PROCEEDINGS OF THE XXVIII
INTERNATIONAL HORTICULTURAL CONGRESS ON
SCIENCE AND HORTICULTURE FOR PEOPLE

PROCEEDINGS OF THE
INTERNATIONAL SYMPOSIUM
ON THE
EFFECT OF CLIMATE CHANGE ON
PRODUCTION AND QUALITY OF GRAPEVINES
AND THEIR PRODUCTS

Co-Conveners
B. Bravdo
H. Medrano

Lisbon, Portugal
August 22-27, 2010

ISHS Section Vine and Berry Fruits

Acta Horticulturae 931
March 2012
LIST OF CONTENTS

Foreword 6
Preface 6
List of Contents 7
List of Authors 13

Climate

Climate, Grapes, and Wine: Structure and Suitability in a Changing Climate
G.V. Jones 19

Climate Change Impact on French Vineyards as Predicted by Models
P. Pieri, E. Lebon and N. Brisson 29

Global Change Influence on Wine Quality in Priorat and Montsant (NE Spain)
F. de Herralde, R. Savé, M. Nadal, E. Pla and J.A. Lopez-Bustins 39

Climate Change Effects on Ripening Process and Wine Composition in
Oltenia’s Vineyards from Romania
C. Baduca Campeanu, G. Beleniuc, V. Simionescu, L. Panaitescu
and L. Grigorica 47

Future Scenarios for Viticultural Climatic Zoning in Iberia
A.C. Malheiro, J.A. Santos, H. Fraga and J.G. Pinto 55

European Climate Variability Effects on Grapevine Harvest Date Time
Series in the Abruzzi (Italy)
B. Di Lena, O. Silvestroni, L. Mariani, S. Parisi and F. Antenucci 63

Viticulture as Crucial Cropping System for Counteracting the
Desertification of Coastal Land
R. Biasi, G. Barbera, E. Marino, E. Brunori and G. Nieddu 71

Observed Monthly Temperature and Precipitation Trends in the Major
Grape-Producing Regions in China
R. Chiarawipa, T. Wu and Z.H. Han 79

Impact of Climate Change on Growing Season and Dormant Period
Characteristics for the Balkan Region
M. Vujadinović, A. Vuković, V. Djurdjević, Z. Ranković-Vasić,
Z. Atanacković, B. Sivčev, N. Marković and N. Petrović 87

Water Use Efficiency

Improving Water Use Efficiency in Grapevines: Agronomic and
Biotechnological Approaches
and J. Flexas 97

Consumptive Water Use and Crop Coefficients of Mature ‘Tempranillo’
Grapevines in La Mancha, Spain
R. López-Urrea, A. Montoro, F. Mañas, P. López-Fuster and E. Fereres 109

</table>
Evaporation

Potential Vineyard Evapotranspiration (ET) Due to Global Warming: Comparison of Vineyard ET at Three Locations in California Differing in Mean Seasonal Temperatures
L.E. Williams 221

Estimating Transpiration and Soil Evaporation of Vineyards from the Fraction of Ground Cover and Crop Height - Application to ‘Albariño’ Vineyards of Galicia
J.J. Cancela, M. Fandiño, B.J. Rey, R. Rosa and L.S. Pereira 227

Seasonal Crop Coefficients and Relationships with Measures of Canopy Development for ‘Tempranillo’ Grapevines in South-Western Spain

Minerals

Effects of Salinity and Irrigation with Desalinated Effluent and Sea Water on Production and Fruit Quality of Grapevines (Review and Update)
B. Bravdo 245

Relationship of Nutritional Balance Index (NBI) with Yield and Quality Indices of Grapevine (Vitis vinifera L.)
K. Goodarzi, M. Hosseini Farahi and B. Kavoosi 259

Inorganic Nutrition Differences between Own-Rooted and Grafted Vineyards of the Greek Wine Grape Cultivar ‘Agiorgitiko’
A. Assimakopoulos, K. Nifakos and K. Agelopoulos 267

The Cultivar Differences of Root Physiology in Response to CdCl₂ Stress in ‘Zana’ and ‘Autumn Royal’ Grapes
Shao Xiao-jie, Yang Hong-qiang and Ran Kun 273

The Effects of Biostimulants on Nutrient Uptake of ‘Syrah’ Vine Saplings Grafted on SO4 Rootstock
A. Polat, S. Gursoz, A.G. Bengisu and I.H. Polat 279

Wines

Berry Polyphenols and Climatic Variability in ‘Nebbiolo’ Grapes
T. La Iacona, M. Sanna, F. Spanna and A. Schubert 287

Early Defoliation of ‘Tempranillo’ Grapevines in Semi-Arid Terroirs of Spain

Precision Viticulture Using a Wireless Sensor Network
A. Brasa Ramos, F. Montero Riquelme, F. Montero García, L. Orozco and J.J. Roncero 307

