# Table of contents

Preface xi  
Organisation xiii  

**Plenary lectures**

Nondestructive evaluation, structural health monitoring and optical diagnostics at NASA Glenn: A summary  
G.Y. Baaklini  

Visualized impact-echo technique for defects in concrete by SIBIE procedure  
M. Ohtsu, T. Sonoda & M. Yamada  

Structural health monitoring for aircraft, ground transportation vehicles, wind turbines and pipes—prognosis  
N. Meyendorf, B. Frankenstein & L. Schubert  

**NDT in diagnostics & protection of cultural heritage**

Application of ground penetrating radar for the assessment of the decay state of Hagia Sophia’s mosaics  
A.I. Moropoulou, K.C. Labropoulos & N.S. Katsiotis  

Assessment of cleaning interventions on marble surfaces using pulsed thermography  
E.T. Delegou, M. Krokida, N.P. Avdelidis & A.I. Moropoulou  

Contribution of NDT to the sustainable preservation of the Church of Santa Maria in Gradi, Viterbo, Italy  
S. Cancellieri & M. Poggi  

Investigation strategies for the diagnosis of historic structures  
A. Saisi, L. Cantini & L. Binda  

Radar-based vibration measurement on historic masonry towers  
C. Gentile & A. Saisi  

Dynamic testing of historic iron bridge at different levels of excitation  
C. Gentile & A. Saisi  

NDT characterization of ancient glass objects from the Aegean with an approach of the manufacturing technique  
E. Cheilakou, N. Liarokapi & M. Koui  

Image analysis for artistic style identification: A powerful tool for preserving cultural heritage  
A.D. Doulamis & T.A. Varvarigou  

Application of IR thermography to damage characterization of structures and the diagnosis of historic monuments  

Iron based and other ancient pigments for pottery decoration  
G. Mastrotheodoros, K.G. Beltsios & N. Zacharias  

A new non-destructive technological approach for fragile archaeological finds  
P. Negri
On-site measurement & monitoring by NDT in infrastructures

Damage identification of PC cable breakage by means of acoustic emission
T. Shiotani, Y. Oshima, M. Goto & S. Momoki

Mesh-independent ray-trace algorithm for concrete structures
Y. Kobayashi

Influence of the fiber chemical coating on the fracture behavior of steel fiber concrete measured by acoustic emission
D.G. Aggelis, D.V. Soulouti, N.M. Barkoula, A.S. Paipetis & T.E. Matikas

Onsite measurements of concrete structures using Impact-Echo and Impulse Response
J.S. Clausen, N. Zoidis & A. Knudsen

A study on the structural stability of the Asinelli Tower in Bologna
A. Carpinteri, G. Lacidogna, A. Manuello & G. Niccolini

Visual inspection and evaluation using NDT testing methods of industrial building after fire
E. Tatsis, N. Zoidis, C. Vlachopoulos, T.E. Matikas & A. Gotzamanis

Concrete compressive strength estimation in-situ at precast beams using direct and indirect testing methods according to EN 13791
A. Gkotzamanis, N. Zoidis, T.E. Matikas, E. Tatsis & C. Vlachopoulos

AE monitoring of shrinkage process in concrete
M. Ohtsu, T. Matsuo, S. Nozaki & Y. Kawasaki

Acoustic emission behavior during corrosion process in reinforced concrete in proof of EPMA
Y. Kawasaki, M. Kitaura, T. Kobarai & M. Ohtsu

Quantitative evaluation of impact force on impact-echo method
M. Yamada, T. Sonoda & M. Ohtsu

Sensors and structural health monitoring

The use of chirped fibre Bragg grating sensors to monitor delaminations in composite materials and structures

Structural Health Monitoring in an operational airliner: Results on the implementation of percolation sensors achieved within the European Project: “Aircraft Integrated Structural Health Assessment II (AISHA II)”
H. Pfeiffer, M. Patitsa, I. Pitropakis & M. Wevers

Cure monitoring of cross-ply composite laminates with an encapsulated fibre Bragg grating
G. Layekx, N. Lammens, J. Degrieck & E. Voet

Advanced NDT techniques for damage detection in a honeycomb composite helicopter tailboom
W. Hillger, A. Szewieczek, D. Schmidt, M. Sinapius, I. Jorge Aldave, P. Vénetos Bosom & L. Vega González

On the use of a CFBG sensor to monitor scarf repairs of composite panels

The use of flat coil sensors and impedance spectroscopy for fatigue crack monitoring of Al 2024-T3 plates
I. Pitropakis, H. Pfeiffer & M. Wevers

In-situ local strain measurement in textile composites with embedded optical fibre sensors
S. Daggumati, E. Voet, I. De Baere, W. Van Paepegem, J. Degrieck, J. Xu, S. Lomov & I. Verpoest

