Table of Contents

Forty Five Years of HICSS—A Brief History of the Hawaii International Conference on System Sciences .................................................. liv
Proceedings Overview ........................................................................ bxx
Conference Administration ................................................................ bxxiii
HICSS-45 Tracks and Minitracks .......................................................... bxxxi
Reviewers .......................................................................................... xci

Collaboration Systems and Technologies Track—Co-Chairs: Robert Briggs and Jay Nunamaker

Introduction to Collaboration Systems and Technologies Track ................................................................. 1

Jay F. Nunamaker Jr. and Robert O. Briggs

Advances in Teaching and Learning Technologies—Co-Chairs: David Spencer and Eric Santanen

Introduction to Advances in Teaching and Learning Technologies Minitrack .................................................. 2

David H. Spencer and Eric L. Santanen

A Motivational Thermostat Framework for Enhanced E-Learning Systems .................................................. 3

Jaejeung Kim, Youngtae Seok, Dongwon Lee, and Howon Lee

Anchored Asynchronous Online Discussions: Facilitating Participation and Engagement in a Blended Environment .................................................................................. 11

Nimer Alrushiedat and Lorne Olmstead

AskEris—A Many-to-One Communication Platform for Higher Education ......................................................... 21

Silvia Schacht, Achim Botzenhardt, and Alexander Moedle

Do Student-Instructor Co-created eLearning Materials Lead to Better Learning Outcomes? Empirical Results from a German Large Scale Course Pilot Study .................................................. 31

René Wegener and Jan Marco Leimeister

Engaging Students through Web 2.0 Technologies: Capturing the Long Tail of Student Participation .................................................................................................................. 41

Nitin Aggarwal, Leslie Jordan Albert, Eric A. Walden, and Shruti Kumthekar

Evaluating E-Assessment for Exercises that Require Higher-Order Cognitive Skills ........................................ 48

Tim A. Majchrzak and Claus A. Usener

Experiences with Using Assessment Based, Double-Loop Learning to Improve Engineering Student's Design Skills .............................................................................................. 58

Paul J. Fortier, Judith Sims-Knight, and Benjamin Viall
Integrating Blogging and Microblogging to Foster Learning and Social Interaction in Online Learning Communities
Brian Thoms

iPod in Education: A Case Study of iPod Adoption and Use in a Primary School
Sarah Henderson and Jeff Yeow

Learning to Work in Partially Distributed Teams: The Impact of Team Interaction on Learning Outcomes
Rosalie J. Ocker and Starr Roxanne Hiltz

Play for Performance: Using Computer Word Games to Improve Test-Taking Performance
Alan R. Dennis, Akshay Bhagwatwar, and Randall K. Minas

Re-design and Evaluation of an Anchored Discussion System
Evren Eryilmaz, Terry Ryan, Mary Poplin, and Justin Mary

Understanding E-Learning System Usage Outcomes in Hybrid Courses
A.K.M. Najmul Islam

Cognitive Perspectives on Collaboration—Co-Chairs: Gwendolyn L. Kolfschoten and Bruce Reinig

Introduction to the "Cognitive Perspectives on Collaboration" Minitrack
Gwendolyn L. Kolfschoten and Bruce A. Reinig

Cognitive Load in Collaboration—Convergence
Gwendolyn L. Kolfschoten and Frances Brazier

Sparking Creativity: Improving Electronic Brainstorming with Individual Cognitive Priming
Alan R. Dennis, Randall K. Minas, and Akshay Bhagwatwar

Time Pressure, Cultural Diversity, Psychological Factors, and Information Sharing in Short Duration Virtual Teams
Souren Paul and Fang He

Toward Better Solutions: An Analysis of the Ideation Literature in Light of Bounded Ideation Theory
Bruce A. Reinig and Robert O. Briggs

Collaborative Modeling—Co-Chairs: Stijn Hoppenbrouwers, Etienne Rouwette, and Peter Rittgen

Introduction to Collaborative Modeling Minitrack
Stijn Hoppenbrouwers, Peter Rittgen, and Etienne Rouwette

Abstract Reasoning in Collaborative Modeling
Ilona Wilmont, Erik Barendsen, Stijn Hoppenbrouwers, and Sylse Hengeveld

