American Filtration and Separations Society Annual Conference 2011

Shape up to Green

Louisville, Kentucky, USA
9-12 May 2011

ISBN: 978-1-61839-335-7
# TABLE OF CONTENTS

## WELCOME

How to Deal with Green House Gas - Outlook for Gas Turbine Inlet Filtration .................................................. 1  
Steve Kapsalis

Filtration Innovation for a Cleaner World ................................................................. 2  
Chuanfang (Ted) Yang, Andrew J. Dallas, Debra L Wilfong

## SOLID/LIQUID SEPARATION I

Investigation of Filter Cake Removal with Different Puff-back Cleaning Modes in a Panel Bed Filter .................. 4  
Kavitha Gaarder, Johan Elmar Hustad, Otto Kristian Sonju

A Treatise of Filter Cake Washing Mechanisms In Pressure and Vacuum Filtration Systems ............................. 12  
Barry Perlmutter

Introduction to the Characterisation of Products Prior to Formulating a Solid-Liquid Separation Problem ........... 27  
Christophe Peuchot

How to Reduce Energy Consumption in Cartridge Liquid Filtration ......................................................... 28  
Christophe Peuchot

## AIR FILTER - I

Numerical Study of Pressure Drop Across Pleated Filter Panels under Dynamic Particle Loading .................. 30  
Qisheng Ou, Da-Ren Chen

Charge-Depletion Effects from Isopropyl Alcohol Treatment of Electret Fiber Filter Media ............................ 31  
Paolo Tronville, Richard Rivers, Gladis Di Giusto

PM Based Air Filter Efficiency and Rating ......................................................................................... 47  
Bruce McDonald

Effects of Humidity and Wetting on the Penetration of Submicron Particles for Fibrous Filters .................... 73  
Wilson Poon

## VIRTUAL DESIGN OF FILTRATION PROCESSES

Mathematical Modeling to Determine Cross Flow Filter Design Parameters ...................................... 77  
Nicos H. Andreas, Christopher L. Cox

Transient Modeling Filtration Efficiency of Nanofiber Filters: 3-D Domains vs. 2-D Domains .................. 78  
S. A. Hosseini, H. Vahedi Tofreshi

Progress and Challenges Predicting Filtration and Separation ............................................................. 85  
Andreas Wiegmann

## MICRO/ULTRA/MAGNETIC FILTRATION

In-situ Product Removal (ISPR) of Functional Proteins from Prokaryotic Cultivations by High Magnetic Separation ................................................................. 109  
Alexander Scholz, Martin Cerff, Clemens Posten

Improvement of Cooling Tower Blowdown Water Treatment with Microfiltration/Reverse Osmosis Technology ................................................................. 123  
Ramraj Venkatadri, Donn Thomas

Tangential Flow Microfiltration - A Developing New Technology .......................................................... 140  
Scott Yaeger
AIR FILTER – II

Advances in Meltblown Nanofiber Research for Filter Media ................................................................. 153
Gajanan Bhat, Rohit Uppal, Chris Eash, Kodavai Akata

Mixed Hydrophilic/Hydrophobic Fiber Media for Water-in-Oil Coalescence ........................................... 154
Prashant Kulkarni, George Chase

Advances in Downstream BioPharmaceutical Purification ........................................................................ 169
Chris Shields

High Performance Synthetic Nanofiber Composite Media Design for Static and Back Pulse Air Filtration Applications ................................................................................................................. 170
Chris Shields

AIR FILTER III

Prediction of Air Filter Performance from Media Flat Sheet Testing ............................................................ 171
T. J. Ptak, Chrystal Gillilan

Performance of Air Cleaning Systems in Residential Buildings ..................................................................... 177
T. J. Ptak, Chrystal Gillilan

Modeling of Non-Woven Fiber in Air Filtration .......................................................................................... 185
James Sturnfield, Jerome Claracq

Benchmark Testing of Air Filtration Media in Cartridges for Pulse Clean Applications .............................. 194
Geoff Crosby, Ned Galka, Abhishek Saxena, Don Joy

CENTRIFUGES/S&L SEPARATION

Novel, Low Energy, Compact Hydrodynamic Separation Technology for Industrial Application .................. 204
Ashutosh Kole, Meng H. Lean, Norine E. Chang, Kai Melde, Jeonggi Sto, Armin R. Völkel, Huangpin B. Hsieh,
Frank E. Torres

