*

Identifying High Risk Crime Areas Using Topology .............................................. 13  
*Richard Frank, Andrew J. Park, Patricia L. Brantingham, Joseph Clare, Kathryn Wischke, Mana Yajiahilabi*

Natural Language Processing Based on Semantic Inferentialism for Extracting Crime Information from Text ......................................................... 19  
*Vladia Pinheiro, Vasco Furtado, Tarcisio Paqueno, Douglas Nogueira*

Predicting Social Ties in Mobile Phone Networks .............................................. 25  
*Huiqi Zhang, Ram Dantu*

Network Neighborhood Analysis ................................................................. 31  
*Michael D. Porter, Ryan Smith*

Early Warning Analysis for Social Diffusion Events .............................................. 37  
*Richard Colbaugh, Kristin Glass*

Identifying Influential Users in an Online Healthcare Social Network ...................... 43  
*Xuning Tang, Christopher C. Tang*

Generalizing Terrorist Social Networks with K-Nearest Neighbor and Edge Betweenness for Social Network Integration and Privacy Preservation .............................. 49  
*Xuning Tang, Christopher C. Tang*

The U.S. and the EU Differences in Anti-terrorism Efforts .................................... 55  
*Michael Gallagher*

Developing a Dark Web Collection and Infrastructure for Computational and Social Sciences ................................................................. 59  
*Yueqi Zhang, Shuo Zeng, Chun-Neng Huang, Li Fan, Ximing Tu, Yan Dang, Catherine A. Larson, Dorothy Denning, Nancy Roberts, Hsinchun Chen*

Automatic Construction of Domain Theory for Attack Planning .......................... 65  
*Xiaochen Li, Weiji Mao, Daniel Zeng, Fei-Yue Wang*

GENIUS: A Computational Modeling Framework for Counter-Terrorism Planning and Response ................................................................. 71  
*Herbert H. Tsang, Andrew J. Park, Mengting Sun, Uwe Glasser*

Terrorist Threat Assessment with Formal Concept Analysis .................................. 77  
*Paul Etinga, Stijn Vlaene, Jonas Poulman, Guido Dedene, Shanti Morstug*

Balancing Security and Information Sharing in Intelligence Databases ...................... 83  
*Antonio Badia*

Agent Based Correlation Model for Intrusion Detection Alerts ................................ 89  
*Ayman E. Taha, Ismail Abdel Ghaffar, Ayman M. Baha Eldin, Hani M. K. Mahdi*

Cross-Level Behavioral Analysis for Robust Early Intrusion Detection ...................... 95  
*Shun-Wen Hsiao, Yeadi S. Sun, Meng Chang Chen, Hui Zhang*

Intelligent Decision Support for Marine Safety and Security Operations .................. 101  
*Uwe Glasser, Piper Jackson, Ali Khailani Araghi, Hamed Yaghoubi Shahiri*

Automatically Identifying the Sources of Large Internet Events .......................... 108  
*Kristin Glass, Richard Colbaugh, Max Planck*

Cross Entropy Approach for Patrol Route Planning in Dynamic Environments .......... 114  
*Xu Chen, Tak-Shing Peter Yum*

Computational Knowledge and Information Management in Veterinary Epidemiology ................................. 120  
*Svitlana Volkova, William H. Hsu*

Entity Refinement Using Latent Semantic Indexing ........................................... 126  
*R. B. Bradford*

Latent Semantic Analysis and Keyword Extraction for Phishing Classification ............... 129  
*Gaston L'Huillier, Alejandro Hevia, Richard Weber, Sebastian Rica*

Unsupervised Multilingual Concept Discovery from Daily Online News Extracts ........... 132  
*Jeng-Hua Wang*

Estimating Sentiment Orientation in Social Media for Intelligence Monitoring and Analysis ......................................................... 135  
*Richard Colbaugh, Kristin Glass*

Desktop Text Mining for Law Enforcement .................................................... 138  
*Jonathan Brett Crawley, Gerhard Wagner*
Tweets Mining Using WIKIPEDIA and Impurity Cluster Measurement ................................................................. 141
Qing Chen, Timothy Shipper, Latifur Khan

Comparing the Virtual Linkage Intensity and Real World Proximity of Social Movements ........................................ 144
David Zimbro, Hsinchun Chen

Study of Effect of Node Seniority in Social Networks ......................................................................................... 147
Baojun Qiu, Kristinka Ivanova, John Yen, Peng Liu

