Biomarkers and Human Biomonitoring
Volume 1: Ongoing Programs and Exposures

Edited by

Lisbeth E. Knudsen
Institute of Public Health, University of Denmark, Denmark

Domenico Franco Merlo
Epidemiology and Biostatistics, Istituto Nazionale per la Ricerca sul Cancro, Genova, Italy

RSCPublishing
Contents

Volume 1

Chapter 1  Introduction to Human Biomonitoring  1
   Lisbeth E. Knudsen, Nanna Hundeboe and
   Domenico Franco Merlo

   1.1 Definitions  1
   1.2 HBM: Increasingly used as a Tool in Environmental
       Health and Medicine  2
   1.3 Validation  6
   1.4 Statistical Power or Sample Size  8
   1.5 Ethical Issues  9
   Acknowledgements  11
   References  11

Chapter 2  Examples of Ongoing Studies

Chapter 2A  Health-related Environmental Monitoring in Germany:
      German Environmental Survey (GerES) and Environmental
      Specimen Bank (ESB)  16
      Marike Kolossa-Gehring, Kerstin Becker, Andre Conrad,
      Christa Schröter-Kermani, Christine Schulz and
      Margarete Seiwert

      2A.1 Introduction  16
      2A.2 Examples of Major Current Initiatives  18
Chapter 2B Examples of Ongoing European Surveys: Romania

E. Gurzau, I. Neamtiu and I. R. Lupsa

2B.1 Introduction
2B.2 Environmental History in Romania
2B.3 Background
2B.4 Biomonitoring Data Collected from "Hot-Spot" Areas in Romania
  2B.4.1 Lead Exposure and Blood Lead Levels in a Highly Contaminated Area in the Surroundings of a Primary Smelter: Copsa Mica
  2B.4.2 Results of the Studies on Lead Exposure Conducted in the Copsa Mica Area
  2B.4.3 Discussion
2B.5 Biological Screening for Lead in Romania (at a National Level)
2B.6 Arsenic Exposure via Drinking Water in the Northwestern Part of Romania
  2B.6.1 Geogenic Inorganic Arsenic Contamination of Drinking Water Sources in Northwestern Romania
  2B.6.2 Results of the Studies on Arsenic Conducted in the Northwestern Area of Romania
  2B.6.3 The ASHRAM Study
2B.7 Conclusion
Acknowledgements
References

Chapter 2C Examples of Ongoing International Surveys: France

Nadine Frery, Stéphanie Vandentorren and Anne Etchevers

2C.1 Introduction
2C.2 Studies Focused on a Specific Pollutant
  2C.2.1 The Dioxins and Incinerators Study (2005–2007)
  2C.2.2 PCBs and the River Fishermen Study (2009–2011)
  2C.2.3 Childhood Lead Study (2008–2011)
Chapter 2C National Multipollutant HBM Surveys

2C.2.4 Significance and Perspectives

2C.3 National Multipollutant HBM Surveys

2C.3.1 Nutrition and Health Survey with an HBM Component: ENNS (2006–2007)

2C.3.2 The National Survey of the Current National HBM Strategy

2C.3.3 ELFE Cohort

2C.4 Perspectives and Conclusion

References

Chapter 2D Examples of Ongoing International Surveys: Canada

Douglas A. Haines, Melissa Legrand, Tye E. Arbuckle, Jay Van Oostdam, Robert W. Dabeka, Constantine Tikhonov and William Fraser

2D.1 Introduction

2D.2 Examples of Major Current Initiatives

2D.2.1 Canadian Health Measures Survey

2D.2.2 Maternal–Infant Research on Environmental Chemicals (MIREC) Study: A National Profile of In Utero and Lactational Exposure to Environmental Contaminants

2D.2.3 Northern Contaminants Program

2D.2.4 Mercury Biomonitoring in First Nations People Living on Reserves South of the 60th Parallel