Rotational Particle Separator: An Efficient Method to Separate Micron-sized Droplets and Particles .......... 219
J. J. H. Brouwers, H. P. Van Kemenade, J. P. Kroes

Gas - Gas Separation by Condensation and Centrifugation ....................................................................... 236
H. P. Van Kemenade, J. J. H. Brouwers, R. J. Van Benthum

Measurement and Modelling of the Force Required to Move Coalesced Oil Droplets along Oleophilic and Oleophobic Fibres ...................................................................................................... 251
Benjamin J. Mullins, Ryan Mead-Hunter, Gerhard Kasper, Andrew J. C. King

AIR FILTER – IV

Filtration Media Performance at Low Pressures ........................................................................................... 257
R. Vijayakumar, Juan Agui, Jeffrey Mackey

High Efficiency Filter Standards and You ................................................................................................. 266
R. Vijayakumar

Increase Air Filter Life, Reduce Energy Costs .............................................................................................. 279
Russ Cummins, Jamie Hicks, Mark Mattingly

Evaluating the Life Cycle Cost of Ozone Filtration .................................................................................... 285
W. Brad M. Stanley, Bryan K. Ligman, M. Afai Bahmatullah, Nathaniel J. Nance

Birth of a New Testing Protocol - ASHRAE 199 ....................................................................................... 286
Robert Burkhead

CENTRIFUGES/MEMBRANE/SLS

The Fundamentals of Screen & Disc Filtration .............................................................................................. 287
David Romio

Scale-up of Liquid / Liquid Centrifuges for Separation and Extraction Processes ....................................... 299
Robert Driscoll

Low-Energy Dewatering of Biomass for Energy and Products .................................................................... 306
Ross Youngs
Crossflow Tubular Microfiltration Membranes with Backpulse Capability
Thomas Weaver

Optimization of MBR Systems
Taylour Johnson, Ben Antrim, Antonia Von Gottberg

STUDENT POSTER COMPETITION SESSION

Investigation of Filter Cake Removal with Different Puff-back Modes in a Panel Bed Filter
Kavitha Gaarder, Johan Einar Hustad, Otto Kristian Senju

The Effects of Sodium Chloride to Electrospun Polyvinylpyrrolidone Nanofibers
Kitchaporn Narteiamrongsuwit, George Chase

Titania Nanofibers Based Catalytic Filter Media for High Temperature Application
Laila Shahreen, George Chase

Drop Motion on Superhydrophobic Surfaces
Gabriel M. Manzo, Sarfaraz U. Patel, George G. Chase

Effects of Vehicle Cabin Filter Efficiency on Ultrafine Particle Concentration Ratios Measured In-Cabin and On-Roadway
Bin Xu, Yifang Zhu

Hydrophilic/Hydrophobic Fiber Media for Liquid-Liquid Coalescence
Prashant Kulkarni, George Chase

Analytical Expressions for Predicting Permeability and Collection Efficiency of Bimodal Fibrous Media
Shahryar Fotovati, Hooman Tafreshi, Behnam Pourdeyhimi

Modeling Filtration Efficiency and Pressure Drop of Electrospun Nanofibrous Filters
Seyed Hosseini, Hooman Tafreshi

WELCOME

Sustainability...Shades of Green
Edward Gregor

Phase Separation Challenges in the Energy Industry
Samuel A Morton III

LIQUID FILTER MEDIA

Mastering Filtration of Modern Engine Oils with Advanced Synthetic Filter Media
Holger Laubner, Christine Sun

Chemical Cleaning of Porous Stainless Steel Cross-flow Filter Elements for Nuclear Waste Applications
Justin Billing, Richard Daniel, Richard Hallen, Philip Schonewill, Rick Shinsekey, Reid Peterson

Hot Oil Durability of Phenolic Filter Media
Daniel Hennessy, Eddie Saffels, Wayne Walliser

Influence of the Dust on the Filter Efficiency and Emissions of Cleanable Filter Media
Martin Schmidt

AIR FILTER TESTING

Influence of Neutralization on Fractional Efficiency Filter Test Penetration Results
Timothy Johnson, Hans-Georg Horn, Markus Gaelli

Flat Sheet Testing and Correlation to Air Filter Performance
Daniel Woodman

Special Requirements on the Particle Measuring Device in Filter Testing According to ASHRAE 52.2 and EN 779
Martin Schmidt

A New Particle Counter for Fractional Efficiency Filter Testing
Tim Johnson, Hans-Georg Horn
