# Table of Contents

* **A Logical Framework for Reasoning about Policies with Trust Negotiations and Workflows in a Distributed Environment**  
  Philippe Balbiani, Yannick Chevalier, Marwa El Houri  
  Page 3

* **A Secured Delegation of Remote Services on IPv6 Home Networks**  
  Stere Preda, Laurent Toutain, Nora Cuppens-Boulahia, Frederic Cuppens, Joaquin Garcia-Alfaro  
  Page 12

* **CryptoNET: Secure Federation Protocol and Authorization Policies for SMI**  
  Abdul Ghafoor Abbasi, Sead Muftic, Gerot Schmölzer  
  Page 19

* **Formal Analysis of Attacks for e-Voting System**  
  Komminist Weldemariam, Richard Kemmerer, Adolfo Villafiorita  
  Page 26

* **Data Disclosure Risk Evaluation**  
  Slim Trabelsi, Vincent Salzgeber, Michele Bezzi, Gilles Montagnon  
  Page 35

* **Runtime Verification of Declassification for Imperative Programs: Formal Foundations**  
  Thomas Demongeot, Julien Mallet, Yves Le Traon  
  Page 43

* **SIDAN: a tool dedicated to Software Instrumentation for Detecting Attacks on Non-control-data**  
  Jonathan-Christofer Demay, Éric Totel, Frédéric Tronel  
  Page 51

* **Re-inforced Stealth Breakpoints**  
  Amit Vasudevan  
  Page 59

* **Permutation-based Steganographic Channels**  
  Kevin Forest, Scott Knight  
  Page 67

* **A Formal Methodology for Detection of Vulnerabilities in an Enterprise Information System**  
  Anirban Sengupta, Chandan Mazumdar, Aditya Bagchi  
  Page 74

  Stefan Jakoubi, Simon Tjoa  
  Page 82

* **Risk Analysis via Heterogeneous Models of SCADA Interconnecting Power Grids and Telco Networks**  
  Andrea Bobbio, Ester Ciancamerla, Saverio Di Blasi, Alessandro Iacomini, Federico Mari, Igor Melatti, Michele Minichino, Alessandro Scarlatti, Enrico Tronci, Roberta Terruggia, Emilio Zendri  
  Page 90

* **Greylisting — Long Term Analysis of Anti-SPAM Effect**  
  Tomas Sochor  
  Page 98
Experiments and Data Analysis of Electronic Voting System
Komminist Weldemariam, Adolfo Villafiorita, Andrea Mattioli 105

Modeling Dependencies in Security Risk Management
Tansu Alpcan, Nick Bambos 113

A Quantitative Approach to Assess Information Security Related Risks
Anton Romanov, Eiji Okamoto 117

Untrustworthiness: A Trust-Based Security Metric
Afonso Araújo Neto, Marco Vieira 123

Honeypot Router for Routing Protocols Protection
Abdallah Ghourabi, Tarek Abbes, Adel Bouhoula 127

A Formal Design of Secure Information Systems by Using a Formal Secure Data Flow Diagram (FSDFD)
Nadia Soudani, Bel G Raggad, Belhassen Zouari 131