2D.3 Perspectives and Conclusion

Acknowledgements

References

Chapter 2E Biomarkers in Human Biomonitoring Studies: an Indian Perspective

Alok Dhawan and Mahima Bajpayee

2E.1 Introduction

2E.2 Biomarkers of Exposure

2E.2.1 Assessment of Chemicals/Metabolites as Biomarkers of Exposure

2E.2.2 DNA Damage as a Biomarker of Exposure

2E.3 Biomarkers of Effect

2E.4 Biomarkers of Susceptibility

2E.5 Newer Techniques

2E.5.1 Metabolomics

2E.5.2 In silico Techniques

Greet Schoeters, Ann Colles, Elly Den Hond, Kim Croes, Jan Vrijens, Willy Baeyens, Vera Nelen, Els Van De Mieroop, Adrian Covaci, Liesbeth Bruckers, Nicolas Van Larebeke, Isabelle Sioen, Bert Morrens and Ilse Loots

2F.1 Introduction
2F.2 Methods
  2F.2.1 Study Population
  2F.2.2 Fieldwork
  2F.2.3 Laboratory Analysis
  2F.2.4 Comparison with Health-based Guidance Values
  2F.2.5 Statistical Analysis
2F.3 Results
  2F.3.1 Participation Rate
  2F.3.2 Characteristics of Study Population
  2F.3.3 Biomarkers of Exposure
2F.4 Conclusion
Acknowledgment
References

Chapter 2G Harmonized Human Biomonitoring in Europe: Activities Towards an EU HBM Framework

2G.1 Introduction
2G.2 Policy Support Towards a Coordinated European Approach
2G.3 Step by Step Towards a Consistent System for HBM in Europe
  2G.3.1 Challenges for Building up an HBM System in Europe

Acknowledgements
Chapter 3 Biomarkers of Exposure

Chapter 3A Phthalates: Biomarkers and Human Biomonitoring

Holger M. Koch and Jürgen Angerer

3A.1 Introduction 179
3A.1.1 Production and Uses 179
3A.1.2 Toxicity 182
3A.1.3 Legislation and Regulation 184
3A.2 Sources of Exposure 184
3A.2.1 Ubiquitous Sources 184
3A.2.2 Specific Sources 186
3A.3 Different Approaches to Assess Human Exposure to Phthalates 186
3A.4 Premises for Human Biomonitoring 187
3A.4.1 Human Metabolism – Biomarkers of Exposure 187
3A.4.2 Selection of Biological Matrix 193
3A.5 Data on Internal Exposures (Body Burden) 195
3A.5.1 Biomonitoring Programmes 195
3A.5.2 Variability in Exposure and Urinary Biomarkers 201
3A.6 Estimation of Daily Intakes 202
3A.6.1 Calculation Models 202
3A.6.2 Calculated Daily Intakes 204
3A.6.3 Temporal Trends 207
3A.7 Risk Assessment based on Biomonitoring Data 208
3A.7.1 General Population 209
3A.7.2 High Exposure Groups 210
3A.7.3 Cumulative Exposures 211
3A.8 Conclusion 212
References 213
3D.3 Exposure to BFRs: Qualitative and Quantitative Approaches 293
  3D.3.1 Sources of Exposure 294
  3D.3.2 Exposure Scenarios 296
3D.4 Body Burdens of BFRs: Evidence of Geographical Differences 297
  3D.4.1 Adipose Tissue 300
  3D.4.2 Blood 300
3D.5 Perinatal Exposure: the Critical Window of Exposure 302
  3D.5.1 Umbilical Cord Blood and Placenta 302
  3D.5.2 Human Perfusion Model 303
  3D.5.3 Breast Milk 303
3D.6 Human Biomonitoring of BFRs 305
  3D.6.1 Temporal Trends 306
  3D.6.2 Spatial and Demographic Trends 307
  3D.6.3 Matrix 307
  3D.6.4 Compounds 308
References 309

