Proceedings

17th EURAS Annual Standardisation Conference
'Standards and Innovation'

Edited by
Marta Orviska
Kai Jakobs
Experiences with a Standard Approach to the Youth Segment among Mobile Operators in Norway, Hungary, Ukraine and Montenegro
John Alphonse, University of Oslo, NO .............................................................. 1

The Trade Impact of ISO 9000 – Certifications and International Cooperation in Accreditation
Knut Blind & Axel Mangelsdorf, Berlin Institute of Technology, DE ........................................ 21

The Interaction between Patenting and Standardization Strategies: An Empirical Test of a Basic Model
Knut Blind & Julius Rauber, Berlin Institute of Technology, DE ........................................... 35

The rise of MP3 as the market standard: How data compression formats came to dominate the music industry
Simon den Uijl, Henk de Vries & Deniz Bayramoglu, Erasmus University Rotterdam, NL ........................................ 55

Materials for academic teaching on standardisation
Henk J. de Vries, Basak Manders & Joey Veurink, Erasmus University Rotterdam, NL ........................................ 77

The Impact of Competing Committee Standards: An Interoperability Perspective
Tineke M. Egyedi, Delft University of Technology, NL ..................................................... 95

Standardization as a Result of Research and Development
Manabu Eto, JETRO Geneva, CH .......................................................... 111

Exploring Multiple Dimensions of Standards in the Development of Human Language Technology Infrastructure
Vladislav V. Fomin, Vytautas Magnus University, LT .................................................. 119

Standardization Management in Electric Mobility
Martina Gerst, University of Edinburgh, UK & Kai Jakobs, RWTH Aachen University, DE ........................................ 131

Consumers’ experts and consumers’ standards: between controversies and rewards
Christophe Hauert, University of Lausanne, CH .......................................................... 143

Applying legal principles to stimulate open standards: The role of forums and consortia
Robin A. Hoenkamp, University of Amsterdam, NL; Erwin J.A. Folmer, University of Twente, NL; George B. Huitema, University of Groningen, NL ........................................ 163

The Adoption of International Standards in Developing Countries
John Hudson, University of Bath, UK; Maria Orviska, Matej Bel University, SK; Chris Hudson ........................................ 183

Corporate tax harmonization as a specific case of standardization in EU
Jan Hunady, Matej Bel University, SK .......................................................... 197

Pitfalls in Standards Making – Learning From The Past
Kai Jakobs, RWTH Aachen University, DE .......................................................... 211

Why do we need open standards?
Björn Lundell, University of Skövde, SE .......................................................... 227
ISO 9000 and Product Innovation: A Literature Review and Research Framework  
Basak Manders, Erasmus University Rotterdam, NL ......................................................... 241

Initiating a Network Effect in a Social Network  
Nasri Messara & Anne Mione, University of Montpellier 1, FR ........................................ 261

Standardization and the European Standards Organizations  
Juraj Nemec & Marts Orvitska, Matej Bel University, SK; John Hudson, University of Bath, UK ......................................................... 281

The Interrelation of Strategic Patenting and Standardization in the Context of the Resource-Based View of the Firm  
Sören Petersen, Knut Blind & Michael Stephan, Berlin Institute of Technology, DE .................. 295

Profiles and motivations of the standardization experts in Luxembourg: Different Players, Different Needs  
Cesare A. F. Rillo & Veasna Khim, Public Research Centre Henri Tudor, LU ............................ 315

New Mechanism for IEC’s Terminology Database  
Hans Telchmann, Lausanne, CH ..................................................................................... 335

The impact of participation within formal standardization on firm performance: Evidence from German manufacturers and service providers  
Paul Wakke & Knut Blind, Berlin Institute of Technology, DE .............................................. 345

The roles of firms’ motives in affecting the microeconomic benefit of service standards  
Paul Wakke & Knut Blind, Berlin Institute of Technology, DE .............................................. 363

Standardization by International New Ventures and Born Globals – Success Factors Model and Specific Application for the Security Software and Biotechnology Industry  
Simone Wurster & Knut Blind, Berlin Institute of Technology, DE ......................................... 377

Development of a Specification for Data Interchange Between Information Systems in Civil Hazard Prevention – Identification of Success Factors and Challenges Based on Case Study Research and Participant Observation  
Simone Wurster, Berlin Institute of Technology, DE ............................................................. 397

Invited Paper  
Standards and Innovation - linking standards and research  
Ashok Ganesh, CEN-CENELEC Management Centre, BE ................................................... 417