Effects of Different Water Regimes on Berry Metabolism and Composition of ‘Aleatico’ Grapevine
L. Tuccio, D. Remorini, G. Scalabrelli, G. Agati and P. Tonutti 315
Colour Evaluation on Red Winegrapes by CIELab Parameters
L.G. Santesteban, C. Miranda and J.B. Royo

Canopy Density Modification and Crop Control Strategies on ‘Montepulciano’ (Vitis vinifera L.)
B. Bravetti, V. Lanari, E. Manni and O. Silvestroni

Effect of an Oak Extract Applied to ‘Verdejo’ Vineyard on Grape Composition
A.M. Martínez-Gil, T. Garde-Cerdán, L. Martínez, G.L. Alonso and M. Rosario Salinas

Antioxidant Capacity, Polyphenol and Mineral Content of Grapes Grown in Southern Poland
M. Gąstol, I. Domagała-Świątkiewicz and M. Krosniak

Light and Thermal Microclimate of ‘Cannonau’ and ‘Bovale’ Grapevines under Different Light Regimes - Effects on Physiological Effectiveness of Anthocyanin Synthesis
A. Fernandes de Oliveira and G. Nieddu

Obtaining Red Wines with Controlled Denomination of Origin (DOC) from Romanian Cultivars in the Vineyards from Oltenia, Romania
C. Baduca Campeanu, G. Beleniuc and L. Grigoriea

Effects of Early Defoliation in Grape Yield and Quality in ‘Mando’, an Autochthon Cultivar of South-East Spain
J. Gómez, J. Revert, M.D. Esteve, M.D. Climent, A. Martínez, J. Jiménez and D.S. Intrigliolo

Yield and Quality of Grapes and Wine of the Cultivars ‘Vranac’, ‘Primitivo’ and ‘Negro Amaro’
V. Moras, M. Tomic, V. Kodzulovic, B. Knezevic, D. Raicevic and M. Cizmovic

Tropical

Effect of Different Rootstocks on Productivity and Quality of ‘Cabernet Sauvignon’ Grapevine Produced in High Altitude Regions of Santa Catarina State, Brazil

Physical-Chemical Quality of ‘Cabernet Sauvignon’ Clones in High Altitude Regions of Santa Catarina State, Brazil

Adaptation and Commercialization of Viticulture in West Bengal - a New Area in India
S.N. Ghosh, B. Bera, S. Roy and A. Kundu
Others

The Effect of Rootstocks on the Productivity and Fruit Composition of *Vitis vinifera* L. ‘Cabernet Sauvignon’ and ‘Kékfrankos’
L. Kocsis, E. Tarczal and M. Kállay

Qualitative and Productive Response of ‘Tempranillo’, Head Trained in the Semi-Arid Conditions of the Duero Valley (Spain), to the Variation of Irrigation Doses
J. Yuste, M. Alburquerque, R. Yuste, E. Gamero and E. Valdés

Genetic Transformation of *V. vinifera* - Two Alternative Systems under Evaluation
H.G. Cardoso, A. Figueiredo, A. Baldé, M.S. Pais and A.A. Peixe

Evaluation of Berry Quality Traits in F1 Progeny Derived from the Cross ‘Muscat Hamburg’ × ‘Sugraone Seedless’ (*Vitis vinifera*)
P. Hellin, J. Fenoll, S. Fuentes, L. Ruiz-Garcia, C. Martínez-Mora, A. Manso and P. Flores

Highlands of Santa Catarina/Brazil: a Region with High Potential for Wine Production

Integrating Trellised Vineyards in Special Protection Areas for Birds
F. Montero-García, F. Montero-Riquelme, A. Brasa-Ramos and G.J. Carsjens

Effect of Paclobutrazol on Vegetative Growth, Yield and Fruit Quality of ‘Keshmeshi Bovanat’ Grape
B. Baninasab and M. Shahgholi

Primary Bud Necrosis (PBN) as Affected by Cane Diameter, Node Position and Sampling Date in Grapevine (*Vitis vinifera* L. ‘Askari’)
B. Kavoosi, Š. Eshghi, E. Tafazoli, M. Rahemi and Y. Emam

Seasonal Trends of Grapevine Physiological Performance and Soil Water Content of ‘Sangiovese’ (*Vitis vinifera* L.) Field Plots under Regulated Deficit Irrigation
V. Lanari, O. Silvestroni, B. Bravetti and A. Palliotti

G. Sorrentino, C. Pulvento, G. Cantilena, E. Sorrentino and M. Soprano

Ameliorative Effects of Paclobutrazol on Vegetative and Physiological Traits of Grapevine Cuttings under Water Stress Condition
N. Movahed, S. Eshghi, B. Jamali and B. Kavoosi

Selection of ‘Vranac’ Cultivar in Montenegro
V. Maras, M. Tomic, V. Kodzulovic, D. Raicevic and M. Cizmovic