Chapter 3E Lead 322
Marek Jakubowski

3E.1 Background 322
3E.2 Exposure Pathways 323
3E.3 Toxicokinetics
  3E.3.1 Absorption 323
  3E.3.2 Distribution 324
  3E.3.3 Excretion 324
3E.4 Half-lives, Bioaccumulation 324
3E.5 Biomarkers of Exposure
  3E.5.1 Lead in Blood 325
  3E.5.2 Lead in Plasma or Serum 325
  3E.5.3 Lead in Urine 326
  3E.5.4 Bone Lead 326
  3E.5.5 Lead in Hair 326
3E.6 Biomarkers of Effect 326
3E.7 Time Trends 327
  3E.7.1 Adults 327
  3E.7.2 Children 328
3E.8 Prediction of B-Pb Levels on the Basis of Multimedia Lead Exposure 328
3E.9 Associations between B-Pb Levels and Early Adverse Health Effects in Humans 329
  3E.9.1 Adults 329
  3E.9.2 Children 330
Chapter 3F Biomonitoring of Exposure to Polycyclic Aromatic Hydrocarbons

Peter J. Boogaard

3F.1 Introduction
3F.2 Human Health Risk Characterization of Exposure to PAH
3F.3 Biomarkers for Complex Mixtures
3F.3.1 Types of Biomarker
3F.3.2 What Makes a Good Exposure Biomarker for Complex Mixtures?
3F.3.3 Implications for Biomarkers of PAH Exposure
3F.4 Biomonitoring of Exposure to PAH
3F.4.1 Biomarkers of Exposure
3F.4.2 Biomarkers of Effective Dose
3F.5 Biomarkers of Exposure: Use in Risk Assessment
3F.6 Conclusion
References

Chapter 3G Bisphenol A

Thit Aaroe Mørck

3G.1 Introduction
3G.2 Production of BPA
3G.3 BPA Regulation
3G.4 The Metabolism of BPA
3G.4.1 Human Metabolism of BPA
3G.4.2 Rodent Metabolism of BPA
3G.5 Toxicity
3G.5.1 Human Toxicity
3G.5.2 Molecular Effects of BPA
3G.5.3 Animal Studies of Endocrine Disruption
3G.6 BPA Exposure
3G.7 Measurements in Biological Samples
3G.7.1 Urine
3G.7.2 Blood samples
3G.7.3 The Umbilical Cord Blood and Placenta
3G.7.4 Breast Milk and Adipose Tissue
Chapter 3H Mercury: Biomarkers of Exposure and Human Biomonitoring
Milena Horvat, Janja Snoj Tratnik and Ana Miklavčič

3H.1 Background
3H.1.1 Chemical Structures, Compound Classes
3H.1.2 Production and Use
3H.1.3 Sources of Mercury in the Environment
3H.1.4 Environmental Fate

3H.2 Exposure Pathways
3H.2.1 Exposure to Elemental or Inorganic Mercury
3H.2.2 Exposure to Organic Mercury

3H.3 Toxicokinetics
3H.3.1 Absorption
3H.3.2 Distribution
3H.3.3 Metabolism
3H.3.4 Elimination and Excretion

3H.4 Sampling, Sample Handling and Analysis
3H.4.1 Analytical Methods

3H.5 Human Biomonitoring of Mercury Exposure
3H.5.1 Human Biomonitoring of Occupational Exposure
3H.5.2 Human Biomonitoring of Environmental Exposure
3H.5.3 Human Biomonitoring of Prenatal Exposure

3H.6 Predictors and Identification of High Risk Populations

3H.7 Associations of Biomonitoring Data and Adverse Effects

3H.8 Geographical Variations: Identification of “Hot Spots”

Chapter 3I Arsenic: Biomarkers of Exposure and Human Biomonitoring
Milena Horvat, Zdenka Šlejkovec and Ingrid Falnoga

3I.1 Background
3I.1.1 Arsenic and its Compounds
3I.1.2 Production and Use
3I.1.3 Sources of Arsenic in the Environment