Measuring Behavioral Trust in Social Networks ............................................................................................ 150
Sibel Adali, Robert Escriva, Mark K. Goldberg, Mykola Hayvanovych, Malik Majdon-ismail, Bolesław K. Sysmanski, William A. Wallace, Gregory Williams

Inter-Domain Routing Validator Based Spoofing Defence System ........................................................................ 153
Lei Wang, Tianbing Xia, Jennifer Seberry

Secure Communication Between Set-top Box and Smart Card for Fair Use in DTV Broadcasting ........................ 156
Wei-Bin Lee, Hsing-Bai Chen, Ching-Chih Cheng

BI - Intelligence for the Business of Crime Fighting .......................................................................................... 159
John Warden

Real Time Tracking of a Remote Moving Object by Active Zoom Cameras ..................................................... 162
Yan Gao, Xiaolin Zhang

Rationalizing Police Patrol Beats Using Voronoi Tessellations ............................................................................ 165
Arvind Verma, Ramyaas Ramya, Suresh Marra, Ye Fan, Raminder Singh

Identifying Vulgar Content in eMule Network through Text Classification ........................................................ 168
Xiangtao Liu, Xueqi Cheng, Jingyun Li, Hailian Zhai, Shuo Bai

Protection of Critical National Information Infrastructure (CNII) Against Cyber Terrorism: Development of Strategy and Policy Framework .......................................................................................................................... 169
Zahri Yunus, Syakrud Hafidz Said

Global Disease Surveillance Using Social Media: HIV/AIDS Content Intervention in Web Forums ........................ 170
Yungchang Ku, Chaochang Chiu, Yuelfi Zhang, Li Fan, Hsinchun Chen

A Multibiometric Access Control Architecture for Continuous Authentication .................................................. 171
Adriana Esmeraldo De Oliveira, Gustavo Henrique Matores Bessera Motta, Leonardo Vital Batista

Digitally Signed Document Flexible Sanitizing Scheme Based on Bilinear Maps .................................................. 172
Wen-Cheng Kuo, Jiin-Chiou Cheng, Yen-Hung Lin, Li-H-Chyau Wuu

News Mining for Border Security Intelligence ................................................................................................. 173
Martin Atkinson, Jenya Beloyevo, Vanni Zavarella, Jakub Piskorski, Silja Hutunen, Artto Ylhavainen, Roman Yangarber

Towards Effective Improvement of the Bayesian Belief Network Structure Learning ............................................ 174
Yan Tang, Kendra Cooper, João Cangussu, Kun Tian, Yin Wu

Clustering and Mapping Related News about Violence Events on their Time-lines ............................................. 175
Syed Foujeee Ahmed, Sukru Tüko, Hossan Dawalba

HPC - Privacy Model for Collaborative Skyline Processing .................................................................................. 176
Boris Chan, Vincent Ng

Workshop on Current Issues in Predictive Approaches to Intelligence and Security Analytics: Fostering the Creation of Decision Advantage through Model Integration and Evaluation .......................................................... 177
Antonio Santillano

Automated Sensing and Social Network Analysis in Virtual Worlds ...................................................................... 179
Lucas A. Overbey, Gregory McKay, Jasse Gordon, Shannon McKittrick

Multi-Modeling of Adversary Behaviors ............................................................................................................ 185
Alexander H. Levis, Lee W. Wagenhals, Abbas K. Zaidi

Breath-Depth Triangulation for Validation of Modeling and Simulation of Complex Systems .......................... 190
William N. Reynolds

Combining System Dynamics and Bayesian Belief Networks for Socio-Technical Risk Analysis ........................ 196
Zahra Mohaghegh

Text Analysis and Entity Extraction in Asymmetric Threat Response and Prediction ........................................ 202
Erwin Chan, Jason Oldenburg, Brian Tan Eyck, Jersey Rozenblit, Mike Dameron

Integrated Assessment Modeling of Energy Consumption Behavior and Carbon Emissions ........................ 208
Thomas P. Sanquist, Bin Shui, Heather Orr

Meta-Model Driven Construction of Timed Influence Nets ............................................................................. 212
Faisal Mansoor, Abbas K. Zaidi, Alexander H. Levis

Similarity Kernels via BI-Clustering for Conventional Intergovernmental Organizations ................................. 218
Minh Tam Le, John Sweeney, Eda Liberty, Steven W. Zucker

Social Media and Social Reality: Theory, Evidence and Validation ................................................................ 221
William N. Reynolds, Marta S. Weber, Robert M. Farber, Courtney Corley, Andrew J. Cowell, Michelle Gregory
