Sustainable food planning

evolving theory and practice

edited by:

André Viljoen

and

Johannes S.C. Wiskerke
# Table of contents

**Note from the editors**  
7

**Foreword**  
*Tom Bliss*  
15

**Chapter 1 –** Sustainable urban food provisioning: challenges for scientists, policymakers, planners and designers  
*Johannes S.C. Wiskerke and André Viljoen*  
19

**Chapter 2 –** Sitopia – harnessing the power of food  
*Carolyn Steel*  
37

**Chapter 3 –** The integration of food and agriculture into urban planning and design practices  
*Joe L. Nasr and June D. Komisar*  
47

**Part 1. Urban food governance**

**Chapter 4 –** Food and the city: the challenge of urban food governance  
*Petra Derkzen and Kevin Morgan*  
61

**Chapter 5 –** Food Policy Councils: recovering the local level in food policy  
*Philipp Stierand*  
67

**Chapter 6 –** How food travels to the public agenda  
*Simone Plantinga and Petra Derkzen*  
79

**Chapter 7 –** Food system planning in small, buzz-less cities: challenges and opportunities  
*Melanie Bedore*  
91

**Chapter 8 –** Planning for urban agriculture: problem recognition, policy formation, and politics  
*Nevin Cohen*  
103

**Chapter 9 –** Urban food procurement governance: a new playground for farm development networks in the peri-urban area of greater Paris region?  
*Sé golène Darly*  
115
Chapter 10 – The role of municipal markets in urban food strategies: a case study
*Georgia Machell and Martin Caraher*

Chapter 11 – Traditional food markets: re-assessing their role in food provisioning
*Julie Smith*

Chapter 12 – Marking the boundaries: position taking in the field of ‘alternative’ food consumption
*Jessica Paddock*

Chapter 13 – Resilient urban community gardening programmes in the United States and municipal-third sector ‘adaptive co-governance’
*Henry Barmeier and Xenia K. Morin*

Part 2. Integrating health, environment and society

Chapter 14 – Integrating health, environment and society – introducing a new arena
*Bettina B. Bock and Martin Caraher*

Chapter 15 – Policy for sustainable development and food for the city of Malmö
*Gunilla Andersson and Helen Nilsson*

Chapter 16 – Meat moderation as a challenge for government and civil society: the Thursday Veggie Day campaign in Ghent, Belgium
*Tobias Leenaert*

Chapter 17 – The perilous road from community activism to public policy: fifteen years of community agriculture in Sandwell
*Laura Davis and John Middleton*

Chapter 18 – Making local food sustainable in Manchester
*Les Levidow and Katerina Psarikidou*

Chapter 19 – Defining food co-ops
*Martin Caraher and Georgia Machell*

Chapter 20 – Appetite for change: an exploration of attitudes towards dietary change in support of a sustainable food future
*Anna Hawkins*

Part 4. Planning and design

Chapter 31 – Planning and designing food systems, moving to the physical
Andre Viljoen and Katrin Bohn

Chapter 32 – Planning and the quest for sustainable food systems: explorations of unknown territory in planning research
Sanne M. Broekhof and Arnold J.J. van der Valk

Chapter 33 – Nested scales and design activism: an integrated approach to food growing in inner city Leeds
Emma Oldroyd and Alma Anne Clavin

Chapter 34 – Architecture et al.: food gardening as spatial co-authorship on London housing estates
Mikey Tomkins

Chapter 35 – Food, homes and gardens: public community gardens potential for contributing to a more sustainable city
Carolin Mees and Edie Stone

Chapter 36 – How food secure can British cities become?
Howard C. Lee

Chapter 37 – Food seams: planning strategies for urban borders in New Orleans
Brittney Everett

Chapter 38 – The CPUL City Toolkit: planning productive urban landscapes for European cities
Katrin Bohn and André Viljoen

Chapter 39 – Designing multifunctional spatial systems through urban agriculture: the Casablanca case study
Christoph Kasper, Undine Giseke and Silvia Martin Han

Chapter 40 – Good planning for good food: mechanisms within the English planning system to support sustainable food and farming
Harriet White and Suzanne Natelson

Chapter 41 – The Food Urbanism Initiative
Craig Verzone
Chapter 42 – Room for urban agriculture in Rotterdam: defining the spatial opportunities for urban agriculture within the industrialised city
Paul. A. de Graaf

Chapter 43 – Progress through process: preparing the food systems report for the Chicago Metropolitan Agency for Planning GoTo2040 Plan
Lynn Peemoeller

Chapter 44 – Slow briefs: slow food... slow architecture
Joanna Crotch

Chapter 45 – GreenEngines, a pedagogic tool on sustainable design and productive landscapes
Ana M. Moya Pellitero and Josué da Silva Eliziário
