CONTENTS

SOUND, VIBRATION AND DESIGN

GENERAL
IMECE2010-37391 .............................................................. 1
The Theoretical Frequency Response of an Over-Center, Pressure Controlled,
Axial-Piston Pump
   Viral S. Mehta and Noah D. Manring

IMECE2010-37394 .............................................................. 9
Piston Pump Noise Attenuation Through Modification of Piston Travel Trajectory
   Viral S. Mehta and Noah D. Manring

IMECE2010-37461 .............................................................. 19
Kinematic Analysis of a Motorcyclist Impact on Concrete Barriers Under Different
Road Conditions
   Rasoul Moradi, Shashikumar Ramamurthy, Chandrashekhar K. Thorbole,
   Prasannakumar S. Bhonge, and Hamid M. Lankarani

IMECE2010-37649 .............................................................. 27
Reduction of Flow Induced Vibration in Hard Disk Drive
   J. Q. Mou, Q. D. Zhang, K. Sundaravadiivelu, N. Y. Liu, and E. H. Ong

IMECE2010-38387 .............................................................. 37
The Feasibility of Statistical Energy Analysis in the Modeling of Stringed
Musical Instruments
   Hossein Mansour

IMECE2010-38388 .............................................................. 43
An Experimental Study to Find the Acoustic Quality Indicators of Mulberry Wood
   Hossein Mansour and Mehdi Behzad

IMECE2010-38560 .............................................................. 49
An Experimental and Analytical Investigation Into Friction-Induced Vibrations and
Parameters Affecting Its Occurrence
   A. Bahzad, M. O. A. Mokhtar, A. M. A. El-Butch, and A. F. Fahim

IMECE2010-38880 .............................................................. 59
Automating Risk Assessments of Hazardous Material Shipments for Transportation
Routes and Mode Selection
   B. H. Dolphin, W. D. Richins, and S. R. Novascone

IMECE2010-39084 .............................................................. 65
Identifying Crack Parameters in Slow Rotating Machinery Using Vibration Measurements
and Hybrid Neuro-Particle Swarm Technique
   Mohamed S. Senousy, Tamer M. Khattab, Mohamed Al-Qaradawi, and
   Mohamed S. Gadala
SYMPOSIUM ON ACTIVE AND PASSIVE CONTROL OF NOISE
IMECE2010-37503 ................................................................. 73
Active Damping Using Distributed Anisotropic Actuators
Noah H. Schiller, Randolph H. Cabell, Juan D. Quinones, and Nathan C. Wier

IMECE2010-38142 ................................................................. 81
Optimal Placement of Sensors and Actuators in Cluster Control of Acoustic Potential Energy in a Cavity
M. Jalali and A. R. Ohadi

IMECE2010-38372 ................................................................. 91
Design of Photon Beam Vibration Measurement System for the CLS HXMA Beamline
J. W. Li, X. B. Chen, E. Matias, and W. J. Zhang

IMECE2010-38830 ................................................................. 101
Noise Source Identification and Noise Reduction of PDP TV Using Transfer Path Analysis
Hyung-Taek Kwak, Ji-Hyun Yoon, In-Hyung Yang, Jung-Youn Lee, and Jae-Eung Oh

SYMPOSIUM ON FLOW INDUCED NOISE AND VIBRATION
IMECE2010-37245 ................................................................. 105
Tongue and Groove Joint Stability Testing in Air
Jesse W. Whitlow and Robert P. Tomko

IMECE2010-37526 ................................................................. 113
Fluctuating Shear Stress Calibration Method Using a Channel Flow
Daniel C. Cole, Michael L. Jonson, and Kendra V. Sharp

IMECE2010-39231 ................................................................. 125
Prediction of Turbulent Flow-Induced Noise in Aircraft Cabins
Joana da Rocha, Afzal Suleman, and Fernando Lau

IMECE2010-40622 ................................................................. 135
Modeling Flutter Using Deflection-Dependent Strain-Rate Damping
Soroush Norouzi and Siamak Arzanpour

SYMPOSIUM ON GENERAL STRUCTURAL VIBRATION AND ACOUSTICS
IMECE2010-37037 ................................................................. 139
Rotor-Blade Coupled Torsional Vibration Analysis Using Modal Parameters Based on FEM Analysis and Experiments
Akira Okabe, Koki Shiohata, Takeshi Kudo, Hideo Yoda, Shigeo Sakurai, and Daiki Nakajima