The use of a polarimetric fibre sensor to detect impact damage in aircraft composites
I. Pitropakis, H. Pfeiffer & M. Wevers

</table>
Acoustic emission analysis for corrosion pitting of MgCl₂ droplet
M. Shiwa, H. Masuda, H. Yamawaki, K. Ito & M. Enoki

Fracture properties of nanosilica-based cement mortars monitored by acoustic emission
Chr. Ioannou, A. Iliaidou, D.G. Aggelis, N.M. Barkoula & T.E. Matikas

Acoustic emission monitoring of wheelsets on moving trains
K. Bollas, D. Papasalouros, D. Kourousis & A. Anastasopoulos

Health monitoring of operating wind turbine blades with acoustic emission
N. Tsopelas, D. Kourousis, I. Ladis, A. Anastasopoulos, D.J. Lekou & F. Mouzakis

Real-time damage location and assessment in composite structures with acoustic emission
D. Papasalouros, D. Kourousis, A. Anastasopoulos, C. Ennaceur & P.T. Cole

Electrical methods
Electrical resistance measurement for in situ health monitoring of carbon nanotube/polymer composites

Strain and damage sensing in carbon fiber polymer-matrix composite by electrical resistance measurement

Damage sensing of carbon nanotubes embedded glass fiber composites based on electrical resistance change

Electric and magnetic brain activity. Disjoint or overlapping information?
G. Dassios

Non destructive evaluation of artificially induced damage in composite structures using electrical resistance/potential mapping
Andreas Ampatzoglou, Antonis Vavouliotis, Athanasios Baltopoulos & Vassilis Kostopoulos

Electrical tomography as a tool for non-destructive assessment of composite structures
Athanasios Baltopoulos, Antonios Vavouliotis, Vassilis Kostopoulos, Nick Polydorides & Laurent Pambagian

On line monitoring of damage during fatigue loading of composite patch repair of composite structures
A. Vavouliotis, T.H. Loutas, G. Sotiriadis & V. Kostopoulos

Electrical resistance and electrical potential studies for the detection and monitoring of damage in hybrid composites
S.A. Grammatikos & A.S. Paipetis

Imaging & signal processing
Damage detection of steel bridge girder using Artificial Neural Networks
S.J.S. Hakim & H. Abdul Razak

Atomic force microscopy quantitative and qualitative nanoscale characterization of collagen thin films
A. Stylianou, D. Yova & K. Politopoulos

Determination of linear thermal expansion coefficient by using digital image correlation
J. Blom, J. Van Ackeren, B. Belkassem & J. Wastiels

Improving TOFD sizing of near surface defects by wavelet transform
J.M.A. Rebello & R.M. Almeida

Noninvasive method for establishing the diffused hydrogen content in Zirconium Alloy used in PHWR
R. Grimberg, A. Savin, R. Steigmann, M.L. Craus & M.C. Ruch
Digital methods for flakiness and shape definition
E. Profitis, E. Chatziioedoris & D. Xirouchakis
437

Experimentally induced errors in Digital Image Correlation measurement of small strains with large gradients
I. De Baere, W. Van Paepegem, N. Lammens, P. Lava, D. Debruyne, C. Cozar, W. Philips & J. Degrieck
441

Characterisation of the local fibre volume content nearby moulded holes in textile-reinforced thermoplastic components
W. Hufenbach, N. Modler, A. Winkler & R. Kupfer
447

Modeling GPR data to understand the problems in rebar size measurements
L. Zanzi
453

The application of information processing techniques towards an effective on line prognostic scheme for rotating machinery
D. Roultas, T.H. Loutas & V. Kostopoulos
459

Inspection methods

The necessity of lift inspections in Greece
S.S. Kalligeros
467

Experimental study on the strain contribution of horizontal and vertical web reinforced bar of HSSCC deep beams
471

NDT and safety of crude oil storage tanks
M.S. Kovanec, A. Mirceta & D. Marcić
477

Detection of radial cracks at fastener holes by either eddy current or line heating stimulated thermography
N.I. Siakavellas & N. Tsopelas
483

Apparatus for measuring of liquid conductivity
J. Skramlik, M. Novotny & K. Suhajda
489

Electromagnetic wave absorbing properties of composites with hollow magnetic fibers
J.W. Yi, H.S. Choe, J.B. Kim, S.-B. Lee, S.-K. Lee & O.O. Park
495

Automated system for non-destructive testing of structure and stress state of metallic materials
G.S. Velev, Y. Ivanova, A.G. Markovski & B.G. Velev
499

Visual inspection and evaluation using NDT testing methods of extensively cracked concrete floor
503