End-User Involvement and Team Factors in Business Process Modeling
Peter Rittgen

Exploring Collaborative Modeling as Teaching Method
Jose J. Gonzalez

From Measuring the Quality of Labels in Process Models to a Discourse on Process Model Quality: A Case Study
Peter Fettke, Armella-Lucia Vella, and Peter Loos
Global Virtual Teams—Co-Chairs: Mike Hine, Frederick Zarndt, and Derrick L. Cogburn

Introduction to Global Virtual Teams Minitrack

Frederick Zarndt, Mike Hine, and Derrick Cogburn

464

Antecedents of Transactive Memory Systems in Virtual Teams—The Role of Communication, Culture, and Team Size

Bettina C. Riedl, Julia V. Gallenkamp, Arnold Picot, and Isabell M. Welpe

Exploring the State of Discipline on the Formation of Swift Trust within Global Virtual Teams

Shafiz Affendi Mohd Yusof and Norhayati Zakaria

Media Choices over Time in Partially Distributed Teams

Linda Plotnick, Starr Roxanne Hiltz, and Rosalie J. Ocker

SNS Cyberinfrastructure and Incubating Global Virtual Teams

Dhiraj Murthy

Human-Computer Interaction: Informing Design Choices Utilizing Behavioral, Neuropsychological, and Design-science Methods—Co-Chairs: Joe Valacich, Angelika Dimoka, and Ryan Wright

Introduction to Human-Computer Interaction (HCI) Minitrack

Joseph S. Valacich, Ryan T. Wright, and Angelika Dimoka

A Case Study of Remote Interdisciplinary Designing through Video Prototypes

Cristian Bogdan, Dominik Ertl, Jürgen Falb, Anders Green, and Hermann Kaindl

An Empirical Study on Emotions, Knowledge Management Processes, and Performance within Integrated Business Process Teams

Olivier Caya, Éric Brunelle, Pierre-Majorique Léger, and Tristan Grebot

Designing Noticeable Bricklets by Tracking Users’ Eye Movements

Soussan Djamasbi, Marisa Siegel, and Tom Tullis

Distorting Social Feedback in Visualizations of Conversation

Tony Bergstrom and Karrie Karahalios

Embodied Agents and the Predictive Elaboration Model of Persuasion—The Ability to Tailor Embodied Agents to Users’ Need for Cognition

Matthew D. Pickard, Jeffrey L. Jenkins, and Jay F. Nunamaker Jr.

Fine-Tuning Group Collaboration Environments: How Differences in General Causality Orientation and Performance Targets Shape Interaction and Performance

Xuequn Wang, Christoph Schneider, and Joseph S. Valacich

Neurophysiological Correlates of Information Systems Commonly Used Self-Reported Measures: A Multitrait Multimethod Study

Ana Ortiz de Guinea, Ryad Tiiah, Pierre-Majorique Léger, and Thomas Micheneau

Not All Created Equal: Individual-Technology Fit of Brain-Computer Interfaces

Adriane B. Randolph

Predicting Users’ Perceived Trust in Embodied Conversational Agents Using Vocal Dynamics

Structuring for Subjective Experience: The Contextual Scenario Framework

Eric Swanson and Keiichi Sato
Social and Psychological Perspectives and Theories in Collaboration and Communication Technology Research—Co-Chairs: Triparna De Vreede and Roni Reiter-Palmon

Introduction to the Social and Psychological Perspectives and Theories in Collaboration and Communication Technology Research Minitrack ................................................................. 828

*Triparna de Vreede and Roni Reiter-Palmon*

A Member - Virtual Team Fit Theory: Group Conscientiousness Effects on Performance ................................................................. 829

*Yi (Jenny) Zhang and Ofir Turel*

Communicator Trust across Media: A Comparison of Audio Conferencing, Video Conferencing, and a 3D Virtual Environment ................................................................. 839

*Nicholas S. Lockwood and Anne P. Massey*

Discipline Yourself Before Life Disciplines You: Deficient Self-Regulation and Mobile Phone Unregulated Use ................................................................. 849

*Amr A. Soror, Zachary R. Steelman, and Moez Limayem*

Every Post You Make, Every Pic You Take, I’ll Be Watching You: Behind Social Spheres on Facebook ................................................................. 859

*Ben Marder, Adam Joinson, and Avi Shankar*

Exploring the Effects of Personality on Collaboration Technology Transition ................................................................. 869

*Triparna de Vreede, Gert-Jan de Vreede, Gregory Ashley, and Roni Reiter-Palmon*