IMECE2010-37165 ................................................................. 149
Chulho Yang and Douglas E. Adams

IMECE2010-40933 ................................................................. 319
Efficiency of the High Contact Ratio Involute Spur Gears With Asymmetric Teeth
   F. Karpat and S. Ekwaro-Osire

SYMPOSIUM ON NUMERICAL METHODS IN
VIBRATION AND ACOUSTICS
IMECE2010-37351 ................................................................. 329
The Incremental Harmonic Balance Method Applied to Coupled Van der Pol Oscillators
   Wei Zhang, Hailiang Hu, and Youhua Qian

IMECE2010-38082 ................................................................. 335
A New Approach for Computing the Normal Forms of High Dimensional Nonlinear Systems
   Shuping Chen, Wei Zhang, and Minghui Yao

IMECE2010-38650 ................................................................. 343
Finite Element Simulation of an Automotive Brake Rotor With Metallic Damping Inserts
   Shung H. Sung, M. David Hanna, and James G. Schroth

IMECE2010-39497 ................................................................. 353
Quantify Resonance Inspection With Finite-Element-Based Modal Analyses
   K. Lai, X. Sun, and C. Dasch

IMECE2010-40007 ................................................................. 361
Vibration Studies of Cylindrical Thick Shells Using 3D Elasticity and Finite Elements
   W. Wang and M. S. Qatu

IMECE2010-40146 ................................................................. 371
Optimum Layout of Passive Constrained Layer Damping Treatment Using
Genetic Algorithms
   S. W. How, Y. H. Jiao, and Z. B. Chen

IMECE2010-40510 ................................................................. 377
An Electrostatic Torsional Microresonator With Improved Quality Factor
   Mohammad Amin Rasouli and Behraad Bahreyni

SYMPOSIUM ON PHONONIC CRYSTALS AND ACOUSTIC
METAMATERIALS
IMECE2010-38960 ................................................................. 383
NanoFIBrication of a Two-Dimensional Phononic Crystal in a Free Standing Membrane
   Drew Goettler, Mehmet Su, Roy Olsson, III, Ihab El-Kady, and Zayd Leseman

IMECE2010-39005 ................................................................. 389
Finite Element Modeling of a Phononic Crystal Operating at Gigahertz Frequencies
   Seyedhamidreza Alaie, Arash K. Mousavi, Mehmet Su, and Zayd C. Leseman
Effect of Release Holes on Micro-Scale Solid-Solid Phononic Crystals
Mehmet Su, Charles Reinke, Yasser Soliman, Zayd Leseman, Roy Olsson, III, and Ihab El-Kady

Analysis of Bloch’s Method in Structures With Energy Dissipation
Farhad Farzbod and Michael J. Leamy

Analysis of Frequency Band Gaps in a Plate With Periodic Stubbed Surface
Zi-Gui Huang

Acoustical Scattering by Spherical Objects Containing Electrorheological Fluid Layers
Liang-Wu Cai, Gregory Orris, David C. Calvo, and Michael Nicholas

Dispersion Relation for Generally Damped Periodic Materials
Michael J. Frazier and Mahmoud I. Hussein

Reflection and Transmission of Waves in Pyroelectric Body
Xiaoguang Yuan and Zhenbang Kuang

Nonlinear Random Vibration of Functionally Graded Plates
Vedat Dogan

Free Vibration Analysis of Multilayered Functionally Graded Composite Cylinder
M. H. Kargarnovin and M. Hashemi

Estimating the Performance of Sound Restoration Hearing Protectors Using the Speech Intelligibility Index
Amanda S. Azman and David S. Yantek

Ultrasonic Measurement of Helium Bubble Rise and Group Velocity Using 1D and 2D Methods in Water and Mercury
Hiraku Nakamura, Arthur E. Ruggles, and Johnathan Sparger
IMECE2010-38829 471
Design of a PZT Sensor Network Based on Guided Lamb Waves for Structural Health Monitoring of Metallic Structures
Bruno Rocha, Carlos Silva, and Afzal Suleman

IMECE2010-39851 481
Diagnosis of Defected Rolling Bearings via Vibration Analysis Method
Majid Hamedynia and Hossein Rokni Damavandi Taher

IMECE2010-40056 489
Quantifying Acoustic and Pressure Sensing for In-Pipe Leak Detection
Atia E. Khalifa, Dimitris M. Chatzigeorgiou, Kamal Youcef-Toumi, Yehia A. Khulief, and Rached Ben-Mansour

Author Index 497
